Washing machines, laundry machines, dish washing machines, combination washer-dryer machines, spin dryers, not heated; machines tools; motors and engines (except for land vehicles); electric motors; alternating current motors; direct current motors; machine coupling and transmission components (except for land vehicles); gearboxes, other than for land vehicles; hydraulic and pneumatic controls and control

mechanisms in this class for machines, engines and motors; pneumatic or hydraulic controllers for motors and parts and accessories therefor in this class, namely parts and components for motors; stators being parts of motors, stators being parts of machines, rotors being parts of motors, bearings, belts, and drives for motors; wind turbines; generators for wind turbines; electricity generators; hydraulic turbines; turbines, not for land vehicles; wind- powered electricity generators; generators of electricity; portable electric power generators; wind-powered installations for generating electricity; emergency power generators; control mechanisms for machines, engines or motors; control mechanisms for industrial robots; lawnmowers; electric lawnmowers; robotic lawnmowers; riding lawn mowers; ride-on lawn mowers; weeding machines; electric lawn trimmers; line trimmers for garden use; robots and robotic arms for lawn mowing; leaf blowers; snowblowers; power blowers for lawn debris; insecticide sprayers [machines]; spraying machines; automatic electrostatic paint sprayers; apparatus for cleaning misting systems for aeroponics growing of root vegetables and other plants; ice cream dispensing machines, being vending machines; ice crushing machines; water pump.

Class 9:
Electronic communication apparatus and software for operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens from a remote location; electronic controllers for operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens from a remote location; downloadable computer software and computer hardware for home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens that allows for a wireless connection to a smart-device for remote monitoring, controlling, and operating of the appliances from a remote location; solar energy regulating and control equipment and apparatus; solar panels and solar energy collectors for electricity generation; solar batteries; computer systems designed for solar power management; electricity generating solar cells and panels; photovoltaic installations for generating electricity; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; parts and fittings for all the aforesaid goods; computer software (including application software, web-based software and downloadable software) for tracking, monitoring, measuring, assessing, reporting, calculating and sharing data and information about waste generation and waste minimisation, water usage, electricity usage, gas usage, usage of consumable products by home appliances, environmental impacts, gas emissions, sustainable environmental practices, and carbon footprints; measuring instruments, electronic indicators and controllers relating to growing, breeding, conserving, and utilization of foodstuffs; measuring instruments, electronic indicators and controllers relating to quantity, composition, and quality of nutrient solutions, water and fertilizers; detecting and monitoring instruments; monitoring and control apparatus, detectors and controllers required for aeroponic production of root

vegetables; interfaces to facilitate wireless remote monitoring; connected and autonomous cultivation control software; turbine meters; turbine flow meters; turbine flowmeters; electric power supplies other than generators; electric power converters; inverters [electricity]; solar panels for the production of electricity; power controllers; electronic power controllers; electronic controls for motors; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; electrical controls for irrigation sprinkler systems; apparatus and instruments for controlling and monitoring aircraft, watercraft and unmanned vehicles; remote controls; timing sensors; temperature sensors; alarm sensors; electric batteries; electric batteries for vehicles; electric accumulators for vehicles; converters, electric; humanoid robots with artificial intelligence; computer hardware; augmented reality glasses; virtual reality software; projection apparatus with artificial intelligence; interactive computer game programs with artificial intelligence; computer software systems for virtual, augmented and extended reality systems integrating electronic data with real world environments for the purpose of generating virtual, augmented and extended environments in which users can interact for recreational, leisure, fitness, entertainment, business entrepreneurial, educational, or training purposes, to allow users to try and experience new products, appliances, and spaces; computer software for metaverse technology namely applications to enable users to create their own augmented reality experiences, purchase and try products, and demonstrate machines, appliances or equipment; computer software for the design and development of a virtual shop web application, enabling consumers to try (virtual) before they buy, including ability to use personalised 3D avatars to view items in virtual or augmented applications; computer software for use in relation to science and information technology, namely virtual, augmented and mixed reality software, software for monitoring, operating and controlling appliances and machines, and vehicles, collating data for diagnostics, and predictive analytics; computer software for designing and developing an augmented (mixed reality) operations platform embedded with an (AI) engine, enabling users to experience interactive, augmented and mixed reality experiences facilitating and assisting retailing, wholesaling, selling, advertising, demonstration, promotion, including the foregoing provided in stores; computer software for use in the metaverse to allow virtual avatars to purchase appliances, fitness equipment, design and decorate their homes; software being virtual appliances for use in virtual worlds; computer software and artificial intelligence software for diagnostics of machines and applications faults, operating of machines and maintenance and repair instruction; virtual assistant software in the form of an appliance repair person; a virtual human interface, namely software; a virtual human computer interface for communicating operation, maintenance and repair information; software being a virtual human interface in the form of a maintenance person, tradesperson, or repairperson; control system software; load balancing software; out of balance control software; vibration sensors; intercommunication apparatus; digital data receiving apparatus; software, measuring instruments, sensors and controllers relating to quantity, composition, and quality of nutrient solutions, water and fertilizers and garden equipment and gardening machines; computer software for streaming audio content in the field of fitness, recipes, cooking instruction, training, maintenance, repair, exercise, education, lifestyle habits, safety, and injury prevention; computer software

for streaming audio content to instruct users in fitness training, physical conditioning, injury prevention, lifestyle habits, personal development, and guided audio workout; downloadable software to provide real-time audio feedback; audio recordings, video recordings and audio-visual recordings; downloadable software applications to utilize smartphones and wearable devices for personal data, heart rate, pulse, and fitness tracking; computers, downloadable software, and computer application software for mobile devices for monitoring and analyzing various parameters associated with the operation and use of an appliance, machine, vehicle, exercise machine, exercise equipment, and for fitness training; computer software and mobile applications for fitness training, health tracking daily activities, conditioning, advice, and guided workouts; downloadable media, namely, downloadable audio and video recordings featuring fitness, exercise, lifestyle habits and personal development content or operation and instruction guides; computer software for streaming audio content and music; artificial intelligence software for virtual, augmented and extended reality systems integrating electronic data with real world environments for the purpose of generating virtual, augmented and extended environments in which users can interact for recreational, leisure, fitness, entertainment, business entrepreneurial, educational, or training purposes, to allow users to try and experience new products, appliances, and spaces; artificial intelligence for monitoring, controlling, and operating exercise and fitness equipment, home appliances, dishwashers, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens; artificial intelligence software being a chat-bot in the form an appliance repair specialist; artificial intelligence software in the form of a fitness instructor; artificial intelligence software in the form of a business consultant; artificial intelligence software in the form of an educational tutor; artificial intelligence software acting as an agent for diagnostics of machines and applications faults, operating of machines and maintenance and repair instruction; computer chatbot software for simulating conversations with artificial intelligence; artificial intelligence software for fitness and exercise applications; downloadable mobile applications for setting, tracking and monitoring fitness, self-assessments, personal activities, data, and weight loss goals of users; downloadable mobile applications to facilitate support and sharing of information in the fields of exercise, lifestyle habits, workplace safety and injury prevention; downloadable software and mobile application software for the creation, production, modification and utilisation of digital human avatars for access and use in online, virtual and extended reality environments; downloadable software in the nature of an application for use by individuals participating in exercise classes, physical training, and exercise instruction for detecting, storing and reporting daily human energy expenditure and physical activity level, for developing and monitoring personal activity and exercise plans, training goals and giving feedback on the achieved results; downloadable software in the nature of an application for use by individuals participating in exercise, physical training, and exercise instruction for detecting, storing and reporting physical activity level and for developing and monitoring personal activity and exercise plans, and training goals; virtual reality and augmented reality software; software for creating and delivering artificial intelligence; wearable activity trackers, computers, smart phones, computer hardware, communications apparatus, audio equipment, communications

devices in the form of wristwatches, and downloadable software that interacts with the aforesaid devices; computer peripheral devices; downloadable electronic game programs; weight sensors; load sensors; gyroscopes; acceleration sensors; downloadable computer software for use as an electronic wallet; downloadable virtual reality software for providing metaverse experiences; Virtual reality headsets; consumer coupons downloaded from a global computer network; HVAC, lighting, water, security, alarm, sensor and media controllers, including remote controllers, plug-in controlling devices as well as smartphone and software applications used therewith; electrical and electronic controllers to control home electric powered devices, namely, controllers for garage doors, electrically activated door locks, appliance monitors, AV media systems, HVAC systems, lighting, water systems, security systems, alarms, and motion sensors; computer application software for smartphones, tablet computers, PCs, laptops, and PDAs, namely, software for remotely activating electrical and electronic controllers that control the aforesaid home electric powered devices and appliances.

Class 11:

Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; gas and electric cookers; residential and commercial cooking equipment including barbecue grills; residential and commercial gas or electric ranges; domestic and commercial cooking ovens; microwave ovens; cook tops; broilers, and food warming stations; barbecue kettles and rotisseries; patio heaters; heating and cooking apparatus accessories; multi-purpose, electric countertop food preparation apparatus for cooking, baking, broiling, roasting, toasting, searing, browning, barbecuing and grilling food; refrigerators; freezers; cooling cabinets; ice making machines; extractor hoods; vent hoods; range hoods [extractor hoods, for household purposes]; ventilation hoods; barbecue grills; electric fans; air conditioning fans; ceiling fans; cooling installations and machines; filters for air conditioning; environmental control installations for cooling purposes; ventilation [air-conditioning] installations and apparatus; hot air blowers; beverage chillers; beer dispensers, refrigerated; water filtering apparatus and installations; filters for drinking water; filters for water purifiers; electrostatic filters for water filtration; water treatment filters; apparatus for filtering water; machines for water filtering (purifying); installations for water filtering; water filtering apparatus for domestic use; water filtering installations; lighting, heating or cooling facility for hydroponic and aeroponic cultivation; connected cabinets in the nature of closed environments with integrated misting chambers for the autonomous cultivation of plants; apparatus for lighting, heating, steam generating, refrigerating, drying, ventilating and water distribution for connected and autonomous cultivation; gardening appliance systems, namely hydroponic and aeroponics, agricultural and horticultural propagation systems comprised of light emitting diode (LED) plant grow lights, grow cabinets in the nature of closed environments with integrated misting chambers, for use in plant cultivation; environmentally controlled chambers and apparatus capable of providing water, plant nutrients, and light; home appliances for irrigation; lighting fixtures; LED lights for indoor plant growing production; LED light fixtures used for aeroponics, hydroponics and soil cultivation and for lighting indoor plant growth chambers; grow cabinets in the nature of closed environments with integrated misting chambers and automated controls namely hydroponic, aeroponic or

atmosphere controlled, grow cabinets, enclosures or modules; environmental control apparatus for indoor plant cultivation; temperature, humidity, light, and environmental control cabinets and appliances for plant propagation; automatic watering facilities for plants; apparatus for misting, heating and cooling of water, nutrient solutions, chemicals and bacteria, all the aforementioned for aeroponics growing of root vegetables and other plants; plug and grow plant and seed growing appliances and cabinets in the nature of hydroponic, aeroponic or atmosphere controlled, grow cabinets, enclosures or modules; sprinkler systems for lawn irrigation; sprinkler systems for irrigation; watering machines for agricultural purposes; automatic watering installations; water distribution installations; irrigation apparatus for agricultural purposes; irrigation apparatus for horticultural use; hydroponic growing systems; water dispensers, water filtering and purifying apparatus and machines, refrigerated or heated; water sterilizers and softeners; cooling appliances and machines; disinfectant apparatus; distillation apparatus; filters for drinking water and for water; regulating and safety accessories for temperature and chemical control of air and water; water softening apparatus; air deodorising and purification apparatus and machines; ice cream dispensing machine, other than vending machines.

Class 28:

Fitness exercise machines; exercise equipment; exercise machines; resistance trainers; resistance machines for exercise; exercise weights; body-training apparatus; sports equipment; fitness platform with resistance handles; physical exercise apparatus, being a platform equipped with interactive computer systems, video monitors, audio equipment, and monitoring devices; stationary exercise bicycles; bar-bells; gym bench; jump rope with counter; punching bags; body-training apparatus; machines for physical exercises; parallel bar; parallel bars (for sports); horizontal bar; parts, fittings and accessories for the aforesaid goods.

Class 42:

Computer services, namely, providing information in relation to technology that allows users to interact remotely with home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens via a website; platform as a service (PaaS) featuring computer software platforms for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens; software as a service (SaaS) services namely software for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens and vehicles consultancy services relating to research in the field of environmental protection; energy auditing; technological consultancy in the field of energy use and conservation, greenhouse gas emission reduction, and utilisation of sustainable energy technologies; provision of scientific and research information relating to energy usage and management; technological consultation in the field of energy efficiency and energy systems; Scientific and technological services relating home energy analysis services; research and development in the field of energy efficiency,

management systems and equipment; energy consumption monitoring and assessment for energy-saving purposes; advisory services relating to energy efficiency; advisory services relating to the use of energy; providing technological and scientific information, advice and consultancy relating to carbon offsetting and carbon reduction provision of on-line computer software (including web-based applications and software-as-a-service (SaaS) services) for tracking, monitoring, measuring, assessing, reporting, calculating and sharing data and information about waste generation and waste minimisation, usage of consumable products by home appliances, water usage, electricity usage, environmental impacts, gas emissions, sustainable environmental practices and carbon footprints; monitoring and quality inspection services relating to the performance of solar panels and other equipment used for converting solar energy into electricity; monitoring of efficiency, production levels and other performance data of solar panels and other equipment used for converting solar energy into electricity; monitoring and quality inspection services relating to the performance of home appliances, heating systems, plumbing systems, gas systems, wastewater systems and ventilation systems; advisory and consultancy services relating to the foregoing services; development of computer software for use with programmable controllers; calibration of sensors; monitoring of computer systems by remote access; product development consultancy for inventors in the field of artificial science; software as a service (SaaS) namely software for analyzing, filtering, training, predicting, and comprehending the structure of human and computer language; software as a service (SaaS) namely software for use in recognizing images, hand and body gestures, and voice commands; Software as a service (SaaS) featuring software, Platform as a service (PaaS) featuring software, cloud computing software, web-based applications, all being namely for artificial intelligence software, machine learning software, multi-modal natural language processing and cognitive computing software intended to interact with people in real time; software as a service (SaaS) featuring software, platform as a service (PaaS) featuring software, providing online non-downloadable cloud computing software, providing online non-downloadable web-based applications, namely artificial intelligence software, machine learning software, multi-modal natural language processing and cognitive computing software intended to interact with people in real time; providing non-downloadable software for fitness assessment; providing temporary use of online non-downloadable software for providing information relating to health, wellness; providing temporary use of online non-downloadable software for fitness assessment; providing non-downloadable computer software for streaming audio content in the field of fitness, recipes, cooking instruction, training, exercise, education, lifestyle habits, safety, and injury prevention; research and design services; scientific and technological services; research and design relating thereto; research, design and development of software for communication systems; mechanical research; product research; industrial research; product design; industrial design; design and testing of new products; computer system design; providing non-downloadable software for providing information relating to lifestyle habits, instructions, training, maintenance and repairs, software for fitness assessment; software as a Service [SaaS] namely software for providing information relating lifestyle habits to improve to wellness and wellbeing, instructions, training, maintenance and repairs,

software for fitness assessment; providing non-downloadable software for facilitating communication and coaching in the fields of recipes, cooking instruction, maintenance and repair instruction, lifestyle habits, fitness training, conditioning, workout guidance, weight loss, injury prevention, and nutrition; Software as a Service [SaaS] namely software for facilitating communication and coaching in the fields of recipes, cooking instruction, maintenance and repair instruction, lifestyle habits to improve wellness and wellbeing, fitness training, conditioning, workout guidance, weight loss, injury prevention and nutrition; providing non-downloadable software for conducting remote fitness assessment and measuring; Software as a Service [SaaS] namely software for conducting remote fitness assessment and measuring; providing non-downloadable software for the depiction of virtual characters and humans, software for facilitating user enrolment and registration services, software for developing and monitoring personal activity, exercise plans, fitness, self-assessments of weight loss and training goals, software for monitoring and analysing various parameters associated with the operation of an exercise machine, exercise equipment and individual movement, positioning and performance during exercise and providing real-time, personalised feedback based on those parameters, providing non-downloadable software for access to live and on-demand fitness or operations, repair or maintenance instructional audio or video content, providing non-downloadable software for providing non-downloadable and streaming access to media including audio and video recordings featuring content relating to fitness, injury prevention, exercise, physical conditioning, and guided workouts, operation, maintenance or repair the aforesaid software also available as subscription software, via online platforms, via social media platforms, or telecommunications, all aforesaid software being website based, or platform based, non-downloadable software; providing temporary use of online non-downloadable software, namely, digital human avatar software, software for facilitating user enrolment and registration services, providing non-downloadable software for developing and monitoring personal activity, exercise plans, fitness, self-assessments of wellness, weight loss and training goals, software for monitoring and analysing various parameters associated with the operation of an exercise machine, exercise equipment and individual movement, positioning and performance during exercise and providing real-time, personalised feedback based on those parameters, software for access to live and on-demand fitness or operations, repair or maintenance instructional audio or video content, software for providing non-downloadable and streaming access to media including audio and video recordings featuring content relating to fitness, wellness, injury prevention, exercise, physical conditioning, and guided workouts, operation, maintenance or repair, the aforesaid software also available as subscription software, via online platforms, via social media platforms, or telecommunications, all aforesaid software being website based, or platform based, non-downloadable software; information, advisory and consultancy services relating to the foregoing services; computer services, namely, providing information in relation to technology that enables users to monitor, control, and operate home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens via a website; computer services, namely, providing information in relation to technology that allows users to

interact remotely with home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens and gardening equipment such as sprinkler systems, automated mowing via a website; platform as a service (PaaS) featuring computer software platforms for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens and gardening equipment such as sprinkler systems, automated mowing; software as a service (SaaS) services namely software for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens and gardening equipment such as sprinkler systems, automated mowing; technical data analysis, research relating to data processing, computerised data storage, creating programmes for data processing; scientific and technological services and research and design relating to data analysis, processing and storage; provision of software as a service to enable appliances to provide maintenance information, diagnostic information, and to allow communication and control via the internet; provision of software as a service that allows users to remotely interact with home monitoring, control, and automation systems; planning and design of kitchens and laundries; providing on-line non-downloadable software for use in customer relationship management; design and development of products, appliances, fitness equipment, gardening systems, software for interaction with the aforesaid, design and development of virtual products for use and sale in virtual worlds, and the metaverse; provision of information in the field of energy efficiency, being consulting and advisory services relating to appliances, energy provision, how to save energy, or use appliances in an energy efficient manner, how to manage water and electricity usage; Platform as a service (PaaS) featuring software, cloud computing software, web-based applications, namely artificial intelligence software, machine learning software, multi-modal natural language processing and cognitive computing software intended to interact with people in real time; providing non-downloadable software for providing information relating to health, wellness, software for fitness assessment.

spectacle chains; eyeglass cords; knee-pads for workers; coaxial cables; collectors, electric; comparators; directional compasses; contacts, electric; contacts, electric, of precious metal; contact lenses; containers for contact lenses; regulating apparatus, electric; headphones; couplers [data processing equipment]; correcting lenses [optics]; cosmographic instruments; gasoline gauges; copper wire, insulated; couplings, electric; laboratory trays; chargers for electric batteries; surveying instruments; computers; bags adapted for laptops; lasers, not for medical purposes; loudspeakers; cabinets for loudspeakers; jigs [measuring instruments]; electrical conductors; ducts [electricity]; readers [data processing equipment]; beacons, luminous; light emitting diodes (led); signs, luminous; light-emitting electronic pointers; blueprint apparatus; heliographic apparatus; exposure meters [light meters]; rulers [measuring instruments]; sounding apparatus and machines; air analysis apparatus; magnifying glasses [optics]; magnetic tapes; magnetic tape units for computers; magnetic data media; magnetic wires; magnets; magnetic strip cards; disks, magnetic; solenoid valves [electromagnetic switches]; pressure gauges; measures; solderers' helmets; rules (measuring instruments); materials for electricity mains [wires, cables]; material testing instruments and machines; mathematical instruments; mouse [computer peripheral]; mouse pads; coin-operated mechanisms; mechanisms for counter-operated apparatus; megaphones; diaphragms for scientific apparatus; quantity indicators; measuring apparatus; measuring devices, electric; measuring glassware; measuring instruments; rods (surveying instruments); measuring spoons; levelling staffs [surveying instruments]; plane tables [surveying instruments]; metal detectors for industrial or military purposes; meteorological balloons; meteorological instruments; rules [measuring instruments]; metronomes; microphones; micrometers; micrometer screws for optical instruments; microprocessors; microscopes; microtomes; mobile telephones; modems; monitors [computer hardware]; apparatus for editing cinematographic film; teeth protectors; musical juke boxes; food analysis apparatus; nose clips for divers and swimmers; nautical apparatus and instruments; navigation apparatus for vehicles [on-board computers]; navigational instruments; fog signals, non-explosive; slope indicators; neon signs; surveyors' levels; levelling instruments; verniers; notebook computers; lenses for astrophotography; objectives [lenses] [optics]; containers for microscope slides; ohmmeters; binoculars; cameras [photography]; microscopes; eyepieces; optical goods; optical apparatus and instruments; optical data media; fibre optic cables; optical fibres [light conducting filaments]; optical condensers; optical lanterns; optical lenses; optical discs; optical glass; osmosis apparatus for scientific and teaching purposes; oscillographs; ozonisers [ozonators]; parabolic mirrors for concentrating light beams; parking meters; pedometers; periscopes; radio pagers; apparatus and instruments for physics; pipettes; planimeters; plates for batteries; record players; juke boxes for computers; plotters; polarimeters; cases fitted with dissecting instruments [microscopy]; precision measuring apparatus; precision balances; prisms [optics]; projection apparatus; projection screens; pyrometers; mercury levels; radar apparatus; radiological apparatus for industrial purposes; radios; vehicle radios; frames for photographic transparencies; centering apparatus for photographic transparencies; screens for photoengraving; smoke detectors; test tubes; abacuses; calculators; circular slide rules; slide-rules; reflecting discs for wear, for the prevention of traffic accidents; refractometers;

refractors; cash registers; stage lighting regulators; head cleaning tapes [recording]; cleaning apparatus for phonograph records; relays, electric; retorts' stands; fire escapes; safety nets; safety tarpaulins; life belts; life saving apparatus and equipment; life jackets; rheostats; levels [instruments for determining the horizontal]; hemline markers; x-ray apparatus not for medical purposes; x-ray photographs, other than for medical purposes; x-ray films, exposed; x-ray tubes not for medical purposes; radiology screens for industrial purposes; cathodic anti-corrosion apparatus; saccharometers; salinometers; egg timers [sandglasses]; needles for record players; acid hydrometers; acidimeters for batteries; scanners [data processing equipment]; acoustic conduits; diaphragms [acoustics]; sound locating instruments; phonograph records; horns for loudspeakers; switchboards; commutators; switches, electric; switchgear [electric]; distribution consoles [electricity]; control panels [electricity]; slide calipers; mechanical signs; screens [photography]; fuses; crucibles [laboratory]; balances [steelyards]; pedometers; contactors (electricity); gloves for protection against x-rays for industrial purposes; head protection; protective helmets for sports; protective masks; protection devices against x-rays, not for medical purposes; transmitters of electronic signals; transmitting sets [telecommunication]; transmitters [telecommunication]; sounding leads; plumb lines; sounding lines; sextants; safety restraints, other than for vehicle seats and sports equipment; electronic tags for goods; signals, luminous or mechanical; signalling buoys; electro-dynamic apparatus for the remote control of signals; signal bells; signal lanterns; signalling whistles; signalling panels, luminous or mechanical; wafers for integrated circuits; simulators for the steering and control of vehicles; sirens; solar energy collectors for electricity generation; solar modules for electricity generation; sonars; probes for scientific purposes; solar batteries; sunglasses; chargers for electric batteries; voltmeters; voltage regulators for vehicles; memories for data processing equipment; spectrograph apparatus; spectroscopes; clothing especially made for laboratories; cases especially made for photographic apparatus and instruments; spherometers; mirrors [optics]; games software; goggles for sports; speaking tubes; sprinkler systems for fire protection; spools [photography]; stands for photographic apparatus and cameras; time clocks [time recording devices]; sockets, plugs and other contacts [electric connections]; covers for electric outlets; stereoscopes; radio-controlled sockets; stereoscopic apparatus; radio-controlled switching apparatus; actinometers; modular devices (switch cabinets); marking gauges [joinery]; bar code readers; lighting ballasts; current rectifiers; electricity conduits; electrified rails for mounting spot lights; circuit closers; circuit breakers; electric loss indicators; converters, electric; commutators; viewfinders, photographic; sulfimeters; buzzers, electric; tachometers; metronomes; bags adapted for mobile phones; batteries for pocketlamps; pocket calculators; electronic pocket translators; divers' masks; particle accelerators; telescopes; temperature indicators; word processing apparatus; theodolites; thermionic valves and tubes; thermometers, not for medical purposes; thermostats; thermostats for vehicles; sound locating instruments; totalizers; transistors [electronic]; transponders; peepholes [magnifying lenses] for doors; electric door bells; voltage surge protectors; mains monitoring apparatus (electric -); ultrasound apparatus, not for medical purposes; filters for ultraviolet rays, for photography; clothing for protection against accidents, irradiation and fire; shoes for protection against accidents, irradiation and fire; gloves for protection

against accidents; nets for protection against accidents; protection devices for personal use against accidents; teaching apparatus; audiovisual teaching apparatus; urinometers; vacuum gauges; vacuum tubes (electric); variometers; pressure indicator plugs for valves; junction sleeves for electric cables; connectors [electricity]; enlarging apparatus [photography]; surveying apparatus and instruments; amplifying tubes; distribution boxes [electricity]; distribution boards [electricity]; videotapes; video screens; camcorders; video cassettes; video recorders; video game cartridges; viscosimeters; voltmeters; apparatus for changing record player needles; lens hoods; scales; weighing apparatus and instruments; weighing machines; voting machines; heat regulating apparatus; vehicle breakdown warning triangles; washing trays [photography]; water level indicators; marine depth finders; spirit levels; intercommunication apparatus; wavemeters; anemometers; wind socks for indicating wind direction; carpenters' rules; protractors [measuring instruments]; rods for water diviners; counters; counters; animated cartoons; time recording apparatus; time switches, automatic; cell switches [electricity]; processors [central processing units]; sighting telescopes for firearms; compasses for measuring; ignition batteries; cyclotrons; led drivers; led transformers; halogen transformers and lamp ballasts.

Class 16:
Postage stamp meters.

Class 25:
Sleepmasks; eye-masks.

Class 28:
Building games; scale model vehicles; remote-controlled toy vehicles; novelty toys for playing jokes; novelty toys for playing jokes; games; toy vehicles; water wings; swimming belts; swimming jackets; video games adapted for use with external screens or monitors only; apparatus for electronic games for use as auxiliary apparatus for televisions; apparatus for electronic games adapted for use with an external display screen or monitor.

Class 35:
Wholesaling and retailing, including via the internet, namely in relation to the following goods: electronic control systems for machines, electric and electronic apparatus and systems composed thereof, namely televisions, video apparatus, satellite receiving apparatus or receivers, radio receivers, tuners, electric amplifiers, mixer amplifiers, reverberation units, sound mixers, equalisers, audio and/or video-cd or dvd players, apparatus for recording, transmission and/or reproduction of sound and/or images, microphones; wholesaling and retailing, including via the internet, namely in relation to the following goods: headphones, cabinets for loudspeakers, loudspeaker chassis, speakers, frequency crossover networks, cameras, including for moving images and single images, video cameras, electronic cameras, including digital cameras, lasers and laser installations including those for lighting effects; wholesaling and retailing, including via the internet, namely in relation to the following goods: apparatus and light sources, including light scanners for lighting effects, electronic control devices and controllers for controlling apparatus and light sources, including light scanners for lighting effects, radiotelephony sets or phototelegraphy apparatus (hand, mobile apparatus and stations), amateur radio transmitting and receiving

apparatus, private radio transmitting and receiving apparatus, radio repeaters; wholesaling and retailing, including via the internet, namely in relation to the following goods: electrical, electronic and optoelectronic components, including those for solar technology or laser technology, microcomputers, electrical, electronic and optoelectronic components, in particular resistors, potentiometers, adjusting controllers and sliding attenuators, condensers, variable capacitors, dimmers, spools and coil elements for electric and electronic circuits, ferrite and iron cores, diodes, transistors; wholesaling and retailing, including via the internet, namely in relation to the following goods: thyristors and triacs, integrated circuits and circuitry, temperature-dependent and light-dependent resistors, photographic and light-emitting diodes, photo transistors, rectifiers, heat sinks for electric, electronic and optoelectronic components, commutators, buttons, relays, transformers and transmitters, fuses, sockets and holders for electric, electronic and optoelectronic components, of sockets; wholesaling and retailing, including via the internet, namely in relation to the following goods: bushes and pin and socket connectors for electric and electronic circuits and equipment, electric and electronic components for solar technology and components for laser technology, model-making electronics, namely transmission and receiver sets for remote control and units thereof, switching and control circuits for models, electronic switching circuits for flashing lights for models; wholesaling and retailing, including via the internet, namely in relation to the following goods: apparatus for electronic games for use as auxiliary apparatus for televisions, electric, electronic and electromechanical measuring apparatus, including built-in measuring instruments and multiple measuring apparatus, digital-display multiple measuring apparatus, oscillographs, ondoscopes, frequency counters, electric and mechanical voltage testers, electronic metal detectors; wholesaling and retailing, including via the internet, namely in relation to the following goods: electric and electronic alarm apparatus and alarm installations and parts therefor, namely optical and acoustic signal transmitters, acoustic sensors (ultrasound-movement indicators), optical sensors and light barriers, electromechanical sensors (door and window contacts, vibration contacts for windows and doors), micro computers, structural components and kits for all aforesaid apparatus; wholesaling and retailing, including via the internet, namely in relation to the following goods: aerials, including television aerials and satellite receiver aerials, set top aerials, car aerials, amateur radio and cb radio aerials, including being mobile aerials and station aerials, electric and electronic antenna accessories, namely aerial amplifiers, antenna audio crossovers, coaxial switches, coaxial relays and multiswitches for satellite receiver installations, power supply units for aerial amplifiers and rotors for aerials; wholesaling and retailing, including via the internet, namely in relation to the following goods: aerials, cables, level controls and distributors for aerials, aerial sockets, terminators for aerial cables, aerial sockets, plugs and adapters for aerials, symmetrical transformers for aerials, electronic aerials, positioning apparatus, mechanical fittings for aerials, namely antenna masts, mast holders, roof hooks, aerial mast mounts for rafters, bearings for rotating aerials; wholesaling and retailing, including via the internet, namely in relation to the following goods: mechanical fastening elements for aerials and aerial masts, in particular including fasteners for fixing mobile aerials to motor vehicles, mast clamps and mast brackets for fastening aerial amplifiers and frequency crossovers, electric installation materials (wires, cables), brightness regulators and dimmers

(regulators) for electric room lighting, mains plug connections, in particular sockets and connectors; wholesaling and retailing, including via the internet, namely in relation to the following goods: electrical cords, wires and strands, including the aforesaid for electricity supply, for communications and data transmission for video and audio applications, intercom installations consisting of exterior and interior speaker stations, and, if required, switching apparatus, power supplies, amplifiers and video apparatus; wholesaling and retailing, including via the internet, namely in relation to the following goods: electric and electronic demonstration boxes, consisting of electric and electronic components and structural components, desk and pocket electronic calculators, electronic and mechanical voltage testers, electronic metal-detecting equipment, electric soldering irons and electric soldering stations, consisting of soldering irons and electric supply and control apparatus for soldering irons; wholesaling and retailing, including via the internet in relation to the following goods: telecommunication apparatus, in particular telephones, answering machine, facsimiles machines, modems, mobile telephones, smartphones, telephone accessories, namely telephone private branch exchanges, hands-free kits or installations, telephone tariff time switches, telephone sockets, manual and electronic change-over switches for telephones, telephone plugs and sockets, telephone cables, telephone connection cables, computers, tablet pc, pc, notebook computers, printers, scanners (data processing equipment); wholesaling and retailing, including via the internet, namely in relation to the following goods: film screens, hard discs, cd drives, compact disc printers, floppy disc driving apparatus, keyboards (radio, data interfaces with short-range radio transmission, cables), mice (radio, data interfaces with short-range radio transmission, cables), computer cards, in particular graphic cards and interface cards, memory cards, modems and computer installations composed thereof, computer pin and socket connectors, add-on cards, universal serial bus [usb] memory stick, power banks, computer and network cables; wholesaling and retailing, including via the internet, namely in relation to the following goods: wlan/ wifi apparatus, wlan routers and wlan repeaters operating at 2,4/5 ghz, network apparatus, network storage, cloud apparatus, network expansion cards, data interface with radio transmission for short range apparatus, computer software, in particular computer programs stored on data carriers, including those for controlling lasers and light sources, software tools; wholesaling and retailing, including via the internet, namely in relation to the following goods: data communications software for electronic data exchange, in particular between computers, computer systems and interfaces, including on the internet and/or an intranet, and for carrying out other computer-based functions, power supplies, electronic navigation apparatus, fitted housings of metal or plastic for electric or electronic apparatus, high fidelity sound equipment and installations, including such equipment and installations for vehicles; wholesaling and retailing, including via the internet, namely in relation to the following goods: pouches, bags, cases, including for the storage of electric and electronic apparatus, including measuring apparatus, telephones, mobile telephones, computers, cameras, motor vehicle testers, obd testers, on-board electronics measuring devices, surveillance systems, closed-circuit television (cctv) cameras, including via wlan and data interface featuring short-range radio transmission, branch boxes (electricity), electric accumulators, batteries, electric, for vehicles; wholesaling and retailing, including via the internet, namely in relation to the following goods: battery jars,

accumulator boxes, battery bags, acoustic couplers, acoustic (sound) alarms, in particular alarm bells, electric and whistle alarms, alcoholmeters, ammeters, analyzers, not for medical purposes, anemometers, armatures (electricity), starter cables for motors and engines, anodes, anode batteries, answering machine, junction boxes (electricity); wholesaling and retailing, including via the internet, namely in relation to the following goods: connections for electric lines, electrical connection parts, aerials, anticathodes, indicators (electricity), apertometers (optics), x-rays producing apparatus and installations, not for medical purposes, apparatus and instruments for astronomy, apparatus and instruments for conducting, switching, transforming accumulating, regulating or controlling electricity, distance recording apparatus; wholesaling and retailing, including via the internet, namely in relation to the following goods: apparatus for measuring field strength, oxygen-transfusing apparatus, mirrors for inspecting work, breathing apparatus, except for artificial respiration, respiratory masks (other than for artificial respiration), respirators for filtering air, thermionic valves [radio], lift operating apparatus, visors, dispensing machines, shutter releases (photography), balancing apparatus, automatic steering apparatus, for vehicles, azimuth instruments, beacons; wholesaling and retailing, including via the internet, namely in relation to the following goods: barometers, batteries, electric, limiters (electricity), exposure meters (light meters), observation instruments, betatrons, phototelegraphy apparatus, video telephones, plumb bobs, galena crystals (detectors), diaphragms (photography), anti-glare glasses, anti-glare visors, blinkers (signalling lights), lightning conductors (rods), photographic flash bulbs, flash-bulbs (photography), self-regulating fuel pumps, postage stamp meters, letter scales; wholesaling and retailing, including via the internet, namely in relation to the following goods: spectacles (optics), eyeglass cases, weighbridges, incubators for bacteria culture, accounting machines, electric irons, disc players, chemistry apparatus and instruments, chips [integrated circuits], chromatography apparatus for laboratory use, chronographs (time recording apparatus), magnetic encoders, magnetic encoded identification bracelets, encoded service cards and identity cards; wholesaling and retailing, including via the internet, namely in relation to the following goods: compact discs (read-only memory), compact discs (audio-video), computers, computer operating programs, recorded, computer displays, computer peripherals, computer programs (recorded), computer programs (downloadable software), recorded computer programs, computer keypads, data-processing apparatus, decompression chambers, decorative magnets, densimeters, densitometers; wholesaling and retailing, including via the internet in relation to the following goods: distillation apparatus for scientific purposes, stills for laboratory experiments, detectors, diagnostic apparatus, not for medical purposes, transparencies, slide projector, densimeters, theft prevention installations, electric, anti-theft warning devices, diffraction apparatus (microscopy), digital picture frames, dictating machines, light dimmers (regulators), electric, alidades, dna chips, dna chips, dosing equipment, wires of metal alloys (fuse wire); wholesaling and retailing, including via the internet, namely in relation to the following goods: revolution counters, choking coils (impedance), printers for use with computers, pressure measuring apparatus, pressure indicators, automatic indicators of low pressure in vehicle tyres, dvd players, dvd player devices, dynamometers, egg-candlers, electrically-heated socks, electric installations for the remote control of industrial operations, electric apparatus for

remote ignition, electric locks, sensors, electric, electric coils, transformers (electricity); wholesaling and retailing, including via the internet, namely in relation to the following goods: resistors, electric, wires, electric, electric cables, capacitors, electromagnetic coils, computer bulletin and message boards, electronic publications (downloadable), electronic pens (visual display units), electronic diaries, electrified fences, endoscopes, not for medical purposes, finders, distance measuring apparatus, discharge tubes (electric), not for lighting purposes; wholesaling and retailing, including via the internet, namely in relation to the following goods: demagnetising apparatus for magnetic tapes, revolution counters, choking coils (impedance), printers for use with computers, pressure measuring apparatus, pressure indicators, automatic indicators of low pressure in vehicle tyres, dvd players, dvd player devices, dynamometers, egg-candlers, electrically-heated socks, electric installations for the remote control of industrial operations, electric apparatus for remote ignition, electric locks, sensors, electric; wholesaling and retailing, including via the internet, namely in relation to the following goods: electric coils, electrical transformers, anti-interference devices [electricity], epidiascopes, ergometers, ovens for laboratory experiments, waling glasses, invoicing machines, false coin detectors, binoculars, binoculars, telescopes, teleruptors, television sets, telephone apparatus, electro-dynamic apparatus for the remote control of railway points, remote control units, fire-extinguishing blankets, fire extinguishers, fire alarms, fire beaters; wholesaling and retailing, including via the internet, namely in relation to the following goods: clothing for protection against fire, garments for protection against fire, fire engines, films, exposed, cine cameras, film cutting apparatus, filters for respiratory masks, filters (photography), fluorescent screens, cameras [photography], photovoltaic cells, photocopiers (photographic, electrostatic, thermic), photometers, apparatus to check franking, hands-free kits for telephones, frequency meters, spark-guards, masts for wireless aerials, radiotelephony sets; wholesaling and retailing, including via the internet, namely in relation to the following goods: radio telegraphy apparatus, galvanic cells, galvanic batteries, galvanizing apparatus, galvanometers, glass covered with an electrical conductor, apparatus for fermentation (laboratory apparatus), gas analysis apparatus, gasometers, money counting and sorting machines, indicators (speed), speed-checking apparatus for vehicles, speed measuring apparatus (photography), workmens' protective face-shields, body weights, screw-tapping gauges; wholesaling and retailing, including via the internet, namely in relation to the following goods: semi-conductors, salinometers, holders for electric coils, wrist rests for use with computers, downloadable image files, high frequency apparatus, altimeters, holograms, dog whistles, hydrometers, hygrometers, identity cards, magnetic, inductors (electricity), electric devices for attracting and killing insects, interface apparatus or interface programs for computers; wholesaling and retailing, including via the internet, namely in relation to the following goods: ionisation apparatus, not for the treatment of air, electricity conduits, identification threads for electric wires, identification sheaths for electric wires, wire connectors (electricity), sheaths for electric cables, calipers, calibrating rings, capillary tubing, integrated circuit cards [smart cards], cassette players, carriers for dark plates (photography), cathodes, boiler control instruments; wholesaling and retailing, including via the internet, namely in relation to the following goods: cinematographic film, exposed, switchboxes (electricity),

optical readers, terminals (electricity), push buttons for bells, bells (warning devices), clinometers, pince-nez, eyeglass cases, pince-nez mountings, pince-nez chains, eyeglass cords, knee-pads for workers, coaxial cables, collectors, electric, comparators, directional compasses, contacts, electric, contacts, electric of precious metal; wholesaling and retailing, including via the internet, namely in relation to the following goods: contact lenses, cases for contact lenses, regulating apparatus, electric, headphones, couplers (data processing equipment), correcting lenses (optics), cosmographic instruments, fuel gauges, copper wire, insulated, electric couplings, laboratory trays, chargers for electric batteries, surveying instruments, laptops (computers), bags adapted for laptops, lasers, not for medical purposes, loudspeakers, loudspeaker cabinets; wholesaling and retailing, including via the internet, namely in relation to the following goods: jigs (measuring instruments), conductors, electric, ducts (electricity), readers (data processing equipment), luminous beacons, light-emitting diodes (led), luminous signs, light-emitting electronic pointers, electric arc cutting apparatus, welding apparatus (electric arc-), blueprint apparatus, heliographic apparatus, photometers, rulers (measuring instruments), hair-curlers, electrically heated, soldering apparatus, electric, soldering irons, electric; wholesaling and retailing, including via the internet, namely in relation to the following goods: sounding apparatus, sounding machines, air analysis apparatus, magnifying glasses (optics), magnetic tapes, magnetic tape units for computers, magnetic data carriers, magnetic data media, magnetic wires, magnets, magnetic cards, discs, magnetic, solenoid valves (electromagnetic switches), pressure gauge, measures, solders' helmets, rules (measuring instruments), material for electricity mains (wires, cables), material testing instruments and machines, mathematical instruments; wholesaling and retailing, including via the internet, namely in relation to the following goods: mice (data processing equipment), mouse pads, mechanisms for coin-operated apparatus, mechanisms for counter-operated apparatus, megaphones, diaphragms for scientific apparatus, quantity indicators, measuring devices, measuring devices, electric, graduated glassware, meters and gauges, rods (surveying instruments), measuring spoons, levelling staffs, plane tables (surveying instruments), metal detectors for industrial or military purposes; wholesaling and retailing, including via the internet, namely in relation to the following goods: meteorological balloons, meteorological instruments, rules (measuring instruments), metronomes, microphones, micrometers, micrometer screws for optical instruments, micro processors, microscopes, microtomes, mobile telephones, modems, monitors (computer hardware), apparatus for editing cinematographic film, mouth masks, coin-operated juke-boxes, food analysis apparatus, nose clips for divers and swimmers; wholesaling and retailing, including via the internet, namely in relation to the following goods: nautical apparatus and instruments, navigation apparatus for vehicles (onboard computers), navigation instruments, fog signals, non-explosive, gradient indicators, neon signs, surveyors' levels, levelling instruments, verniers, notebook computers, lenses for astrophotography, objectives (lenses) (optics), containers for microscope slides, ohmmeters, instruments containing eyepieces, eyepieces; wholesaling and retailing, including via the internet, namely in relation to the following goods: hair-curlers, electrically heated, optical goods, apparatus and instruments, optical data media, fibre optic cables, optical fibres (light conducting filaments), optical condensers, optical lanterns, optical lenses, optical discs, optical glass, osmosis

apparatus for scientific and teaching purposes, oscillographs, ozonisers (ozonators), parabolic mirrors for concentrating light beams; wholesaling and retailing, including via the internet, namely in relation to the following goods: parking meters, pedometers, periscopes, radio pagers, physics (apparatus and instruments for -), pipettes, planimeters, battery plates, record players, juke boxes (for computers), plotters, polarimeters, cases fitted with dissecting instruments (microscopy), precision measuring apparatus, precision balances, prisms (optics), projection apparatus, projection screens, pyrometers, mercury levels, radars; wholesaling and retailing, including via the internet, namely in relation to the following goods: radiological apparatus for industrial purposes, radios, vehicle radios, frames for transparencies, photographic transparencies (centering apparatus for -), screens for photoengraving, smoke detectors, capacity measures, test tubes, abacuses, calculating machines, calculating disks, slide-rules, reflecting discs for wear, for the prevention of traffic accidents, refractometers, refractors, cash registers, stage lighting regulators; wholesaling and retailing, including via the internet, namely in relation to the following goods: head cleaning tapes (recording), cleaning apparatus for sound recording discs, relays, electric, retorts' stands, fire escapes, safety nets, safety tarpaulins, life- belts, life-saving apparatus and equipment, lifejackets, rheostats, levels (instruments for determining the horizontal), hemline markers, x-ray apparatus not for medical purposes, x-ray photographs, other than for medical purposes; wholesaling and retailing, including via the internet, namely in relation to the following goods: x-ray films, exposed, x-ray tubes not for medical purposes, radiology screens for industrial purposes, cathodic anti-corrosion apparatus, saccharometers, salinometers, egg timers [sandglasses], styluses for record players, acid hydrometers, acidimeters for batteries, scanners (data processing equipment), acoustic conduits, diaphragms (acoustics), sound measuring apparatus, recording discs, horns for loudspeakers, switchboards, commutators; wholesaling and retailing, including via the internet in relation to the following goods: switches, electric, electric apparatus for commutation, distribution consoles (electricity), control panels (electricity), slide calipers, mechanical signs, umbrellas, fuses, cupels (laboratory), balances (steelyards), pedometers, contactors (electricity), gloves for protection against x-rays for industrial purposes, protective helmets, protective sports helmets, masks (protective), protection devices against x-rays, not for medical purposes; wholesaling and retailing, including via the internet, namely in relation to the following goods: welding electrodes, welding apparatus, electric, electrical apparatus for sealing plastic packaging, water-wings, swimming belts, swimming jackets, transmitters of electronic signals, transmitting sets (telecommunication), transmitters (telecommunication), sounding leads, plumb lines, sounding lines, sextants, safety restraints, other than for vehicle seats and sports equipment, electronic tags to identify goods; wholesaling and retailing, including via the internet, namely in relation to the following goods: signals, luminous or mechanical, signalling buoys, electro-dynamic apparatus for the remote control of signals, signal bells, signal lanterns, signalling whistles, signalling panels, luminous or mechanical, wafers for integrated circuits, simulators for the steering and control of vehicles, sirens, solar energy collectors for electricity generation, solar modules for electricity generation, sonars, probes for scientific purposes; wholesaling and retailing, including via the internet, namely in relation to the following goods: solar batteries, sunglasses, battery chargers, voltmeters, voltage regulators for vehicles,

computer memories, spectrographs, spectroscopes, clothing especially made for laboratories, cases especially made for photographic apparatus and instruments, spherometers, mirrors (optical), computer game programs, sports goggles, speaking tubes, sprinkler systems for fire protection, spools (photography); wholesaling and retailing, including via the internet, namely in relation to the following goods: tripods for cameras and stands for photographic apparatus, time clocks (time recording devices), sockets, plugs and other contacts (electric connections), socket covers, stereoscopes, radio-controlled sockets, stereoscopic apparatus, radio-controlled switching apparatus, actinometers, modular devices (switch cabinets), marking gauges (joinery), barcode readers, lighting ballasts, current rectifiers, electricity conduits, electrified rails for mounting spotlights, circuit closers, circuit breakers, electric loss indicators; wholesaling and retailing, including via the internet, namely in relation to the following goods: electric converters, inverters (electricity), viewfinders (photographic), sulphitometers, buzzers, electric, tachometers, metronomes, holders for mobile phones, batteries for torches, pocket calculators, electronic pocket translators, divers' masks, particle accelerators, telescopes, temperature gauges, word processors, theodolites, thermionic lamps and tubes, thermometers, not for medical purposes, and thermostats, thermostats for vehicles; wholesaling and retailing, including via the internet in relation to the following goods: sound locating instruments, totalizers, transistors (electronic), transponders, peepholes (magnifying lenses for doors), electric door bells, door openers, electric, electric door closers, voltage surge protectors, monitoring apparatus, electric, ultrasound apparatus, not for medical purposes, filters for ultraviolet rays, for photography, clothing for protection against accidents, irradiation and fire, shoes for protection against accidents, irradiation and fire, gloves for protection against accidents; wholesaling and retailing, including via the internet, namely in relation to the following goods: nets for protections against accidents, safety devices for personal use against accidents, apparatus for electronic games adapted for use with an external display screen or monitor, teaching apparatus, audiovisual teaching apparatus, urinometers, vacuum gauges, vacuum tubes (electric), variometers, pressure indicating plugs for valves, junction sleeves for electric cables, connectors (electricity), enlarging apparatus (photography); wholesaling and retailing, including via the internet, namely in relation to the following goods: surveying apparatus and instruments, amplifying tubes and valves, distribution boxes (electricity), distribution boards (electricity), video tapes, video screens, video cameras, videocassettes, video recorders, video games adapted for use with external screens or monitors only, video game cartridges, viscometers, voltmeters, apparatus for changing record player needles, lens hoods, weighing scales; wholesaling and retailing, including via the internet, namely in relation to the following goods: weighing apparatus and instruments, weighing machines, voting machines, heat regulation apparatus, vehicle breakdown warning triangles, washing trays (photography), water level indicators, marine depth finders, spirit levels, intercommunication apparatus, wavemeters, anemometers, wind socks for indicating wind direction, carpenters' rules, protractors (measuring instruments), rods for water diviners, counters, meters, animated cartoons, time recording apparatus; wholesaling and retailing, including via the internet, namely in relation to the following goods: time switches, automatic, reducers (electricity), central processing units (processors), sighting telescopes for firearms, cigar lighters for automobiles,

compasses (measuring instruments), batteries for lighting, cyclotrons, led drivers, led transformers, halogen transformers and lamp ballasts, building blocks (toys), scale model vehicles, radio-controlled toy vehicles, novelties for parties; wholesaling and retailing, including via the internet, namely in relation to the following goods: practical jokes [novelties], apparatus for games (including video games), other than adapted for use with external screens or monitors only, games, other than being auxiliary apparatus for an external screen or monitor, toy vehicles.
