Class 1:
Adhesives for floors, ceilings and wall tiles; contact adhesives; contact adhesives for use with wood; adhesives for wall tiles; contact adhesives for use with laminates; adhesives for industrial purposes; adhesives for applying wall coverings; adhesives for the building industry; adhesives for floor tiles; adhesives for use in the manufacture of wall coverings; silicones; waterproofing adhesives; substances for binding in manufacturing processes; bonding primer for consolidating cement floor screeds [building materials]; glue for industrial purposes; polymer beads for use in manufacture; graphite for industrial purposes; polymer resins, unprocessed; thermoplastic resins, unprocessed; chemical preparations for the manufacture of paints; acids; solvents for varnishes; epoxy resins, unprocessed; water repellent chemical compositions; bonding agents for admixture with mortars; chemical compositions for waterproofing; fire-retardant chemicals; water resistant protective surface coatings [chemicals, other than paints]; fireproofing preparations; synthetic resins, unprocessed; fillers for the building industry; bonding agents for plaster; chemical additives for plaster; chemical additives for use in manufacture; chemical additives for polymers; chemical additives for concrete; chemical compositions for waterproofing masonry; primers for exterior surfaces of buildings [other than paints or oils]; primers for wood surfaces [other than paints or oils]; chemical penetrating sealers for natural stone; chemical preparations to prevent mildew; binding substances for industrial purposes; adhesives for construction; chemicals for use in industry; unprocessed artificial resins, unprocessed plastics; fire extinguishing and fire prevention compositions; adhesives for use in industry; biological preparations for use in industry.

Class 2:
Paints; water-repellent paints; siloxane water-repellent paints; anti-corrosive paints; lime wash paints; damp proofing paints; oil paints; bactericidal paints; fireproof paints; waterproof paints; synthetic resin-based paints; paints for arts and crafts; exterior paints; interior paints; ready-to-use paints; paints for concrete floors; water-based paints; washable water-based paints; breathable water-based paints; silicate water-based paints; water-based paints for plasterboard; badigeon; protective siloxane finishes [paints]; acrylic-siloxane finishes [paints]; decorative coloured lime finishes [paints]; solvent finishes for covering stains [paints]; elastomer finishes [paints]; coatings [paints]; hydrosilicone coatings [paints]; acrylic siloxane coatings [paints]; acrylic coatings [paints]; silicate coatings [paints]; elastomeric coatings [paints]; coating preparations with water repellent properties [paints]; non-stick coatings in the nature of paint; weatherproofing coatings [paints]; whitewash; lime wash; filling undercoats with fine render effect, for exteriors and interiors; fixatives [varnishes]; fixatives for colorants; impregnating varnishes for wood; preparations for use as waterproofing coatings on the surfaces of buildings [paints]; preparations for use as waterproofing coatings on the surfaces of structures [paints]; wood preservatives; wood stains; treatment preparations for preserving wood; corrosion inhibitors in the nature of coatings; wood coatings [paints]; protective coatings for metals [paints]; protective preparations for metals; anti-corrosive preparations; wall primer for use in construction; screed primers for use in construction; levelling preparations in the nature of paints; pigmented undercoats; impregnating undercoats; paints, varnishes; preservatives against rust and against deterioration of wood; colorants, dyes; raw natural resins.

Class 17:
Insulating coatings; fiberglass fabrics for insulation; glass wool for insulation; sheets for sound insulation; slag wool [insulator]; insulating fabrics; products for insulating buildings against moisture; insulating varnish; insulating paper; insulators for cables; foils of metal for insulating; insulating materials; insulating refractory materials; fiberglass reinforcing meshes for thermal insulation; washers of rubber or vulcanized fibre; reinforcement fabrics made of fiberglass, mineral fibers, plastic materials for use in thermal insulation materials; synthetic polymers in slab form for the manufacturing industry; sheets of graphite for insulating; semi-processed synthetic polymer resins; semi-processed polymer resins in the form of plates; semi-processed thermoplastic polymer resins for use in manufacture; thermoplastic resins reinforced with natural fibres [semi-processed products]; synthetic resins in slab form for the manufacturing industry [semi-processed products]; thermal insulating materials; insulators; acoustic insulators; building insulation materials; acoustic insulating panels; sealing, stopping and insulating materials; acoustic insulation barrier panels; expanded foam insulation materials for use in building and construction; insulating materials for construction; insulating materials for building; glass fiber insulation materials for use in construction; fiberglass insulation materials for building; insulating materials made of polyethylene foam; insulating materials made of polyurethane foam; insulating adhesives; insulation slabs; foam sheeting for use as building

insulation; insulated joints; hydro-expansive joints; pipe joint sealants; sealant compounds for joints; sealing foam for joints; polyurethane sealants; waterproofing sealants; sealants for buildings; polyurethane foam sheeting for use as building insulation; filtering materials of semi-processed plastic foams; insulating foam for use in building and construction; cladding for thermal insulation; non-woven fabrics for proofing against water and moisture; industrial coatings [insulation]; insulation panels; insulating boards; insulating materials in the form of floor coverings; corner protectors of rubber; acoustic insulation panels; acoustic boards for ceilings [insulation]; insulating fibreboard panels for high temperatures; insulation fiber boards; panels made of polyvinylchloride based expanded polymer [semi-finished]; soundproofing boards for insulation; soundproofing boards made from non-metallic materials; panels made of polyvinylchloride based expanded polymer for use in manufacture; polystyrene panels for insulating purposes; fibreglass meshes for insulation; non-metallic couplings for pipes; non-metallic connectors for pipe joints; weatherstripping for use in homes; adhesive compounds for sealing; insulating mineral wool; mineral wool for building insulation; fiberglass for insulation; glass fibers for the manufacture of building insulation materials; semi-processed artificial resins; semi-processed synthetic resins; polymeric fibers, other than for textile use; silicone sealants; silicone rubber; polyurethane panels for thermal insulation; polyurethane substrates for thermal insulation; polymer resin fibres [other than for use in textiles]; fire-resistant insulation panels; glass wool panels for acoustic insulation; glass wool panels for thermal insulation; materials to prevent heat radiation; acoustic insulating materials; joint sealants for building purposes; sealing compounds; fabrics made of mixed synthetic and natural fibres for use as insulation; chemical compositions for sealing leaks; carbon fibres, other than for textile use; plastic fibres, other than for textile use; semi-worked polymer resins in the form of fibres; felt for insulation; self-adhesive tapes, other than stationery and not for cosmetic, medical or household purposes; chemical compositions for repairing leaks; semi-processed rubber, gutta-percha, gum and semi-processed plastic materials and substitutes for all these materials; plastics and resins in extruded form for use in manufacture; packing, stopping and insulating materials; flexible pipes, tubes and hoses, not of metal.

Class 19:
Coatings [building materials]; slabs, not of metal; cement slabs; bricks; non-metallic reinforcing meshes for construction; polystyrene slabs for use in building; slabs, not of metal, for building; non-metallic building materials in the form of slabs; non-metal building slabs incorporating acoustic insulation; polymer concrete; cladding, not of metal, for building; cementitious wall coatings; cementitious restorative coatings; building materials, not of metal; refractory construction materials, not of metal; facing plaster; lime mortar; gypsum mortar; cement mortar for use in construction; aluminia-based cement mortar; concrete levelling mortar; rapid hardening mortar for building purposes; facing mortar; refractory mortar; finishing mortars made of colored artificial resins; water repellent mortar; binding mortar for building purposes; adhesive mortar for building purposes; lime; hydrated lime for building; cement; cement mixes; filling paste [building materials]; epoxy grouts; raw gypsum; plaster; gypsum [building material]; gypsum compound for repairing cracks in plaster; gypsum compound for repairing holes in plaster; spackling compounds; levelling preparations [cement or mortar]; fiberboard [building materials]; undercoats for restoration of damp masonry [building materials]; cement undercoat for concrete substrates for exteriors and interiors [building materials]; gypsum base or finish coat [building materials]; finishing plasters made of colored artificial resins; stone veneers [building materials]; skim coats; gypsum wallboards; glass powder for use in building; insulating glass for building; thermal insulating glass for use in building; structural glass for building; glass panels for building; fiberglass panels for building; building materials of concrete reinforced with plastics and glass fibers; resin-saturated fiberglass fabric for use in transportation, structural reinforcement, and structural repairs; sheathing boards, not of metal; coverings for ceilings, not of metal; roof coverings, not of metal; reinforcement cladding, not of metal, for building; wired glass sheets for building; acoustic panels, not of metal; wall panels, not of metal; building panels, not of metal; waterproof boards and panels, not of metal, for building; fire-resistant boards and panels, not of metal, for building; non-metal building panels incorporating acoustic insulation; fiberboard [building material]; ceiling and wall panels, non-metallic; wall claddings, not of metal, for building; scaffolding, not of metal, for building; agglomerated cork for building; materials, not of metal, for building and construction; rigid pipes, not of metal, for building; transportable buildings, not of metal; monuments, not of metal.

Precious metals, unwrought or semi-wrought; boxes of precious metal; jewelry boxes; jewellery rolls; badges of precious metal; medals; brooches [jewellery]; trinkets [jewelry]; jewellery; jewellery findings; bracelets [jewellery]; necklaces [jewellery]; rings [jewellery]; earrings; precious stones; paste jewellery; jade carvings being jewelry; works of art of precious metal; key rings [split rings with trinket or decorative fob]; key chains [split rings with trinket or decorative fob]; lanyards for keys; silver objets d'art; pendants [jewelry]; charms for key rings; key chains for use as jewelry; jewelry stickpins; clocks; watch straps; wristwatches; jewelry for pets; ornamental models made of precious metal; scale models [ornaments] of precious metal.

Class 16:
Paper; tracing paper; handkerchiefs of paper; paper decorations for foodstuffs; signboards of paper or cardboard; figurines of papier mache; stickers [stationery]; printed matter; pamphlets; postcards; posters; periodicals; printed publications; lithographic works of art; apparatus for mounting photographs; postage stamps; oil paintings; silk screen prints; pictures; lithographic prints; engravings; lithographs; etchings; cards; photographs [printed]; bags [envelopes, pouches] of paper or plastics, for packaging; filler paper; packing [cushioning, stuffing] materials of paper; protective packing materials of paper or cardboard; articles for wrapping, packaging and storing made of paper, cardboard or plastic; carrier bags of paper or plastic; boxes of paper or cardboard; pencil sharpeners, electric or non-electric; calendars; bookmarks; stationery; writing or drawing books; folders for papers; covers [stationery]; passport holders; stamps [seals]; passport covers; ink; pens [office requisites]; gummed tape [stationery]; drawing instruments; drawing materials; addressing machines; teaching materials [except apparatus]; tailors' chalk; modelling materials; moulds for modelling clays [artists' materials]; mezuzah parchments; mezuzah cases; model figures [ornaments] made of cardboard; model figures [ornaments] made of papier mache.

Class 18:
Fur; leathercloth; bags; reusable shopping bags; textile shopping bags; multi-purpose handbags; cases of leather or leatherboard; trunks [luggage]; leather shopping bags; canvas shopping bags; key bags; leather straps; backpacks; handbags; wallets; school bags; bags for sports; suitcases; luggage tags; vanity cases, not fitted; calling card cases in the nature of wallets; wallets incorporating passport holders; trimmings of leather for furniture; leather cord; children's shoulder bags; umbrellas; parasols; walking sticks; harness for animals; clothing for pets; leather bags for packaging jewellery.

Class 20:
Display cabinets; display shelves; toy boxes [furniture]; furniture; sofas; boxes made of plastics materials for packaging; plastic storage containers for commercial or industrial use; boxes, not of metal, for dispensing paper wipes; boxes of wood or plastic; clips of plastic for sealing bags; mirrors; hand-held mirrors [toilet mirrors]; picture frames; photo frames;

decorative mirrors; fans for personal use, non-electric; hand-held flat fans; hand-held folding fans; wheat straw craftwork; works of art of bamboo; works of art of wood; works of art of straw; plastic sculptures; wind chimes; figurines of resin; statuettes of resin; works of art made of fiberglass reinforced plastic; wooden sculptures; works of art of wood, wax, plaster or plastic; display boards; plastic signboards; plastic holders for signboards; labels of plastic; decorations of plastic for foodstuffs; kennels for household pets; identification bracelets, not of metal; funerary urns; coffins; non-metal clothes hooks; drawer organizers; pillows; bolsters; neck pillows; cushions; locks, not of metal, other than electric; model figures [ornaments] made of plaster; model figures [ornaments] made of plastic; horn, unworked or semi-worked; figurines of bone; statues of ivory; curios made of ivory; shells, unworked or semi-worked; bone carvings; carvings of plaster; carvings of plastic; carvings of wax; carvings of wood.

Class 21:
Household utensils; kitchen utensils; cups; bowls; plates; basins [receptacles]; bottles; cup lids; basins [bowls]; kettles, non-electric; jugs; place mats, not of paper or textile; tableware, other than knives, forks and spoons; cookie [biscuit] cutters; glassware for domestic use; porcelain ware; porcelain for household use; porcelain for kitchen use; porcelain coasters; porcelain containers; porcelain mugs; porcelain spice jars; works of art of porcelain, ceramic, earthenware, terra-cotta or glass; china ornaments; works of art made of crystal; drinking vessels; coffeepots, non-electric; liqueur sets; coffee services [tableware]; drinking glasses; straws for drinking; electric aromatic oil diffusers, other than reed diffusers; non-electric aromatic oil diffusers, other than reed diffusers; perfume burners, electric and non-electric; piggy banks; towel rails and rings; covers for tissue boxes; soap boxes; flower pots; vases; shoe horns; smart medicine bottles, empty; valet trays [receptacles for small objects] for household purposes; combs; brushes; material for brush-making; toothbrushes; dental flossers; toothbrushes, electric; toothpick holders; floss for dental purposes; cosmetic utensils; make-up removing appliances; facial cleansing brushes, electric and non-electric; cosmetic bags, fitted; thermally insulated flasks for household use; thermally insulated containers for food; sponges for household purposes; cleaning instruments, hand-operated; crystal [glassware]; cages for household pets; indoor aquaria; ultrasonic mosquito repellers; model figures [ornaments] made of ceramic; model figures [ornaments] made of china; model figures [ornaments] made of glass; model figures [ornaments] made of porcelain; model figures [ornaments] made of earthenware; works of art made of bone china; works of art of clay; small household goods, namely enamelled boxes and jars.

Class 24:
Cloth; fabric; upholstery fabrics; plastic material [substitute for fabrics]; gummed cloth, other than for stationery purposes; textile labels; wall hangings of textile; fabrics covered with motifs to be embroidered; bath linen; felt; towels [textile]; table napkins of textile; bed linen; blanket throws; sleeping bags; bed blankets; household linen; door curtains; fitted toilet lid covers of fabric; flags of textile or plastic; shrouds.

Class 25:
Clothing; trousers; outerclothing; shirts; sweaters; pyjamas; infantwear; swimsuits; rain coats; masquerade costumes; footwear; caps [headwear]; socks; gloves [clothing]; scarves; shawls; belts [clothing]; religion garment; sashes for wear; shower caps; sleep masks; hairdressing capes; wedding dresses; sweat bands [clothing]; t-shirts; beach clothes; articles of clothing; articles of fancy dress; skirts; bikinis; boots; children's clothing; clothing authenticated by non-fungible tokens [nfts]; clothing for babies; clothing for sports; coats; collars; dance clothing; non-slipping devices for footwear, soles for footwear, and fittings of metal for footwear; formal dress; formal footwear; gowns; hats; headbands; jeans; men's clothing; women's clothing; rainproof clothing; rainwear; shoes; shoes for casual wear; shoes for sports wear; sneakers; sandals; sportswear; underwear; wind jackets; work clothes; earmuffs; dance shoes; scarfs; bow ties; beach hats; rain boots; snow boots; flip-flops; slippers.

Class 26:
Hair bands; lace for edgings; fancy goods [embroidery]; knitted cords for clothing or trimming; badges for wear, not of precious metal; decorative charms for cellular phones; decorative pins for wear, other than jewelry; buckles [clothing accessories]; brassards; hair curlers, other than hand implements; hair curling papers; electric and non-electric hair curlers, other than hand implements; hair grips; hair curling pins; hair slides; charms, other than for jewellery, key rings or key chains; top-knots [pompoms]; brooches [clothing accessories]; buttons; belt buckles of precious metal [for clothing]; wigs; sewing kits; knitting kits; artificial flowers; artificial bonsai; shoulder pads for clothing; heat adhesive patches for decoration of textile articles [haberdashery]; competitors' numbers; letters for marking linen; breast lift tapes; campaign buttons; novelty badges [buttons] for wear; ornamental novelty badges [buttons]; name tags [textile patches] for ironing-on; feathers for ornamentation.

Class 27:
Rugs; mats; gymnastic mats; floor coverings; floor mats; non-slip mats; yoga mats; carpets for automobiles; door mats; tatami mats; textile wall coverings; wallpaper; wall hangings, not of textile.

Class 28:
Claw crane game machines; apparatus for games; amusement machines, automatic and coin-operated; counters [discs] for games; kites; building bricks [toys]; fairground ride apparatus; toys; plush toys; building blocks [toys]; toy dolls; toy figures; action figures; ball-jointed dolls [BJD]; clothes for dolls; positionable toy figures; doll playsets; toy models; toys in the form of puzzles; collectible toy figures; party balloons; smart toys; toy houses; scale model kits [toys]; kits of parts [sold complete] for constructing toys; kits of parts [sold complete] for the assembly of toys; wind-up toys; action figure dolls; toy animals; doll house furniture; toy cars; piñatas; inflatable toys; toy scooters; jigsaw puzzles; flying discs [toys]; toy wind bells; chess sets; playing cards; card games; board games; trading cards for games; trading card games; balls for games; exercise equipment, other than for medical rehabilitative purposes; archery implements; discuses; skateboards; machines for physical exercises; hunting game calls; swimming pools [play articles]; plastic race tracks [toys]; protective paddings [parts of sports suits]; snowshoes; swimming floats; wrist guards for sports use; ornaments for christmas trees, except lights, candles and confectionery; fishing tackle; scratch cards for playing lottery games; camouflage screens [sports articles];

twirling batons; craft kits for games and playthings; craft model kits [toys]; model figures [toys or playthings]; model figures [toys or playthings] for sale in kit form; amusement apparatus for use in arcades; electronic video lottery terminals [gaming machines]; electronic bingo machines [gaming machines]; toy cookware.

Class 29:
Meat-based snack food; fish-based snack food; seaweed extracts for food; meat, tinned; fruit-based or vegetable-based snack food; vegetables, processed; eggs; milk products; oils for food; nuts, prepared; jellies for food, other than confectionery; edible fungi, processed; tofu; milk tea, milk predominating; butter; cream [dairy products]; milk; yogurt; milk beverages, milk predominating; soya milk; milk shakes; coconut milk-based beverages.

Class 30:
Coffee; tea-based beverages; tea; sugar; sweets; pastries; cereal-based snack food; freeze-dried dishes with the main ingredient being rice; cereal preparations; noodle-based prepared meals; starch for food; ice cream; condiments; baking soda [bicarbonate of soda for baking purposes]; essences for foodstuffs, except etheric essences and essential oils; ices and ice creams; ice cream based snack foods; tea-based milk tea; fruit teas; fruit-flavoured tea-based beverages; confectionery; honey; pizzas; chocolate; cakes; bread; biscuits; baked desserts, namely, cakes, pastries, biscuits, pies and tarts; frozen confectionery; chewing gum for breath freshening.

Class 32:
Beer; bean-based beverages; soft drinks; non-alcoholic beverages; waters [beverages]; soda water; whey beverages; plant-based beverages; non-alcoholic beverages flavoured with tea; syrups and other non-alcoholic preparations for making beverages; fruit juices; soda pops; syrups for beverages; cola beverages; fruit juice smoothies.

Class 35:
Advertising; presentation of goods on communication media, for retail purposes; advertising for others on the internet; business management services relating to franchising; organization of exhibitions for commercial or advertising purposes; organization of art exhibitions for commercial or advertising purposes; business management assistance; administration of consumer loyalty programs; marketing; provision of an online marketplace for buyers and sellers of goods and services; import-export agency services; sales promotion for others; procurement services for others [purchasing goods and services for other businesses]; online marketing services; marketing through product placement for others in virtual environments; personnel management consultancy; business management of performing artists; web indexing for commercial or advertising purposes; accounting; business auditing; rental of vending machines; rental of sales stands; rental of cash registers; sponsorship search; retail services for pharmaceutical, veterinary and sanitary preparations and medical supplies; retail services for works of art provided by art galleries; retail services in relation to works of art; retail services for toys; wholesale services for toys; online retail services relating to toys; online wholesale store services relating to toys; online auctioneering featuring goods authenticated by non-fungible tokens [nfts]; provision of an online marketplace for buyers and sellers of downloadable digital works of art authenticated by non-fungible tokens [nfts]; provision of an online marketplace for buyers and sellers of downloadable music files authenticated by non-fungible tokens [nfts].

Class 9:
Downloadable and recorded computer software for deploying, configuring and executing artificial intelligence software agents in enterprise computing environments; computer software for connecting artificial intelligence software agents to enterprise business information systems, including enterprise resource planning (ERP), customer relationship management (CRM), enterprise asset management (EAM), computerized maintenance management (CMMS), field service management, supply chain management, human resources management, financial management and project management systems, through application programming interfaces and web service endpoints; computer software for the creation, configuration, version control and distribution of role-specific artificial intelligence software agents combining configurable natural-language prompts, software skill modules and integration bindings; computer software for natural language processing of user queries against enterprise business data and for executing read and write operations against enterprise information systems through their native application programming interfaces; computer software for the orchestration and execution of multi-step business workflows by interpreting directed-acyclic-graph step sequences; computer software for the generation of user interface components, including forms, dashboards, checklists and data-entry screens, from natural-language prompts, and for binding such components to data sources; computer software for routing requests across multiple large language model providers according to configurable per-tenant routing policies; computer software for restricting large language model usage to a configurable allow-list of providers that do not retain user data; computer software for managing per-tenant authentication credentials, OAuth access tokens, access permissions and token-usage cost reporting for artificial intelligence services; computer software for the storage, indexing and retrieval of conversational and document-based information using vector embeddings and hierarchical context references; computer software for the ingestion, chunking and embedding of documents for retrieval-augmented generation; computer software for the execution of user-supplied program code in isolated computing sandboxes; downloadable application programming interface (API) software for the bidirectional synchronization of artificial intelligence software outputs with enterprise business information systems; machine learning software; computer software for connecting artificial intelligence software agents to customer relationship management and sales force automation systems, namely software for automated lead capture and qualification, sales opportunity tracking, sales pipeline reporting, customer interaction logging and sales workflow automation operating through the application programming interfaces of customer relationship management systems; computer software for connecting artificial intelligence software agents to marketing automation and customer engagement systems, namely software for the automated generation of marketing content, audience segmentation, customer journey orchestration, campaign scheduling and engagement reporting operating through the application programming interfaces of marketing automation systems; computer software for connecting artificial intelligence software agents to customer service and contact-centre management systems, namely software for automated case routing, automated virtual assistant interactions with customers, knowledge-base article retrieval, service resolution workflow automation and service performance reporting operating through the application programming interfaces of customer service systems; computer software for connecting artificial intelligence software agents to field service management, enterprise asset management and computerized maintenance management systems, namely software for automated work order creation and assignment, predictive maintenance scheduling, technician dispatch optimisation, mobile workforce coordination and field service reporting operating through the application programming interfaces of such systems; computer software for connecting artificial intelligence software agents to commerce, retail and point-of-sale management systems, namely software for automated product recommendation, dynamic pricing computation, order processing automation, inventory updates and cross-channel sales coordination operating through the application programming interfaces of commerce systems; computer software for connecting artificial intelligence software agents to financial management, accounting and enterprise resource planning systems, namely software for the automation of general-ledger entries, accounts-payable and accounts-receivable processing, financial-close acceleration, cash-flow reporting and regulatory-compliance reporting operating through the application programming interfaces of financial management systems; computer software for connecting artificial intelligence software agents to project management and professional services automation systems, namely software for resource allocation, project milestone tracking, project profitability reporting and client billing automation operating through the application programming interfaces of project management systems; computer software for connecting artificial intelligence software agents to supply chain management and procurement systems, namely software for demand forecasting, automated purchase order creation, supplier performance reporting, inventory optimisation and logistics coordination operating through the application programming interfaces of supply chain systems; computer software for connecting artificial intelligence software agents to human resources management systems, namely software for talent acquisition workflow automation, employee onboarding workflow automation, performance review scheduling, workforce planning reporting and human-resources compliance reporting operating through the application programming interfaces of human resources systems; computer software for connecting artificial intelligence software agents to enterprise resource planning systems and for executing read and write operations against the financial, operational, manufacturing and workforce management modules of such systems through their native application programming interfaces, without migration or replacement of the underlying enterprise resource planning system; computer software for connecting artificial intelligence software agents to order management and order fulfilment systems, namely software for automated order routing, real-time inventory visibility, fulfilment status tracking and returns processing automation operating through the application programming interfaces of order management systems; computer software for connecting artificial intelligence software agents to mobile and field-worker software applications used in production and maintenance environments, namely software for guided procedure step-by-step instructions, remote-expert collaboration, anomaly detection from sensor and machine-vision input, and digital task-list workflow automation operating through the application programming interfaces of frontline-worker applications; computer software for connecting artificial intelligence software agents to customer

experience management and customer feedback systems, namely software for automated sentiment analysis of textual feedback, aggregation of voice-of-customer data, automated net-promoter-score computation and customer-satisfaction reporting operating through the application programming interfaces of customer experience management systems.

Class 35:
Business process automation services using artificial intelligence software, in the fields of enterprise resource planning, customer relationship management, enterprise asset management, computerized maintenance management, field service management, supply chain management, financial administration, human resources administration, project management, order management, customer service administration, marketing administration and customer feedback administration; business management consulting services in the field of artificial intelligence software deployment within enterprise software systems; business data administration services consisting of the compilation, organisation, retrieval and reporting of enterprise operational data through artificial intelligence software; provision of an online business-to-business marketplace allowing enterprises to publish, distribute, install and share artificial intelligence software agents, workflow definitions, skill modules, integration connectors and user interface applications across departments within an organisation and across affiliated organisations; business efficiency consulting services in the field of artificial intelligence deployment for industrial and commercial enterprises; business administration services for sales operations, namely automated lead qualification, sales pipeline administration, customer account record-keeping and sales performance reporting performed through artificial intelligence software connected to customer relationship management systems; business administration services for marketing operations, namely campaign administration, audience segmentation, customer-communication scheduling and marketing performance reporting performed through artificial intelligence software connected to marketing automation systems; business administration services for customer service operations, namely case-record administration, customer complaint tracking, service-level reporting and contact-centre productivity reporting performed through artificial intelligence software connected to customer service systems; business administration services for field service operations, namely work order administration, technician scheduling, service contract administration and preventive maintenance programme administration performed through artificial intelligence software connected to field service management and enterprise asset management systems; business administration services for commerce operations, namely product catalogue administration, pricing administration, multi-channel sales coordination and retail performance reporting performed through artificial intelligence software connected to commerce systems; business administration services for financial operations, namely accounts-payable and accounts-receivable processing administration, financial reporting, expense-record administration and regulatory-compliance reporting performed through artificial intelligence software connected to financial management systems; business administration services for project operations, namely resource planning administration, project milestone tracking, project profitability reporting and client billing administration performed through artificial intelligence software connected to project management systems; business administration services for supply chain operations, namely demand planning, purchase order administration, supplier performance reporting, inventory administration and distribution coordination performed through artificial intelligence software connected to supply chain management systems; business administration services for human resources operations, namely recruitment process administration, employee onboarding administration, workforce planning, employee performance record-keeping and human-resources compliance reporting performed through artificial intelligence software connected to human resources management systems; business administration services for enterprise operations, namely cross-departmental operational data consolidation, enterprise performance reporting and business process automation performed through artificial intelligence software connected to enterprise resource planning systems; business administration services for order management operations, namely multi-channel order processing, fulfilment status reporting, customer order communication and returns administration performed through artificial intelligence software connected to order management systems; business administration services for frontline workforce operations in production and maintenance environments, namely task assignment administration, compliance checklist administration and operational shift reporting performed through artificial intelligence software connected to mobile and field-worker applications; business administration services for customer experience operations, namely survey administration, customer insight reporting, net-promoter-score tracking and voice-of-customer programme administration performed through artificial intelligence software connected to customer experience management systems.

Class 42:
Software as a service (SaaS) featuring computer software for deploying, configuring and executing artificial intelligence software agents that interoperate with enterprise business information systems, including enterprise resource planning, customer relationship management, enterprise asset management, computerized maintenance management, field service management, supply chain management, human resources management, financial management and project management systems, through application programming interfaces; platform as a service (PaaS) featuring computer software for the creation, testing, version control, distribution and execution of artificial intelligence software agents, multi-step workflow definitions, reusable skill modules, integration connectors and prompt-generated user interface applications; software as a service featuring artificial intelligence software for natural language processing of user queries against enterprise business data and for executing read and write operations against enterprise information systems through their native application programming interfaces; software as a service for the orchestration of multi-step business workflows by interpreting directed-acyclic-graph step sequences; software as a service for the routing of large language model requests across multiple model providers according to configurable per-tenant routing policies, for restricting model usage to a configurable allow-list of providers that do not retain user data, and for reporting per-tenant token consumption and operating cost; software as a service for the storage, indexing and retrieval of conversational and

document-based information using vector embeddings and hierarchical context references; software as a service for the execution of user-supplied program code in isolated computing sandboxes; cloud computing services featuring software for the management of large language model authentication, request routing and usage governance across multiple model providers; technical integration services consisting of connecting artificial intelligence software platforms to legacy and cloud-hosted enterprise business information systems; technical consulting services in the deployment, security and governance of enterprise artificial intelligence; research and development of enterprise artificial intelligence software; software as a service featuring computer software for connecting artificial intelligence software agents to customer relationship management and sales force automation systems, namely cloud-hosted software for automated lead management, sales opportunity tracking, sales forecasting, customer interaction logging and sales pipeline reporting delivered through the application programming interfaces of customer relationship management systems; software as a service featuring computer software for connecting artificial intelligence software agents to marketing automation and customer engagement systems, namely cloud-hosted software for audience segmentation, campaign scheduling, customer journey orchestration and engagement reporting delivered through the application programming interfaces of marketing automation systems; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for training, management, deployment, testing, operation and maintenance of artificial intelligence models, artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, data acquisition, data analysis, data integration, predictive analytics, inference computations, agentic artificial intelligence, artificial intelligence agents, large language models, small language models, diffusion models, multimodal artificial intelligence, business intelligence, computer vision, advanced visualization, image generation, video generation, voice generation, text generation, scientific data generation, financial data generation, industrial data generation, infrastructure data generation, medical data generation, artificial general intelligence (agi), artificial narrow intelligence (ani), and artificial super intelligence (asi); infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for processing data, images, graphics, audio, video, and text; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for high performance computing; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for distributed computing; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for edge computing; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for on-premise computing; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for virtual machines; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for data pipelines; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for data storage including data lakes, graph databases, data containers, and data pipelines; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for connection of application programming interfaces (APIs); infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for quantum computing; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for facilitating data transmission, data collection, data analysis, and decision-making; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for simulation, modeling and data processing for use in data visualization, data analysis, data mining, data interpretation, predictive analytics, prescriptive analytics, accessing and editing large-scale data, interactive visual computing, video streaming, design of information graphics, and maximizing graphics processing and performance; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for general purpose computation, manipulation of collections of data, data analysis, image content analysis, video content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for data management, analytics and pattern and activity recognition; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for the integration of artificial intelligence and machine learning in the field of big data for business data analytics and user behavior analytics; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for the integration of artificial intelligence and machine learning in the field of robotics; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for creating, analysing and running programs for quantum algorithms; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for creating, analysing and running programs for quantum computers; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for creating, analysing and running programs for quantum simulations; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for optimizing power, performance and cost for computing services, and delivering computing services at scale; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for advanced cloud computing functions in the nature of machine learning, optimizing power, performance and cost for cloud computing services; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) for operating semiconductors, computer chips, graphic processing units, tensor processing units, and central processing units; infrastructure as a service (IaaS), platform as a service (PaaS), and software as a service (SaaS) featuring software development tools for writing, building, running, testing, debugging, deploying, and storing software code, releasing and providing continuous delivery of software code, developing, deploying, analyzing, and debugging applications, and cloud infrastructure modeling; providing non-downloadable computer software development tools in the field of artificial intelligence; providing non-downloadable computer software development tools for use in modeling in the field of artificial intelligence; providing non-downloadable computer software for use in testing in the field of artificial intelligence; providing non-downloadable computer software for quantum computing; providing non-downloadable computer software for data centers; software as a service (SaaS) for deploying public and private cloud computing environments in the field of infrastructure as a service (IaaS); security for computing including cyber security, fire walls, authentication, verification, authorization, encryption, decryption, security key management, security

token management, and data monitoring; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of cloud computing applications and data centers; off-site data backup services; facilities and operational management for data centers; supply and management of power for data centers; design and development of software, databases, web services and cloud computing infrastructure; management services for data center networks; leasing of data center modules; rental of space in a computer co-location data centre infrastructure facility for others; providing cloud storage facilities for use as a data center for others; rental of data center facilities; rental of decentralized cloud storage facility for containerized data centers of others and rental of web servers and co-location servers for containerized data centers of others, namely rental of space in a facility that provides space, power, cooling, and physical security for computer servers, computer hardware, and computing networking equipment; consultancy, advisory and information services in the field of cloud computing networks and applications; consultancy, advisory and information services in the field of deploying cloud storage environments in the field of infrastructure as a service [IaaS]; consultancy, advisory and information services in the field of deploying cloud computing environments in the field of infrastructure as a service [IaaS]; consultancy and research in the field of quantum algorithms; consultancy and research in the field of quantum computing; artificial intelligence consultancy; computer technology consultation in the field of machine learning and artificial intelligence; technical consulting in the field of artificial intelligence; construction planning services; consultancy, advisory and information services relating to the aforesaid services.
