wheels; Wheels (Machine -); Machine pumps; Machine fly-wheels; Fly-wheels (Machine -); Machine holders being stands [being adapted for the machine]; Machine knives; Machine guides [parts of machines]; Toolholders for metalworking machines (machine parts); Machine belts; Machine tools for milling; Robots for machine tools; Machine tools for grinding; Hobbing machines; Lathes [machine tools]; Machine centres; Circuit board drills [machines or machine tools]; Machine tools for sawing; Tools (Machine -) for drilling; Machine tools for drilling; Machine tools for cutting; Tools (Machine -) for cutting; Cartoning machines; Precision machine tools; Milling cutters [machine tool]; Die-cutting machines; Industrial robot washing machines; Machine tool couplings; Reamers [machine tools]; Reamers being machine tools; Extrusion machines; Cutters being machine tools; Machine tools for slotting; Machine tools for boring; Tenoning machines; Metalworking machine tools; Rotary tables for machine tools; Deburring machines; Mortising machines; Countersinks being machine tools; Electric drives for machine tools; Swaging machines; Machines for extruding; Extruding machines; Grinding tools [machines or parts of machines]; Industrial robot sewing machines; Machine tool holders; Welding machines; Threading machines; Contacting machines [mixing machines]; Milling machines; Lathes [machines]; Tool grinding machines; Grinding machines; Die-casting machines; Loaders [machines]; Drill machines; Taps [machine tools]; Taps being machine tools; Automatic grinding machines; Broaches [machine tool]; Transmission control mechanisms; Process control units [pneumatic]; Process control units [mechanical]; System control instruments (Mechanical -); Process control units [hydraulic]; Process control instruments [hydraulic]; System control instruments (Pneumatic -); Industrial robots for use in the handling of workpieces; Industrial pneumatic tools; Tools (Machine -) for grinding; Tools (Machine -) for boring; Machine tools for metal working; Machine tools for working metals; Tools (Machine -) for use in packaging; Cutting tools for machine centres; Machine belting; Machines, machine tools, and power-operated tools and apparatus, for fastening and joining; Machine tools for parting; Boring tools [machine tools]; Boring tools (Machine -) with slides; Tools for machine tools; Tools for use with machine tools; Tools for use in machine tools; Broaches [machine tools]; Broaches being machine tools; Holding devices for machine tools; Tools (Holding devices for machine -); Guidance frameworks for cutting tools [machine]; Machine cages; Precision machine tools for cutting materials; Tool cutting machines; Core bits [machine tools]; Precision machine tools for machining materials; Drilling machine supports; Machine cocks; Emergency and rescue machines and machine tools; Adapters for machine tools; Machines for making tools; Pallet changing devices for machine tools; Holders for machine tools; Work clamps for machine tools; Precision machine tools for cutting workpieces; Machine tools for the plastics processing industry; Cutting inserts for machine tools; Gear cutters [machine tool].

Class 9:
Sensors; Sensor controllers; Sensor switches; Optical sensors; Photoelectric sensors; Infrared sensors; Touchscreen sensors; Electro-optical sensors; Temperature sensors; Ultrasonic sensors; Vibration sensors; Motion sensors; Measuring sensors; Electronic measurement sensors; Light sensors; Timing sensors; Digital sensors; Magnetic sensors; Electronic sensors; Pressure sensors; Proximity sensors; Position sensors; Synchro sensors; Humidity sensors; Electrical sensors; Alarm sensors; Pollutant sensors; Object detecting sensors; Range sensors; Distance sensors; Optical speed sensors; Level sensors; Electronic pressure sensors; Electric sensors; Sensors for determining temperature; Optical fibre sensors; Thermal sensors [thermostats]; Sensors for measuring speed; Coolant-temperature sensors; Sensors for determining acceleration; Fluid level sensors; Sensors, detectors and monitoring instruments; Sensors for determining velocity; Sensors used in plant control; Position fixing sensors; Electronic control sensors for motors; Oil-water level sensors; Sensors for measuring depth; Oil level sensors; Sensors for use in the control of engines; Air quality sensors; Sensors for measuring instruments; Mass flow sensors; Liquid level sensors; Sensors for determining position; Position determining sensors; Sensors [measurement apparatus], other than for medical use; Sensors for monitoring physical movements; Electric current sensors; Sensors for use with machine tools; Radiation sensing apparatus; Microwave sensing apparatus; Infrared detectors; Light Imaging Detection and Ranging [LIDAR] apparatus; Vapour monitoring apparatus for the detection of leaks; Remote monitoring apparatus; Environmental monitoring software; Measuring, detecting, monitoring and controlling devices; Monitoring apparatus and instruments; Monitoring control apparatus [electric]; Electric monitoring apparatus; Safety monitoring apparatus [electric]; Liquid level monitoring apparatus; Monitoring apparatus, other than for medical purposes; Computer software for use in remote meter monitoring; Software for monitoring, analysing, controlling and running physical world operations; Downloadable computer software for remote monitoring and analysis; Electronic monitoring instruments, other than for medical use; Wireless controllers to remotely monitor and control the function and status of security systems; Process monitors; Network management control apparatus; Computer software for the monitoring of computer systems; Remote control telemetering apparatus; Temperature logging apparatus; Magnetizers; Magnets, magnetizers and demagnetizers; Thermoregulators; Demagnetizers; Instruments for measuring velocities; Temperature measuring instruments; Measurement apparatus; Instruments for measuring length; Measuring transducers; Optical measurement apparatus; Instruments for measuring angles; Measuring instruments; Coordinate measuring instruments; Instruments for measuring pressure; Rotation measuring sensors; Distance and dimension measuring instruments; Speed measuring instruments; Instruments for measuring speed; Compasses for measuring; Instruments for measuring levels of fluids; Compasses [measuring instruments]; Optical measuring components; Temperature measuring apparatus for scientific use; Rulers [measuring instruments]; Lasers for measuring; Length measuring apparatus; Measuring cables; Measuring converters; Measuring devices; Resistance measuring instruments; Precision measuring apparatus; Instruments for surveying physical data; Laser measuring systems; Electricity measuring instruments; Radiation measuring apparatus; Tool measuring instruments; Electrical measuring equipment; Measuring apparatus and instruments; Humidity measuring apparatus; Temperature measuring apparatus for industrial use; Torque measuring apparatus; Calibration devices; Flow measuring apparatus; Automatic measuring instruments; Pressure measuring apparatus; Distance measuring apparatus; Electric measuring instruments; Ultrasonic measuring apparatus; Measuring apparatus; Telemetry apparatus; Data transmitters; Data communications receivers; Data communications hardware; Data communications apparatus; Data communications software; Computer hardware for the transmission of positioning data; Telemeters; Computer software for the transmission of positioning data; Mobile data receivers;

Apparatus for the transmission of data; Data transmission apparatus; Electrical and electronic apparatus for logging data; Data transmitting apparatus; Wireless communication devices for voice, data, or image transmission; Remote control telemetering machines and instruments; Satellite communication apparatus; Electrical and electronic apparatus for the transmission of data; Antennas for wireless communications apparatus; Apparatus and instruments for transmitting data; Satellite transmitting apparatus; Remote control telemetering machines and apparatus; Telemeter apparatus; Computer networking and data communications equipment; Wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; Radio-frequency transmitters; Electrical and electronic instruments for logging data; GPS transmitters; Data retrieving devices; Software for satellite navigation systems; Radio transmitters for remote controls; Apparatus for recording data; Devices for wireless radio transmission; Computer hardware for the compilation of positioning data; Remote temperature sensors; Mobile data apparatus; Automatic solar tracking sensors; Remote control transmitters; Wireless transmitters; Machine control software; Motion control software; Computer software for the remote control of security apparatus; Industrial process control software; Process controlling software; Software; Electronic control systems; Data management software; Industrial controls incorporating software; Computer software for database management; Network management software; Downloadable computer software for the management of data; Computer software for controlling and managing access server applications; Interface software; Downloadable computer software for the management of information; System support software; Computer operating system software; Computer interface software; Database management software; Decision-making software; Simulation software; Electronic control systems for machines; File management software; Computer software; Computer software to maintain and operate computer system; Downloadable software for remotely accessing and controlling a computer; Programming software; Maintenance software; Factory automation software; Computer operating software; Workflow software; Software for mobile device management; Mobile device management software; Programmable controllers; Thermostat controllers; Ethernet controllers; Programmable logic controllers; Remote controllers; Computer controllers; Temperature controllers; Power controllers; Controllers for servo motors; Electrical controllers; Motion controllers; Electronic controllers; Communications controllers; Electronic controllers for servo motors; Level controllers [electrical apparatus]; Electronic power controllers; Controllers and regulators; Temperature controllers apparatus for machines; Speed controllers [electrical]; Process control digital controllers; Electronic speed controllers; Speed controllers [electronic]; Remote controllers for controlling electronic products; Programmable controls; Process controllers [electric]; Electric power controllers; Process controllers [electronic]; Programmable control apparatus; Thermostat control apparatus; Computer software for the remote control of electric lighting apparatus; Programmable controls for lighting apparatus and instruments; Remote controls; Computer interface apparatus; Electro-dynamic apparatus for the remote control of signals; Temperature control apparatus [electric switches] for machines; Temperature control apparatus [thermostats]; Computer software for the control of lighting; Remote control units; Electronic Interfaces for Motion Simulator Platforms; Temperature control apparatus [thermostats] for machines; Remote control apparatus (Electro-dynamic -); Radio receivers for remote controls; Infrared remote control apparatus; Remote control receivers; Ethernet adapter; Remote controls for controlling electronic products; Remote control apparatus (Electronic -); Detectors; Radar detectors; Particle detectors; Radiation detectors; Voltage detectors; Laser detectors; Leak detectors; Metal detectors; Motion detectors; Microwave detectors [radar]; Vibration detectors; Magnetic detectors; Ultrasonic flaw detectors; Flame detectors; Approximation detectors; Proximity detectors; Fire detectors; Electromagnetic measuring detectors; Heat detectors; Laser speed detectors; Magnetic object detectors; Electric smoke detectors; Ultrasonic detectors [non-medical]; Position detection sensors; Combustion gas detectors; Carbon monoxide detectors; Filling level detectors; Detection apparatus; Particle detecting apparatus; Leak detection apparatus; Light Detection and Ranging [LIDAR] apparatus; Ultraviolet detection apparatus; Carbon dioxide detectors; Gas detecting apparatus; Electronic sensors for measuring solar radiation; Laser sensors; Electronical sensors for measuring solar radiation; Water level detection apparatus; Fire detecting apparatus; Electrochemical gas sensors; Detecting apparatus and instruments; Drone detection systems; Gas sensors; Optical position sensors; Infrared scanners; Optical scanners; Passive infrared sensors; Devices providing night vision; Apparatus providing night vision; Image identifier night vision devices; Thermal imaging apparatus for night vision; Objectives [lenses] [optics]; Objectives [lenses] optics; Optical lens sights; Virtual reality goggles; Goggles; Virtual reality glasses; Monoculars; Magnifying glasses [optics]; Optical character recognition apparatus; Software for optical character recognition; Fibre optic periscopes; Optical character recognition apparatus [OCR]; Optical lenses; Lenses (Optical -); Retinal cameras [other than for medical use]; Optical memories; Augmented reality software for creating maps; Virtual reality software for education; Software testing software; Software reliability software; Collaboration software platforms [software]; Computer software packages; Software for computers; Enterprise software; Computer software development tools; System software; Computer software applications; Software applications; Computer application software; Computer software platforms; Application software; Networking software; Computer software programs; Hardware testing software; Telecommunications software; Downloadable software; Computer software applications, downloadable; Downloadable computer software applications; Server software; Computer programming software; Editing software; Business software; Platform software; Operating software; Programs (Computer -) [downloadable software]; Computer programs [downloadable software]; Downloadable computer security software; Smartphone software; Software suites; Embedded software; Security software; Optimisation software; Educational computer software; Hardware reliability software; Software development tools; Manufacturing software; Mobile software; Software for smartphones; Utility software; Computer software [programmes]; Communications software; Testing software; Downloadable software applications; Machine learning software; Control circuits; Remote control apparatus; Remote control apparatus for controlling lighting; Control amplifiers; Time control switches; Access control devices; Control devices (Automatic -); Security control apparatus; Control apparatus (Automatic -); Automatic control apparatus; Numerical control apparatus; Lighting control apparatus; Instruments for temperature control; Electrical remote control apparatus; Remote control apparatus (Electrical -); Electronic control apparatus; Electrical control apparatus; Traffic control

apparatus [mechanical]; Access control installations (Automatic -); Control apparatus (Electric -); Electric control apparatus; Energy control devices; Electronic apparatus for the remote control of signals; Electronic control units; Remote air conditioning control devices; Air traffic control apparatus; Access control units (Electric -); Engine control sensors; Remote control of signals (Electro-dynamic apparatus for the -); Testing and quality control devices; Traffic control apparatus [lighting]; Electrical control panels; Lighting control panels; Electric control valves; Control valves (Electric -); Process control units [electronic]; Electronic process control units; Automatic vacuum control apparatus; Content control software; Process control apparatus [electronic]; Electrical control boards; Electric control panels; Traffic control apparatus [electric]; Traffic control apparatus [luminous]; Remote entry point control apparatus; Process control apparatus [electric]; Electricity control panels; Control panels [electricity]; Panels for the control of electricity; Access control installations (Electric -); Temperature control apparatus [electric switches]; Sensors for use in the control of motors; Boiler control instruments; Electrical control instruments; Industrial automation software; Industrial automation controls; Robotic Process Automation [RPA] software; Control segment integration software; Workflow management system software; Application software to control lighting; Workflow applications; Computer-aided manufacturing software; Logistics software; Software for remote diagnostics; Predictive maintenance software; Application software for robot; Smart manufacturing software; Workforce management software; Product lifecycle management software; Computer software for application and database integration; Electromechanical software; Computer-aided manufacturing [CAM] software; Business technology software; Mechanical engineering software; Electrical engineering software; Chemical engineering software; Microwave engineering design software; Product engineering software; Computer-aided engineering [CAE] software; Computer hardware for use in computer-assisted software engineering; Development environment software; Development kits; Application development software; Software development programmes; Software for product development; Software development programs; Media development software; Website development software; Monitoring instruments; Alarm monitoring systems; Apparatus for monitoring water consumption; Apparatus for measuring, monitoring and analyzing electricity consumption; Monitoring apparatus, electric; Apparatus for monitoring gas consumption; Electric motor checking [monitoring or supervision] apparatus; Apparatus for monitoring heat consumption; Nonintrusive load monitoring [NILM] apparatus; Cloud network monitoring software; Voltage monitoring units; Monitoring units [electric]; Mains monitoring apparatus (Electric -); Nonintrusive appliance load monitoring [NIALM] apparatus; Apparatus for monitoring electrical energy consumption; Testing apparatus for checking optical devices; Checking (supervision) apparatus and instruments; Monitors; Network management apparatus; Ozone monitors, other than for medical use; Endurance testing machines; Non-destructive testing apparatus; In-flight testing equipment; Testing apparatus for testing printed circuit boards; Diagnostic apparatus for testing food; Leak testing apparatus; Resistance testing apparatus; Circuit testing instruments; Testing probes, other than for medical purposes; Battery testing apparatus; Brake testing apparatus; Meter testing apparatus; Concrete testing machines; Probes for testing semiconductors; Research laboratory analyzers for measuring, testing and analyzing blood and other bodily fluids; Semiconductor testing apparatus; Gas testing instruments; Calibrating apparatus; Computer component testing and calibrating equipment; Calibrators; Testing apparatus and instruments; Software for diagnostics and troubleshooting; Oscillation sensor devices; Temperature sensing apparatus for scientific use; Gyro sensors using GPS functions; Simulation apparatus; Simulation software [training]; Fire modeling and simulation software; Virtual reality software for simulation; Application simulation software; Vehicle simulation software; Augmented reality software for simulation; Simulators; Simulation software for use in digital computers; Instrumentation simulators; Virtual reality models; Machine learning software for analysis; Fire mapping and analysis software; Interactive computer software; Computer software for use in integrated circuit design; Downloadable computer software for designing and modelling of three dimensional printable products; Artificial intelligence software; Artificial intelligence apparatus; Artificial intelligence software for surveillance; Artificial intelligence software for analysis; Artificial intelligence software for healthcare; Artificial intelligence software for vehicles; Artificial intelligence and machine learning software; Software for the integration of artificial intelligence and machine learning in the field of Big Data; Machine learning software for healthcare; Machine learning software for advertising; Machine learning software for surveillance; Machine learning software for finance; Software for converting natural language into machine executable commands; Cloud servers; Cloud computing software; Cloud server software; Downloadable cloud computing software; Application software for cloud computing services; On-premise management software; Software for Digital Distributed Storage; Data storage media; Data storage devices and media; Virtual server software; Data storage devices; Computer network-attached storage [NAS] hardware; Computer network-attached storage (NAS) hardware; Magnetic data storage media; Enterprise content management [ECM] software; Electronic data storage media; Network-attached storage [NAS]; VPN [virtual private network] hardware; Big data management software; VPN [virtual private network] operating software; Downloadable mobile applications for the management of data; Digital solutions provider [DSP] software; Downloadable computer software for blockchain technology; Data storage discs; Intelligent gateways for software defined storage; Optical data storage drives; Data storage apparatus; Apparatus for data storage; Middleware for management of software functions on electronic devices; Enterprise application software [EAS]; Software for network and device security; Digital dashboard software; Image management software; Data buffers; Data networks; Data processing programs recorded on machine-readable data carriers; Data loggers; Data processors; Data terminals; Data processing software; Data cables; Data cards; Data switches; Data carriers; Data storage programs; Data processing systems; Data processing programs; Data mining software; Data banks; Data encryption apparatus; Computers for use in data management; Data engines; Data wires; Data synchronization cables; Data cartridges; Data transmission networks; Data compression software; Data collection apparatus; Data processing equipment; Data processing terminals; Real-time data processing apparatus; Data and file management and database software; Software for the analysis of business data; Data suits; Data processing apparatus; Apparatus for the processing of data; Apparatus for data processing; Optical data links; Data capture apparatus; Recorded data [magnetic]; Data encoding apparatus; Data loggers and recorders.

Class 11:

Electrostatic filters for water filtration; Membranes for the filtration of water; Water filtration apparatus; Water filtration installations; Water purification filters; Membrane filtration units for water treatment apparatus; Reverse osmosis filtration units [water treatment equipment]; Cartridge filtration units [water treatment equipment]; Appliances for water filtration [other than machines]; Reverse osmosis membrane filters for water treatment; Filters for water filtering apparatus; Filters for water purifiers; Filters for wastewater; Filter boxes for water purification; Membrane apparatus in the nature of filters for purifying water; Water treatment filters; Power filters for water purification [other than machines]; Membrane purifying apparatus for the purification of water; Membranes for water filtering apparatus; Water purification, desalination and conditioning installations; Water filters; Water filtering installations; Filters for air purifiers; Water filtering apparatus; Apparatus for water filtering; Apparatus for filtering water; Filters for sanitary water distribution apparatus; Purification installations (Water -); Installations for water purification; Water purification installations; Wastewater purification units; Water purification tanks; Water purification apparatus; Apparatus for water purification; Water filtering units; Filters for cleaning air; Filter apparatus for water supply installations; Water treatment apparatus for water purification; Filters for use with apparatus for water supply; Air purification installations; Water purification machines; Purification machines (Water -); Water purification units; Air purification apparatus; Purification apparatus (Air -); Waste water purification installations; Separators for purifying air; Water filters for industrial purposes; Apparatus for waste water purification; Apparatus for filtering drinking water; Water purifiers; Drinking water filters; Filters for drinking water; Drinking water (Filters for -); Filters for air conditioning; Air filters; Water disinfection apparatus; Water filtering apparatus for industrial use; Waste water purification units; Industrial installations for filtering liquids; Water purifying installations; Installations for purifying water; Water purifiers for industry; Apparatus for the purification of liquids; Water purifying units for producing potable water; Water treatment units for aerating and circulating water; Water sterilisers; Water treatment apparatus for water softening; Water sterilizers; Water taps being parts of water supply installations; Sea water desalination plants; Water desalination plants; Drinking water supply installations; Drinking water supply apparatus; Air conditioning; Air purifiers; Air filters for air conditioning units; Air inductor apparatus [air conditioning]; Air humidifiers; Air conditioning filters; Air sterilisers; Air conditioning fans; Electric air purifiers; Air sterilizers; Installations for conditioning air; Installations for air conditioning; Air conditioning installations; Conditioning air (Installations for -); Filters for air conditioners; Air humidifying installations; Air conditioning apparatus; Air filter installations; Ionisers for air treatment; Air filtration installations; Clothes drying apparatus [heat drying]; Clothes drying installations [heat drying]; Hand drying apparatus [heat drying]; Mobile drying apparatus [heat drying]; Drying ovens; Drying apparatus; Apparatus for drying; Drying cabinets; Drying installations; Installations for drying; Air drying apparatus; Laundry drying machines; Electric dryers for laundry use [heat drying]; Electric clothes dryers [heat drying]; Dish drying machines; Drying apparatus and installations; Apparatus and installations for drying; Industrial drying installations; Tumble driers [heat driers]; Electric clothes drying machines for household use; Appliances for heating; Underfloor heating apparatus; Apparatus for heating; Heating apparatus; Solar heating apparatus; Heating installations; Installations for heating; Heating units; Heating elements; Electric heating installations; Electric heating elements; Heating apparatus, electric; Electric heating apparatus; Heating apparatus for furnaces; Electric radiant heating apparatus; Radiators for central heating systems; Heating installations [water]; Water heating installations; Electric water heating apparatus; Hot water heating apparatus; Hot water heating installations; Steam heating apparatus; Industrial heating furnaces; Hot air heating apparatus; Air heating apparatus; Underfloor heating apparatus and installations; Solar heating installations; Air heating installations; Warm air heating apparatus; Installations for central heating; Central heating installations; Electric heating fans; Solar thermal collectors [heating]; Infrared heating panels; Heating apparatus for use in the home; HVAC systems (heating, ventilation and air conditioning); Heating installations for fluids; Central heating apparatus; Solar heating panels; Solar panels for use in heating; Solar collectors for heating; Heating, ventilating, and air conditioning and purification equipment (ambient); Floor heating apparatus; Industrial heating apparatus; Cooling evaporators; Evaporative cooling towers; Coils for cooling; Cooling apparatus; Evaporative air cooling units; Cooling installations; Water cooling apparatus; Water cooling installations; Cooling installations for water; Installations for cooling water; Installations for the cooling of water; Water cooling towers; Cooling elements; Air cooling apparatus; Installations for the cooling of air; Cooling installations for fluids; Cooling installations for liquids; Cooling apparatus for liquids; Coils [parts of distilling, heating or cooling installations]; Cooling apparatus and appliances; Industrial cooling installations; Cooling appliances and installations; Cooling installations and machines; Electric space cooling apparatus; Electrically-operated devices used in cooling; Coils being parts of cooling installations; Vehicle HVAC systems (heating, ventilation and air conditioning); Portable evaporative air coolers; Air-source heat pump water heaters; Sterilisation autoclaves; Sterilization autoclaves; Sterilization apparatus; Book sterilisation apparatus; Electrical autoclaves for use in sterilization; Ultra-violet water sterilisation units for domestic use; Ultra-violet water sterilisation units for industrial use; Sterilising apparatus; Ultraviolet sterilization units [water treatment equipment]; Water sterilising apparatus; Sterilising appliances; Sterilizing installations; Book sterilization apparatus; Chemical sterilization units [water treatment equipment]; Sterilisers; Sterilizing apparatus; Sterilizing devices; Air sterilising apparatus; Pressure vessels for sterilising; Portable steam sterilizing apparatus; Disinfection apparatus; Sterilizers; Steam sterilisers; Sewage treatment [purification] installations; Ultraviolet sterilizers; Ionization apparatus for the treatment of water; Autoclaves (not for medical use).

Class 42:
Development of computer hardware and software; Computer software integration; Computer software development; Development of computer software; Computer software consultancy; Consultancy (Computer software -); Software engineering; Computer software consulting; Computer hardware and software design; Design of computer hardware and software; Computer software design; Software design (Computer -); Computer software (Design of -); Design of computer software; Computer software engineering; Software development; Development of software; Computer software installation; Computer software (Installation of -); Installation of computer software; Update of computer software; Testing of computer software; Design of software; Software design; Development of computer database software; Installation of software; Software

installation; Design and development of computer hardware and software; Configuration of computer software; Computer software maintenance; Computer software (Maintenance of -); Maintenance of computer software; Computer software design services; Services for the design of computer software; Design of computer database software; Developing computer software; Upgrading of computer software; Software as a service [SaaS] featuring software for machine learning; Updating of computer software; Software (Updating of computer -); Computer software (Updating of -); Development of computer software application solutions; Computer software programming services; Computer software research; Design and development of antivirus software; Quality control; Creation of control programs for electric operation control and drive modules; Quality control testing; Quality control for others; Certification [quality control]; Quality control services; Quality control of services; Testing, authentication and quality control; Research relating to the computerised automation of industrial processes; Research relating to the computerised automation of administrative processes; Research relating to the computerised automation of technical processes; Development of software for Automated Business Process Discovery (ABPD); Creation of control programs for automated measurement, assembly, adjustment, and related visualisation; Design and development of software for control, regulation and monitoring of solar energy systems; Quality control testing services for industrial machinery; Development of software for communication systems; Design and development of computer software for process control; Development of computer software for use with programmable controllers; Services for monitoring industrial processes; Programming of electronic control systems; Software engineering services for data processing; Maintenance of data processing software; Design and development of data processing software; Engineering services for the analysis of machinery; Development, updating and maintenance of software and database systems; Design and development of electronic database software; Testing of electronic data processing systems; Development of industrial processes; Maintenance of software; Development of software for digital signal processing; Testing the functionality of machines; Development of industrial machinery; Quality control testing services for agricultural machinery; Engineering; Engineering (engineering work); Engineering and computer-aided engineering services; Technical engineering; Mechanical engineering; Engineering design; Engineering surveying; Surveying [engineering]; Engineering research; Chemical engineering; Mechanical engineering services; Computer engineering; Engineering design and consultancy; Engineering testing; Engineering services; Engineering design services; Engineering work; Architectural and engineering services; Electrical engineering services; Structural engineering services; Industrial engineering design services; Technological engineering analysis; Engineering services for the design of machinery; Engineering drawing; Drawing (Engineering -); Computer-aided engineering design services; Technical consulting in the field of environmental engineering; Design of engineering products; Research relating to mechanical engineering; Research in the field of electrical engineering; Engineering consultancy relating to design; Software engineering services; Design and development of engineering products; Engineering services in the field of environmental technology; Engineering drawing services; Computer-aided engineering design and drawing services; Technical project planning in the field of engineering; Engineering services for the design of structures; Computer engineering consultancy services; Engineering services relating to robotics; Engineering consultancy services; Technical consultancy services relating to structural engineering; Engineering project management services; Engineering feasibility studies; Engineering consultancy relating to computer programming; Engineering consultancy relating to manufacture; Engineering services in the field of communications technology; Engineering consultancy relating to testing; Preparation of engineering drawings; Research and development services in the field of engineering; Engineering services in the field of energy technology; Engineering consultancy relating to data-processing; Engineering services relating to the design of communications systems; Engineering services relating to the design of electronic systems; Advisory services relating to design engineering; Advisory services relating to industrial engineering; Engineering services relating to computer programming; Technological advisory services relating to machine engineering analysis; Design of prototypes; Product design; Design consultancy; Technical design; Hardware design; Industrial design; Design (Industrial -); Design of tooling; Design of models; Design of products; Design of tools; Tool design; Computer design; Computer-aided industrial design; Analysis of product design; Computer specification design; Design of instruments; Design of graphic software systems; Design of manufacturing methods; Database design; Evaluation of product design; Database design and development; Design and development of computer hardware architecture; New product design; Design and development of databases; Design and development of networks; Design, development and implementation of software; Design and development of multimedia products; Design and development of computer software architecture; Research (Scientific -); Scientific research; Scientific research and analysis; Laboratory research; Scientific research and development; Research laboratories; Scientific research services; Technical research projects and studies; Consultancy in the field of scientific research; Technical research; Technological research; Industrial analysis and research; Industrial research and analysis; Scientific and industrial research; Geological research; Research (Geological -); Agricultural research; Biomedical research services; Research laboratory services; Biochemical research and analysis; Product research; Research in instrumentation; Research of pharmaceuticals; Software research; Research services; Research relating to science; Industrial research; Research of agriculture; Scientific research in the field of pharmacy; Scientific research conducted using databases; Chemical research; Research and development for others; Preparation of reports relating to scientific research; Research relating to biotechnology; Research and development in the field of biotechnology; Biochemistry research services; Consultancy in the field of technological research; Product research and development; Food research; Research and development services; Advisory services relating to scientific research; Consultancy in the field of pharmaceutical research; Conducting of scientific studies; Mechanics research; Research in the field of materials science; Research in measurement technology; Research in the field of information technology; Industrial analysis and research services; Industrial research and analysis services; Design and development of software for website development; Product development; Industrial process development; Software design and development; Product design and development; Analysis of product development; Development and testing of software; Development (Research and -) of products; Product development consultation; Software development, programming and implementation; Industrial

development services; Consultancy relating to software design and development; Development of computers; Development of industrial products; Design and development of industrial products; Design and development of software for inventory management; Consultancy services in the field of technological development; Design and development of telecommunications systems; Development of testing methods; Design and testing for new product development; Technical consultancy relating to product development; Design and development of firmware systems; Design and development of new products; Consultancy relating to the design and development of computer programs; Design and development of navigation systems; Design and development of testing and analysis methods; Development of driver software; Research, development, design and upgrading of computer software; Database development services; Development of data programs; Development of new products; Research and development services in the field of chemistry; Design and development of telecommunications networks; Design and development of Internet security programs; Product development for others; Services for the development of methods of testing; Research and development of computer software; Website development services; Development of computer platforms; Research relating to the development of computer software; Design and development of data processing programs; Design and development of new technology for others; Advisory services in the field of product development and quality improvement of software; Design and development of consumer products; Design and development of computer software; Computer software design and development; Testing services for alarm and monitoring systems; Monitoring of network systems; Testing, analysis and monitoring of telecommunication signals; Environmental monitoring services; Testing, analysis and monitoring of navigation signals; Monitoring of water quality; Computer system monitoring services; Process monitoring for quality assurance; Computer security system monitoring services; Monitoring of computer systems to detect breakdowns; Monitoring of computer systems for security purposes; Machine condition monitoring; Condition monitoring relating to fluids; Monitoring of computer systems for detecting unauthorized access or data breach; Airborne remote monitoring relating to environmental explorations; Environmental monitoring of waste treatment areas; Condition monitoring relating to greases; Monitoring of computer systems by remote access; Condition monitoring relating to lubricants; Condition monitoring relating to oils; Environmental monitoring of waste storage areas; Airborne remote monitoring relating to scientific explorations; Conducting sampling and analysis services to assess pollution levels; Conducting sampling and analysis services to check for contamination; Development of measuring and testing methods; Laboratory testing; Product testing; Component testing; Technical testing; Laboratory testing services; Testing of chemicals; Materials testing and evaluation; Testing of apparatus; Quality testing; Materials testing; Testing of materials; Testing of pharmaceuticals; Biotechnology testing; Environmental testing; Laboratory testing of materials; Conformance testing services; Material testing; Testing (Material -); Testing of machinery; Technical measuring and testing; Computer testing; Testing of computers; Non-destructive testing services; Quality checking and testing; Laboratory services for analytical testing; Safety testing of products; Soil testing services; Scientific testing services; Materials testing and analysing; New products (Testing of -); Environmental testing and inspection services; Conducting industrial tests; Product safety testing services; Product quality testing; Technical testing services; Environmental testing of vibration; Electromagnetic compatibility testing services; Material testing services; Conducting of quality control tests; Application system testing consultancy; Testing, analysis and evaluation of the services of others for the purpose of certification; Safety testing of pressure equipment and installations; Calibration [measuring]; Calibration of instruments; Calibration of machines; Calibration services; Calibration services relating to analytical apparatus; Calibration services relating to electronic apparatus; Calibration services relating to computer software; Measurement evaluation services; Design of measurement systems; Programming of computer software for evaluation and calculation of data; Blasting vibration measurement; Testing the functionality of apparatus and instruments; Design and development of computer software for evaluation and calculation of data; Design of diagnostic apparatus and equipment; Design and development of wireless data transmission apparatus, instruments and equipment; Design and development of computer software for vehicle simulation; Development of computer programs for simulating laboratory experiments; Design of computer-simulated models; Developing programs for simulating experiments or series of experiments in a virtual optical laboratory; Design and development of computer game software and virtual reality software; Design and development of virtual reality software; Development of virtual reality software; Design of virtual reality software; Design of mathematical models; Development and testing of computing methods, algorithms and software; Analysis (Computer systems -); Systems analysis (Computer -); Computer systems analysis; Computer system analysis; Comparative analysis studies of the performance of computer systems; Consultancy in the field of computer system analysis; Computer analysis; Comparative analysis studies of the efficiency of computer systems; Development of computer software for use with computer-controlled switching systems; Design of computer machine and computer software for commercial analysis and reporting; Laboratory analysis; Development of computer programs for combustion process analysis inside an engine; Computer graphic design for video projection mapping; Computer system design and development; Design and development of data retrieval software; Development services relating to virtual reality software; Design and development of data output systems; Artificial intelligence consultancy; Artificial intelligence as a service (AIAAS); Research in the field of artificial intelligence; Technology consultation in the field of artificial intelligence; Research in the field of artificial intelligence technology; Platforms for artificial intelligence as software as a service [SaaS]; Providing artificial intelligence computer programs on data networks; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Software as a service [SaaS] services featuring software for machine learning, deep learning and deep neural networks; Technological studies relating to machine tools; Cloud computing services; Cloud storage services for electronic data; Consulting services in the field of cloud computing; Cloud storage services for electronic files; Cloud hosting provider services; Consulting in the field of cloud computing networks and applications; Providing virtual computer environments through cloud computing; Public cloud hosting provider service;
