Class 9:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of images; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; computer software; computer programs; downloadable software development kits (SDK); downloadable application programming interface (API) software that enables developers to build software applications; software applications for use with mobile devices; software for processing electronic payments to and from others; computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services, remittance transactions, cross-border money transfers, investment advisory services, data, payments and computer security; authentication software; computer software and computer software applications (downloadable); instant messaging software; file sharing software; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable cloud-computing software; downloadable cloud-based software; computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; downloadable text files; downloadable electronic data files; downloadable data sets; software for facilitating online payments through a payment gateway; software and software applications for the purpose of allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; software and software applications that allow merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers; computer software for generating, scanning and recognising matrix barcodes; matrix barcode readers; card readers for credit and debit cards; chip card readers; magnetic encoded card readers; software for mobile phone credit and e-wallet top-up services; downloadable computer software for use as an electronic wallet and a digital wallet; downloadable computer software, computer programs, software applications and software development tools for use in relation to business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; computer software and application software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; downloadable software for omnichannel marketing solutions; downloadable software for use in e-commerce and the retail industry to allow users to perform business management via a global computer network, namely, database management, sales and customer tracking and inventory management; downloadable software for use in e-commerce and the retail industry, namely, software for electronic and contactless payments and transactions; downloadable software for use in e-commerce and the retail industry, namely, software for supply chain management, drop shipping, product development and customizations; downloadable software for use in e-commerce and the retail industry to allow users to perform business management via a global computer network, namely, product pricing automation, tracking sales performance, order fulfilment, shipment tracking, database management, sales and customer tracking and inventory customization and management; downloadable software for electronic and contactless transactions, tracking sales performance, and managing customers, orders and inventory; downloadable software for online shopping and tracking deliveries; online electronic publications (downloadable from the Internet or a computer network or a computer database); downloadable

electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information and instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; sim cards; embedded SIM (eSIM) cards; personal digital assistants; computer workstations (not furniture); computer servers; computer network adaptors, switches, routers and hubs; laptop holders, computer bags; automobile navigation system; digital music (downloadable from the Internet); downloadable games, pictures, motion pictures, movies and music; alarm systems; security cameras; Global Positioning System (GPS) apparatus and equipment; computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; electronic signboards; encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; electronic book readers; encoded key cards; 3D spectacles; electronic cards and stored value cards; terminals, devices or apparatus for electronic payments and transactions and other contactless interactions with mobile devices; contactless payment terminals; electronic financial transaction apparatus and software for secure online and offline payment transactions; none of the foregoing being video conferencing software, communication interface software, software for use with or in relation to headsets, headphones or speakerphones, or software for call control systems.

Class 36:
Insurance; Financial affairs; Monetary affairs; real estate affairs; Clearing financial transactions via a global computer network; online banking services and financial services; Credit card services; processing and transmission of bills and payments thereof, and providing insurance for financial transactions; Funds transfer services; transfer of payments for others via the internet; financial services in the nature of bill payment services and processing services; provision of financial information via the Internet; issuing of travel vouchers services; capital investments; Financial evaluation [insurance, banking, real estate]; Asset management services; Financial consultancy and advisory services; securities brokerage services, stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque guarantee services; Financial clearing services; credit verification via global computer information network; electronic credit risk management services; electronic purchase payment and electronic bill payment services; issuance of stored value cards, charge cards and debit cards; information services relating to finance and insurance, provided online from a computer database or the Internet; agency for collection of gas and electricity fees; Charitable fund raising; Online payment services; Issuing of vouchers; provision of electronic funds transfer services; monetary exchange services, provision of prepaid cards and tokens; remittance services and money transfer services; financial transaction services, namely, providing secure payment and remittance transactions; including all of the aforementioned services provided by electronic means; Foreign currency transfer services; Foreign currency exchange; Currency trading; currency dealing; Brokerage of currency; financial transactions via blockchain; fundraising and financial sponsorship; Brokerage of carbon offsets; financial sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in emissions reduction funds; Provision of loans; Providing temporary loans; electronic wallet services (payment services); payment services and transfer of funds by means of payment terminals; financial services, namely, the provision of contactless mobile payments through merchants at retail, online and wholesale locations; Financial risk management services; financial transaction analysis, namely, analyzing transactions for payment fraud, illegality and compliance with payment transaction regulations and antifraud and money laundering controls; providing purchase protection services for goods and services purchased by others via a global computer network and wireless networks, namely, providing fraud reimbursement services in the field of credit card purchases and electronic payment purchases, and providing secure commercial transactions for credit card purchases and electronic payment purchases; reimbursement of funds for disputed items in the field of electronic payment purchases; financial services related to digital wallets and electronic wallets, including secure storage and transaction processing of digital assets; financial services relating to digital currency wallet and storage services; financial services relating to customer loyalty, incentive and reward programs; exchange and redemption services of tokens of value in relation to customer loyalty, incentive and reward programs; providing discount card services and other rebate services as part of a customer loyalty program; Providing rebates at participating establishments of others through use of a membership card; consultancy, information and advisory services relating to the aforesaid services.

Class 42:
Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware, software and artificial intelligence software; software as a service (SaaS); blockchain as a service (BaaS); platform as a service (PaaS); Infrastructure as a service [IaaS]; encryption, decryption and authentication of information, messages and data; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; Data security services; IT security, protection and restoration; Computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; all of the aforementioned services for use in connection with payment systems; computer design and development services in connection with transmitting information, data, documents, and images over the Internet; Application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services namely, hosting computer software applications of others for use in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer service relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of mobile telephones and smart phones; design of digital cameras; research, design and product development services in connection with

payment terminals and electronic payment systems; technical support services relating to payment terminals and electronic payment systems; computer services, namely computer system administration for others; Computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; Computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technological information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; computer information services; computer network information services, namely, providing technological information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information and testing services; Quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; security of data transmission services and of transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; Computerized communication network security services; Authentication services for computer security; online authentication of electronic signatures; Off-site data backup; Electronic data storage; Providing information on computer technology and programming via a web site; Cartography services; Cloud computing; Cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; creating and hosting of bill payment websites; network information services, namely, providing technical information relating to computers and networks in the field of payments including contactless payments; providing temporary use of online non-downloadable computer software for tracking and analyzing payment activity; providing temporary use of online non-downloadable software to evaluate and detect fraud and illegality in payment transactions, and manage compliance validation; providing non-downloadable software for use in relation to electronic payments and contactless transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to electronic payments and contactless transactions; providing non-downloadable software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; providing non-downloadable software for generating, scanning, and recognizing matrix barcodes; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for generating, scanning, and recognizing matrix barcodes; providing non-downloadable software for use as an electronic wallet and digital wallet, and for facilitating top-up services and value storage for such wallets; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use as an electronic wallet and digital wallet, and for facilitating top-up services and value storage for such wallets; providing non-downloadable software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; providing non-downloadable artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; providing non-downloadable software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; providing non-downloadable software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; providing non-downloadable software for the provision of omnichannel marketing solutions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision of omnichannel marketing solutions; Software as a Service (SAAS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry to allow users to perform electronic business transactions via a global computer network; Software as a Service (SAAS) and Platform as a Service (PaaS) featuring software for use in database management, sales and customer tracking and management, and inventory management for the retail industry; providing an online platform featuring online non-downloadable computer software for use in the retail and e-commerce industry for facilitating retail store services; Software as a service (SaaS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry, namely, software for supply chain management, drop shipping, and product development and customizations; Software as a service (SaaS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry, namely, software to allow users to perform business management via a global computer network, namely, product pricing automation, tracking sales performance, order fulfilment, shipment tracking, database management, sales and customer tracking and inventory customization and management; providing temporary use of non-

downloadable software for electronic and contactless payments and transactions, tracking sales performance, and managing customers, orders, and inventory; providing temporary use of non-downloadable software for online shopping and tracking deliveries; consultancy, information and advisory services relating to the aforesaid services.

computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; electronic signboards; encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; electronic book readers; encoded key cards; 3D spectacles; electronic cards and stored value cards; terminals, devices or apparatus for electronic payments and transactions and other contactless interactions with mobile devices; contactless payment terminals; electronic financial transaction apparatus and software for secure online and offline payment transactions; none of the foregoing being video conferencing software, communication interface software, software for use with or in relation to headsets, headphones or speakerphones, or software for call control systems.

Class 36:
Insurance; Financial affairs; Monetary affairs; real estate affairs; Clearing financial transactions via a global computer network; online banking services and financial services; Credit card services; processing and transmission of bills and payments thereof, and providing insurance for financial transactions; Funds transfer services; transfer of payments for others via the internet; financial services in the nature of bill payment services and processing services; provision of financial information via the Internet; issuing of travel vouchers services; capital investments; Financial evaluation [insurance, banking, real estate]; Asset management services; Financial consultancy and advisory services; securities brokerage services, stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque guarantee services; Financial clearing services; credit verification via global computer information network; electronic credit risk management services; electronic purchase payment and electronic bill payment services; issuance of stored value cards, charge cards and debit cards; information services relating to finance and insurance, provided online from a computer database or the Internet; agency for collection of gas and electricity fees; Charitable fund raising; Online payment services; Issuing of vouchers; provision of electronic funds transfer services; monetary exchange services, provision of prepaid cards and tokens; remittance services and money transfer services; financial transaction services, namely, providing secure payment and remittance transactions; including all of the aforementioned services provided by electronic means; Foreign currency transfer services; Foreign currency exchange; Currency trading; currency dealing; Brokerage of currency; financial transactions via blockchain; fundraising and financial sponsorship; Brokerage of carbon offsets; financial sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in emissions reduction funds; Provision of loans; Providing temporary loans; electronic wallet services (payment services); payment services and

transfer of funds by means of payment terminals; financial services, namely, the provision of contactless mobile payments through merchants at retail, online and wholesale locations; Financial risk management services; financial transaction analysis, namely, analyzing transactions for payment fraud, illegality and compliance with payment transaction regulations and antifraud and money laundering controls; providing purchase protection services for goods and services purchased by others via a global computer network and wireless networks, namely, providing fraud reimbursement services in the field of credit card purchases and electronic payment purchases, and providing secure commercial transactions for credit card purchases and electronic payment purchases; reimbursement of funds for disputed items in the field of electronic payment purchases; financial services related to digital wallets and electronic wallets, including secure storage and transaction processing of digital assets; financial services relating to digital currency wallet and storage services; financial services relating to customer loyalty, incentive and reward programs; exchange and redemption services of tokens of value in relation to customer loyalty, incentive and reward programs; providing discount card services and other rebate services as part of a customer loyalty program; Providing rebates at participating establishments of others through use of a membership card; consultancy, information and advisory services relating to the aforesaid services.

Class 42:
Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware, software and artificial intelligence software; software as a service (SaaS); blockchain as a service (BaaS); platform as a service (PaaS); Infrastructure as a service [IaaS]; encryption, decryption and authentication of information, messages and data; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; Data security services; IT security, protection and restoration; Computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; all of the aforementioned services for use in connection with payment systems; computer design and development services in connection with transmitting information, data, documents, and images over the Internet; Application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services namely, hosting computer software applications of others for use in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer service relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of mobile telephones and smart phones; design of digital cameras; research, design and product development services in connection with payment terminals and electronic payment systems; technical support services relating to payment terminals and electronic payment systems; computer services, namely computer system administration for others; Computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; Computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technological information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; computer information services; computer network information services, namely, providing technological information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information and testing services; Quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; security of data transmission services and of transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; Computerized communication network security services; Authentication services for computer security; online authentication of electronic signatures; Off-site data backup; Electronic data storage; Providing information on computer technology and programming via a web site; Cartography services; Cloud computing; Cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; creating and hosting of bill payment websites; network information services, namely, providing technical information relating to computers and networks in the field of payments including contactless payments; providing temporary use of online non-downloadable computer software for tracking and analyzing payment activity; providing temporary use of online non-downloadable software to evaluate and detect fraud and illegality in payment transactions, and manage compliance validation; providing non-downloadable software for use in relation to electronic payments and contactless transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to electronic payments and contactless transactions; providing non-downloadable software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; providing non-downloadable software for generating, scanning, and recognizing matrix barcodes; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for generating, scanning, and recognizing matrix barcodes; providing non-downloadable software for use as an electronic wallet and digital wallet, and for facilitating top-up services and value storage for such wallets; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use as an electronic wallet and digital wallet, and for

facilitating top-up services and value storage for such wallets; providing non-downloadable software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; providing non-downloadable artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; providing non-downloadable software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; providing non-downloadable software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; providing non-downloadable software for the provision of omnichannel marketing solutions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision of omnichannel marketing solutions; Software as a Service (SAAS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry to allow users to perform electronic business transactions via a global computer network; Software as a Service (SAAS) and Platform as a Service (PaaS) featuring software for use in database management, sales and customer tracking and management, and inventory management for the retail industry; providing an online platform featuring online non-downloadable computer software for use in the retail and e-commerce industry for facilitating retail store services; Software as a service (SaaS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry, namely, software for supply chain management, drop shipping, and product development and customizations; Software as a service (SaaS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry, namely, software to allow users to perform business management via a global computer network, namely, product pricing automation, tracking sales performance, order fulfilment, shipment tracking, database management, sales and customer tracking and inventory customization and management; providing temporary use of non-downloadable software for electronic and contactless payments and transactions, tracking sales performance, and managing customers, orders, and inventory; providing temporary use of non-downloadable software for online shopping and tracking deliveries; consultancy, information and advisory services relating to the aforesaid services.

Class 9:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of images; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; computer software; computer programs; downloadable software development kits (SDK); downloadable application programming interface (API) software that enables developers to build software applications; software applications for use with mobile devices; software for processing electronic payments to and from others; computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services, remittance transactions, cross-border money transfers, investment advisory services, data, payments and computer security; authentication software; computer software and computer software applications (downloadable); instant messaging software; file sharing software; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable cloud-computing software; downloadable cloud-based software; computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; downloadable text files; downloadable electronic data files; downloadable data sets; software for facilitating online payments through a payment gateway; software and software applications for the purpose of allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; software and software applications that allow merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers; computer software for generating, scanning and recognising matrix barcodes; matrix barcode readers; card readers for credit and debit cards; chip card readers; magnetic encoded card readers; software for mobile phone credit and e-wallet top-up services; downloadable computer software for use as an electronic wallet and a digital wallet; downloadable computer software, computer programs, software applications and software development tools for use in relation to business analytics, business intelligence,

data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; computer software and application software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; downloadable software for omnichannel marketing solutions; downloadable software for use in e-commerce and the retail industry to allow users to perform business management via a global computer network, namely, database management, sales and customer tracking and inventory management; downloadable software for use in e-commerce and the retail industry, namely, software for electronic and contactless payments and transactions; downloadable software for use in e-commerce and the retail industry, namely, software for supply chain management, drop shipping, product development and customizations; downloadable software for use in e-commerce and the retail industry to allow users to perform business management via a global computer network, namely, product pricing automation, tracking sales performance, order fulfilment, shipment tracking, database management, sales and customer tracking and inventory customization and management; downloadable software for electronic and contactless transactions, tracking sales performance, and managing customers, orders and inventory; downloadable software for online shopping and tracking deliveries; online electronic publications (downloadable from the Internet or a computer network or a computer database); downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information and instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; sim cards; embedded SIM (eSIM) cards; personal digital assistants; computer workstations (not furniture); computer servers; computer network adaptors, switches, routers and hubs; laptop holders, computer bags; automobile navigation system; digital music (downloadable from the Internet); downloadable games, pictures, motion pictures, movies and music; alarm systems; security cameras; Global Positioning System (GPS) apparatus and equipment; computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; electronic signboards; encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; electronic book readers; encoded key cards; 3D spectacles; electronic cards and stored value cards; terminals, devices or apparatus for electronic payments and transactions and other contactless interactions with mobile devices; contactless payment terminals; electronic financial transaction apparatus and software for secure online and offline payment transactions; none of the foregoing being video conferencing software, communication interface software, software for use with or in relation to headsets, headphones or speakerphones, or software for call control systems.

Class 36:
Insurance; Financial affairs; Monetary affairs; real estate affairs; Clearing financial transactions via a global computer network; online banking services and financial services; Credit card services; processing and transmission of bills and payments thereof, and providing insurance for financial transactions; Funds transfer services; transfer of payments for others via the internet; financial services in the nature of bill payment services and processing services; provision of financial information via the Internet; issuing of travel vouchers services; capital investments; Financial evaluation [insurance, banking, real estate]; Asset management services; Financial consultancy and advisory services; securities brokerage services, stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque guarantee services; Financial clearing services; credit verification via global computer information network; electronic credit risk management services; electronic purchase payment and electronic bill payment services; issuance of stored value cards, charge cards and debit cards; information services relating to finance and insurance, provided online from a computer database or the Internet; agency for collection of gas and electricity fees; Charitable fund raising; Online payment services; Issuing of vouchers; provision of electronic funds transfer services; monetary exchange services, provision of prepaid cards and tokens; remittance services and money transfer services; financial transaction services, namely, providing secure payment and remittance transactions; including all of the aforementioned services provided by electronic means; Foreign currency transfer services; Foreign currency exchange; Currency trading; currency dealing; Brokerage of currency; financial transactions via blockchain; fundraising and financial sponsorship; Brokerage of carbon offsets; financial sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in emissions reduction funds; Provision of loans; Providing temporary loans; electronic wallet services (payment services); payment services and transfer of funds by means of payment terminals; financial services, namely, the provision of contactless mobile payments through merchants at retail, online and wholesale locations; Financial risk management services; financial transaction analysis, namely, analyzing transactions for payment fraud, illegality and compliance with payment transaction regulations and antifraud and money laundering controls; providing purchase protection services for goods and services purchased by others via a global computer network and wireless networks, namely, providing fraud reimbursement services in the field of credit card purchases and electronic payment purchases, and providing secure commercial transactions for credit card purchases and electronic payment purchases; reimbursement of funds for disputed items in the field of electronic payment purchases; financial services related to digital wallets and electronic wallets, including secure storage and transaction processing of digital assets; financial services relating to digital currency wallet and storage services; financial services relating to customer loyalty, incentive and reward programs; exchange and redemption services of tokens of value in relation to customer loyalty, incentive and reward programs; providing discount card services and other rebate services as part of a customer loyalty program; Providing rebates at participating establishments of others through use of a membership card; consultancy, information and advisory services relating to the aforesaid services.

Class 42:
Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware, software and artificial intelligence software; software as a service (SaaS); blockchain as a service (BaaS); platform as a service (PaaS); Infrastructure as a service [IaaS]; encryption, decryption and authentication of information, messages and data; providing

user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; Data security services; IT security, protection and restoration; Computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; all of the aforementioned services for use in connection with payment systems; computer design and development services in connection with transmitting information, data, documents, and images over the Internet; Application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services namely, hosting computer software applications of others for use in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer service relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of mobile telephones and smart phones; design of digital cameras; research, design and product development services in connection with payment terminals and electronic payment systems; technical support services relating to payment terminals and electronic payment systems; computer services, namely computer system administration for others; Computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; Computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technological information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; computer information services; computer network information services, namely, providing technological information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information and testing services; Quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; security of data transmission services and of transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; Computerized communication network security services; Authentication services for computer security; online authentication of electronic signatures; Off-site data backup; Electronic data storage; Providing information on computer technology and programming via a web site; Cartography services; Cloud computing; Cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; providing virtual computer systems and virtual computer environments through cloud computing; rental of entertainment software; creating and hosting of bill payment websites; network information services, namely, providing technical information relating to computers and networks in the field of payments including contactless payments; providing temporary use of online non-downloadable computer software for tracking and analyzing payment activity; providing temporary use of online non-downloadable software to evaluate and detect fraud and illegality in payment transactions, and manage compliance validation; providing non-downloadable software for use in relation to electronic payments and contactless transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to electronic payments and contactless transactions; providing non-downloadable software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; providing non-downloadable software for generating, scanning, and recognizing matrix barcodes; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for generating, scanning, and recognizing matrix barcodes; providing non-downloadable software for use as an electronic wallet and digital wallet, and for facilitating top-up services and value storage for such wallets; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use as an electronic wallet and digital wallet, and for facilitating top-up services and value storage for such wallets; providing non-downloadable software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; providing non-downloadable artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; providing non-downloadable software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; providing non-downloadable software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Software as a Service (SaaS) and Platform as a Service

(PaaS) featuring software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; providing non-downloadable software for the provision of omnichannel marketing solutions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision of omnichannel marketing solutions; Software as a Service (SAAS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry to allow users to perform electronic business transactions via a global computer network; Software as a Service (SAAS) and Platform as a Service (PaaS) featuring software for use in database management, sales and customer tracking and management, and inventory management for the retail industry; providing an online platform featuring online non-downloadable computer software for use in the retail and e-commerce industry for facilitating retail store services; Software as a service (SaaS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry, namely, software for supply chain management, drop shipping, and product development and customizations; Software as a service (SaaS) and Platform as a Service (PaaS) featuring software for use in e-commerce and the retail industry, namely, software to allow users to perform business management via a global computer network, namely, product pricing automation, tracking sales performance, order fulfilment, shipment tracking, database management, sales and customer tracking and inventory customization and management; providing temporary use of non-downloadable software for electronic and contactless payments and transactions, tracking sales performance, and managing customers, orders, and inventory; providing temporary use of non-downloadable software for online shopping and tracking deliveries; consultancy, information and advisory services relating to the aforesaid services.

Class 38:
Data transmission; Transmission of data; Data transmission and data broadcasting; Electronic transmission of data; Electronic data transmission; Digital transmission of data; Data transmission services; Computer-aided transmission of data; Packet transmission of data and images; International data transmission; Transmission of data, messages and information; Electronic transmission of messages and data; Data transmission for others; Computer data transmission services; Telematic data transmission and file transfer; Electronic transmission of data (Services for the -); Wireless electronic transmission of data; Transmission of data via satellite; Voice and data transmission services; Transmission of data by cable; Transmission of data by computer; Transmission of data by communications satellite; Communication services for the electronic transmission of data; Electronic communication services for the transmission of data; Transmission of data by radio; Transmission of data via the Internet; Electronic transmission of messages, data and documents; Network transmission of sounds, images, signals and data; Electronic communications services for the transmission of data; Data transmission via telematic networks; Transmission of data by teletypewriter; Transmission of data by telefacsimile; Transmission of data by microwave; Transmission of data via ISDN lines; Transmission and reception [transmission] of database information via the telecommunication network; Cable transmission of sounds, images, signals and data; Electrical data transmission over a global remote data processing network, including the internet; Transmission of sound, picture and data signals; Transmission of data by radiopaging; Transmission of audio data via the Internet; Electronic transmission of instant messages and data; Transmission of digital information; Satellite transmission of data, sounds and images; Secure transmission of data, sound or images; Delivery of messages and data by electronic transmission; Satellite transmission of sounds, images, signals and data; Transmission of data by electronic means; Data transmission services over telematic networks; Digital transmission of data via the Internet; Transmission of data by means of telecommunications networks; Electronic transmission and retransmission of sounds, images, documents, messages and data; Data transmission by electronic mail; Computer aided transmission of messages, data and images; Transmission of data and information by computer and electronic communication means; Transmission of data by means of the Internet; Remote transmission of data by means of telecommunications; Transmission of computerised data by means of cable; Transmission of video data via the Internet; Data transmission and reception services via telecommunication means; Transmission of data, sound and images via satellites; Secured data, sound and image transmission services; Computer communications for the transmission of information; Transmission of encrypted communications; Data transmission services over telecommunications networks; Transmission of computerised data by means of radio; Electronic transmission of data and documents via computer terminals; Transmission of data, sound and images by satellite; High bit-rate data transmission services for telecommunication network operators; Data transmission services between networked computer systems; Signal transmission for electronic commerce via telecommunication systems and data communication systems; Transmission of messages, data and content via the Internet and other communications networks; Digital transmission services for audio and video data; Transmission of database information via telecommunications networks; Computer-aided transmission of information; Transmission of digital files; Transmission of messages; Satellite transmission; Transmission of data through the use of electronic image processing by telephone link; Transmission of messages, data and content via the Internet and other computer and communications networks; Transmission and reception of database information via telecommunication networks; Transmission of computerised data by means of television; Transmission of electronic mail [e-mail data services]; Transmission and distribution of data or audiovisual images via a global computer network or the Internet; Transmission of data by laser beam; Transmission of data, audio, video and multimedia files; Communication services for the transmission of information; Electronic data communications; Electronic transmission of information (Services for the -); Facsimile transmission and retrieval services; Computer communications services for the transmission of information; Electronic transmission of messages; Transmission of messages (Electronic -); Message collection and transmission; Telecommunications services for facsimile transmission of information; Transmission of information via computer networks; Transmission of information by electronic communications networks; Transmission of information by computer; Transmission of information through video communication systems; Transmission of information on optical telecommunication networks; Transmission of information on-line; Transmission of data or audio visual images via a global computer network or the internet; Transfer of data by telecommunication; Transfer of data by telecommunications; Electronic message collection and transmission; Transmission of information in the audiovisual field; Information transmission by telematic codes.

Class 39:
Tracking and tracing of shipments; Cargo tracking services; Locating and tracking of cargo for transportation purposes; Locating and tracking of people for transportation purposes; Tracking and tracing services for letters and parcels; Locating and tracking of people and cargo for transportation purposes; Tracking of passenger vehicles by computer or via GPS; Tracking of passenger or freight vehicles by computer or via GPS; Advisory services relating to the tracking of goods in transit; Global Positioning System navigation services; Navigation (positioning, and route and course plotting).

Class 42:
Testing, analysis and monitoring of navigation signals; Electronic monitoring of personally identifying information to detect identity theft via the internet; Providing temporary use of non-downloadable computer software for tracking freight over computer networks, intranets and the internet; Monitoring of computer systems to detect breakdowns; Testing, analysis and monitoring of telecommunication signals; Providing temporary use of non-downloadable software for analyzing financial data and generating reports; Providing temporary use of non-downloadable computer software for tracking packages over computer networks, intranets and the internet; Monitoring of computer systems for detecting unauthorized access or data breach; Cartographic or thermographic measurement services by drone; Computer system monitoring services; Maintenance

of data processing software; Monitoring of computer systems by remote access; Monitoring of telecommunication signals; Providing temporary use of online, non-downloadable computer software for use in broadcast monitoring applications; Monitoring of audio warning signals; Monitoring of network systems; Development of systems for the transmission of data; Design and development of wireless data transmission apparatus; Decoding of data; Electronic data storage and data back-up services; Data conversion of electronic information; Design services relating to data transmission test tools; Compression of data for electronic storage; Electronic data storage; Electronic storage of data; Authentication services (control) of data transmitted via telecommunications.
