Class 35:
Business consultancy relating to project delivery, operations, organisational management, experimentation and A/B testing programmes, user experience strategy, and the adoption of artificial intelligence in business operations and workflows.

Class 38:
Electronic transmission of tasks, messages, and data between user accounts within a software application, for the purposes of facilitating collaboration, task completion, and negotiation of deadlines between users.

Class 42:
Software as a service (SaaS) featuring software for extracting tasks, commitments, meeting agenda points, notes, reminders, user preferences, documents, URL links, and information about people, groups, organisations, products, and projects from text, audio, and image-based input, including meeting notes, meeting transcripts, voice recordings, handwritten notes, and correspondence; Software as a service (SaaS) featuring software for organising and displaying tasks by priority and context across a to-do list, an ideas backlog, and meeting agendas; Software as a service (SaaS) featuring tools and a user interface that streamline the process of requesting artificial intelligence assistance to complete a task, and support the broader adoption of artificial intelligence within an organisation's workflows; Software as a service (SaaS) featuring tools for capturing and surfacing contextual and relational information about people in the user's personal or professional network; Software as a service (SaaS) featuring software for analysing the meetings and tasks of an individual user or of multiple users within an organisation to provide insights and recommendations regarding workload management; Software as a service (SaaS) featuring software for assigning, sharing, and tracking tasks and projects between users and collaborating on their completion; Consultancy relating to the adoption and implementation of artificial intelligence technology in business.

Class 9:
Computer software, downloadable computer software recorded computer software, downloadable computer software applications; mobile application software, downloadable software platforms, computer software platforms, recorded or downloadable, artificial intelligence software, artificial intelligence and machine learning software, generative artificial intelligence software, large language model software, deep learning software; neural network software, natural language processing software; computer vision software, predictive analytics software, data analytics software, data mining software, decision-support software, decision-making software, business intelligence software; operational intelligence software; threat intelligence software, security intelligence software; risk analysis software; predictive modelling software, forecasting software; simulation software, anomaly detection software; pattern recognition software, automated reasoning software, knowledge representation software, knowledge graph software; semantic analysis software, data visualisation software; data processing software, data management software, database software, search and information retrieval software. Downloadable artificial intelligence software for analysing, interpreting, classifying, correlating, summarising, generating and presenting data and information, downloadable artificial intelligence software for generating predictions, recommendations, assessments, alerts, reports, insights and decision-support information; software for automated analysis of structured and unstructured data; software for extracting information and insights from text, documents, images, audio, video, databases, sensors and other digital data sources. Artificial intelligence software for autonomous and semi-autonomous agent, multi-agent artificial intelligence software, intelligent agent software, virtual assistant software; chatbot software, conversational artificial intelligence software, software for planning, reasoning, problem solving and task execution using artificial intelligence, software for coordinating artificial intelligence agents, software for managing workflows between artificial intelligence systems, computer systems and human users. Software for accessing, integrating, managing, routing, selecting and orchestrating artificial intelligence models, software for artificial intelligence model orchestration; software for selecting and routing queries between artificial intelligence models, software for integrating multiple artificial intelligence models; software for managing large language models, software for training, fine-tuning,

evaluating, testing, benchmarking and monitoring artificial intelligence models; software for managing prompts, context, memory and retrieval for artificial intelligence systems; retrieval-augmented generation software; software for artificial intelligence model inference. Application programming interface software, downloadable application programming interfaces [APIs]; software development kits [SDKs]; downloadable software development tools; software for integrating third-party software, databases, artificial intelligence models and digital services; middleware software, integration software. Software for collecting, aggregating, processing, correlating and analysing real-time and historical data, software for monitoring events, systems, networks, assets, environments and activities, software for real-time intelligence analysis, software for situational awareness, software for detecting, identifying, assessing and prioritising risks, threats, vulnerabilities, anomalies and emerging events. Cybersecurity software; computer security software; network security software, threat detection software; intrusion detection software, fraud detection software; authentication software, identity verification software, identity and access management software, encryption software; data protection software, privacy management software; security monitoring software; software for cybersecurity risk assessment, software for vulnerability detection and analysis. Surveillance software; electronic monitoring software; video analytics software, image recognition software; facial recognition software where permitted by law; object recognition software,behavioural analysis software; geospatial analysis software; location intelligence software; mapping software; sensor data analysis software; software for analysing data from cameras, sensors, Internet of Things devices and connected systems. Software for economic analysis; market intelligence software; financial data analysis software; supply-chain intelligence software; geopolitical risk analysis software; organisational risk analysis software; strategic intelligence software; competitive intelligence software; software for forecasting economic, commercial and operational trends. Software for human-machine interaction; software for analysing human behaviour and interaction; software for monitoring human safety, wellbeing and operational risk, other than for medical diagnosis or treatment; software for safeguarding and risk identification; software for generating alerts and recommendations relating to safety and operational conditions. Digital twin software; simulation software for modelling systems, organisations, environments, events and scenarios; scenario-planning software; forecasting and predictive simulation software. Software for artificial intelligence governance; software for monitoring and auditing artificial intelligence systems; software for assessing artificial intelligence model performance, reliability, safety, bias, compliance and outputs; software for generating artificial intelligence assessment scores and reports; artificial intelligence evaluation software; software for maintaining audit trails relating to artificial intelligence decision-making. Cloud computing software; edge computing software; distributed computing software; software for management of computing resources; software for managing artificial intelligence computing infrastructure. Electronic databases; downloadable databases; downloadable electronic reports and publications relating to artificial intelligence, technology, intelligence, security, economics, risk, data analysis and decision-making. All the aforesaid relating to artificial intelligence, machine learning, data processing, intelligence analysis, decision support, forecasting, risk management, security, technology, economic intelligence, operational intelligence and strategic intelligence; Computer software, downloadable computer software; recorded computer software; downloadable computer software applications, mobile application software; downloadable software platforms; computer software platforms, recorded or downloadable, artificial intelligence software; artificial intelligence and machine learning software, generative artificial intelligence software, large language model software, deep learning software; neural network software, natural language processing software, computer vision software, predictive analytics software; data analytics software; data mining software, decision-support software; decision-making software, business intelligence software, operational intelligence software, threat intelligence software, security intelligence software; risk analysis software, predictive modelling software, forecasting software; simulation software, anomaly detection software; pattern recognition software; automated reasoning software, knowledge representation software; knowledge graph software; semantic analysis software; data visualisation software; data processing software; data management software; database software, search and information retrieval software. Downloadable artificial intelligence software for analysing, interpreting, classifying, correlating, summarising, generating and presenting data and information; downloadable artificial intelligence software for generating predictions, recommendations, assessments, alerts, reports, insights and decision-support information; software for automated analysis of structured and unstructured data; software for extracting information and insights from text, documents, images, audio, video, databases, sensors and other digital data sources. Artificial intelligence software for autonomous and semi-autonomous agents, multi-agent artificial intelligence software, intelligent agent software, virtual assistant software; chatbot software, conversational artificial intelligence software, software for planning, reasoning, problem solving and task execution using artificial intelligence; software for coordinating artificial intelligence agents; software for managing workflows between artificial intelligence systems, computer systems and human users. Software for accessing, integrating, managing, routing, selecting and orchestrating artificial intelligence models; software for artificial intelligence model orchestration; software for selecting and routing queries between artificial intelligence models; software for integrating multiple artificial intelligence models; software for managing large language models; software for training, fine-tuning, evaluating, testing, benchmarking and monitoring artificial intelligence models; software for managing prompts, context, memory and retrieval for artificial intelligence systems; retrieval-augmented generation software; software for artificial intelligence model inference. Application programming interface software; downloadable application programming interfaces [APIs]; software development kits [SDKs]; downloadable software development tools; software for integrating third-party software, databases, artificial intelligence models and digital services; middleware software; integration software. Software for collecting, aggregating, processing, correlating and analysing real-time and historical data; software for monitoring events, systems, networks, assets, environments and activities; software for real-time intelligence analysis; software for situational awareness; software for detecting, identifying, assessing and prioritising risks, threats, vulnerabilities, anomalies and emerging events. Cybersecurity software; computer security software; network security software; threat detection software; intrusion detection software; fraud detection software; authentication software; identity verification software; identity and access management software; encryption software; data

protection software; privacy management software; security monitoring software; software for cybersecurity risk assessment; software for vulnerability detection and analysis. Surveillance software; electronic monitoring software; video analytics software; image recognition software; facial recognition software where permitted by law; object recognition software; behavioural analysis software; geospatial analysis software; location intelligence software; mapping software; sensor data analysis software; software for analysing data from cameras, sensors, Internet of Things devices and connected systems. Software for economic analysis; market intelligence software; financial data analysis software; supply-chain intelligence software; geopolitical risk analysis software; organisational risk analysis software; strategic intelligence software; competitive intelligence software; software for forecasting economic, commercial and operational trends. Software for human-machine interaction; software for analysing human behaviour and interaction; software for monitoring human safety, wellbeing and operational risk, other than for medical diagnosis or treatment; software for safeguarding and risk identification; software for generating alerts and recommendations relating to safety and operational conditions. Digital twin software; simulation software for modelling systems, organisations, environments, events and scenarios; scenario-planning software; forecasting and predictive simulation software. Software for artificial intelligence governance; software for monitoring and auditing artificial intelligence systems; software for assessing artificial intelligence model performance, reliability, safety, bias, compliance and outputs; software for generating artificial intelligence assessment scores and reports; artificial intelligence evaluation software; software for maintaining audit trails relating to artificial intelligence decision-making. Cloud computing software; edge computing software; distributed computing software, software for management of computing resources, software for managing artificial intelligence computing infrastructure. Electronic databases; downloadable databases; downloadable electronic reports and publications relating to artificial intelligence, technology, intelligence, security, economics, risk, data analysis and decision-making. All the aforesaid relating to artificial intelligence, machine learning, data processing, intelligence analysis, decision support, forecasting, risk management, security, technology, economic intelligence, operational intelligence and strategic intelligence.

Class 42:
Scientific and technological services and research and design relating thereto; research, design and development of computer software; design and development of artificial intelligence systems; development of artificial intelligence software; artificial intelligence consultancy; technology consultation in the field of artificial intelligence; research and development in the field of artificial intelligence, machine learning, deep learning, large language models, neural networks, autonomous agents and intelligent computer systems. Artificial Intelligence as a Service [AIaaS]; Software as a Service [SaaS]; Platform as a Service [PaaS]; Infrastructure as a Service [IaaS]; cloud computing services; edge computing services; providing temporary use of online non-downloadable computer software; providing temporary use of online non-downloadable artificial intelligence software; providing online non-downloadable software platforms incorporating artificial intelligence; providing artificial intelligence computer programs on data networks. Software as a Service [SaaS] featuring artificial intelligence software; Software as a Service [SaaS] featuring machine learning software; Software as a Service [SaaS] featuring software for large language models, deep learning, neural networks, natural language processing, computer vision, generative artificial intelligence, predictive analytics, automated reasoning and intelligent agents. Platforms for artificial intelligence as Software as a Service [SaaS]; providing online non-downloadable software for accessing, integrating, routing, selecting, coordinating, managing and orchestrating artificial intelligence models; providing online non-downloadable software for multi-model artificial intelligence orchestration; providing online non-downloadable software for deploying, managing and monitoring artificial intelligence agents. Providing online non-downloadable software for analysing, interpreting, correlating, summarising and presenting data; providing online non-downloadable software for generating predictions, recommendations, assessments, reports, alerts, insights and decision-support information; providing online non-downloadable software for processing and analysing structured and unstructured data including text, documents, images, audio, video, sensor information and databases. Design, development, hosting, configuration, integration, installation, maintenance, updating and upgrading of computer software and artificial intelligence systems; computer software engineering; computer systems integration; integration of artificial intelligence systems with third-party computer systems, databases, software applications, digital platforms and application programming interfaces. Development and provision of application programming interfaces [APIs]; development of software development kits [SDKs]; development of software tools for artificial intelligence integration and deployment. Artificial intelligence model development; training and fine-tuning of artificial intelligence models; configuration and customisation of artificial intelligence models; testing and evaluation of artificial intelligence models; benchmarking of artificial intelligence systems; monitoring of artificial intelligence model performance; technological services relating to optimisation of artificial intelligence models. Research and development relating to large language models, foundation models, generative artificial intelligence systems, multimodal artificial intelligence, autonomous agents and multi-agent artificial intelligence systems. Providing online non-downloadable software for retrieval-augmented generation; providing online non-downloadable software for knowledge graphs, semantic search, information retrieval, artificial intelligence memory, context management and knowledge management. Data science services; technological data analysis; computerised analysis of technical data; design and development of data analytics systems; design and development of databases; electronic data storage; cloud data storage; data hosting services; database hosting; hosting of digital platforms; hosting of artificial intelligence models and applications. Cloud computing; cloud hosting provider services; design and development of cloud computing systems; design and development of operating software for cloud computing networks; provision of virtual computing environments; technical management of cloud computing infrastructure; technological consultancy relating to cloud computing and artificial intelligence infrastructure. Computer security services; cybersecurity services; information technology security services; cloud computing security services; computer security consultancy; cybersecurity risk assessment; monitoring of computer systems for detecting unauthorised access, data breaches, cybersecurity threats and computer security vulnerabilities; technological analysis relating to computer and network security; design and development of computer security systems. Providing online non-downloadable

software for cybersecurity, threat detection, anomaly detection, fraud detection, identity management, authentication, access control and information security. Design and development of systems for analysing real-time and historical data; technological services for real-time intelligence analysis; provision of non-downloadable software for situational awareness, monitoring, detection, forecasting and risk analysis. Providing online non-downloadable software for business intelligence, operational intelligence, economic intelligence, market intelligence, security intelligence, threat intelligence, competitive intelligence, strategic intelligence, geopolitical risk analysis and supply-chain intelligence. Providing online non-downloadable software for predictive modelling, forecasting, scenario planning, simulation and digital twins; design and development of computer simulation systems; development of digital twin technology; technological modelling and simulation services. Providing online non-downloadable software for analysing human behaviour, human-machine interaction, safety, safeguarding and operational risk, other than for medical diagnosis or treatment. Artificial intelligence governance services of a technical nature; technical testing, analysis and evaluation of artificial intelligence systems; auditing of artificial intelligence systems for technical performance, reliability and safety; technological assessment of artificial intelligence systems; testing and benchmarking of artificial intelligence models; monitoring and analysis of artificial intelligence system outputs; technical services for assessing artificial intelligence systems for bias, robustness, explainability, reliability and security; preparation of technical reports relating to artificial intelligence systems. Design and development of software for artificial intelligence governance, compliance monitoring, audit trails and accountability; providing online non-downloadable software for monitoring and auditing artificial intelligence systems and generating artificial intelligence assessment reports. Research and development relating to emerging technologies; technological forecasting; technological research; technical research and consultancy in the fields of artificial intelligence, computer science, data science, cybersecurity, automation, intelligent systems, distributed computing and human-computer interaction. Computer programming; computer software consultancy; information technology consultancy; technological consultancy; computer systems analysis; technical project studies; technical support services relating to computer software and artificial intelligence systems. Provision of information, advisory and consultancy services relating to all the aforesaid services; Scientific and technological services and research and design relating thereto; research, design and development of computer software; design and development of artificial intelligence systems; development of artificial intelligence software; artificial intelligence consultancy, technology consultation in the field of artificial intelligence, research and development in the field of artificial intelligence, machine learning, deep learning, large language models, neural networks, autonomous agents and intelligent computer systems. Artificial Intelligence as a Service AIaaS Software as a Service SaaS Platform as a Service PaaS Infrastructure as a Service [IaaS]; cloud computing services; edge computing services; providing temporary use of online non-downloadable computer software; providing temporary use of online non-downloadable artificial intelligence software; providing online non-downloadable software platforms incorporating artificial intelligence; providing artificial intelligence computer programs on data networks. Date of International Registration: 05 May 2026
Date of Designation in the UK: 05 May 2026

IC-link by IMEC

International priority date claimed: 08 December 2025 (BX) (1538539)

Class 9:
Application-specific integrated circuits; photonics-integrated circuits; electronic chips; optical chips; software; mobile applications; sensors; electronic chips for the manufacture of integrated circuits; optical chips for the manufacture of photonics integrated circuits; semiconductor chips; chips [integrated circuits]; semiconductors; semiconductor apparatus; semiconductor testing apparatus; integrated circuits.

Class 35:
Business organisation consultancy; professional business consultancy; business consulting services, namely providing information and advice concerning semiconductors, integrated circuits, photonics integrated circuits (PICs) and application-specific integrated circuits (ASICs); retail services in the field of semiconductors, integrated circuits, photonics integrated circuits (PICs) and application-specific integrated circuits (ASICs).

Class 40:
Custom manufacture of integrated circuits, application-specific integrated circuits (ASICs), semiconductors, microprocessors, microcontrollers, and embedded systems; custom manufacturing of wafers and semiconductor devices, including complementary metal–oxide–semiconductor (CMOS) post processing, fine patterned wafers, and the fabrication of imagers and detectors; custom manufacture of integrated circuits, photonics integrated circuits (PICs), semiconductors, microprocessors, microcontrollers, and embedded systems; custom manufacture of semiconductor components, devices and circuits.

Class 41:

Training; training in the field of semiconductors, integrated circuits and application-specific integrated circuits, photonics integrated circuits; education; organization and conducting workshops, conferences and seminars; publication (online and electronic) of books and periodicals; publication and development of learning materials; the provision of online electronic publications; advising and information with respect to the aforementioned services, also by electronic networks such as the internet; training in the design of integrated circuits; training in the development of integrated circuits.

Class 42:
Design, development, and testing of integrated circuits, application-specific integrated circuits (ASICs), photonics integrated circuits (PICSs), semiconductors, microprocessors, microcontrollers and embedded systems for others; product quality testing services; consultancy in the field of new technologies; research and development services; quality control and authentication services; scientific and technological services, as well as associated research and design services; services in the field of industrial analysis and industrial research; designing and developing computers and software; graphic design, especially making volume drawings for the design of prototypes; technical drawing; design of prototypes; product development and product design; science and technology services; research relating to technology; research in the area of semiconductor processing technology; development of new technology for others; technical consultancy relating to the development of semiconductors; design of integrated circuits; design services relating to integrated circuits; consultancy in the field of new technologies by experts; technical research in the field of manufacture of photonic integrated circuits; advice, consultancy and information relating to the aforesaid services, also to be provided via electronic networks such as the internet.

Floor mats for vehicles.

Class 35:
Advertising; commercial business management; commercial administration; office functions; dissemination of advertising material (leaflets, prospectuses, printed matter, samples); newspaper subscription services (for third parties); arranging subscriptions to telecommunication services for third parties; presentation of goods on all communication media for retailing; business management and organization consultancy; accounting; document reproduction; employment agencies; business management for freelance service providers; computer file management; website traffic optimization; organization of exhibitions for commercial or advertising purposes; online advertising on a computer network; rental of advertising time on all communication media; publication of advertising texts; rental of advertising space; dissemination of advertisements; public relations; company audits (commercial analyses); commercial intermediation services; recruitment; personnel management; human resources management; business consultancy, information or inquiries; business management assistance and business organization and management consulting; cost price analysis; market study; business investigations; market research; business appraisal; economic forecasting; commercial statistical information; marketing studies; commercial advice and studies for the creation, development and management of commercial networks and brands; business advice for defining commercial network policy with respect to the selection of suppliers, procurement, logistics and distribution; studies of commercial partnerships with third parties; outsourcing services [business assistance]; commercial project management services; administrative inventory management services; administrative management of orders; commercial management in the field of transport and delivery; partnership research in the field of business (commercial intermediation); advice for setting up a database (systematization of data in a central file); research of business information in computer files for others; collection, compilation and systematization of information in a central file; secretarial and switchboard services; business promotion in all forms for others; hosting of commercial events, sales promotion for others of all kinds and on all media; sale, retail, wholesale, sale services via the Internet and mail order of new or second-hand vehicle maintenance products and spare parts, namely: industrial oils and greases, lubricants, products for absorbing oil, fuels (including motor spirit) and lighting fuel, candles, wicks and especially non-chemical additives for fuels, fuel with

an alcoholic base, benzene, benzine, benzol, dust removing preparations, turbo injection systems, starters, injection systems for diesel engines and for gasoline engines, radiators, ball-bearings, valves, hydraulic presses, accumulators, warning devices, alarms, alcoholmeters, batteries, anti-interference devices, electric welding apparatus, luminous beacons, electric coils, branch boxes, cabinets for loudspeakers, pressure indicator plugs for valves, fog signals, electric cables, circuit breakers, flashing lights, commutators, counters/meters, electric conductors, connectors, electric regulating apparatus, speed checking apparatus for vehicles, diagnostic apparatus, dynamometers, kilometer recorders for vehicles, luminous signs, balancing apparatus, fire extinguishers, fuses, sheaths for electric cables, gasometers, loudspeakers, electric indicators, gages, electric batteries, revolution counters, warning triangles, radar apparatus, radios, chargers for electric apparatus, regulators, electric locks, signaling products, anti-theft warning apparatus, control apparatus, scales for paint, stationary or mobile grease distribution apparatus, stationary or mobile oil distribution apparatus, oil recovery apparatus, gas analyzers, programmable controllers for testing and maintaining the functions of a vehicle, test benches, batteries and battery chargers, heat accumulators, acetylene apparatus, devices for cooling and conditioning air for vehicles, air filters, light bulbs, anti-fog, anti-dazzle, anti-icing, lights for automobiles, headlights, radiator caps, heaters for vehicles, air conditioners for vehicles, defrosters, lighting apparatus for vehicles, electric radiators, lamp reflectors, heating devices, air conditioners, shock absorbers (springs), suspension shock absorbers, non-skid devices, anti-glare devices, anti-theft devices, head-rests, transmission shafts, trailer hitches, hoods, vehicle bodies, chains, chassis, bumpers, sun-blinds, rim valves, treads for retreading tires, torsion bars, mine cart wheels, tipping bodies for trucks, gear boxes, caps for tanks, windshields, tops (folding roofs) for vehicles, crankcases, safety belts, inner tubes, treads, hydraulic circuits, torque converters, direction indicators, electric motors, clutches, gears, hub caps, tires, wheel balancing apparatus, axles, axle journals, windshield wipers, brake linings, brake shoes, brake segments, brakes, bands for wheel hubs, covers, wheel rims, running boards, sun visors, propulsion mechanisms, trailers, tanks, rearview mirrors, wheels, wheel sets, transmission mechanisms, turbines, balance weights for wheels, doors, seats, steering wheels, windows, alternators, carburetors, air compressors, condensers, bearings, cylinder heads, cycles, aerodynamic deflectors, motor equipment, air pumps for vehicles or heavy goods vehicles, car lifts, sunroofs, winches, gaskets, Exhaust Gas Recycling turbochargers and valves, bodywork (panel beating, rearview mirrors, optical, leather pieces), interior accessories (stalks, seats, controls and switches, door trim), engine environment parts (alternators/starters, air conditioning compressor, radiators/evaporator/condensers for air conditioning, interior heating), locks of metal for vehicles, tailgate lock, trunk lock, vehicle door lock, hood lock, metal lock elements for vehicles, namely: cylinders, door cylinders, door hinges, control devices for machines, engines or motors, bare engine block, connecting rod assembly block, diesel engine, gasoline engine, motor steering, flywheel, camshaft, cylinder head cover, diesel cylinder head, camshaft pulley, engine oil pan, oil pump, oil pan protection, oil filter cooler, oil filter holder, carburetor, electric fuel pump, submersible fuel pump, fuel supply pump, actuator, fuel cooler, air compressor, turbo, idle actuators for engines, single-point block, engine control unit, injection distributor, injector assembly, injector, diesel priming pump, high-pressure pump, diesel injection pump, fuel filter holder, injector pipes, EGR valve, LPG vaporizer-regulator, Intake manifold, exhaust manifold, catalyst, particulate filter, DPF additive injector, exhaust hose, pre-catalyst, mufflers, intermediate mufflers, exhaust pipe, exhaust line, exhaust collar, exhaust rubber mount for engines, exhaust support, igniter, ignition coil, ignition distributor, ignition cap, glow plug control unit, glow plug, starter motor, alternator, alternator pulley, alternator support, radiator fan motor, water pump, radiator, expansion tank, cooling fan, air conditioning fan motor, conditioned air compressor for engines, air conditioner condenser, compressor support, complete heater unit, heating motor, heating fan motor, heater flap motor, transmission, longitudinal transmission, converter, DA electric motor, power steering pump, steering cylinders, steering wheel, steering universal joint, anti-sink sphere, central stiffness sphere, suspension cylinder, half-axle, axle, engine cradle, suspension cylinder, trade vehicle back end, regulator block, ABS hydraulic unit, handbrake locking motor, main brake cylinder, vacuum pump, LHM hydraulic pump, LHM tank, drum, jack, jack and crank, stalk control unit, grille, grille cover, license plate support, grille mesh, grille badge, grille support, hood left hinge, sunroof motor, electric locking mechanisms for automobile soft tops, seat motor, headlight wiper motor, windshield wiper motor, all the aforesaid goods intended for vehicles, oil dipstick, dipstick tube, fuel gage, accelerator pedal sensor, TDC sensor, air flowmeter, solenoid valve, accelerator potentiometer, DPF ECU, DPF additive gage, lambda sensor, sleeve, ignition module, battery, battery tray, fuse box, passenger compartment fuse panel, fuse panel, engine wiring harness, dashboard wiring harness, automatic transmission control unit, reversing lights switch, clutch transmitter, power steering control module, card reader, ABS control module, ABS sensor, digital display, car radio, CD player, GPS screen, GPS antenna, radio antenna, CD loader, watch, parking assistance sensor, fender indicator, rain sensor, control module, sensor, all the aforesaid goods intended for vehicles, air exchanger, heating electric wiring harness, fan nozzle, radiator hoses, air conditioner radiator/condenser, oil radiator, fan support, radiator support, cabin filter, air conditioner filter dryer, heating radiator, heating fan, heating control, lighting control, fog light, headlight, high-beam headlight, heating module, modulated heating, air conditioner hose, heating solenoid valve, heating resistor, imitation lights, running lights, xenon bulb, flashing lights, lights and headlights for vehicles, fog lights, bumper lights, license plate lights, vehicle light screen, trailer lighting kit, all the aforesaid goods intended for vehicles, spare wheel tray, separation partition, heads-up display, instrument cluster and BSI, starter kit (BSI and card and computer), meter cable, revolution counter, meter, car radio control, warning button, GPS control, starter button, turn signal control, windshield wiper control, cruise control, steering wheel paddle, handbrake control, instrument cluster, brake fluid bottle, pressure limiter/distributor, circuit closers, height corrector, stiffness regulator, disc, flange, valve sensor, headlight control, steering pump tank, cradle, starter, door trim, door seal, engine mount, steering column casing, shock absorber anchor set, pivot, brake reaction rod, leaf spring, frame, face sheet, door sheet, awning sheet, windshield, sliding door, sliding side door trim, fender lower closing sheet, underbody, tailgate, tailgate door, trunk hinge, swing door, dropside, crossbeam, body, steering rack, hydraulic steering rack, non-power steering rack, crankshaft, crankshaft pulley, anti-torque rod, gearbox support, fuel door shutter, fuel tank cap, fuel filler, fuel tank, injection unit, throttle,

accelerator pedal, injection pump toothed pulley, injection rail, DPF additive tank, ignition box, horn/warning, manual gearbox, automatic gearbox, transfer gearbox, auto gearbox control unit, gear shift knob, gear selector, gear linkage, hydraulic clutch release bearing, clutch cable, clutch kit, clutch pedal, clutch receiver, steering lock, steering box, power steering column, non-power steering column, steering column lock, power steering pump pulley, steering relay, power steering hose, steering ball joint, shock absorber, shock absorber spring, hydraulic tank, high-pressure hydraulic pump, air pressure pump, accumulator sphere, suspension sphere, sway bar, sway bar rod, arm, journal, hub, lower control arm, upper control arm, lower control arm support, shock absorber mounts, central stiffness sphere, handbrake lever, brake pedal, complete pedal support, servo brake, hydropneumatic suspension unit, brake caliper, jack handle, spare wheel well, spare wheel winch, aluminum rim, sheet metal rim, pair of tires, tires, complete wheel, spare wheel, wheel spike, glove box, dashboard cowl, console, meter surround, cigar lighter, ashtray, pyrotechnic module, safety belt, safety belt anchor, pretensioner, pretensioner unit, airbag, airbag clock spring, skirts, bumper absorber, bumper end, bumper trim, bumper grille, bumper additional light blanks, bumper supports, bumper, bumper guards, bumper reinforcement, spoiler, central bumper support, vehicle fender, fender support, fender flare, mudguard, fender protection, hood prop, hood, hood hinge, hood grille, hood seal, hood emblem, hood strut, wheel arch, windshield aperture, locking system, window regulator unit, window regulator module, air quality module, engine cooling fan module, central door locking unit, external rearview mirror cover, window regulator control, door switch, central locking transmitter/receiver, external rearview mirror glass, window regulator mechanism, window regulator mechanism and motor, external door handle, internal door handle, central locking pump, door, door protection, electric external rearview mirror, external rearview mirror, door check, sliding door window regulator mechanism, sliding door window regulator mechanism and motor, sliding door external handle, sliding door internal handle, fender trim, fender window regulator mechanism, quarter window opening mechanism, fender window regulator mechanism and motor, fender fuel filler door, gooseneck, crosshead, bumper trim, bumper grille, bumper supports, bumper cover, bumper, bumper guards, bumper reinforcement, mudguard, tailgate lower panel, tailgate spoiler, tailgate hinge, tailgate deflector, tailgate, tailgate external handle, tailgate protection, tailgate strut, tailgate window strut, trunk billet, trunk, trunk deflector, trunk external handle, trunk strut, swing door external handle, hinged roof flap, luggage cover, rear shelf support, shelf, sunroof, soft top, soft top cover, hard top, soft top cylinder, soft top cover cylinder, sunroof rear glass, sunroof glass, door deflector window, door fixed window, door window, door sliding window, sliding door fixed window, sliding door window, side panel sliding window, side panel window, front quarter window, quarter window, moving quarter window, fender window, roof rear-right window, roof window, tailgate window, rear windshield, passenger compartment separation glass, cab rear window, swing door window, windshield, roof rail, headlining, sunshade, roof light, assist handle, internal rearview mirror, sunroof control, storage compartment, head-rest, bench seat, central seat, seat, glove box door, complete bench kit, additional seat, xenon headlight unit, fog light units, headlight trim, headlight glass, fog light units, headlight support, headlight lower trim, windshield wiper blades, windshield wiper arm, windshield wiper mechanism, windshield washer pump, headlight washer pump, windshield washer tank, hitches, latching box, hitch ball, towbar wiring, male socket, hitch mount, gear lever, dashboard, hydraulic steering rack hose, hydraulic steering pump hose, reflector, trim for swing door, axle, oil cooler exchanger, elder, lower and upper frame brace, floor mats for vehicles.

Class 37:
Repair of motor land vehicles; vehicle breakdown repair services; service stations; anti-rust treatment for vehicles; vehicle washing; installation and repair of anti-theft vehicle alarm devices; vehicle maintenance; installation of spare parts on vehicles.

Class 39:
Transport; packaging and storage of merchandise; information with respect to transport; storage information; logistics services with respect to transport; distribution (delivery of goods); packing, packaging of goods; distribution [delivery] of goods; freight [shipping of goods]; delivery of goods ordered by mail or from a website; packaging, handling and storage of goods; information on monitoring and delivery of goods; electronic tracking of orders and shipping of goods; logistics services with respect to the ordering and delivery of goods.

ALLIANCE AUTOMOTIVE FRANCE

Representative:MACHINET Emmanuelle CABINET BEAU DE LOMENIE
103 Rue de Grenelle F-75007 PARIS FRANCE

WO0000001934766(18, 35)
Office of Origin: AU

Date of International Registration: 16 July 2026
Date of Designation in the UK: 16 July 2026

RAE MORRIS

International priority date claimed: 23 January 2026 (AU) (2621462)

Class 18:
Bags; baggage tags; cosmetic bags (empty); cosmetic cases (empty); handbags; luggage and carrying bags; make-up bags; make-up cases; purses; toiletry bags, empty; travel bags; travel cases; travel luggage; umbrellas and parasols; wallets.

Class 35:
On-line retail services relating to make-up brushes, applicators and appliances, appliances and applicators for removing make-up, printed publications and books, cosmetics and beauty care preparations, false eyelashes, adhesives for affixing false eyelashes, face and nail products, cosmetic preparations and products for the eyes and eyelashes, bags, baggage tags, cosmetic cases, make-up bags, travel bags, umbrellas and parasols and wallets; on-line wholesale store services relating to make-up brushes, applicators and appliances, appliances and applicators for removing make-up, printed publications and books, cosmetics and beauty care preparations, false eyelashes,

adhesives for affixing false eyelashes, face and nail products, cosmetic preparations and products for the eyes and eyelashes, bags, baggage tags, cosmetic cases, make-up bags, travel bags, umbrellas and parasols and wallets; online advertising; promotional and advertising services; retail services relating to make-up brushes, applicators and appliances, appliances and applicators for removing make-up, printed publications and books, cosmetics and beauty care preparations, false eyelashes, adhesives for affixing false eyelashes, face and nail products, cosmetic preparations and products for the eyes and eyelashes, bags, baggage tags, cosmetic cases, make-up bags, travel bags, umbrellas and parasols and wallets; wholesale services relating to make-up brushes, applicators and appliances, appliances and applicators for removing makeup, printed publications and books, cosmetics and beauty care preparations, false eyelashes, adhesives for affixing false eyelashes, face and nail products, cosmetic preparations and products for the eyes and eyelashes, bags, baggage tags, cosmetic cases, make-up bags, travel bags, umbrellas and parasols and wallets.

Rae Morris Group Pty Ltd

Representative: Brabners LLP
Horton House Exchange Flags Liverpool L2 3YL UNITED KINGDOM

WO0000001937598(5, 30, 32)
Office of Origin: FR

Date of International Registration: 01 July 2026
Date of Designation in the UK: 01 July 2026

International priority date claimed: 11 May 2026 (FR) (5256152)

Class 5:
Vitamins, vitamin-based preparations; nutritional supplements, food supplements and dietary supplements; probiotic supplements and prebiotic supplements; nutritional, dietary and food supplements; food supplements in the form of ready-to-eat protein bars, chewing gums, gels, beverages; dietary supplements for athletes; probiotic bacteria being food supplements; nutraceuticals used as food supplements; bee pollen for use as dietary supplements; whey protein isolates being dietary supplements; antioxidants in the form of food supplements; enzymes in the form of food supplements; electrolytes for medical use; dietary fibers; nutritional meal substitutes; dietetic beverage mixes for sports fitness enhancement for nutritional use; dietary supplement beverages; pharmaceutical preparations containing caffeine.

Class 30:
Chewing gum not for medical use; cereal bars, chocolate bars, protein cereal bars, cereal-based energy bars; processed cereals; coffee, tea, cocoa and substitutes thereof; rice, pasta and noodles; sugar; tapioca; sago; flour and cereal preparations; bread; pastry; confectionery; ice cream, sherbets and other edible ices; honey; golden syrup; yeast, baking powder; salt; mustard; vinegar; sauces (condiments); salt, seasonings, spices, preserved herbs; seaweed being condiments; ice [frozen water]; sandwiches; pizzas; pancakes; biscuit and cookie products; cakes; rusks; confectionery (sweets); chocolate; beverages based on cocoa, coffee, chocolate or tea; muesli; snacks made from muesli; food or beverage flavorings; prepared rice-based dishes; prepared dishes mainly consisting of pasta; tapioca-based snacks; snacks based on rice, cereals, corn and puffed grains; savory pies; quiches [tarts].

Class 32:
Alcohol-free beverages; energy drinks; energy drinks; hypertonic beverages; hypotonic beverages; protein-based beverages; isotonic beverages; beverages containing vitamins; sports beverages; vegetable beverages; powder used in the preparation of fruit drinks; concentrates for the preparation of fruit beverages; non-alcoholic beverages based on dried fruit; non-alcoholic fruit extracts for beverage preparation; powders for preparing non-alcoholic beverages; beers; mineral and aerated waters; fruit beverages; fruit juices; smoothies; syrups; lemonades; fruit nectars; soda water; non-alcoholic aperitifs.

BALENCIAGA

Representative:DAMBREVILLE Lucie SANTARELLI
Tour TRINITY, 1 Bis Place de la Défense F-92400 COURBEVOIE FRANCE

WO0000001928005(9, 28, 41, 42)
Office of Origin: US

Date of International Registration: 20 February 2026
Date of Designation in the UK: 20 February 2026

International priority date claimed: 13 February 2026 (US) (99651480)

Class 9:
Downloadable mobile applications for streaming animated content; downloadable game software for use on mobile devices and computers.

Class 28:
Stuffed and plush toys.

Class 41:

Entertainment services, namely, production and distribution of ongoing television programs in the field of animation, cartoons, and entertainment featuring animated characters and themes; providing non-downloadable videos in the field of animation, cartoons, and entertainment featuring animated characters and themes via a website; providing entertainment information in the fields of animation, cartoons, and entertainment featuring animated characters and themes via a website; entertainment services, namely, providing temporary use of non-downloadable interactive games; providing an on-line computer game in the field of animation, cartoons, and entertainment featuring animated characters and themes.

Class 42:
Providing temporary use of on-line non-downloadable software for streaming animated films and television programs, viewing and sharing animated content, and playing interactive games featuring animated characters and entertainment themes; providing online non-downloadable game software; providing temporary use of non-downloadable game software via a website.

Buzzfeed Media Enterprises, Inc.

Representative: Bird & Bird LLP
12 New Fetter Lane London EC4A 1JP UNITED KINGDOM

WO0000001937663(10)
Office of Origin: EM

Date of International Registration: 22 June 2026
Date of Designation in the UK: 22 June 2026

Cios Go ID

International priority date claimed: 30 January 2026 (EM) (019310792)

Class 10:
Medical X-ray systems, particularly C-arm mobile X-ray systems; operating and control equipment and devices for medical X-ray systems; parts of the equipment and devices mentioned above.

Siemens Healthineers AG

WO0000001937581(21, 31)
Office of Origin: EM

Date of International Registration: 13 August 2026
Date of Designation in the UK: 13 August 2026

Sortenaeb

Class 21:
Bird feeders for feeding birds in the wild.

Class 31:
Food for wild birds.

Familien Digetvej ApS

Representative: HortenDahl Advokatpartnerselskab

WO0000001937457(7, 9, 42)
Office of Origin: BX

Date of International Registration: 19 June 2026
Date of Designation in the UK: 19 June 2026

International priority date claimed: 08 January 2026 (BX) (1540288)

Class 7:
Machines for the manufacture of plastics and plastic products; dosing and mixing machines for industrial purposes; installations and apparatus for processing plastics; dosing and mixing systems for injection molding, blow molding, and extrusion applications; parts for the aforementioned machines and systems, namely motors, gearboxes, feeders, dosing units, mixing units, conveying units, cylinders, hoppers, pumps, valves and control units.

Class 9:
Scientific, optical, weighing, measuring, signaling, monitoring and control apparatus and instruments for use in plastics processing and plastics manufacturing; gravimetric, optometric, and volumetric measuring and dosing apparatus; electronic data processing apparatus and computer hardware for collecting, processing, analyzing, monitoring, controlling data relating to plastics processing, dosing and mixing systems; electronic controllers and electronic monitoring apparatus for controlling, monitoring, and calibrating mixing and dosing machines; sensors and sensor systems for weighing, volume measurement, and material flow measurement.

Class 42:
Engineering services in the field of machinery and equipment for the manufacture, processing, dosing and mixing of plastics; research and design services relating to mixing and dosing machines for the plastics industry; technological research and consultancy relating to plastics manufacturing and processing; product design and product development of industrial mixing, dosing, and material handling equipment; design and development of computer software for controlling, optimizing, and monitoring of industrial mixing and dosing processes; technical testing, calibration and validation of measuring and dosing apparatus; design and development of prototypes and customized industrial material handling and dosing systems.

Movacolor Holding B.V.

Representative: Arnold & Siedsma
1-6 Lombard Street London EC3V 9AA UNITED KINGDOM

WO0000001937462(9, 12, 37)
Office of Origin: CN

Date of International Registration: 21 May 2026
Date of Designation in the UK: 21 May 2026

Class 9:
Devices for playing sound and image carriers; downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; electronic surveillance apparatus; humanoid robots having communication and learning functions for assisting and entertaining people; laboratory robots; teaching robots; humanoid robots with artificial intelligence for use in scientific research; humanoid robots with artificial intelligence for preparing beverages; humanoid robots with artificial intelligence for use in household cleaning and laundry; humanoid robots with artificial intelligence for preparing drinks; computer software applications, downloadable; downloadable computer software applications for smartphones; USB flash drives; computer programs, recorded; central processing unit (CPU) for information, data, sounds and images processing; telepresence robots; computer chatbot software for simulating conversations; user-programmable humanoid robots, not configured; data processing apparatus; computer operating programs; face recognition equipment; navigational instruments; GPS navigation devices; virtual reality headsets; dashboard cameras; security surveillance robots; earphones; audio- and video-receivers; steering apparatus, automatic, for vehicles; surveying apparatus and instruments; simulators for vehicle driving and controlling; microcontrollers; controllers for servo motors; electronic control apparatus for vehicles; video screens; electronic key fobs being remote control apparatus; theft prevention installations, electric; battery charge devices.

Class 12:
Electric vehicles; vehicles for locomotion by land, air, water or rail; automobiles; motors, electric, for land vehicles; cars; self-driving robots for delivery; automobile chassis; self-balancing scooters; bicycles; carts; sleighs [vehicles]; automobile tyres; repair outfits for inner tubes; air vehicles; aircraft; water vehicles; hubs for vehicle wheels; vehicle seats; vehicle chassis; remote control vehicles, other than toys.

Class 37:
Providing information relating to repairs; repair or maintenance of power generators; electric appliance installation and repair; installation, maintenance and repair of computer hardware; machinery installation, maintenance and repair; repair or maintenance of industrial robots with artificial intelligence; motor vehicle maintenance and repair; vehicle maintenance; vehicle battery charging; vehicle washing; vehicle service stations [refuelling and maintenance]; maintenance and repair of electric vehicles; repair of tires; electric vehicle battery swapping services.

Seres Group Co., Ltd

Date of Designation in the UK: 15 April 2026

DUNIA

International priority date claimed: 17 October 2025 (EM) (019262729)

Class 1:
Chemical substances, in particular catalysts, semiconductors, battery materials; catalysts for use in chemical processes; catalysts for water splitting reactions; catalysts for carbon dioxide conversion; chemicals used in industry and science; synthetic chemicals; synthetic catalysts; synthetic semiconductors; synthetic battery materials.

Class 7:
Industrial robots, in particular for use in relation to the automated synthesis of chemicals, molecules, semiconductors, catalysts, battery materials and materials; industrial robots, in particular for use in the fields of chemical, semiconductor, catalyst, and battery material discovery, chemical synthesis, semiconductor discovery, catalyst discovery, battery materials discovery, materials discovery, catalyst optimization, semiconductor synthesis, catalyst synthesis, battery materials synthesis.

Class 9:
Computer software, in particular relating to the digitisation and modelling of chemicals, catalysts, battery materials and materials; computer software platforms, in particular relating to the digitisation and modelling of chemicals, battery materials and materials; computer software for controlling printers and 3D printers; computer software relating to the operation of robots for the automated synthesis and manufacture of chemicals, catalysts, battery materials and materials; computer software platforms relating to the operation of robots for the automated synthesis and manufacture of chemicals, catalysts, battery materials and materials; application software for robots; application software in the nature of operating instructions for robots; laboratory robots, in particular for use in relation to the automated synthesis and manufacture of chemicals, catalysts, battery materials and materials; user-programmable robots, in particular for use in relation to the automated synthesis and manufacture of chemicals, catalysts, battery materials and materials; databases (electronic) containing data and instructions relating to the automated synthesis and manufacture of chemicals, catalysts, battery materials and materials; scientific, research and laboratory apparatus and instruments; chemistry apparatus and instruments.

Class 35:
Computerised database management services in relation to data and instructions relating to the automated synthesis and manufacture of chemicals, semiconductors, catalysts, and materials; database management services connected with the provision of data and instructions relating to the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials.

Class 41:
Electronic library services related to digital and digitised matter, chemicals, semiconductors, catalysts, battery materials and materials.

Class 42:
Scientific and technological services and research and design services relating thereto; chemical research; scientific research; chemical technological research; chemical research and analysis; chemistry services; chemistry consultation; scientific research relating to chemistry; research and development services in the field of chemistry; design and development of chemical compounds; design and development of synthetic chemical compounds; scientific and research services in relation to the digitisation of chemistry; scientific and research services in relation to chemical, semiconductor, battery material, and catalyst discovery, chemical synthesis, catalyst discovery, catalyst optimization, catalyst synthesis, semiconductor discovery, semiconductor optimization, semiconductor synthesis, battery material discovery, battery material optimization, battery material synthesis, and materials discovery; providing online non-downloadable software relating to the digitisation and modelling of chemicals, semiconductors, catalysts, battery materials and materials; software as a service (saas) relating to the digitisation and modelling of chemicals, semiconductors, catalysts, battery materials and materials; platform as a service (paas) relating to the digitisation and modelling of chemicals, semiconductors, catalysts, battery materials and materials; providing online non-downloadable software relating to the operation of robots for the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials; software as a service (saas) relating to the operation of robots for the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials; platform as a service (paas) relating to the operation of robots for the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials; providing online non-downloadable application software for robots; providing online non-downloadable application software in the nature of operating instructions for robots; programming and operating services relating to robots for use in relation to chemical, semiconductor, battery materials, and catalyst discovery, chemical synthesis, catalyst discovery, catalyst optimization, catalyst synthesis, semiconductor discovery, semiconductor optimization, semiconductor synthesis, battery materials discovery, battery materials optimization, battery materials synthesis, and materials discovery; rental of laboratory robots for laboratory research

and analysis; rental of laboratory robots for laboratory testing; chemical research relating to automated synthesis; development, hosting and maintenance of databases relating to research, data and instructions for the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials; development, hosting and maintenance of databases relating to research, data and instructions in the fields of chemical, semiconductor and catalyst discovery, chemical synthesis, catalyst discovery, catalyst optimization, catalyst synthesis, semiconductor discovery, semiconductor optimization, semiconductor synthesis, battery materials discovery, battery material optimization, battery materials synthesis, and materials discovery; providing information, data and instructions in relation to the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials; providing information, via a website, in relation to the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials; providing information, data and instructions in relation to the operation of robots for the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials; providing information, via a website, in relation to the operation of robots for the automated synthesis and manufacture of chemicals, semiconductors, catalysts, battery materials and materials.

The mark consists of a circle overlapping with a square, overlapping with an upside-down triangle.

International priority date claimed: 27 June 2025 (US) (99257154)

Class 1:
Plant growth promoters and plant growth regulators in the nature of plant hormones for promoting plant growth, and biological soil and plant soil amendments for use in agriculture and horticulture; seed microbial inoculants and soil inoculants for use in agriculture and horticulture; biochemicals, namely, biological signal molecules in the nature of agricultural and horticultural chemicals, except fungicides, herbicides, insecticides and parasiticides, namely, natural and synthetic plant hormones, biological fertilizers, granulated fertilizers, and chemical additives for use in the manufacture of pesticides, insecticides, herbicides, biological pesticides, biological insecticides, and granulated pesticides that improve plant health and enhance growth of agricultural and horticultural crops; chemicals used in agriculture, horticulture and forestry, except fungicides, herbicides, insecticides and parasiticides, namely seed treatment preparations; fertilizers for agricultural, domestic, horticultural, ornamental and commercial use; chemical preparations for the treatment of seeds and plants for agricultural use.

Class 3:
Cosmetic skin and hair care preparations for use in connection with the improvement in the appearance of human skin.

Class 5:
Pharmaceutical preparations for suppressing tumors and treatment of cancer; pharmaceuticals for use in the treatment of immunological and inflammation-related disease and disorders, fibrotic diseases and disorders, neurosensory-related diseases and disorders, and metabolic diseases and disorders; veterinary preparations for treatment of cancer, immunological and inflammation-related disease and disorders, fibrotic diseases and disorders, neurosensory-related diseases and disorders, and metabolic diseases and disorders for use in connection with pet animals and farm animals.

Class 31:
Agricultural, horticultural and forestry products, namely, seeds and bulbs for agricultural and horticultural purposes, seedlings, live plant grafts, and plugs being seedlings or live rooted plant cuttings and planting soil sold as a unit; raw and unprocessed agricultural and horticultural products, namely, plant biomass being organic matter derived from live plants; natural live plants, rootstocks and flowers; live bulbs, seedlings, plant bulb divisions in the nature of live plant cuttings being parts of live plants, micropropagated seeds for agricultural and horticultural purposes, tissue-cultured seedlings, and seeds for planting for agricultural and horticultural purposes; agricultural and aqua-cultural crops, namely, crop seeds for agricultural and horticultural purposes and live plant cuttings and divisions being parts of live plants; horticulture and forestry products, namely, unprocessed seeds for planting for aqua-cultural and forestry use.

Class 42:
Pharmaceutical research and development services; scientific research and development of pharmaceutical preparations; pharmaceutical research services, namely, developing new uses for pharmaceutical compounds through the use of computer models, animal models, and controlled environments; contract scientific research services in support of scientific research and development of pharmaceutical preparations; technical consultancy and services in relation to technical research in the field of pharmaceuticals, namely, pharmaceutical research and development; consultancy in relation to scientific research in the field of pharmaceuticals; providing medical research and scientific research information in the field of medicine and pharmaceuticals; drug discovery services; scientific and technological services, namely, scientific research and design for others in the field of pharmaceuticals and conducting and evaluating clinical trials for others; software as a service (SaaS) services featuring software enabling users to diagnose medical conditions, prescribe medical treatment and prescriptions, design clinical trials and forecast clinical trial results, search for clinical trial patients, analyze data, and develop pharmaceutical products and chemical compounds.

Date of Designation in the UK: 23 February 2026

BUBBLE GUM POP ART

International priority date claimed: 10 February 2026 (US) (99645957)

Class 9:
Downloadable virtual collectibles in the nature of images in the field of art authenticated by non-fungible tokens (NFTs) using blockchain technology; downloadable digital collectibles being image and video files in the field of art authenticated by non-fungible tokens (NFTs); downloadable virtual goods in the nature of image files of art authenticated by non-fungible tokens (NFTs); downloadable multimedia files containing artwork, text, audio, and video relating to art authenticated by non-fungible tokens (NFTs); downloadable multimedia files containing artwork relating to pop culture authenticated by non-fungible tokens (NFTs); downloadable digital image files of art authenticated by non-fungible tokens (NFTs); downloadable image files containing art.

Class 35:
Providing consumer product information relating to goods authenticated by non-fungible tokens (NFTs); retail store services connected with the sale of downloadable digital image files of art authenticated by non-fungible tokens (NFTs); online retail store services connected with the sale of downloadable digital art authenticated by non-fungible tokens (NFTs); providing an online marketplace for buyers and sellers of downloadable digital art images authenticated by non-fungible tokens (NFTs); provision of an online marketplace for buyers and sellers of downloadable digital files authenticated by non-fungible tokens (NFTs).

Class 41:
Providing online non-downloadable virtual collectibles in the nature of images in the field of art authenticated by non-fungible tokens (NFTs) using blockchain technology.

WO0000001811740(6, 7, 9, 16, 20, 24, 35, 37, 40, 42)
Office of Origin: US

Date of International Registration: 29 December 2023
Date of Designation in the UK: 29 December 2023

The mark consists of a geometric design preceding the literal element LEVATA.

International priority date claimed: 27 November 2023 (US) (98285912)

Class 6:
Metal locks, metal lock assemblies in the nature of metal locking mechanisms, and the hardware associated therewith, namely, metal keys for locks, lock cylinders of metal, metal ball lock pins, lock bolts of metal, metal screws, and metal strike plates; metal barcode labels.

Class 7:
Industrial robots.

Class 9:
Plastic cards in the nature of blank smart cards; encoded identity cards; encoded smart cards containing programming used to allow holders access to various secure locations inside a building or building complex; proximity credentials, namely, electronic security tokens in the nature cards, tags, and key fobs used by an authorized user to allow access to various secure locations inside a building or building complex; barcode label printer; handheld barcode scanner; barcode scanner; mobile computer; printheads for bar-code label printers; encoded barcode labels; printhead for thermal printers; mobile handheld computer; tablet computers; mobile tablet computers; document printers; ID card printers; label printers; barcode printers; electronic point-of-sale (POS) systems comprised primarily of point-of-sale terminals, bar code readers, touchscreen monitors, keyboards, document printers, scanners, and recorded operating software; receipt printers; electronic locks; electronic lock assemblies, electronic locks, electronic lock assemblies, and the hardware associated therewith, namely, electronic cylindrical locksets and keypads; electric and electronic locks, encoded keycards, and encoders for magnetic stripe cards, smart cards and RFID (radiofrequency identification) cards and mobile credentials, namely, digital identity credentials on mobile devices used for enforcing, restricting and controlling access privileges to secured assets; radio frequency identification (RFID) systems and components, comprised of radio frequency identification (RFID) readers, radio frequency identification (RFID) antennas, radio frequency identification (RFID) tags and labels, and downloadable computer and mobile device operating software for monitoring and controlling radio frequency identification (RFID); downloadable computer software and hardware security system products, namely, electronic mobile credential devices software for use in authentication of an individual's identity; downloadable cloud-based lock management software for operating electronic locks; downloadable software for operating electronic lock systems, wired and wireless locking and access control apparatus, systems, and devices; recorded computer software for designing, editing, and printing identification cards; downloadable computer software for designing, editing, and printing identification cards; downloadable computer and mobile device operating software for monitoring and controlling radio frequency identification (RFID) tags and cards for track and trace, inventory, and supply chain management; downloadable mobile application providing access to a web-based customer service platform for the enterprise-level management of mobile devices in particular mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID (radio-frequency identification) equipment, identification and access control equipment, payment terminals and wireless hardware infrastructure; electronic displays, namely, digital signage; vision systems, namely, systems comprised of cameras, sensors, software, and lighting to collect and analyze visual data used to automate visual inspections, control and automate processes, and provide feedback for mechanical devices all of the foregoing related to the visual inspection of products for defects, contaminants, functional flaws, and other irregularities; automated labeling machines; downloadable asset inventory management software; downloadable inventory management software; downloadable warehouse inventory management software; downloadable direct store delivery tracking software; downloadable route accounting software, namely, software for the dispatch, delivery, accounting, invoicing, billing and return of products from delivery and service vehicles; downloadable label printing software; downloadable point of sale software, namely, software for the operation of electronic point of-sale (POS) systems comprised primarily of point-of-sale terminals, bar code readers, touchscreen monitors, keyboards, document printers, and scanners; downloadable voice recognition software; encoded plastic cards which contain programming used to allow holders access to various secure locations, structures, and items as well as used for identification purposes; plastic magnetic strip cards which contain programming used to allow holders access to various secure locations, structures, and items as well as used for identification purposes.

Class 16:
Paper barcode labels; thermal receipt paper; printer ribbons for label printing machines; preprinted labels of paper; custom labels of paper; security labels of paper; custom barcode labels of paper; identification wristbands made of paper; receipt paper; receipt ribbons in the nature of thermal transfer ribbons; thermal transfer ribbon.

Class 20:
Plastic key cards not encoded and not magnetic; plastic card keys, not encoded and not magnetic; plastic barcode labels; access control cards, not encoded and not magnetic.

Class 24:
Labels of textile for barcodes; polyester labels.

Class 35:
Business management for others in the field of the ongoing technical support and repair of mobile devices including mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID (radio-frequency identification) equipment, identification and access control equipment,

payment terminals and wireless hardware infrastructure; online retail store services connected with the sale of locks and the hardware associated therewith and access control and smart lock management software; on-line retail store services connected with the sale of identification card printing systems, identification card printers, identification cards, identification card supplies, identification card accessories, identification card creation and access control software, and security related products; on-line retail store services connected with the sale of digital photo identification and card personalization systems and related supplies; on-line retail store services connected with the sale of automatic identification and data capture products.

Class 37:
Technical support services, namely, troubleshooting and support services in the nature of providing technical advice related to the repair of mobile devices, in particular, mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID equipment, ID and access control hardware, payment terminals, and wireless infrastructure; repair services for mobile devices, in particular, mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID equipment, ID and access control hardware, payment terminals, and wireless infrastructure; troubleshooting in the nature of repair of electronics, namely, mobile devices, in particular mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID (radio-frequency identification) equipment, identification and access control equipment, payment terminals, and wireless hardware infrastructure; repair services for electronics, namely, mobile devices, in particular mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID (radiofrequency identification) equipment, identification and access control equipment, payment terminals, and wireless hardware infrastructure; providing managed support and repair services, namely, technical support services in the nature of technical advice related to the repair of mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID equipment, ID and access control hardware, payment terminals, and wireless infrastructure; providing managed support and repair services, namely, asset tracking, namely, tracking of mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID equipment, id and access control hardware, payment terminals, and wireless infrastructure; providing managed support and repair services, namely, repair services for mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID equipment, id and access control hardware, payment terminals, and wireless infrastructure; providing managed support and repair services, namely, product triage services, namely, diagnosis of technical and physical problems related to mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID equipment, id and access control hardware, payment terminals, and wireless infrastructure; installation services, namely, installation of locks and access control systems.

Class 40:
Custom label printing services; custom barcode label printing services.

Class 42:
Troubleshooting in the nature of diagnosing problems with electronics, namely, mobile devices, in particular mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID (radio-frequency identification) equipment, identification and access control equipment, payment terminals and wireless hardware and software infrastructure; computer technology support services, namely, help desk services; repair of computer software; computer technology support services, namely, 24/7 service desk or help desk services for mobile devices including mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID (radio-frequency identification) equipment, identification and access control equipment, payment terminals and wireless hardware infrastructure; software as a service (SaaS) services featuring access control and smart lock management software; software as a service services for provisioning and managing over-the-air mobile credential technology; software as a Service (SaaS) services, namely, a secure non-downloadable software featuring workspace for securely capturing, storing, managing, issuing, provisioning, printing, screening, and tracking physical and digital identities and credentials; technical consulting and assistance with hardware, software, and supplies for security and identification card systems; providing temporary use of non-downloadable cloud-based software for securely capturing, storing, managing, and tracking employee identities and credentials; providing temporary use of non-downloadable cloud-based software for authentication, issuance, validation and revocation of digital credentials and for identifying, authenticating and authorizing user access to secured cloud-based, mobile or computer networks and to secured assets, namely, to devices such as, computers, mobile devices, and physical entryways, namely, locks, doors and gates; providing temporary use of non-downloadable cloud-based software for securely issuing, transferring, delivering, sending, and printing identification and personal credentials; computer security services, namely, providing non-downloadable software enforcing, restricting and controlling access privileges to cloud-based, mobile or network resources based on assigned credentials, authentication, issuance and validation of digital credentials; providing temporary use of non-downloadable cloud-based software for enforcing, restricting and controlling access privileges to cloud-based, mobile or network resources based on assigned credentials; providing temporary use of non-downloadable computer and mobile device operating software for monitoring and controlling radio frequency identification (RFID) for track and trace, inventory, and supply chain management; providing a web-based non-downloadable customer platform for the enterprise-level management of mobile devices, in particular mobile computers, tablets and rugged laptops, barcode scanners, barcode printers, RFID (radio-frequency identification) equipment, identification and access control equipment, payment terminals and wireless hardware infrastructure; providing temporary use of non-downloadable asset inventory management software; providing temporary use of non-downloadable direct store delivery tracking software; providing temporary use of non-downloadable route accounting software, namely, software for the dispatch, delivery, accounting, invoicing, billing and return of products from delivery and service vehicle; providing temporary use of non-downloadable label printing software; providing temporary use of non-downloadable point of sale software, namely, software for the operation of electronic point-of-sale (POS) systems comprised primarily of point-of-sale terminals, bar code readers, touchscreen monitors, keyboards, document printers, and scanners; providing temporary use of non-downloadable voice recognition software; commercial and

residential premises-security services, namely, maintenance and repair of security and access control systems.

HyFlow

International priority date claimed: 02 December 2025 (DK) (VA 2025 02079)

Class 7:
Machines and mechanical installations for aquaculture and fish farming, namely automatic fish feeding systems; machines for receiving and transporting fish feed; bulk feeding machines with central handling; pneumatic and hydraulic machines and systems for transporting feed; machines for dosing, distributing and delivering extruded fish feed pellets; automatic feeders and feeding machines for recirculating aquaculture systems (RAS) and offshore fish farming; parts of machines, pumps and valves for water-based low-speed transport of feed; diffusers [parts of machines] adapted to feeding systems; water pipes and tubes [parts of machines] adapted for waterborne fish feeding systems; nozzles [parts of machines] adapted for feeding systems; mechanical components, parts and accessories for all the aforesaid goods.

Class 9:
Machines for weighing and measuring fish feed.

Class 11:
Apparatus and installations for the controlled transport of water used in the delivery of feed in aquaculture; water distribution installations for gentle low-speed transport of fish feed; water circulation devices for use in fish feeding installations; parts and accessories for all the aforesaid goods.

Class 37:
Installation, cleaning, repair and maintenance of machinery and mechanical installations for aquaculture and fish farming, including waterborne fish feeding systems; providing information regarding the repair or maintenance of fish feeding systems and fish feeding machines and instruments; installation and maintenance of fish feeding systems.

Class 42:
Engineering services in the field of aquaculture and fish farming, namely automated fish feeding systems; testing, verification and quality control of fish feed systems.

Class 44:
Providing information regarding fish feeding; fish feeding advice.

International priority date claimed: 23 September 2025 (US) (99409027)
The mark contains the colours red, light purple, green, forest green, light green, yellow, pink, blue, teal, dark purple, turquoise and orange.
The mark consists of the word PRE in a stylized format including the colors red, light purple, green, forest green, light green, yellow, pink, blue, teal, dark purple, turquoise and orange.

Class 9:
Downloadable software for data analytics in the fields of drug discovery, personalized medicine and patient care pathways; downloadable software for collecting, processing, analyzing, transmitting, validating and displaying data using artificial intelligence in the health, medical, scientific and pharmaceutical fields; downloadable software for data analytics using artificial intelligence in the fields of drug discovery, personalized medicine and patient care pathways; downloadable computer software using artificial intelligence (AI) for collecting, processing, analyzing, transmitting, validating and displaying data in the health, medical, scientific and pharmaceutical fields; downloadable software for patient case management using artificial intelligence for viewing and sharing patient health information, performing healthcare data analytics, generating patient insights, and managing patient care; downloadable application programming interface (API) software; downloadable computer software for use as an application programming interface (API); downloadable software for identity and authorization management in the health, medical, scientific and pharmaceutical fields.

Class 38:
Telecommunications access services; telecommunication services provided via Internet platforms in the field of health; providing access to databases; providing access to databases featuring patient health data; providing access to databases featuring medical research data; providing access to databases featuring clinical trial data; providing access to databases featuring health data, medical data, genetic data, movement data, nutritional data, wellness data, geographic data, health risk data and demographic data.

Class 42:
Research services in the field of data analytics and machine learning, namely analysis of technical data relating to clinical trials, laboratory and genomics; data mining; scientific research and machine software and artificial intelligence programming and technology consulting in the fields of drug development, personalized medicine and patient care pathways; artificial intelligence as a service (AIaaS) services featuring software using artificial intelligence (AI) for data analytics and machine learning in the fields of drug development, personalized medicine and patient care pathways; providing temporary use of on-line non-downloadable software and applications using artificial intelligence (AI) for collecting, processing, analyzing, transmitting, validating and displaying data in the health, medical, scientific and pharmaceutical fields; software as a service (SaaS) services featuring software using artificial intelligence (AI) for data analytics and machine learning in the fields of drug development, personalized medicine and patient care pathways; application service provider featuring application programming interface (API) software; software as a service (SaaS) services featuring software for identity and authorization management in the health, medical, scientific and pharmaceutical fields; providing temporary use of on-line non-downloadable software for data analytics in the fields of drug discovery, personalized medicine and patient care pathways.

Class 44:
Healthcare services, namely, medical counseling services and treatment monitoring using artificial intelligence, algorithm-based machine learning, and analysis technologies; medical advisory services; medical counseling; medical services; healthcare; providing healthcare information; online medical consultation rendered in virtual environments; provision of health care and medical services by health care professionals via the internet or telecommunication networks.

Class 6:
Construction materials of metal; metallic materials for railway tracks; non-electric cables and wires of metal; ironmongery and small items of metal hardware; tubes of metal; safes [strong boxes]; ores of metal; metal padlocks with word combinations; metal padlocks with button combinations; padlocks of metal other than electronic; metal padlocks with letter combinations in the shape of a cylinder; metal hardware articles; metal containers and articles for transporting and packaging; building materials and elements of metal; transportable metal structures and buildings; semi-wrought and unwrought non-precious metals and their alloys; works of art and ornaments, including sculptures, made primarily of non-precious metals; doors, gates, windows, and covers for windows, all of metal; parts, accessories and spare parts of windows and doors of metal included in this class; clamps of metal; wires; corner pieces of metal [building materials]; bands of metal; washers of metal; hinges of metal; flanges of metal; metallic trestles other than furniture; metal chains; deposit boxes; padlocks; handle locks; locks of metal; bolts of metal; metal cylinders of security locks; nails; elbows of metal for pipes; metal wedges [chocks]; duckboards of metal; step ladders and staircases of metal; brackets of metal; tin; hooks of metal for mooring; metal shackles; sockets of metal; door handles of metal; andirons; metal carabiners; springs of metal; latch bars of metal; latch bars (locks); latches; non-luminous and non-mechanical sign plates of metal; knobs [door pulls] of metal; posts of metal; metal nails; metal rivets; chimney cowls, of metal; stands of metal; fasteners of metal; cable ties of metal; tacks; studs of metal; wire cloths; metal tensioners; metal handles for drawers; screws of metal; turnstiles of metal; pipes, tubes, hoses of metal and accessories thereof, including valves; nuts of metal; cables of metal; cablecar cables.

Class 7:
Electric screwdrivers; motors and engines (other than for land vehicles); couplings and transmission components (other than for land vehicles); agricultural implements other than hand-held tools; egg incubators; machines and machine tools for the treatment of materials and manufacturing; machines and apparatus for cutting, punching, abrasion, sharpening and surface treatment; drilling and perforating machines; electric saws; machines, machine tools, power tools and apparatus, for fastening and joining; machines for treatment of waste and recycling, namely crushing and compacting machines; equipment for moving and transporting goods, specifically lifting and handling apparatus for loading and unloading; generators of electricity; jaws of life [electric rescue shears]; dispensing machines; machines for sweeping, cleaning, washing and laundering; emergency and rescue machines and machine tools, specifically hand tools that are not manually operated; industrial robots; machinery for agriculture, earthmoving, construction, oil and gas extraction and mining; pumps, compressors and blowers [machines].

Class 9:
Image capture and development equipment; information technology apparatus and equipment and audiovisual, multimedia and photographic equipment; equipment and accessories for data processing (electrical or mechanical);

screens, receivers for television and apparatus for movies and video; products for improving vision; navigation apparatus and instruments; navigation, orientation, tracking, surveillance and mapping equipment; optical apparatus and instruments, amplifiers and correctors; apparatus for scientific and laboratory research, educational apparatus and simulators; downloadable and recorded content; scientific and laboratory equipment for treatment using electricity; electric measuring devices; signaling, protection, safety and life-saving devices; diving equipment; audiovisual and information technology equipment; audiovisual and photographic equipment; magnets, magnetizers and demagnetizers; stands for video cameras; camera mounts; mounting brackets for computer monitors; stands for televisions; microphone holders; downloadable audio files; stands for computer equipment; stands for mobile telephones; holders adapted for electronic tablets; brackets for fixing flat-screen television sets; magnetic band readers; card readers; cases adapted for storing software disks; cabinets for loudspeakers; cable adapters; USB adapters; audio adapters; Ethernet adapters; coaxial adapters; base stations for telecommunications; computer docking stations; electric power supplies; electronic power supplies; cabinets adapted to contain computers; computer peripheral apparatus; computer housings; portable chargers; USB chargers; chargers for mobile phones; electric cells and batteries; chargers for electric batteries; wireless chargers; earphones featuring a microphone for smartphones; wireless headphones; stereo headphones; headphones; loudspeakers; cases for digital media players; microphones; bags adapted for laptops; covers adapted for computers; covers for laptops; cases adapted for computers; tablet computers; smartphones; cases for external hard drives for computers; hard disks; special bags for cameras and photographic equipment; cases especially made for photographic apparatus and instruments; electronic padlocks; smart padlocks; electronic locks; electronic scales for personal use; electrical adapters; safety restraints, other than for vehicle seats and sports equipment; scales; antenna cables; audio cables; electric cables; calipers; voltage testers; connectors (electricity); adapter plugs; power plugs; electric plugs; digital signage panels; timers; rulers for measuring; strips of multiple plugs; wall mounting brackets for television monitors; telephone cables; USB cables; extension cables; electronic cables; optical cables; coaxial cables; telegraph cables; cables for batteries; connectors [electricity]; telephone connectors; electronic connectors; connectors (electrical plugs and connectors); cable connectors; fiber optic connectors; connectors for electronic circuits; power connectors [electric]; electrical pin connectors; plug-in electrical connectors; insulated electric connectors; electric connector boxes; splice connectors [optical]; electric connectors, plugs, sockets and other contacts; jack plugs; plug connectors for electric cables; connector modules for electric controls; audio cable connectors; connectors for telecommunication apparatus; splice connectors [electrically operated]; multiple socket outlets with surge protection; wireless signal repeaters; Ethernet repeaters; speed repeaters [speed indicators]; repeaters for radio and television stations; radio-frequency repeaters; multi-port repeaters; USB hardware; USB flash drives; blank USB cards; USB card readers; USB flash drives with micro USB connectors compatible with mobile telephones; USB port cards; USB flash drives [not pre-recorded]; USB devices (wireless network adapters); USB chargers for electronic cigarettes; USB wireless routers; USB modems; USB web keys for automatically launching pre-programmed website URLs; USB chargers adapted for cigarette lighter sockets in vehicles; USB flash drives in credit card format; USB [universal serial bus] operating software; devices and media for data storage; smart cards, encoded and magnetic; parts and components for computers; signal cables for AV (audio-video) and telecommunication; electric and electronic components; apparatus and instruments for accumulating and storage of electricity; apparatus, instruments and cables for conducting electricity; signal cables for IT (information technology), AV (audio-video) and telecommunications; system and system support software and firmware.

Class 11:
Lighting equipment and apparatus; heaters and dryers; cooking, heating, cooling and preservation equipment, for food and beverages; apparatus for air conditioning and for heating, ventilation and air purification; water distribution apparatus; sanitary apparatus and installations; apparatus and installations for industrial treatments; freezing and refrigeration equipment; air-conditioning apparatus; heaters, hot water bottles, bed warmers, electric or non-electric; electrically heated cushions and covers, other than for medical use; electric kettles; electric kitchen utensils; headlights for vehicles and reflectors; sanitary installations, equipment for sanitation and for the provision of water; suntanning equipment; apparatus for sterilization, disinfection and decontamination.

Class 18:
Leather and imitations of leather; animal skins; luggage and carry-on bags; umbrellas and parasols; walking sticks; whips, harness and saddlery items; collars, leashes and clothing for animals; backpacks; wheeled backpacks; suitcases; briefcases in imitation leather; briefcases [leather goods]; cases and briefcases; leather wallets [bags]; briefcases [leather goods]; calling card cases; wallets; art portfolio cases [handbags]; handbags; card cases [leatherware]; bags and briefcases of skin; school satchels; briefcases [leather goods]; briefcases [leather goods].

Class 20:
Furniture; mirrors [looking glasses]; picture frames; containers not of metal for storage or transport; animal bone, horn, whalebone or mother-of-pearl [unworked or semi-worked material]; shells; meerschaum; yellow amber; desks and tables; height-adjustable desks; indoor blinds for windows; hand-held mirrors [toilet mirrors]; soap dispensers not of metal; portable desks; desks; mobile writing desks; office desks; modular desks [furniture]; office chairs; parts, accessories and spare parts of doors and windows not of metal included in this class; bathtub grab bars, not of metal; non-metallic hardware namely: non-metallic cable ties, plastic cable clamps, non-metallic cable fasteners, plastic clamps for cables or pipes, non-metallic cable and pipe fixing ties, splice connectors (of (plastic) for non-electrical cables, trunking (non-metallic) for cables carrying television signals, cable boxes of non-metallic materials (non-electric), cable drums (non-mechanical) of non-metallic materials.

Class 28:
Games; toys; video game apparatus; gymnastic and sporting articles; decorations for Christmas trees; practical jokes [novelties]; apparatus for games; apparatus for recreational games; controllers for toys; controllers for video games; hunting and fishing tackle, fishing rods and bait; apparatus

for games and various sports, except apparatus or equipment designed for skiing, snowboarding and fishing; toys, games and playthings.

Class 42:
Testing, authentications and quality control; scientific and technological services; design services; information technology services; engineering services; technical project study services; consultancy, advice and information relating to computer services; data duplication, conversion and encryption services.

electrical circuits and circuit boards; optical devices, image enhancers and correctors; optical enhancers; lasers, not for medical purposes; safety, security, protection and signalling devices; alarms and warning equipment; access control systems; diving equipment; navigation, guidance, tracking, targeting and map making devices; monitoring instruments; sensors and detectors; measuring, counting, alignment and calibrating instruments; data loggers and recorders; instrumentation simulators; monitoring apparatus, electric; downloadable virtual goods, namely, computer programs featuring cars, sports cars, racing cars, vehicles, electric vehicles, electric motors and engines, structural parts of automobiles and vehicles, spare parts and accessories for automobiles and vehicles, bicycles, clocks, wristwatches, pocket watches, stationery articles, clothing, footwear, headgear, eyewear and eyewear accessories, bags, sport bags, rucksacks, sports equipment, art, toys, video games and their accessories for use online and in online virtual worlds; downloadable virtual goods, namely, downloadable image files featuring virtual goods; recorded digital files featuring virtual goods; downloadable digital cars, sports cars, racing cars, vehicles, electric vehicles, electric motors and engines, structural parts of automobiles and vehicles, spare parts and accessories for automobiles and vehicles, bicycles, clocks, wristwatches, pocket watches, stationery articles, clothing, footwear, headgear, eyewear and eyewear accessories, bags, sport bags, rucksacks, sports equipment, art, toys, video games and their accessories, all the above mentioned goods authenticated by non-fungible tokens [NFTs]; downloadable interactive characters, avatars and skins; downloadable digital files authenticated by non-fungible tokens [NFTs] using blockchain technology; downloadable digital files authenticated by non-fungible tokens [NFTs] and application tokens; downloadable digital files authenticated by non-fungible tokens [NFTs] featuring collectible images and videos; downloadable collectible images and videos authenticated by non-fungible tokens [NFTs]; downloadable collectible images authenticated by non-fungible tokens [NFTs] used with blockchain technology; digital tokens used with blockchain technology in the nature of data; digital tokens used with blockchain technology in the nature of data to represent a collectible item; downloadable digital files authenticated by non-fungible tokens [NFTs] using blockchain technology to represent a collectible item; electronic devices for enabling the authenticity, ownership, availability and trading of digital assets and creations on computer software platforms authenticated by non-fungible tokens [NFTs]; encoded record tokens; magnetically encoded record tokens; recorded tokens being magnetically encoded gift cards; gift tokens being encoded gift cards; gift tokens being magnetically encoded gift cards; pre-recorded gift tokens being pre-recorded gift cards; pre-recorded tokens being pre-recorded gift cards; security tokens [encryption devices]; encoded gift vouchers; pre-recorded gift vouchers; utility tokens being digital assets using blockchain technology; fan tokens being digital assets using blockchain technology, namely digital objects for voting in team polls, predicting results in competitions and races, check-in for competitions and races, playing games, choosing drivers; downloadable multimedia files containing artwork, texts, audio and video authenticated by non-fungible tokens [NFTs]; downloadable multimedia files containing artworks, audio files, texts and videos relating to automobiles authenticated by non-fungible tokens [NFTs]; downloadable audio and video recordings authenticated by non-fungible tokens [NFTs]; downloadable image files authenticated by non-fungible tokens [NFTs]; downloadable digital media, downloadable digital assets, downloadable digital collectibles, downloadable digital tokens and downloadable digital files authenticated by non-fungible tokens [NFTs]; downloadable digital files authenticated by non-fungible tokens [NFTs]; downloadable digital files containing collectible images, texts, videos and/or music; downloadable music files authenticated by non-fungible tokens [NFTs]; downloadable graphics authenticated by non-fungible tokens [NFTs]; downloadable digital event tickets and digital documents; downloadable digital materials, namely, audio-visual content, videos, films, multimedia files, and animation; downloadable software for receiving and accessing non-fungible tokens; downloadable software for spending and trading non-fungible tokens; downloadable computer software for managing cryptocurrency transactions using blockchain

technology; computer software for blockchain technology and cryptocurrency; downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital assets, digital collectibles, digital tokens and non-fungible tokens [NFTs]; downloadable software for use in displaying, monetizing, buying, selling, trading, clearing, confirming digitized assets authenticated by non-fungible tokens [NFTs]; augmented reality computer hardware; augmented reality software; virtual reality software; augmented reality game software; augmented reality software for use in mobile devices; games software; virtual reality game software; downloadable software for providing access to an online virtual environment; downloadable computer software for the creation, production and modification of digital animated and non-animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments, and extended reality virtual environments; downloadable software and mobile application software providing a virtual marketplace; downloadable computer software for interactive games for use via a global computer network and through various wireless networks and electronic devices; downloadable software for accessing and streaming multimedia entertainment content; downloadable software for engaging in social networking and interacting with online communities; downloadable cryptographic keys for receiving and spending cryptocurrency; downloadable computer software relating to digital goods; downloadable software in the nature of a mobile application to browse and perform electronic transactions of retail consumer goods; virtual reality glasses; augmented reality glasses; augmented reality headsets; virtual reality headsets; head-mounted augmented reality displays; virtual reality gloves; virtual reality helmets; electronic communication devices for playing virtual reality games; virtual reality controllers; telecommunication apparatus in the form of jewellery; electronic numeric displays; hand-held electronic dictionaries; sports whistles; teaching robots; telepresence robots; wah-wah pedals; devices for the projection of virtual keyboards; data gloves; trackballs [computer peripherals]; climate control digital thermostats; dry suits; gimbals for digital cameras; sunglasses for pets; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus.

Class 12:
Automobiles; cars; racing cars; sports cars; motor cars; self-driving cars; hydrogen-fueled cars; electric vehicles; hybrid vehicles; autonomous land vehicles; sports utility vehicles; trailers [vehicles]; physical automobiles, physical cars, physical racing cars, physical sports cars, physical vehicles, authenticated by non-fungible tokens [NFTs]; structural parts of automobiles, racing cars, sports cars, land, air and water vehicles; physical structural parts of automobiles, racing cars, sports cars, land, air and water vehicles, authenticated by non-fungible tokens [NFTs]; spare parts and accessories for automobiles, racing cars, sports cars, land, air and water vehicles; physical spare parts and physical accessories for automobiles, racing cars, sports cars, land, air and water vehicles, authenticated by non-fungible tokens [NFTs]; motors, electric, for land vehicles; engines for land vehicles; motors for land vehicles; vehicle seats; racing seats for automobiles; seat covers for vehicles; vehicle covers [shaped]; steering wheels for vehicles; covers for vehicle steering wheels; dashboards for automobiles; fitted dashboard covers for vehicles; doors for automobiles; handles for automobile doors; covers for baggage compartments [parts of vehicles]; upholstery for vehicles; interior trim for automobiles; sun-blinds adapted for automobiles; sun visors for automobiles; head-rests for vehicle seats; arm rests for vehicle seats; ski carriers for cars; cigar lighters for automobiles; luggage carriers for vehicles; direction signals for vehicles; automobile seat cushions; pneumatic tyres; casings for pneumatic tyres; inner tubes for pneumatic tyres; vehicle tires; automobile tires; adhesive rubber patches for repairing inner tubes; repair outfits for inner tubes; clips adapted for fastening automobile parts to automobile bodies; bodies for vehicles; vehicle chassis; hoods for vehicles; vehicle bumpers; driving motors for land vehicles; mudguards; rearview mirrors; windows for vehicles; windscreens; windscreen wipers; brakes for vehicles; fuel tanks for land vehicles; caps for vehicle fuel tanks; horns for vehicles; crankcases for land vehicle components, other than for engines; automobile wheels; rims for vehicle wheels; freewheels for land vehicles; lug nuts for vehicle wheels; automobile sunroofs; tops for land vehicles; ashtrays for automobiles; glass holders for automobiles; cup holders for vehicles; dashboard drawers [parts of automobiles]; dashboard hatches [parts of automobiles]; glove compartments for automobiles; glove boxes for automobiles; seat back organizers specially adapted for use in cars; vehicle bonnet pins; vehicle hood pins; bearings [parts of vehicles]; car back seat organizers; bicycles, parts and accessories thereof included in this class; electric bicycles; trailers for transporting bicycles; motorcycles; electric motorcycles; cycles, parts and accessories thereof included in this class; tricycles, parts and accessories thereof included in this class; push scooters [vehicles]; kick sledges; sleighs [vehicles]; safety belts for vehicle seats; security harness for vehicle seats; air bags [safety devices for automobiles]; non-skid devices for vehicle tires; safety seats for children, for vehicles; pet safety seats for use in vehicles; anti-theft devices for vehicles; prams; covers for prams; pushchairs; pushchair covers; carrycots [parts of prams and pushchairs], namely carrycots for use with prams and pushchairs; bags adapted for prams and pushchairs; fitted footmuffs for prams and pushchairs; pet strollers; parachutes; two-wheeled trolleys; human-powered trolleys and carts; ski lifts; golf buggies; self-balancing scooters; self-balancing boards; self-balancing electric unicycles; water scooters [personal watercraft]; tow trucks; dining cars; photography drones; surveillance towers specially adapted for vehicles; pneumatic or hydraulic linear actuators for land vehicles; motorized skateboards; snow-going vehicles; mobility vehicles; vehicles; apparatus for locomotion by land, air or water.

Class 25:
Jackets [clothing]; ski jackets; wind-resistant jackets; down jackets; bomber jackets; parkas; blazers; overcoats; coats; dust

coats; raincoats; trench coats; vests; padded vests; cardigans; pullovers; sweaters; shirts; tee-shirts; polo shirts; sport shirts; blouses; sweatshirts; jerseys [clothing]; sports jerseys; trousers; shorts; Bermuda shorts; jeans; skirts; overalls; jogging suits; training suits; track suits; automobile racing suits not in the nature of protective clothing; suits; dresses; singlets; braces [suspenders]; wristbands [clothing]; aprons [clothing]; combinations [clothing]; clothing for gymnastics; leggings [leg warmers]; leggings [trousers]; pockets for clothing; collars [clothing]; ready-made clothing; rainwear; waterproof clothing; golf clothing, other than gloves; motorists' clothing; ski clothing; ski suits; snowsuits; body warmers; knee warmers [clothing]; knitwear [clothing]; sweat bands; gaiters; pocket squares; rash guards; beach clothes; bathing suits; bathing caps; swimming costumes; bathing drawers; bathing trunks; bikinis; bath robes; underwear; slips [undergarments]; pyjamas; dressing gowns; nightgowns; girdles; clothing for children; babies' clothing; babies' overalls; baby bibs, not of paper; children's and infants' cloth bibs; bibs, not of paper; romper suits for children; romper suits for babies; rompers; layettes [clothing]; baby sleepwear; socks; stockings; tights; hosiery; shoes; sports shoes; gymnastic shoes; sneakers; slippers; mules; sandals; boots; footwear for sports; ski boots; after ski boots; bags specially adapted for ski boots; flip-flops; clogs; bath sandals; bath slippers; soles for footwear; footwear uppers; fittings of metal for footwear; inner soles; tips for footwear; heelpieces for footwear; heels; non-slipping devices for footwear; welts for footwear; shoe straps; shoe inserts for non-orthopedic purposes; toe caps [parts of footwear]; tongues or pullstraps for shoes and boots; overshoes; galoshes; gaiter straps; footmuffs, not electrically heated; neckwear; scarves; bandanas [neckerchiefs]; foulards [clothing]; neckties; gloves [clothing]; driving gloves; ski gloves; belts [clothing]; muffs [clothing]; mittens; fur stoles; shawls; sashes for wear; money belts [clothing]; caps being headwear; hats; cap peaks; visors being headwear; berets; headbands [clothing]; hoods [clothing]; shower caps; sleep masks; balaclavas; helmet liners [headwear]; sun visors [headwear]; ear muffs [clothing]; masks for protection against the cold; clothing incorporating digital connections; clothing incorporating infant carriers; clothing incorporating slings for carrying infants; smart clothing equipped with wireless data communication devices; smart clothing with built-in biochip sensors; clothing incorporating LEDs; sportswear incorporating digital sensors; gloves with conductive fingertips that may be worn while using hand-held electronic touch screen devices; thermal gloves for touchscreen devices; footwear incorporating digital connections; smart footwear equipped with wireless data communication devices; smart footwear with built-in biochip sensors; headwear incorporating digital connections; physical clothing, physical footwear, physical headwear, authenticated by non-fungible tokens [NFTs]; clothing, footwear, headwear.

Class 28:
Toys; amusement apparatus adapted for use with an external display screen or monitor; apparatus for games adapted for use with an external display screen or monitor; video game machines for use with televisions; video game machines; television game sets, namely, games adapted for use with television receivers; apparatus for games; amusement machines, automatic and coin-operated; amusement machines, other than those adapted for use with television sets and with an external display screen or monitor; pocket-sized apparatus for playing video games; pocket-sized video games; pocket-sized electronic games; hand-held video games; portable electronic games; portable electronic toys; hand-held units for playing video games; stand alone video game machines; computer game equipment, namely computer game joysticks and game controllers for computer games; electronic games consoles adapted for use with an external display screen or monitor; controllers for game consoles; joysticks for video games; bags specially adapted for hand-held video game apparatus; bags specially adapted for video games consoles; games consoles; gamepads for use with game consoles; handheld game consoles; handheld video game consoles; video game consoles; video game consoles for use with an external display screen or monitor; protective carrying cases specially adapted for video game consoles for use with an external display screen or monitor; mouse for video game machines; gaming keyboards; toy models; models featuring racing scenes [toys]; models featuring racing scenes for collectors; scale model racing cars [toys]; scale model racing cars for collectors; scale model racing vehicles [toys]; scale model racing vehicles for collectors; scale model cars [toys]; scale model cars for collectors; scale model vehicles [toys]; scale model vehicles for collectors; resin models featuring racing scenes [toys]; scale model drivers; scale model pit crews; physical model cars, being toys, authenticated by non-fungible tokens [NFTs]; physical model vehicles, being toys, authenticated by non-fungible tokens [NFTs]; physical model cars for collectors, authenticated by non-fungible tokens [NFTs]; physical model vehicles for collectors, authenticated by non-fungible tokens [NFTs]; racing car model silhouettes, being scale model racing cars; racing car model silhouettes, being stylized scale reproductions of racing cars for ornamental purposes; full-size toy car replicas; full-size toy vehicle replicas; full-size toy steering wheel replicas; vehicle construction toys; toy vehicle trucks; toy vehicles; toy racing car tracks; toy steering wheels; pull-along toy vehicles; toy trucks with cars; toy pedal karts for kids; ride-on toys; ride-on toy cars for children in pedal version or working with batteries; toy cars for children in pedal version or working with batteries; ride-on toy vehicles, electric, reproducing the original models; toy go-karts for children in pedal version or working with batteries; tricycles for infants [toys]; push scooters [toys]; balance bicycles [toys]; race pit-stops [toys]; race tracks [toys]; toy trucks; toy trailers for transporting cars; radio-controlled toy vehicles; radio-controlled toy cars; toy gasoline service stations; toy car garages; toy car showrooms; toy telephones; plush toys; toy plush steering wheels; teddy bears; playing cards; toys designed to be attached to car seats; toys designed to be attached to car back seats; padded toys for seatbelts; streetboards; ankle guards [sports articles]; ankle pads for sports use; ankle guards for skating; ankle pads for skating; abdomen protectors for sports; golf bag carts; sticks for fans and for entertainment [novelty items]; toy sticks for fans and for entertainment shaped as flags [novelty items]; toy lanyards; sports articles and equipment; hunting equipment, namely hunting tackle, bows and lures; fishing equipment; flippers for swimming; floats for swimming; swimming belts; swimming gloves; swimming jackets; inflatable armbands for swimming; swimming floats for recreational use; swimming kick boards; party poppers; streamers [party novelties]; novelties for parties, dances [party favors, favours]; balloons [party novelties]; paper party hats; decorations for artificial Christmas trees; fairground and playground apparatus; portable games and toys incorporating telecommunication functions; toy dough; party poppers [party novelties]; games, toys and playthings; video game apparatus;

gymnastic and sporting articles; decorations for Christmas trees.

finance, economics, home improvements, neighborhoods, social activities and events, schools, lifestyles, urban living, and current events.

Class 42:
Hosting an online website for creating and hosting micro websites for businesses; providing online non-downloadable software and applications for advertising, marketing, designing and creating websites, client relationship management, search engine optimizing, lead generation, and for providing virtual assistant services; providing online non-downloadable software for creating searchable databases of information for consumers and for disseminating advertising for others in the fields of real estate, apartments and residential rentals, mortgages, consumer goods, and consumer services; providing online non-downloadable software for use in soliciting and receiving real estate purchase offers, managing the real estate sales process, closing real estate sales, and selecting, applying for, and securing mortgages and home loans; electronic storage of consumer data; hosting the websites of others; hosting websites and digital content for others on the internet; website design; website development for others; hosting a website featuring technology that enables internet users to create, bookmark, and share content in the nature of public records and data, documents, images, videos, contracts, real estate listings; providing temporary use of online non-downloadable software in the fields of real estate, apartments, residential rentals, and consumer goods and consumer services; providing online non-downloadable computer database software platforms featuring information and advertising in the fields of real estate, apartments and residential rentals, consumer goods, and consumer services; providing temporary use of online non-downloadable software for creating, editing, importing, and accessing advertising, information, listings, photographs, virtual tours, and property visualizations in the field of real estate, apartments, and residential rentals; file sharing services, namely, hosting a website featuring technology enabling users to upload and download electronic files related to photography, architectural, and real estate information; providing temporary use of online non-downloadable software for use in managing rental property waitlists, for searching for real estate and rental inventory and pricing data; providing temporary use of online non-downloadable software for use in the field of real estate for data and document management and analysis, for real estate information and customer information tracking and analytics, for contract management, for listings and transaction management, for search and data syndication for search, and for map-based data display; application service provider featuring application programming interface (API) software for use in the field of real estate for data and document management and analysis, for real estate information and customer information tracking and analytics, for contract management, for listings and transaction management, for search and data syndication, for search, and for map-based data display; computer services, namely, hosting a website featuring a search engine for obtaining data, namely, real estate information; software as a service (SaaS) services featuring software for use in customer relationship management (CRM); software as a service (SaaS) services featuring software for searching, retrieving, viewing and providing real estate and rental listings and information and maps and information pertaining to surrounding neighborhoods and communities, schools, restaurants, grocery stores, amenities, landmarks, parks and recreation, crime rates, commute and travel information, and reviews; providing temporary use of online non-downloadable computer e-commerce software to allow users to perform electronic business transactions; providing temporary use of online non-downloadable software that brings real estate purchasers and sellers together; providing non-downloadable database software featuring information in the field of real estate; computer services, namely, hosting and maintaining an online website for others to upload, store, and share residential real-estate-related documents and information, electronically sign residential real-estate-related documents and create and maintain residential real-estate-related documents and contracts; providing temporary use of online non-downloadable software for matching consumers and sellers; providing temporary use of online non-downloadable software for matching consumers and sellers using a recommendation engine; providing temporary use of online non-downloadable software that analyzes browsing information and behavior to make recommendations.

Class 45:
Legal services in the field of real estate closing services; providing information on real estate legal regulations via a website.

MFTB Holdco, Inc.

Representative: Winfield B. Martin Perkins Coie LLP P.O. Box 2608 SEATTLE WA 98111 UNITED STATES OF AMERICA

WO0000001938378(9, 42)
Office of Origin: US

Date of International Registration: 18 May 2026
Date of Designation in the UK: 18 May 2026

The mark consists of the design of a cloud with the color red which fades into the color yellow which fades into the color green which fades into the color blue on the outside/border and white on the inside.

International priority date claimed: 28 April 2026 (US) (99792578)

The mark contains the colours red, yellow, green, blue and white.
The mark consists of the design of a cloud with the color red which fades into the color yellow which fades into the color green which fades into the color blue on the outside/border and white on the inside.

Class 9:
Downloadable software for syncing, storing, archiving and backing-up data to cloud servers; downloadable software for managing, networking, collaborating within and providing remote access to databases; downloadable cloud-computing software for deploying virtual machines to a cloud computing platform; downloadable software for sharing data, creating data visualizations, data processing, and analyzing data; downloadable software for administration of computer local area networks, management of computer applications and computer hardware, and computer application distribution; downloadable software for managing online projects, developing predictive digital marketing models, managing and facilitating online conferences, meetings, demonstrations, tours, presentations and interactive discussions; downloadable software development tools, for use in the fields of artificial intelligence, natural language processing, image content analysis, speech recognition, deep learning, high performance computing, distributed computing, virtualization machine learning, cluster computing, internet of things, and container management; downloadable software for use as an application programming interface (api) for use in the fields of artificial intelligence, natural language processing, image content analysis, speech recognition, deep learning, high performance computing, distributed computing, virtualization, machine learning, cluster computing, and container management microcontrollers for the purpose of providing verification of firmware and software components; secure electronic chips containing technology for the purpose of providing verification of firmware and software components; encoded electronic chips containing programming used to generate a user's unique identity and a one-time pass code; encoded integrated circuit cards containing programming used to generate the user's unique identity and a one-time pass code.

Class 42:
Computer services, namely, cloud hosting provider services; computer services, namely, integration of private and public cloud computing environments; consulting services in the field of cloud computing technology, infrastructure-as-a-service (IAAS) cloud computing technology, software-as-a-service (SAAS) cloud computing technology, and platform-as-a-service (PAAS) cloud computing technology; providing virtual computer systems and virtual computer environments through cloud computing; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; application service provider (ASP), namely, hosting computer software applications of others; cloud computing featuring software for use in creating web applications, syncing, storing, archiving and backing-up data to cloud servers; providing temporary use of non-downloadable software for managing, networking, collaborating within and providing remote access to databases; cloud computing featuring software for use in deploying virtual machines to a cloud computing platform; cloud computing services featuring software for use in sharing data, creating data visualizations, data processing, and analyzing data; cloud computing featuring software for use in administration of computer local area networks management of computer applications and computer hardware, and computer application distribution; cloud computing featuring software for use in managing online projects, developing predictive digital marketing models, managing and facilitating online conferences, meetings, demonstrations, tours, presentations and interactive discussions; platform-as-a-service (PAAS) services featuring computer software platforms for creating web applications syncing, storing, archiving and backing-up data to cloud servers, infrastructure-as-a-service (IAAS) services, namely, hosting computer software platforms for creating web applications syncing, storing, archiving and backing-up data to cloud servers and software-as-a-service (SAAS) services featuring computer software for creating web applications syncing, storing, archiving and backing-up data to cloud servers; platform-as-a-service (PAAS) services featuring computer software platforms for managing, networking, collaborating within and providing remote access to databases, infrastructure-as-a-service (IAAS) services, namely, hosting computer software platforms for managing, networking, collaborating within and providing remote access to databases and software-as-a-service (SAAS) services featuring computer software for managing, networking, collaborating within and providing remote access to databases; platform-as-a-service (PAAS) services featuring computer software platforms for deploying virtual machines to a cloud computing platform, infrastructure-as-a-service (IAAS) services, namely, hosting computer software platforms for deploying virtual machines to a cloud computing platform and software-as-a-service (SAAS) services featuring computer software for deploying virtual machines to a cloud computing platform; platform-as-a-service (PAAS) services featuring computer software platforms for sharing data, creating data visualizations, data processing, and analyzing data, infrastructure-as-a-service (IAAS) namely, hosting computer software platforms for sharing data, creating data visualizations, data processing, and analyzing data and software-as-a-service (SAAS) services featuring computer software for sharing data, creating data visualizations, data processing, and analyzing data; platform-as-a-service (PAAS) services featuring computer software platforms for administration of computer local area networks management of computer applications and computer hardware, and computer application distribution, infrastructure-as-a-service (IAAS) namely, hosting computer software platforms for administration of computer local area networks management of computer applications and computer hardware, and computer application distribution and software-as-a service (SAAS) services featuring computer software for administration of computer local area networks management of computer applications and computer hardware, and computer application distribution; platform-as-a-service (PAAS)services featuring computer software platforms for managing online projects, developing predictive digital marketing models, managing and facilitating online conferences, meetings, demonstrations, tours, presentations and interactive discussions, infrastructure-as-a-service (IAAS) namely, hosting computer software platforms for managing online projects, developing predictive digital marketing models, managing and facilitating online conferences, meetings, demonstrations, tours, presentations and interactive discussions and software-as-a-service (SAAS) services featuring computer software for managing online projects, developing predictive digital marketing models,

managing and facilitating online conferences, meetings, demonstrations, tours, presentations and interactive discussions; computer services, namely, creating cloud-based indexes of information using information technology; providing online, non-downloadable application programming interface (API) software for use in the fields of artificial intelligence, natural language processing, image content analysis, speech recognition, deep learning, high performance computing, distributed computing, virtualization, machine learning, cluster computing, internet of things, container management; electronic data storage, namely, storage and archival of data, electronic media, and digital content; cloud computing and data center services for data backup and disaster recovery purposes, namely, electronic storage of data and storage services for archiving electronic data; providing electronic data storage services, namely, providing websites for the storage of digital data content; electronic data storage services, namely, providing remote cloud-based server storage to others; technical consulting services in the field of electronic data storage and archiving of electronic data for others; infrastructure as a service (IAAS), services, namely, hosting software for providing remotely accessible electronic data storage; electronic data storage services in the nature of technical management of virtual infrastructure storage services; providing temporary use of online non-downloadable software for syncing, storing, archiving and backing-up data to cloud servers; providing temporary use of online non-downloadable cloud-computing software for deploying virtual machines to a cloud computing platform; providing temporary use of online non-downloadable software for sharing data, creating data visualizations, data processing, and analyzing data; providing temporary use of online non-downloadable software for administration of computer local area networks, management of computer applications and computer hardware, and computer application distribution; providing temporary use of online non-downloadable software for managing online projects, developing predictive digital marketing models, managing and facilitating online conferences, meetings, demonstrations, tours, presentations and interactive discussions; providing temporary use of online non-downloadable software development tools for writing, debugging, deploying, and managing software applications for use in the fields of artificial intelligence, natural language processing, image content analysis, speech recognition, deep learning, high performance computing, distributed computing, virtualization machine learning, cluster computing, internet of things, and container management; providing online, non-downloadable application programming interface (API) software for customizing software applications for use in the fields of container management microcontrollers for the purpose of providing verification of firmware and software components.

WO0000001893904(1, 2, 17, 19)
Office of Origin: EM

Date of International Registration: 19 August 2025
Date of Designation in the UK: 19 August 2025

Certificate Mark

International priority date claimed: 27 February 2025 (EM) (019149072)
The mark contains the colour green.

Class 1:
Industrial chemicals; conductive adhesives; adhesives for use in industry; adhesives for floor coverings; adhesives for mortar; adhesives for cement manufactured products; adhesives for the building industry; adhesives for wall tiles; adhesives for the building industry; adhesives for applying floor tiles; adhesives for wall coverings; adhesives for applying wall coverings; cements for fixing floor tiles; cements for laying floor tiles; cements for fixing tiles; cements for affixing tiles; adhesives for the building industry; adhesives for fixing wall tiles; adhesives for affixing wall tiles; water based adhesives for industrial use; industrial adhesives for use in building; adhesives of synthetic origin for industrial use; cement-waterproofing chemicals, except paints; additives, chemical, for cement, mortar and concrete; damp-proofing chemicals, except paints, for masonry; bond-promoters [chemical products for use in industry]; agglutinants for plaster; adhesive for cement and concrete; air void formers being additives for mortar; bonding agents for admixture with mortars; polymer dispersions; plastics in the form of liquids; putties, and fillers and pastes for use in industry; putties [paste fillers]; agglutinants for putty; coatings for the renovation of floor coverings [other than paints or oils]; retaining compounds.

Class 2:
Coatings; coating materials in the nature of oils; coatings having dust-binding properties; coatings having waterproofing properties for roofs, walls and floors; non-stick coatings in the nature of paints; damp proofing paints; plastic-containing coatings in paste or liquid form for damp proof treatment of wooden and metal surfaces; concrete coatings for impregnation purposes, anti-corrosives, paints, colorants, varnishes, natural resins and lacquers; binding preparations and thickeners for paints and lacquers; paste fillers in the form of coatings, including for smoothing surfaces to be painted; conductive

paints; ground coatings [paints and oils]; coatings for use as primers [paints, varnishes, and oil]; paints having flexible properties; paints for use as elastic facade coatings; primers; anti-rust preparations; impregnating preparations (paints) for wood, including for use as flame retardants; plastics paints for use in construction; liquid coatings (paints) based on cellulose, synthetic resin or starch; agglutinants for paints; dispersion paints; floor sealing compounds [paints and oils]; lacquers and varnishes; sealing preparations for floors [paint]; substances in the nature of paint for filling cracks in plastic surfaces, in wall surfaces and in wooden surfaces.

Class 17:
Seals, sealants and fillers; sealing tapes; caulking compounds for sealing cracks; filtering materials of semi-processed foams of plastic; filtering materials of semi-processed films of plastic; insulating foils; insulating waterproofing membranes; gaskets; fillers for joint packing; mineral raw materials, included in this class, namely substitutes for unprocessed and semi-processed asbestos, mica, raw or partly processed, substitutes for unprocessed and semi-processed mica, mineral fibers, mineral wool, stone wool, glass fibre and glass wool; mineral raw materials, included in class this, for insulation, for building insulation, for use as an insulating material, for insulation purposes, for acoustic insulation purposes and for thermal insulation purposes; sealant compounds for joints; joint sealing compounds; heat insulation and insulating materials, included in this class; insulating sheets and insulating underlays, not of metal; shaped parts of plastic foam for insulating floors and walls, ceilings and roofing of buildings; fabrics of fibreglass and plastics for covering and insulating walls; adhesive tapes, strips, bands and films; pipe thread tapes for sealing; gap filling tapes; tapes (adhesive -) for electrical insulating purposes; self-adhesive tapes, other than stationery and not for medical or household purposes.

Class 19:
Building materials (non-metallic); natural and artificial stone; screed; flooring screeds; mortar, building adhesives, building protection preparations, included in this class; mortar for building; dry mortar; hard-surfaced wall, ceiling and roofing parts of non-metallic materials; joint mortar (building material); underlayment screed; construction foam for building; spackling compound; mortar mix; wall coatings (cementitious -); gypsum wallboards; plastic wallboards; acoustic panels of wood for walls; plastic panels for covering floors and walls, ceilings and roofing of buildings; multilayer panels of plastic for use in building.

If no opposition arises the Registrar will approve the Regulations and the mark will proceed to registration.

WO0000001938297(14, 18, 25)
Office of Origin: US

Date of International Registration: 21 July 2026
Date of Designation in the UK: 21 July 2026

The mark consists of a stylized "S" design intertwined with a backward-facing "S" drawn in blue.

International priority date claimed: 23 January 2026 (US) (99611089)
The color(s) blue is/are claimed as a feature of the mark.
The mark consists of a stylized "S" design intertwined with a backward-facing "S" drawn in blue.

Class 14:
Jewelry.

Class 18:
Handbags; purses; leather bags; backpacks; waist bags; belt bags; fanny packs; tote bags; all-purpose carrying bags.

Class 25:
Knitwear, namely, sweaters, dresses, tops, scarves, shawls, cardigans, skirts; dresses; pants; trousers; skirts; shirts; blouses; sweaters; cardigans; vests; stockings; scarves; shawls; clothing jackets; blazers; footwear; shoes; sports shoes; boots; clothing belts; leggings; underwear; lingerie; bras; bandeau tops.

EMICODE

International priority date claimed: 27 February 2025 (EM) (019149079)

Class 1:
Industrial chemicals; conductive adhesives; adhesives for use in industry; adhesives for floor coverings; adhesives for mortar; adhesives for cement manufactured products; adhesives for the building industry; adhesives for wall tiles; adhesives for the building industry; adhesives for applying floor tiles; adhesives for wall coverings; adhesives for applying wall coverings; cements for fixing floor tiles; cements for laying floor tiles; cements for fixing tiles; cements for affixing tiles; adhesives for the building industry; adhesives for fixing wall tiles; adhesives for affixing wall tiles; water based adhesives for industrial use; industrial adhesives for use in building; adhesives of synthetic origin for industrial use; cement-waterproofing chemicals, except paints; additives, chemical, for cement, mortar and concrete; damp-proofing chemicals, except paints, for masonry; bond-promoters [chemical products for use in industry]; agglutinants for plaster; adhesive for cement and concrete; air void formers being additives for mortar; bonding agents for admixture with mortars; polymer dispersions; plastics in the form of liquids; putties, and fillers and pastes for use in industry; putties [paste fillers]; agglutinants for putty; coatings for the renovation of floor coverings [other than paints or oils]; retaining compounds.

Class 2:
Coatings; coating materials in the nature of oils; coatings having dust-binding properties; coatings having waterproofing properties for roofs, walls and floors; non-stick coatings in the nature of paints; damp proofing paints; plastic-containing coatings in paste or liquid form for damp proof treatment of wooden and metal surfaces; concrete coatings for impregnation purposes, anti-corrosives, paints, colorants, varnishes, natural resins and lacquers; binding preparations and thickeners for paints and lacquers; paste fillers in the form of coatings, including for smoothing surfaces to be painted; conductive paints; ground coatings [paints and oils]; coatings for use as primers [paints, varnishes, and oil]; paints having flexible properties; paints for use as elastic facade coatings; primers; anti-rust preparations; impregnating preparations (paints) for wood, including for use as flame retardants; plastics paints for use in construction; liquid coatings (paints) based on cellulose, synthetic resin or starch; agglutinants for paints; dispersion paints; floor sealing compounds [paints and oils]; lacquers and varnishes; sealing preparations for floors [paint]; substances in

the nature of paint for filling cracks in plastic surfaces, in wall surfaces and in wooden surfaces.

Class 17:
Seals, sealants and fillers; sealing tapes; caulking compounds for sealing cracks; filtering materials of semi-processed foams of plastic; filtering materials of semi-processed films of plastic; insulating foils; insulating waterproofing membranes; gaskets; fillers for joint packing; mineral raw materials, included in this class, namely substitutes for unprocessed and semi-processed asbestos, mica, raw or partly processed, substitutes for unprocessed and semi-processed mica, mineral fibers, mineral wool, stone wool, glass fibre and glass wool; mineral raw materials, included in this class, for insulation, for building insulation, for use as an insulating material, for insulation purposes, for acoustic insulation purposes and for thermal insulation purposes; sealant compounds for joints; joint sealing compounds; heat insulation and insulating materials, included in this class; insulating sheets and insulating underlays, not of metal; shaped parts of plastic foam for insulating floors and walls, ceilings and roofing of buildings; fabrics of fibreglass and plastics for covering and insulating walls; adhesive tapes, strips, bands and films; pipe thread tapes for sealing; gap filling tapes; tapes (adhesive -) for electrical insulating purposes; self-adhesive tapes, other than stationery and not for medical or household purposes.

Class 19:
Building materials (non-metallic); natural and artificial stone; screed; flooring screeds; mortar, building adhesives, building protection preparations, included in this class; mortar for building; dry mortar; hard-surfaced wall, ceiling and roofing parts of non-metallic materials; joint mortar (building material); underlayment screed; construction foam for building; spackling compound; mortar mix; wall coatings (cementitious -); gypsum wallboards; plastic wallboards; acoustic panels of wood for walls; plastic panels for covering floors and walls, ceilings and roofing of buildings; multilayer panels of plastic for use in building.

The mark contains the colours black and white.

Class 4:
Fuel oil; fuel; fuel gas; liquid fuels; mineral fuel; lighting fuel; manufactured solid fuels; electrical energy; carburants; electrical energy from solar power; electrical energy from wind power; electrical energy from renewable sources; electrical energy from non-renewable sources.

Class 6:
Metal containers for the storage and transportation of goods; metal materials for building and construction; buildings, transportable, of metal; non-electric cables and wires of common metal; doors and windows of metal; shutter doors of metal; metal materials for construction; pipes and tubes of metal; buildings of metal; metal hardware; building panels of metal; floors of metal; ceilings of metal; blinds of metal; posts of metal for power lines; cables of metal, non-electric; containers of metal [storage, transport]; latticework of metal; metal utility poles; roofing of metal, incorporating photovoltaic cells; parts and accessories for all of the aforesaid goods.

Class 7:
Machines for the generation of energy; wind-powered electricity generators; electric garbage disposal machines; alternators; current generators; steam boilers [parts of machines]; steam engine boilers; hydroelectric installations for generating electricity; electrical generator stations; compressors for air conditioning apparatus; electric compressors; mobile electrical power generators; generators for wind turbines; machines for separating recyclable materials; recycling crushing units [machines]; emergency power generators; shovels, mechanical; electrical pumps; hydraulic pumps; wind turbines; inlet systems for gas turbines; hydraulic turbines; solar power generators; electrical generators using solar cells; high-voltage generators; parts and accessories for all of the aforesaid goods.

Class 9:
Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; machines and equipment for the distribution or control of energy; testing devices for electronic parts; material testing apparatus; computer peripheral devices; personal computers; components for computers; computer hardware; electrical and electronic components; electric power supply units; battery chargers; electronic surveillance apparatus; fiber optics; waveguides for high power beam delivery; gas detecting apparatus; power distribution boxes; downloadable computer software for remote monitoring and analysis; electricity storage apparatus; accumulators, electric; electrical adapters; power adapters; electric power analyzers; residual gas analyzers; voltage testers; power controllers; switchgear [electric]; batteries; electrical power distribution blocks; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; boiler control instruments; electricity measuring instruments; solar energy collectors for electricity generation; electric control devices for energy management; optical fibres [light conducting filaments]; solar panels for the production of electricity; ultracapacitors for energy storage; data transmission cables; cables for optical signal transmission; photovoltaic apparatus and installations for generating solar electricity; electric current control devices; regulating apparatus, electric; counters; ducts for electric cables; electricity conduits; materials for electricity mains [wires, cables]; battery charging devices for motor vehicles; rechargeable cells; computer software applications, downloadable; solar battery chargers; encoded loyalty cards; integrated circuit cards [smart cards]; fibre optic cables; coaxial cables; ethernet cables; telecommunications cables; calibrated photovoltaic reference cells; galvanic cells; solar cells; solar batteries; photovoltaic cells; couplings, electric; current collectors; collectors, electric; condensers [capacitors]; conductors, electric; water meters; heating meters; electronic meters; current convertors; diodes; igniting apparatus, electric, for igniting at a distance; power distributors [electricity]; telecontrol systems; nonlinear optical fibres; polarisation maintaining optical fibres; wires, electric; frequency meters; fuses; gasometers

[measuring instruments]; electric loss indicators; armatures [electricity]; inductors [electricity]; photovoltaic installations for generating electricity [photovoltaic power plants]; electric breakers [switches]; inverters [electricity]; ducts [electricity]; electrical circuit boards; limiters [electricity]; voltage limiters; photovoltaic modules; terminals [electricity]; computer software packages; electric sockets; electrical power extension cords; downloadable electronic publications in the nature of magazines; distribution boards [electricity]; electric reactors; resistances, electric; voltage detectors; distance sensors; gas sensors; electronic sensors for measuring solar radiation; software; application software for mobile phones; electric plugs; voltage stabilizers; electric voltage transformers; voltmeters; switchboxes [electricity]; dvds; data storage devices; safety, security, protection and signalling devices; home automation devices; computers; downloadable image files; downloadable multimedia files; interfaces for computers; computer programs, recorded; computer programs [downloadable software]; computer programs, downloadable; computer network routers; computer servers; sirens; artificial intelligence and machine learning software; magnetic data media; optical data media; thermostats; electronic metering devices for faucets; optical transmitters; solar wafers; webcams; electric telecommunications apparatus; recording devices for sound and image carriers; personnel tracking devices; intelligent gateways for real-time data analysis; downloadable electronic books; downloadable educational course materials; monitors; computer software platforms; electronic publications, downloadable; downloadable video files; computer software for global positioning systems; downloadable and recorded content; downloadable media; apparatus and instruments for accumulating and storing electricity; energy regulators; converters, electric; solar powered radios; accumulators for photovoltaic power; apparatus for monitoring electrical energy consumption; thermal energy measuring apparatus; apparatus and instruments for switching electricity; apparatus and instruments for regulating electricity; apparatus and instruments for transforming electricity; solar cells for electricity generation; energy control devices; voltage regulators for electric power; energy management software; supercapacitors for energy storage; solar powered telephones; electric power controllers; apparatus for improving power efficiency; photovoltaic apparatus for generating electricity; high voltage reactors; high voltage multipliers; high voltage transformers; high-voltage power supplies; transformers [electricity]; electric current transformers; power packs [transformers]; lighting transformers; downloadable applications for use with mobile devices; downloadable mobile applications for the transmission of information; downloadable mobile applications for the management of information; downloadable mobile applications for the management of data; devices for monitoring domestic or industrial use of electricity, gas, heat, and water; electrical and electronic monitoring and control equipment and instruments for use in, or in connection with, the generation or distribution of energy, gas, water, or electricity, or telecommunications; parts and accessories for all of the aforesaid goods; machines for transmission, distribution, supply, and storage of energy.

Class 11:
Apparatus and installations for ventilating; lighting and lighting reflectors; air filters; nuclear power plant installations; nuclear installations; lighting apparatus; lighting installations; heating apparatus and installations; cooling appliances and installations; steam generating apparatus; steam generating installations; water distribution installations; sanitary installations; electrical lighting fixtures; water conduits installations; regulating apparatus for gas pipe installations; heat accumulators; heating apparatus, electric; air-conditioning apparatus; burners; heating apparatus; boilers, other than parts of machines; domestic boilers; electric boilers; industrial boilers; electric candles; evaporators for air conditioners; filters for air purifiers; filters for air conditioning; ovens; electric lamps; heating installations [water]; nuclear reactors; installations for processing nuclear fuel and nuclear moderating material; waste disposal incinerators; floor lamps; solar lamps; light bulbs; solar thermal collectors [heating]; heat pumps; sockets for electric lights; radiators, electric; bathroom heaters; water heaters; radiators [heating]; electric torches; discharge tubes, electric, for lighting; lamp chimneys; thermostatic valves [parts of heating installations]; ventilating fans; air-conditioning installations; solar energy powered heating installations; solar powered ventilation apparatus; sunlight collecting apparatus for heating purposes; solar powered lamps; electrically energized flask heaters for use in laboratories; heat pumps for energy processing; thermal storage instruments [solar energy] for heating; solar powered torches; distillation apparatus; distillation apparatus; flues; gas burners; accessories for the regulation and safety of water, gas, and oil systems; scrubbers for removing and extracting dust particulates for industrial use; parts and accessories for all of the aforesaid goods.

Class 16:
Paper and cardboard; printed matter; book covers; photographs [printed]; stationery; office requisites, except furniture; drawing instruments; artists' materials; teaching materials [except apparatus]; bags and articles for packaging, wrapping and storage, of paper, cardboard or plastics; paper shredder for office use; periodicals; adhesives for stationery or household purposes; money holders; desktop cabinets for stationery [office requisites]; catalogues; printed informational folders; leaflets; flyers; manuals [handbooks]; books; newspapers; diaries; calendars.

Class 35:
Incentive programs for the reduction of carbon dioxide levels and/or other greenhouse gases in the atmosphere; cost price analysis; commercial administration of the licensing of the goods and services of others; business management assistance; commercial information and advice for consumers [consumer advice shop]; advisory services relating to commercial transactions; providing business information via a web site; arranging of contracts, for others, for the providing of services; assistance and consultancy services in the field of business management of companies in the energy sector; business consulting; advisory services for business management; business inquiries; business partnership search; commercial intermediation services; auditing utility rates for others; systemization of information into computer databases; procurement of contracts concerning energy supply; import-export agencies in the field of energy; tracking and monitoring energy consumption for others for account auditing purposes; energy price comparison services; billing services in the field of energy; providing information in the area of global sustainable business solutions; marketing; business management services relating to electronic commerce; provision of an online marketplace for buyers and sellers of goods and services; commercial information and advice for consumers in the choice of products and services; organization of exhibitions

for commercial or advertising purposes; dissemination of commercial information; customer loyalty services for commercial, promotional and/or advertising purposes; publicity and sales promotion services; business administration; business information; provision of business data; data processing; data management services; collection of data; computerized file management; market research; business management, organization and administration; the bringing together, for the benefit of third parties, of various energy supply services, enabling consumers to conveniently compare and purchase such services; information and advice relating to the aforementioned services.

Class 36:
Capital raising in the energy sector; granting of subsidies relating to the use of energy-efficient energy services and energy-efficient electrical and gas appliances; financing of projects in the energy sector; financing of development projects; financial, monetary and banking services; insurance services; issuance of prepaid cards and tokens of value; issue and redemption of tokens of value; bill payment services provided through a website; agencies for collecting gas utility payments; agencies for collecting electric power utility payments; investment analysis; brokerage of financial investments in energy companies; conducting financial feasibility studies; conducting of capital market transactions; financing services for companies; capital investment; arranging the provision of finance; pawnbrokerage; financial appraisal services; real estate affairs; financial sponsorship of cultural events; financial sponsorship of entertainment activities; financial sponsorship of sporting activities; financial evaluation; financial evaluation for insurance purposes; hire-purchase financing; issuance of travellers' cheques; finance services; providing financial information via a web site; financial services provided to partnerships; brokerage; financial investment brokerage; brokerage of carbon offsets; brokerage of carbon credits; bill payment services; bill consolidation services; credit services; provision of finance for credit sales; warranty services; actuarial services; debt recovery; financial investment; investment fund management; asset management; investment asset management; stock exchange price quotations; stock exchange information services; charitable fund raising; information and advice relating to the aforementioned services; financial consulting services in the fields of energy and electricity; consultancy concerning financing of energy projects; investment consultancy; providing stock market information; financial consultancy in the field of risk management; financial consultancy services relating to infrastructure investment; consultancy services relating to the financing of civil works and infrastructure projects; financial advice.

Class 37:
Construction services; construction of geothermal energy installations; power infrastructure construction; installation of power generating apparatus; installation of solar power systems; installation of wind power systems; installation of hydropower systems; maintenance and repair of solar power installations; maintenance and repair of energy generating installations; repair or maintenance of nuclear power plants; construction of wind power plants; construction of structures for the storage of natural gas; construction of structures for the transportation of natural gas; construction of structures for the production of natural gas; extraction of oil; maintenance and repair of solar heating installations; infrastructure construction; electrical wiring services; pipeline construction and maintenance; laying of sea cables; underwater construction; installation of offshore pipelines; civil engineering underwater construction services; interference suppression in electrical apparatus; construction of power plants; dismantling of power lines; repair of power lines; servicing of power generating apparatus and installations; charging of batteries and power storage devices, and rental of equipment therefore; repair of energy production plants and machines; installation of energy-saving apparatus; maintenance and repair of electricity generators; repair or maintenance of electric lighting apparatus; installation of non-residential solar panel power systems; installation of reactive power compensation apparatus; installation of cables for internet access; installation of photovoltaic cells and modules; installation of gas and water pipelines; installation of electrical and generating machinery; installation of hardware and cables for internet access; installation of electric light and power systems; installation of solar heating systems; repair of energy supply installations; installation of gas supply and distribution apparatus; pipeline construction and maintenance; installation and maintenance of photovoltaic installations; installation and maintenance of solar thermal installations; electric appliance installation and repair; installation and repair of air-conditioning apparatus; maintenance of power generating apparatus and installations; maintenance of telecommunications apparatus; maintenance and repair of data communications networks; maintenance and repair of communications systems; maintenance and repair of instruments; maintenance, servicing and repair of power generating apparatus and installations; maintenance, repair and reconditioning of photovoltaic apparatus and installations; laying of cable; laying of land cables; laying of sea cables; renovation, repair and maintenance of electrical wiring; repair of power generating apparatus and installations; repair of electrical equipment and electrotechnical installations; maintenance and repair of electric vehicles; repair or maintenance of consumer electric appliances; repair or maintenance of boilers; repair or maintenance of waste compacting machines and apparatus; repair or maintenance of waste crushing machines and apparatus; electrical installation services; maintenance of consumer electric appliances; natural gas refuelling service for motor vehicles; charging of electric vehicles; insulation services; installation, maintenance and repair of equipment and instruments for the supply and distribution of energy; installation and repair services; mining extraction; drilling relating to oil and gas; installation, repair and maintenance of condensing apparatus, steam condensers, engine radiators, air heaters and boiler tubes; construction of natural gas transportation facilities; construction of natural gas production facilities; construction of natural gas storage facilities; construction of natural gas storage structures; installation, maintenance and repair of electrical and gas installations; installation, maintenance and repair of gas supply equipment; installation, maintenance and repair of exhaust gas reduction systems; installation, maintenance and repair of equipment for the supply of gas, electricity and water; installation of electrical equipment and generators; construction, installation, maintenance and repair of wind turbines, wind power plants and other wind energy machinery; information and advice relating to the aforementioned services.

Class 38:

Telecommunication services; news agency services; communications by fibre optic networks; communications by computer terminals; providing access to databases; radio, telephone, telegraph communication services; telecommunication services provided via internet platforms and portals; telephone services; streaming of audio material on the internet; transfer of information and data via online services and the internet; data transmission; message sending; transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the internet; data transmission and reception services via telecommunication means; telecommunication gateway services; electronic transmission of messages; providing user access to computer programmes in data networks; providing third party users with access to telecommunication infrastructure; data bank interconnection services; telecommunications services provided via fiber optic, wireless and cable networks; information and advice relating to the aforementioned services.

Class 39:
Transmission, distribution and supply of gas; transmission, distribution and supply of electricity; transmission, distribution and supply of energy; supply of electricity, gas, water and district heating; distribution of district heating; storage of electricity; transmission of oil or gas through pipelines; distribution of energy for heating and cooling buildings; distribution of gas; public utility services in the nature of electricity distribution; distribution of energy; water distribution; supply of electricity; gas storage services; leasing the use of power lines to third parties for the transmission of electricity; refuse collection services; vehicle rental; storage of energy and fuels; storage of liquefied natural gas on ships; chauffeur services; parking place rental; vehicle parking; electricity supply and distribution; electricity distribution; information and advisory services in relation to the distribution of energy; distribution of renewable energy; distribution of renewable natural gas; physical storage of renewable natural gas for others; information and advice relating to the aforementioned services; consultancy services relating to the distribution of electricity.

Class 40:
Processing and refining of fuel materials; production of energy for domestic and industrial use from renewable sources, including solar, wind, green hydrogen and water; air purification and water treatment; energy production; production of energy by power plants; electricity generating; treatment of waste; recycling of waste; water treating; recycling of chemicals; refinement of fuel materials; destruction of waste; waste incineration; rental of electricity generators; leasing of energy generating equipment; rental of air-conditioning apparatus; rental of batteries; rental of boilers; rental of electrical transformers; generation of electricity from wind energy; production of electrical power from renewable sources; production of hydroelectric power; production of energy by nuclear power plants; generation of gas and electricity; recycling services; gas production services; clean energy production; production of renewable green energy; generation of electricity from solar energy; generation of electricity from geothermal energy; surface energy patterning; rental of equipment for the treatment and transformation of materials, for energy production and for custom manufacturing; rental of wind-powered electricity generators; preparation of electronic circuitry by surface energy patterning; generation of electricity from wave energy; generation of electrical power using carbon sequestration; information and advice relating to the aforementioned services; information and advisory services relating to the generation of electricity from wave energy; information and advisory services relating to the production of electricity.

Class 41:
Teaching; training; entertainment services; sporting and cultural activities; organisation of events for cultural, entertainment and sporting purposes; organisation of competitions and awards; organization of exhibitions for cultural or educational purposes; arranging and conducting of conferences; arranging and conducting of congresses; arranging and conducting of seminars; arranging and conducting of workshops [training]; publishing, reporting, and writing of texts; multimedia publishing; services for the publication of newsletters; online publication of electronic books and journals; publishing services (including electronic publishing services); providing online electronic publications, not downloadable; information and advice relating to the aforementioned services.

Class 42:
Scientific and technological services and research and design relating thereto; industrial analysis and research services; industrial design; quality control and authentication services; design of computer hardware and software; development of computer hardware and software; designing of electrical systems; providing artificial intelligence computer programs on data networks; platforms for artificial intelligence as software as a service [SaaS]; technical design services relating to electricity plants; electrical engineering services; technical design and planning of power stations; technical design and planning of telecommunications networks; design and development of regenerative energy generation systems; design and development of software for control, regulation and monitoring of solar energy systems; environmental testing; engineering drawing; engineering design; conducting research and technical project studies relating to the use of natural energy; analysis and testing services relating to electrical engineering apparatus; development of testing apparatus for electrical wires; development of energy and power management systems; testing of apparatus in the field of electrical engineering; energy auditing; testing, analysis and monitoring of telecommunication signals; hosting platforms on the internet; environmental assessment services; research in the field of environmental conservation; gas exploration; exploration and searching of oil and gas; underwater structural inspection services; engineering services for the gas industry; geological surveys; providing scientific information about environmental and conservation issues; industrial process development aimed at reducing greenhouse gas levels in the atmosphere; gas exploration; measurement and analysis of greenhouse gas emissions; geophysical prospecting for the oil, gas and mining industries; technological research on the distribution of energy consumption; technical design and planning of pipelines for gas, water and waste water; exploration services in the field of the oil, gas and mining industries; engineering services relating to gas transport and supply systems; design of electric circuit boards; design of storage systems; providing temporary use of non downloadable computer software; providing online, non-downloadable software; providing temporary use of non-downloadable business software; hosting software platforms

for virtual reality-based work collaboration; rental of load banks for testing electrical power sources; research in the field of magnetohydrodynamic power generation technology; scientific research in the field of energy; scientific research in the field of energy storage; research in the field of nuclear energy power generation technology; technological analysis relating to energy and power needs of others; engineering services in the field of energy technology; rental of meters for the recording of energy consumption; engineering services in the field of electrical power and natural gas production; design and development of energy distribution networks; design and development of energy management software; computer programming for the energy industry; recording data relating to energy consumption in buildings; research in the field of energy; certification services for the energy efficiency of buildings; engineering services relating to energy supply systems; energy performance testing of buildings; environmental testing of exhaust emissions; development of computer programs for analysis of exhaust gas emissions; design of information technology infrastructure for others; design and development of photovoltaic systems; custom design of electromagnetic transformers; technical research in the field of optical interconnection technology; hosting virtual environments; software as a service [SaaS]; cloud hosting provider services; hosting of communication platforms on the internet; hosting on-line web facilities for others; platform as a service [PaaS]; platform as a service [PaaS] featuring software platforms for transmission of images, audio-visual content, video content and messages; providing temporary use of online, non-downloadable computer software for use in broadcast monitoring applications; information and advice relating to the aforementioned services; consultancy in the field of energy-saving; technological consultancy in the fields of energy production and use; providing information about the design and development of computer software, systems and networks; technological consulting services in the field of alternative energy generation; professional consultancy relating to the conservation of energy; consultancy relating to technological services in the field of power and energy supply; provision of information concerning research and technical project studies relating to the use of nature energy; advisory services relating to energy efficiency; consultancy and information services relating to information technology architecture and infrastructure; technical consultancy on energy saving and efficiency; research and consultancy on environmental, ecological and sustainable development matters; consultancy in the fields of energy and sustainable development.

TERNA S.P.A.

Representative: Marks & Clerk LLP
1 New York Street Manchester M1 4HD UNITED KINGDOM

WO0000001893733(1, 2, 17, 19)
Office of Origin: EM

Date of International Registration: 19 August 2025
Date of Designation in the UK: 19 August 2025

Certificate Mark

International priority date claimed: 27 February 2025 (EM) (019149014)

Class 1:
Industrial chemicals; conductive adhesives; adhesives for use in industry; adhesives for floor coverings; adhesives for mortar; adhesives for cement manufactured products; adhesives for the building industry; adhesives for wall tiles; adhesives for the building industry; adhesives for applying floor tiles; adhesives for wall coverings; adhesives for applying wall coverings; cements for fixing floor tiles; cements for laying floor tiles; cements for fixing tiles; cements for affixing tiles; adhesives for the building industry; adhesives for fixing wall tiles; adhesives for affixing wall tiles; water based adhesives for industrial use; industrial adhesives for use in building; adhesives of synthetic origin for industrial use; cement-waterproofing chemicals, except paints; additives, chemical, for cement, mortar and concrete; damp-proofing chemicals, except paints, for masonry; bond-promoters [chemical products for use in industry]; agglutinants for plaster; adhesive for cement and concrete; air void formers being additives for mortar; bonding agents for admixture with mortars; polymer dispersions; plastics in the form of liquids; putties, and fillers and pastes for use in industry; putties [paste fillers]; agglutinants for putty; coatings for the renovation of floor coverings [other than paints or oils]; retaining compounds.

Class 2:
Coatings; coating materials in the nature of oils; coatings having dust-binding properties; coatings having waterproofing properties for roofs, walls and floors; non-stick coatings in the nature of paints; damp proofing paints; plastic-containing coatings in paste or liquid form for damp proof treatment of wooden and metal surfaces; concrete coatings for impregnation purposes, anti-corrosives, paints, colorants, varnishes, natural resins and lacquers; binding preparations and thickeners for paints and lacquers; paste fillers in the form of coatings, including for smoothing surfaces to be painted; conductive paints; ground coatings [paints and oils]; coatings for use as primers [paints, varnishes, and oil]; paints having flexible properties; paints for use as elastic facade coatings; primers; anti-rust preparations; impregnating preparations (paints) for wood, including for use as flame retardants; plastics paints for use in construction; liquid coatings (paints) based on cellulose, synthetic resin or starch; agglutinants for paints; dispersion paints; floor sealing compounds [paints and oils]; lacquers and varnishes; sealing preparations for floors [paint]; substances in the nature of paint for filling cracks in plastic surfaces, in wall surfaces and in wooden surfaces.

Class 17:
Seals, sealants and fillers; sealing tapes; caulking compounds for sealing cracks; filtering materials of semi-processed foams of plastic; filtering materials of semi-processed films of plastic; insulating foils; insulating waterproofing membranes; gaskets;

fillers for joint packing; mineral raw materials, included in this class, namely substitutes for unprocessed and semi-processed asbestos, mica, raw or partly processed, substitutes for unprocessed and semi-processed mica, mineral fibers, mineral wool, stone wool, glass fibre and glass wool; mineral raw materials, included in this class, for insulation, for building insulation, for use as an insulating material, for insulation purposes, for acoustic insulation purposes and for thermal insulation purposes; sealant compounds for joints; joint sealing compounds; heat insulation and insulating materials, included in this class; insulating sheets and insulating underlays, not of metal; shaped parts of plastic foam for insulating floors and walls, ceilings and roofing of buildings; fabrics of fibreglass and plastics for covering and insulating walls; adhesive tapes, strips, bands and films; pipe thread tapes for sealing; gap filling tapes; tapes (adhesive -) for electrical insulating purposes; self-adhesive tapes, other than stationery and not for medical or household purposes.

Class 19:
Building materials (non-metallic); natural and artificial stone; screed; flooring screeds; mortar, building adhesives, building protection preparations, included in class 19; mortar for building; dry mortar; hard-surfaced wall, ceiling and roofing parts of non-metallic materials; joint mortar (building material); underlayment screed; construction foam for building; spackling compound; mortar mix; wall coatings (cementitious -); gypsum wallboards; plastic wallboards; acoustic panels of wood for walls; plastic panels for covering floors and walls, ceilings and roofing of buildings; multilayer panels of plastic for use in building.

Gemeinschaft Emissionskontrollierte Verlegewerkstoffe, Klebstoffe und Bauprodukte e.V.

Aurora Building Counterslip Bristol BS1 6BX UNITED KINGDOM

The Regulations provisionally accepted by the Registrar for governing the use of this Certification trade mark are open to inspection at the Trade Marks Registry, from where copies may be obtained. If no opposition arises the Registrar will approve the Regulations and the mark will proceed to registration.

WO0000001938065(3, 4, 8, 9, 10, 11, 14, 15, 16, 17, 18, 19, 20, 21, 22, 24, 25, 26, 27, 28, 30, 32, 33, 34, 35, 38, 41, 43, 45)
Office of Origin: FR

Date of International Registration: 29 June 2026
Date of Designation in the UK: 29 June 2026

International priority date claimed: 26 June 2026 (FR) (5272583)

Class 3:
Laundry preparations; cleaning preparations; polishing preparations; degreasing preparations; abrasive preparations; soaps; perfumes; essential oils for cosmetic use; cosmetics; lotions for hair; dentifrices; depilatories; make-up removing products; lipstick; beauty masks; shaving products; preservatives for leather (polishes); creams for leather.

Class 4:
Industrial oils; industrial greases; lubricants; dust absorbing, wetting and binding compositions; fuel; lighting fuel; candles for lighting; wicks for lighting; firewood; gas for lighting.

Class 8:
Hand-operated hand tools and implements; cutlery; table forks; spoons; side arms, other than firearms; razors; shearers (hand instruments).

Class 9:
Scientific apparatus and instruments; nautical apparatus and instruments; surveying apparatus and instruments; photographic apparatus and instruments; cinematographic cameras; optical apparatus and instruments; weighing apparatus and instruments; measuring apparatus and instruments; signaling apparatus and instruments; checking (monitoring) apparatus and instruments; teaching apparatus and instruments; sound recording apparatus; apparatus for sound transmission; apparatus for sound reproduction; image recording equipment; image transmission apparatus; image reproduction apparatus; digital recording media; mechanisms for coin-operated apparatus; cash registers; calculating machines; downloadable e-wallets; data processing equipment; computers; tablet computers; smartphones; electronic book readers; downloadable game software; recorded software; computer peripherals; detectors; electric wires; electric relays; diving suits; diving gloves; diving masks; clothing for protection against accidents, irradiation and fire; fire extinguishers; 3D spectacles; virtual reality headsets; integrated circuit cards [smart cards]; bags adapted for laptops; smart watches; electric batteries; batteries for electronic cigarettes; charging stations for electric vehicles; diagnostic apparatus not for medical use.

Class 10:
Surgical apparatus and instruments; medical apparatus and instruments; dental apparatus and instruments; veterinary apparatus and instruments; artificial limbs; artificial eyes; artificial teeth; orthopedic articles; suture materials; stockings for varices; feeding bottles; feeding bottle teats; clothing especially for operating rooms; massage apparatus; prostheses; artificial implants; armchairs for medical or dental use; surgical drapes; bed pans; basins for medical use; special furniture for medical use; cutlery [surgical]; orthopedic footwear; walkers for disabled persons; eyeglasses; spectacle cases.

Class 11:
Lighting apparatus; heating apparatus; steam generating apparatus; cooking apparatus; refrigeration apparatus; drying apparatus; water distribution apparatus; sanitary installations; air-conditioning apparatus; air conditioning installations; freezers; electric flashlights; electric coffee machines; cookers (cooking stoves); lighting apparatus for vehicles; heaters for

vehicles; air conditioners for vehicles; air purification apparatus and machines; water purifying apparatus and machines; sterilizers.

Class 14:
Jewelry ("joaillerie"); jewelry; precious stones; timepieces and chronometric instruments; precious metals and alloys thereof; works of art of precious metal; jewelry boxes; boxes of precious metal; watch cases; watch bands; watch chains; watch springs; watch glasses; key rings (split rings with trinket or decorative fob); statues of precious metal; figurines (statuettes) of precious metal; presentation cases for timepieces; medals.

Class 15:
Musical instruments; electronic musical instruments; music stands; cases for musical instruments.

Class 16:
Printing products (printed matter); bookbinding material; photographs; stationery; adhesives for stationery or household purposes; artists' materials; paintbrushes; office requisites (except furniture); instructional or teaching material (except apparatus); printing type; paper; cardboard; boxes of paper or cardboard; posters ("affiches"); albums; cards; books; newspapers; prospectuses; pamphlets; calendars; writing instruments; engravings (works of art); lithographic works of art; paintings (pictures), framed or unframed; sewing patterns; drawing instruments; handkerchiefs of paper; face towels of paper; table linen of paper; party ornaments of paper; toilet paper; bags (envelopes, pouches) of paper or plastic materials for packaging; garbage bags of paper or of plastics.

Class 17:
Rubber; gutta-percha; raw or partly processed gum; asbestos; mica, raw or partly processed; caulking materials; caulking materials; insulation materials; flexible pipes not of metal; rubber stoppers; packing (cushioning, stuffing) materials of rubber or plastics; plastic sheeting for agricultural use; foils of metal for insulating; insulating tapes; insulating fabrics; insulating varnish; bags (envelopes, pouches) of rubber for packaging; fiberglass for insulation; glass wool for insulation.

Class 18:
Leather; animal skins and hides; trunks and suitcases; umbrellas and parasols; walking sticks; whips; saddlery; wallets; purses (coin purses); credit card cases [wallets]; bags; vanity cases; collars for animals; clothing for pets.

Class 19:
Non-metallic construction materials; non-metallic rigid pipes for building; asphalt, pitch and bitumen; transportable buildings not of metal; monuments not of metal; buildings, not of metal; acoustic panels not of metal; scaffolding, not of metal; building glass; insulating glass (building); concrete; cement; works of art made of stone, concrete or marble; statues of stone, concrete or marble; figurines (statuettes) of stone, concrete or marble; stained-glass windows; timber for construction; manufactured timber.

Class 20:
Furniture; mirrors (looking glasses); picture frames; works of art made of wood, wax, plaster, plastic materials or resin; clothes hangers; chests of drawers; cushions; shelves; packaging containers of plastic materials; armchairs; seats; bedding except linen; mattresses; kitchen dressers [furniture]; boxes of wood or plastic materials.

Class 21:
Utensils for household use; kitchen utensils; containers for household use; kitchen containers; combs; sponges; brushes (except paintbrushes); hand-operated cleaning instruments; steel wool for cleaning; unworked or semi-worked glass, except building glass; porcelain ware; earthenware; bottles; art objects of porcelain, ceramic, earthenware, terracotta, clay or glass; statues of porcelain, ceramic, earthenware, terracotta, clay or glass; figurines (statuettes) of porcelain, ceramic, earthenware, terracotta, clay or glass; toilet cases; dustbins for household use; glasses (receptacles); tableware.

Class 22:
Ropes; strings; tents; tarpaulins; sails (rigging); patio umbrellas; padding and stuffing materials not of rubber or plastics, not of paper or cardboard; raw fibrous textile materials; cables not of metal; packing materials (stuffing) not of rubber or plastics, not of paper or cardboard; textile fibers; large-capacity bags for the transport and storage of materials in bulk; bags (covers, pouches) of textile for packaging.

Class 24:
Fabrics; bed blankets; elastic fabrics; velvet; bed linen; household linen; table linen not of paper; bath linen with the exception of clothing; sleeping bags.

Class 25:
Clothing; footwear; headwear; shirts; leather clothing; belts (clothing); furs (clothing); gloves (clothing); scarves; neckties; socks; slippers ("chaussons"); beach shoes; ski boots; sports shoes; underwear.

Class 26:
Lace; embroidery; ribbons; buttons; hooks (haberdashery); pins; needles; artificial plants; artificial flowers; haberdashery, except yarns; lace trimmings; wigs; fastenings for clothing; decorative articles for the hair.

Class 27:
Carpets; doormats; mats; coverings for floors; linoleum floor coverings; wall hangings not of textile; wallpapers; gymnastic mats; carpets for automobiles; artificial turf.

Class 28:
Games; toys; toys for pets; baby gyms; video game consoles; ornaments for Christmas trees, except illumination articles and confectionery; Christmas trees of synthetic materials; apparatus for physical education; fishing tackle; balls for games; billiard tables; card games; table-top games; ice skates; roller skates; scooters [toys]; sailboards; surfboards; rackets; snowshoes; skis; protective padding (parts of sportswear); models [toys]; figurines [toys]; robots being toys; gaming keyboard and mouse.

Class 30:
Coffee; tea; cocoa; sugar; rice; flour; cereal preparations; bread; pastries; confectionery products; edible ices; honey; agave syrup (natural sweetener); yeast; salt; mustard; vinegar; sauces (condiments); spices; ice [frozen water]; sandwiches; pizzas; pancakes; cookies (biscuits); cakes; rusks; confectionery

(sweets); chocolate; cocoa-based beverages; coffee-based beverages; tea-based beverages.

Class 32:
Beers; alcohol-free beverages; mineral waters (beverages); carbonated waters; fruit-based beverages; fruit juices; syrups for beverages; preparations for making non-alcoholic beverages; lemonades; fruit nectars; soda water; non-alcoholic aperitifs.

Class 33:
Alcoholic beverages (with the exception of beers); wines; wines with protected designation of origin; wines with protected geographical indication.

Class 34:
Tobacco; smokers' articles; matches; cigars; cigarettes; cigarette paper; pipes; lighters for smokers; cigar boxes; cigar cases; cigarette cases; ashtrays for smokers; electronic cigarettes; liquid solutions for electronic cigarettes.

Class 35:
Advertising; commercial business administration, organization and management; office functions; direct mail advertising; arranging newspaper subscriptions for third parties; arranging subscriptions to telecommunication services for third parties; accounting; photocopying services; employment agency services; business management for freelance service providers; computerized file management service; traffic optimization for websites; organization of exhibitions for commercial or advertising purposes; online advertising on a computer network; rental of advertising time on all communication media; publication of advertising texts; rental of advertising space; dissemination of advertisements; advice regarding communication (advertising); public relations; advice regarding communication (public relations); company audits (commercial analyses); commercial intermediation services.

Class 38:
Telecommunications; provision of information with respect to telecommunications; communications by computer terminals; communications by fiber-optic networks; radio communications; telephone communications; cellular telephone communication; providing user access to global computer networks; provision of forums online; provision of access to databases; electronic bulletin board services (telecommunications); connection by telecommunications to a global computer network; news agency services; rental of telecommunication apparatus; radio broadcasting; television broadcasting; teleconferencing services; videoconferencing services; electronic messaging services; rental of access time to global computer networks.

Class 41:
Education; training; entertainment; sporting and cultural activities; provision of information with respect to entertainment; provision of information with respect to education; vocational retraining; provision of recreational facilities; publication of books; lending library services; provision of non-downloadable films via video-on-demand services; production of films other than advertising films; rental of show scenery; photography services; organization of competitions (education or entertainment); organization and conducting of colloquiums; organization and conducting of conferences; organization and conducting of congresses; organization of exhibitions for cultural or educational purposes; booking of seats for shows; game services provided online from a computer network; gambling services; electronic publication of books and journals online.

Class 43:
Services for providing food and beverages; temporary accommodation; bar services; catering services; hotel accommodation services; temporary accommodation reservation; day-care centers; providing campground facilities; retirement home services; pet boarding services.

Class 45:
Legal services; mediation (legal services); security services for protection of tangible property and individuals; marriage agency services; conducting religious ceremonies; horoscope casting; funerary undertaking; cremation services; night guard services; monitoring of burglar alarms; consultant services relating to physical security; opening of security locks; clothing rental; detective agency services; legal research services; advice regarding intellectual property; rental of domain names on the Internet; online social networking services; babysitting; concierge services.

UNION DES ASSOCIATIONS DIOCESAINES DE FRANCE - UADF

WO0000001938391(9, 25, 41)
Office of Origin: US

Date of International Registration: 25 June 2026
Date of Designation in the UK: 25 June 2026

The mark consists of the letters "L," "O," "Y" and "W." The letters form a square with the letter "L" on the top left corner, the letter "O" on the top right corner, the letter "Y" on the bottom left corner, and the letter "W" on the bottom right corner of the square.

International priority date claimed: 09 February 2026 (US) (99643487)

International priority date claimed: 09 February 2026 (US) (99643491)
International priority date claimed: 09 February 2026 (US) (99643492)

Class 9:
Musical sound recordings; series of musical sound recordings; downloadable musical sound recordings; musical video recordings; downloadable musical video recordings; visual and audio recordings featuring a musical band; downloadable audiovisual recordings featuring music; audio and video recordings featuring music and artistic performances.

Class 25:
T-shirts; shirts; clothing jackets; jerseys being clothing; beanies; baseball caps and hats; headwear; hats; shorts; tank tops; sweatshirts; hooded sweatshirts; long-sleeved shirts; sweatpants; pants; bandanas; wristbands as clothing; headbands; shoes; sleepwear.

Class 41:
Live music performances; entertainment, namely, live performances by a musical band; entertainment services in the nature of live musical performances; providing entertainment information in the field of performances, music, recordings, appearances, news, and other information about a musical band via a website; providing online non-downloadable visual and audio recordings featuring music via a website; entertainment services, namely, providing non-downloadable prerecorded music via a website; production of musical sound recordings; entertainment services, namely, personal appearances by a band.

RK9

International priority date claimed: 21 April 2026 (AU) (2646150)

Class 5:
Dietary supplements for animals; food supplements for animals; nutritional supplements for animals; food supplements for veterinary purposes; dietary supplements for veterinary purposes; pet food additives in the form of vitamins and minerals; dietary supplements for pets; nutritional supplements for pets; dietary pet supplements in the form of pet treats; vitamins for pets; vitamins for animals and pets; vitamin and mineral supplements for pets; nutritional supplements for dogs.

Class 31:
Edible organic pet treats for dogs; edible dog treats; pet treats, edible; edible pet treats; foodstuffs for puppies; pet food; dog food; animal foodstuffs.

Happy Staffy Pty Ltd

WO0000001938389(5)
Office of Origin: US

Date of International Registration: 09 July 2026
Date of Designation in the UK: 09 July 2026

VISTAAPEX SOLUTIONS

International priority date claimed: 26 February 2026 (US) (99671198)

Class 5:
Dental products, namely, bonding and primer materials with bioactive composites, bioactive cements, bioactive bonding agents, bioactive sealants, bioactive varnish, and bioactive sealer, for dental purposes; bioactive composites, bioactive cements, bioactive bonding agents, bioactive sealants, bioactive varnish, and bioactive sealer all for use in the dental industry; composite materials for dental and dental technical purposes; dental composite materials; irrigating solutions for endodontic procedures; saline solutions for endodontic procedures; oral irrigating solutions for the mouth; antibacterial preparations for the mouth; dental bonding agents, namely, a resin based adhesive material to bond restorative materials; dental bonding agents, namely, conditioners for preparing a tooth's surface for bonding and adhesives to bond the restorative materials for dental use; adhesives for dentistry and dental technical purposes; dental restoration compounds; materials for dental fillings and for sealing purposes; hydrogen peroxide and other medication gel to be used to treat periodontal disease; dental hemostatic paste.

International priority date claimed: 12 November 2025 (AE) (AE/465782)

Class 9:
Computer operating programs, recorded; computer software, recorded; computer software for use with glucose sensors namely, software for recording, analyzing, reporting and managing patient glucose levels; computer software for recording, analyzing, reporting and managing patient medical information; electronic publications, downloadable; computer programs, downloadable; personal digital assistants [PDA]; software as a medical device [SaMD], downloadable; downloadable software in the nature of a mobile application for use in the electronic transmission of patient medical information; downloadable computer software for use in the electronic transmission of patient glucose level and related glucose level data; computer software for use in calculating, reviewing, analyzing and displaying patient data; smart watches; electronic key fobs being remote control apparatus; electronic numeric displays; light-emitting electronic pointers; laptop computers; tablet computers; interactive touch screen terminals; software used for the management of diabetes; software for use with glucose sensors; glucose reporting software; software for use with glucose monitoring systems; mobile software applications in the field of diabetes management.

Class 10:
Medical devices, namely, medical sensors that are implanted or inserted into the human body used to continuously monitor the concentration of glucose in the human body and accessories therefor, namely, receivers, sensor housings and sensor insertion devices, sold therewith; medical devices, namely, medical sensors that are implanted or inserted into the human body used to continuously measure and monitor the concentration of glucose in the human body and accessories therefor, namely, receivers, sensor housings and sensor insertion devices that permit the wireless reporting and analysis of the concentration of glucose in the human body sold therewith; integrated medical examination systems comprising

medical devices in the nature of glycemic management; probes for medical purposes; pumps for medical purposes; injectors for medical purposes; glucose meters; diagnostic apparatus for medical purposes; testing apparatus for medical purposes; blood testing apparatus; medical diagnostic instruments for the analysis of body fluids; diagnostic instruments for medical purposes used for analyzing body fluids; diabetic monitoring apparatus; body composition monitors; trocars; needles for medical purposes; hypodermic syringes; syringes for medical purposes; medical analysis instruments; cholesterol meters; medical apparatus and instruments for diabetes management; medical apparatus and instruments for monitoring glucose; sensor-based glucose monitors; glucose meters; instruments for monitoring glucose; continuous glucose monitoring systems.

Class 42:
Medical research services; conducting clinical trials; medical research laboratory services; medical research laboratory services for the analysis of samples taken from patients; scientific analysis and research services; product development relating to pharmaceuticals, medicines, medicaments and veterinary products; cloud computing featuring computer application software for mobile phones, handheld computers, desktop computers, laptop computers, namely, software for recording, analyzing, reporting and managing patient glucose levels; provision of non-downloadable computer software for recording, analyzing, reporting and managing patient health and medical information; cloud computing featuring computer application software; cloud computing featuring computer application software for third parties to access patient glucose levels and patient health and medical information; cloud computing featuring computer application software for recording, analyzing, reporting and managing patient glucose levels and patient health and medical information; software as a service (SaaS) services featuring software for mobile phones, handheld computers, desktop computers, laptop computers, namely, software for mobile phones, handheld computers, desktop computers, laptop computers, namely, software for third parties to access patient glucose levels and patient health and medical information; software as a service (SaaS) services featuring software for mobile phones, handheld computers, desktop computers, laptop computers, namely, software for recording, analyzing, reporting and managing patient glucose levels, related glucose level data and patient health and medical information; software as a service (SaaS) services featuring software for recording, analyzing, reporting and managing patient health and medical information; providing glucose reporting software services and cloud platform services featuring software for sharing, reporting, maintaining, managing, monitoring and analyzing of medical information in the field of diabetes management; providing temporary use of on-line non-downloadable software for sharing, reporting, maintaining, managing, monitoring and analyzing of medical information in the field of diabetes management; providing on-line non-downloadable software via a website that enables users to share, report, maintain, manage, monitor and analyze medical information in the field of diabetes management; software as a service (SaaS) services featuring software for sharing, reporting, maintaining, managing, monitoring and analyzing of medical information in the field of diabetes management.

Class 44:
Medical and health care testing services, namely physician testing services for assisting pharmacists and pharmacies.

HY battEliiy

Class 9:
Power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing electric power generated by solar power generation in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing commercial electric power in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing electric power generated by wind power generation in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing electric power generated by hydroelectric power generation in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing electric power generated by geothermal power generation in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing electric power generated by solar thermal power generation in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing electric power generated by wave power generation in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing electric power generated by tidal power generation in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; power supply apparatus comprising remote monitoring and remote control equipment using communication lines and lithium-ion secondary batteries, for storing regenerative electric power in the lithium-ion secondary batteries and supplying it to telecommunication machines and apparatus, electronic machines and apparatus, power distribution or control machines and apparatus, or electric automobiles, or any of them; portable power supply apparatus; power supply apparatus; portable condensers (capacitors); condensers (capacitors); portable electrical power supplies; emergency electrical power supplies; electrical power supplies; power distribution or control machines and apparatus for controlling lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling solar power generation apparatus and lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling wind power generation apparatus and lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling hydroelectric power generation apparatus and lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling geothermal power generation apparatus and lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling solar thermal power generation apparatus (mechanical) and lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling wave power generation apparatus and lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling tidal power generation apparatus and lithium-ion secondary batteries and providing efficient power supply; power distribution or control machines and apparatus for controlling regenerative electric power absorption apparatus and lithium-ion secondary batteries and providing efficient power supply; solar batteries; solar power generation apparatus; lithium batteries; secondary batteries; lithium-ion secondary batteries; lithium-ion polymer secondary batteries using polymers for any one or all of the electrolyte, positive electrode, and negative electrode; batteries, electric; telecommunication machines and apparatus; electronic data processing machines; power distribution or control machines and apparatus; phase modifiers; rotary converters; measuring or testing machines and instruments.

Class 12:
Electric automobiles and their parts and fittings; automobiles and their parts and fittings; electric two-wheeled motor vehicles and their parts and fittings; electric bicycles and their parts and fittings; two-wheeled motor vehicles and their parts and fittings; bicycles and their parts and fittings; fork lift trucks; golf carts.

WO0000001928161(9, 35, 39, 40, 42)
Office of Origin: US

Date of International Registration: 06 February 2026
Date of Designation in the UK: 06 February 2026

The mark consists of the stylized lowercase case word "GIGAGRID".

International priority date claimed: 25 August 2025 (US) (99355065)

Class 9:
Computer hardware and recorded software system for remotely monitoring, metering and managing of electrical systems and power grid energy usage; computer hardware and recorded and downloadable computer software for remote management, automation, control and optimization of energy usage by electricity powered centralized facility and building systems; energy resource management system comprised of recorded computer software and computer hardware for controlling and monitoring centralized facility and building infrastructure systems that use electricity, namely, security, access, heating, cooling, ventilation, lighting, elevators and escalators, safety alarms, water pumps, boilers, intercoms, telephone and computer systems, sprinklers; energy resource management system comprised of recorded computer software and computer hardware, power generating and energy storage modules, smart sensors, routers, batteries, inverters, meters, wireless communication devices, namely, access points, routers, gateways, 5G wireless radio equipment, electrical control devices and distributed energy resources (DERs), namely, solar panels, battery storage, electric vehicle chargers, microgrids and demand response devices being internet-connected controls for automatically reducing or shifting electricity consumption in response to peak grid demand conditions for the purpose of monitoring, metering and controlling energy loads in electrical systems and power grids; electrical power distribution machines and boxes; hybrid renewable energy system that stores, distributes, manages, and integrates with the grid, electricity created from two or more renewable energy technologies; hybrid renewable energy system comprised of computer hardware and recorded computer software, energy storage modules, power converters and inverters, uninterruptable power supply (UPS), back-up power supply, switches, relays, transformers, circuit breakers and surge protectors, fuses, meters, micro-grids, power distribution units, voltage regulators and communication interfaces; off-grid power and deep cycle battery storage systems comprised of batteries, charge controllers for hybrid renewable energy installations.

Class 35:
Distributed energy resource management services, namely, administrative management for the operation and integration of distributed energy resources (DERs) with electrical systems and utility connected power grids to optimize balance and stability of energy supply; energy management services, namely, administrative processing of purchase orders that allows customers to purchase energy, namely, electricity and renewable energy, at a fixed price; energy management services, namely, administrative processing of purchase orders that allows customers to purchase energy from various energy providers; energy management information services, namely providing business information on energy management; renewable energy dispatch management services, namely, business management for managing and coordinating the operation of electrical grids by choosing what renewable power sources to use and how much power to produce at any given time to match electricity demands; energy dispatch management services, namely, business management assistance in scheduling, managing and optimizing energy generation, distribution and allocation based on demands, anticipated energy market pricing and capacity; tracking and monitoring energy consumption for others for account auditing purposes.

Class 39:
Utility services, namely electricity power grid load shifting; distribution and transmission of electricity; distribution of energy; distribution of renewable energy; physical storage of electrical power.

Class 40:
Generation of power through operation of power generation equipment and facilities; generation of electricity; generation of renewable energy; generation of energy; generation of zero-emissions electricity; leasing of renewable energy generation equipment; leasing of energy generating equipment.

Class 42:
Platform as a service (PAAS) featuring computer software platforms for power creation and storage modules with integrated computer hardware and software for metering, managing and optimizing of electrical systems, and central and distributed and renewable energy resources; platform as a service (PAAS) featuring computer software platforms in the nature of energy resource management system comprised of power generating and energy storage modules, solar panels, smart sensors, routers, batteries, inverters, meters, wireless communication devices, namely, access points, routers, gateways, 5G wireless radio equipment, electrical control devices and non-downloadable software for generating and storing power that can be used as a local microgrid to offset high power demands made of a distributed energy resources or for injection or integration as needed with centrally connected energy resources for optimizing stability and demand of energy sources; platform as a service (PAAS) featuring computer software platforms for combined computer hardware, energy generation and management hardware, and computer software for energy distribution and energy asset distribution management; infrastructure as a service (IAAS) services, namely, hosting servers and software for use with distributed and renewable energy resources and a connected distributed energy resource management platform for others to help control, manage, optimize and stabilize an existing energy resource network; platform as a service (PAAS) featuring computer software platforms with technology for creating and storing energy for purposes of connecting to distributed and central energy resources; design and development of computer software and software applications for use in monitoring and controlling electricity generation, energy storage, electrical loads and other controllable energy assets, devices and equipment; platform as a service (PAAS) featuring computer software platforms for the control, monitoring, and management of distributed energy resources and any other device that may act as a load or generator on the electric grid;

platform as a service (PAAS) featuring computer software platforms for combined computer hardware, energy generation and management hardware, and software for management of energy resources used to power centralized facility and building infrastructure; development and implementation of software used for managing energy trading arbitrage; design and implementation of software, hardware, and technology solutions for the purpose of controlling and metering loads on electrical systems and active power grids; platform as a service (PAAS) featuring computer software platforms with technology that interfaces with utility grid and other customer energy equipment and infrastructure for buying, selling and managing energy commodities; providing temporary use of non-downloadable web-based decentralized applications (DApps) for trading energy commodities and energy commodity arbitrage.

Date of International Registration: 18 March 2026
Date of Designation in the UK: 18 March 2026

The mark consists of the word CAMELBAK in stylized font.

International priority date claimed: 11 March 2026 (US) (99695496)

Class 11:
Filters for drinking water; water purifiers.

Class 18:
Backpacks, knapsacks and rucksacks; backpacks incorporating a reservoir, and a mouthpiece connected to the reservoir by a tube; waist packs; waist packs incorporating a reservoir, and a mouthpiece connected to the reservoir by a tube.

Class 21:
Backpack-style canteens; personal fluid hydration systems comprised of a drinking reservoir, a drinking tube and a mouthpiece, drinking reservoirs for hydration systems comprised of a drinking reservoir, a drinking tube, and a mouthpiece; mouthpieces and connectors for personal fluid hydration systems comprised of a drinking reservoir, a drinking tube and a mouthpiece; bottles sold empty; drinking flasks for travelers; drinking vessels; portable beverage dispensers; vacuum bottles; insulated water bottles sold empty; insulated sports bottles sold empty; plastic bottles sold empty; sports bottles sold empty; squeeze bottles sold empty; bottles having mouthpieces sold empty; bottles having bite-actuated mouthpieces sold empty; coffee and tea mugs; insulated mugs for beverages; travel mugs; vacuum mugs; and parts for any of the aforesaid bottles or mugs.

Class 25:
Clothing and sportswear, namely, shirts, vests, cycling garments, namely, shirts.

Certificate Mark

GEV-EMICODE EC 1 PLUS

International priority date claimed: 27 February 2025 (EM) (019149070)
The mark contains the colour green.

Class 1:
Industrial chemicals; conductive adhesives; adhesives for use in industry; adhesives for floor coverings; adhesives for mortar; adhesives for cement manufactured products; adhesives for the building industry; adhesives for wall tiles; adhesives for the building industry; adhesives for applying floor tiles; adhesives for wall coverings; adhesives for applying wall coverings; cements for fixing floor tiles; cements for laying floor tiles; cements for fixing tiles; cements for affixing tiles; adhesives for the building industry; adhesives for fixing wall tiles; adhesives for affixing wall tiles; water based adhesives for industrial use; industrial adhesives for use in building; adhesives of synthetic origin for industrial use; cement-waterproofing chemicals, except paints; additives, chemical, for cement, mortar and concrete; damp-proofing chemicals, except paints, for masonry; bond-promoters [chemical products for use in industry]; agglutinants for plaster; adhesive for cement and concrete; air void formers being additives for mortar; bonding agents for admixture with mortars; polymer dispersions; plastics in the form of liquids; putties, and fillers and pastes for use in industry; putties [paste fillers]; agglutinants for putty; coatings for the renovation of floor coverings [other than paints or oils]; retaining compounds.

Class 2:
Coatings; coating materials in the nature of oils; coatings having dust-binding properties; coatings having waterproofing properties for roofs, walls and floors; non-stick coatings in the nature of paints; damp proofing paints; plastic-containing coatings in paste or liquid form for damp proof treatment of wooden and metal surfaces; concrete coatings for impregnation purposes, anti-corrosives, paints, colorants, varnishes, natural resins and lacquers; binding preparations and thickeners for paints and lacquers; paste fillers in the form of coatings, including for smoothing surfaces to be painted; conductive paints; ground coatings [paints and oils]; coatings for use as primers [paints, varnishes, and oil]; paints having flexible properties; paints for use as elastic facade coatings; primers; anti-rust preparations; impregnating preparations (paints) for wood, including for use as flame retardants; plastics paints for use in construction; liquid coatings (paints) based on cellulose, synthetic resin or starch; agglutinants for paints; dispersion paints; floor sealing compounds [paints and oils]; lacquers and varnishes; sealing preparations for floors [paint]; substances in the nature of paint for filling cracks in plastic surfaces, in wall surfaces and in wooden surfaces.

Class 17:
Seals, sealants and fillers; sealing tapes; caulking compounds for sealing cracks; filtering materials of semi-processed foams of plastic; filtering materials of semi-processed films of plastic; insulating foils; insulating waterproofing membranes; gaskets; fillers for joint packing; mineral raw materials, included in class this, namely substitutes for unprocessed and semi-processed asbestos, mica, raw or partly processed, substitutes for unprocessed and semi-processed mica, mineral fibers, mineral wool, stone wool, glass fibre and glass wool; mineral raw materials, included in class this, for insulation, for building insulation, for use as an insulating material, for insulation purposes, for acoustic insulation purposes and for thermal insulation purposes; sealant compounds for joints; joint sealing compounds; heat insulation and insulating materials, included in class this; insulating sheets and insulating underlays, not of metal; shaped parts of plastic foam for insulating floors and walls, ceilings and roofing of buildings; fabrics of fibreglass and plastics for covering and insulating walls; adhesive tapes, strips, bands and films; pipe thread tapes for sealing; gap filling tapes; tapes (adhesive -) for electrical insulating purposes; self-adhesive tapes, other than stationery and not for medical or household purposes.

Class 19:
Building materials (non-metallic); natural and artificial stone; screed; flooring screeds; mortar, building adhesives, building protection preparations, included in this class; mortar for building; dry mortar; hard-surfaced wall, ceiling and roofing parts of non-metallic materials; joint mortar (building material); underlayment screed; construction foam for building; spackling compound; mortar mix; wall coatings (cementitious -); gypsum wallboards; plastic wallboards; acoustic panels of wood for walls; plastic panels for covering floors and walls, ceilings and roofing of buildings; multilayer panels of plastic for use in building.

Software; computer software; software for computers; computer software [programs]; system software; application software; computer software for business purposes; computer software programs; computer software products; computer programs and software; computer software applications; business software; computer application software; software and applications for computers and mobile devices; software, downloadable; application software for computers; software for use in virtual environments; software for mobile phones; computer software for project management; computer software, downloadable; software for smartphones; software and applications for mobile devices; project management software; computer software to maintain and operate computer systems; smartphone software; software for business management; web application software; computer software packages; computer software to maintain and operate a computer system; software applications, downloadable; software for business administration; computer software for use in automating and managing business processes; system support software; computer software for business management; software platforms; computer software for mobile phones; software for cell phones; open-source software; software downloadable from the internet; application software for use in virtual environments; computer software applications for mobile phones; downloadable computer software; software for use in database management; software applications for use with mobile devices; software applications for use in virtual environments; business software, downloadable; downloadable software; packaged software; web application and server software; downloadable computer software programs; computer software applications, downloadable; application software for virtual environments; computer software for business administration; application software for smartphone; computer software applications for cell phones; computer software for application and database integration; application software for smartphones; computer software for automating and managing business procedures; computer software applications for mobile devices or computers; utility software; computer software for data processing; computer application software for use in virtual environments; computer software downloaded from the Internet; software for data and file management and for databases; software applications for smartphones, downloadable; mobile software; computer software platforms; computer software platforms, downloadable; application software for wireless devices; application software for smartphones, downloadable; cloud computing software; computer software platforms, recorded or downloadable; software platforms, recorded or downloadable; software for the analysis of business data; web and server application software; application software for mobile devices; application

software for mobile phones; computer application software for mobile phones; downloadable application software; application software for cloud computing services; computer software applications for use in virtual environments; software for cloud servers; computer software for processing information; artificial intelligence software; application software for cloud computing; software for the integration of artificial intelligence and machine learning in the field of big data; computer application software for cell phones; computer software for accessing databases; software for use in the evaluation and analysis of data utilizing machine learning; computer software for use as an application programming interface [API]; computer software for communicating with users of hand-held computers; business management software; computer software in the form of an app for mobile devices and computers; downloadable computer software for use in project management; cloud-based software; computer software in the form of applications for mobile devices or computers; optimization software; downloadable computer software applications; downloadable software applications; application software for cell phones; downloadable computer software for use in application and database integration; downloadable business software; downloadable computer software for use in project management and scheduling; software for tablet computers; software applications [apps] for Internet of Things [IoT] enabled devices; software and applications for mobile telephones; cross-platform software; computer software for creating searchable databases of information and data; software for data and file management and database software; computer software to automate data warehousing; computer software for controlling and managing access server applications; downloadable project management software; computer software applications for mobile telephones; downloadable computer software platforms; downloadable computer software for business management.

Class 42:
Engineering; engineering design; engineering studies; engineering research; surveying and engineering; design of engineering products; development of engineering products; engineering services; design and development of engineering products; design engineering; research in the field of engineering; engineering drawing; consultancy in the field of engineering; engineering consultancy; computer engineering; information technology [IT] engineering; electrical engineering; research, development, analysis and consultancy services in the field of engineering; engineering design services; preparation of reports in the field of engineering; research services in the field of engineering; preparation of reports relating to engineering; engineering services relating to computer programming; engineering research services; computer program engineering; engineering services in the field of energy technology; engineering services relating to information technology; product development consultancy for inventors in the field of engineering; engineering and technical support services in the design and configuration of hardware and software systems for use in the processing of water supply systems; engineering and technical support services in the design and configuration of hardware and software systems for use in the processing of of paper and pulp manufacturing systems; engineering services relating to energy supply systems; engineering services in the field of reducing operational costs of industrial machinery; engineering services for the gas industry; engineering consultancy services; computer engineering services; engineering and technical support services for the design and configuration of hardware and software systems for use in metal and plastic finishing operations; preparation of engineering reports; plant engineering; engineering services relating to computers; information technology engineering; research and development services in the field of engineering; engineering and technical support services in the design and configuration of hardware and software systems for use in the processing of of paper and paper pulp manufacturing systems; development and testing services in the field of engineering; technical project planning in the field of engineering; engineering services in the field of communications technology; preparation of engineering drawings; engineering services for mine planning in the mining industry; engineering and technical support services for the design and configuration of computer hardware and software systems for use in the processing of petroleum and petrochemical processing systems; providing information relating to industrial engineering; industrial testing of engineering works; electrical engineering services; product development consultation for inventors in the field of engineering; provision of information relating to industrial engineering; industrial engineering design services; consultancy relating to industrial engineering; engineering services relating to gas transport and supply systems; product development consultancy for inventors in the field of industrial engineering; computer-aided engineering design; engineering services relating to production of electricity form liquefied natural gas; engineering drawing services; information technology engineering services; computer aided engineering design; design of industrial products; mining engineering consultancy; plant engineering services; design and development of industrial products; industrial design; technical studies; engineering product design services provided on an outsourcing basis; engineering services in the field of food processing facilities; engineering project management services in the field of mining industry; software engineering; software engineering services; computer software engineering; software programming; software as a service; programming of software; software development; software programming services; computer software programming; development of software; maintenance of software; programming of computer software; software design; computer software development; design of software; installation of software; programming of software for information platforms on the Internet; programming of software for Internet platforms; software development for others; computer software programming services; maintenance of software for computer systems; software design and development; installation and maintenance of software; software design, maintenance, rental and updating; design, programming and maintenance of computer software; computer software design; development of computer software; maintenance and installation of software; providing information relating to computer software; design, development and programming of computer software; programming of software for web site development; writing of software; development of software for others; repair of software; software repair; editing of software; software installation and maintenance; design and development of software; software development services; quality control of software; design, programming and maintenance of computer software platforms; providing on-line non-downloadable web-based software and software applications; consultancy in the field of computer software; design of computer software and systems; computer software application solutions design and development; computer

software development in the field of mobile applications; providing information in the field of computer software design; design of computer software for data processing; research, design and development of software using statistical learning; computer software maintenance services; software as a service [SaaS] featuring software for use in application and database integration; software as a service [SaaS] featuring software using artificial intelligence for machine learning; design and development of on-line computer software systems; design, development, maintenance and updating of data processing software; computer software design and writing services; installation and customisation of computer applications software; software as a service [SaaS]; software as a service [SaaS] featuring software for machine learning; design and development of computer software for data processing; software as a service [SaaS] featuring software using artificial intelligence for use in machine learning; development of software application solutions; computer software research and development services; creation, maintenance, and updating of computer software; installation, maintenance and repair of computer software; creation, maintenance and adaptation of software; computer software updating services; design and writing of computer software; software as a service [SaaS] for creating customized reports and setting parameters for changing, monitoring and alerting on property changes; custom design of software; design and updating of computer software; development of computer software application solutions; software rental services; computer software design and writing; programming of data processing software; installation of middleware [software]; software engineering services for data processing programs; computer programming and computer software design; research, development, design and updating of software; customisation of software; computer software development and computer programming development for others; development of computer software for data processing; providing information in the field of computer software development; IT services relating to the installation, maintenance and repair of software; software customization; installation, repair and maintenance of computer software; smartphone software design; repair of computer software; design of operating system software; software as a service [SaaS] for in the field of property inspections and risk assessment; computer software consultancy and development; software as a service [SaaS] featuring software for use in project management through tracking, managing and analysing project labour, project time, project compliance and task time estimates; software as a service [SaaS] featuring artificial intelligence software for software development; software as a service [SaaS] for viewing, analysing, researching, flagging, tracking, measuring, scoring, comparing and monitoring properties; design, development and implementation of computer software; rental and maintenance of software; research and development services relating to software; design and development of computer software for evaluation and calculation of data; development and testing of software; research and consultancy services relating to software; software as a service [SaaS] featuring software for use in project management through tracking time, tasks, expenses, costs, activity, attendance and productivity; software research and development services; installation, maintenance and updating of computer software; quality control of computer software; computer software research; software as a service [SaaS] featuring software using artificial intelligence for software development; installation, maintenance, repair and servicing of computer software; software consultancy services; installation, updating and maintenance of computer software; computer software updating; programming of computer software for reading, transmitting and organizing data; repair of software for computer systems; software rental and maintenance; computer software design services; computer software consulting; development and updating of computer software; developing and updating computer software; software as a service [SaaS] featuring software using artificial intelligence for use in software development; computer software research and development; research in the field of computer programs and software; installation, maintenance and repair of software for computer systems; design and development of computer software for the collection, transmission and analysis of big data; technical support services for software; services for designing computer software; design, development, maintenance and updating of computer software for data processing; maintenance of computer software for data processing; research and development of computer software; provision of information relating to computer software; software as a service [SaaS] featuring software for machine learning, deep learning and artificial neural networks; software as a service [SaaS] featuring software for machine learning, deep learning and deep neural networks; customization of software; hosting of software as a service; programming of computer software for reading, transmitting and organising data; computer programming services for the protection of software; software as a service [SaaS] featuring software for use in project management and scheduling; updating, design and rental of software; design, updating and rental of computer software; computer programming and design of computer software; design and development of software for evaluation and calculation of data; software research; design and maintenance of computer software for third parties; computer software design and updating; research, design and development of software for data management; development of computer software for others; design and maintenance of computer software for others; design and rental of software; computer software repair; research, development and design of computer software; maintenance and installation of computer software; customizing computer software; services for the design of computer software; software research and development; computer software development services; computer software support services; maintenance, updating and design of computer software; software authoring; programming of software for importing and managing data; providing information about the design and development of computer software; research in the field of computer software; software consultancy; design, maintenance, rental and updating of computer software; design and development of software for importing and managing data; computer programming and software design; software updating services; design, development, maintenance and updating of computer software; design, updating and maintenance of computer software; design and development of computer software for the collection, transmission and analysis of data; installation of computer software; information services in the field of computer software; design, maintenance, development and updating of computer software; design, maintenance and updating of computer software; installation and maintenance of computer software; software as a service [SaaS] featuring software for use in project management; maintenance and repair of software; design and development of computer software; design, installation, updating and maintenance of computer

software; computer software design and development for others; installation, repair and maintenance of middleware [software]; software maintenance services; design and updating of software; software consulting services; updating of software; computer software installation and maintenance; repair of software for computers; research and development of software; software design and development services; repair and maintenance of software; installation of software for computer systems; software design services; installation, maintenance, repair and servicing of software; installation, maintenance and repair of software; software rental; research, design and development of software for managing data; design, development and implementation of software; computer software design for others; computer software design and development; installation, maintenance and updating of software; providing quality assurance in the field of computer software; software design and updating; software development, programming and implementation; installation, repair and maintenance of software; computer software installation; computer programming and design of software; installation, updating and maintenance of software; maintenance of computer software; creating, maintaining, and updating computer software; computer software maintenance; design of software for others; computer software design, development and programming services; development and maintenance of computer software; computer software development for others; computer software design, maintenance, rental and updating; software updating; software design for others; design, development, installation and maintenance of computer software; research and development of software for computers; design, maintenance, rental and updating of software; design of computer software; writing of computer software.

Class 1:
Chemical substances for preserving foodstuffs; preservatives for use in the pharmaceutical industry; filtering materials of chemical substances; water purifying chemicals; surface-active chemical agents; protein [raw material]; glucose for industrial purposes; enzyme preparations for industrial purposes.

Class 5:
Chemical preparations for pharmaceutical purposes; anti-viral agents; antifungal preparations; antihypertensives; antidepressants; anti-epileptic pharmaceutical preparations; anti-cancer preparations; anticonvulsants; non-steroidal anti-inflammatory drugs; pharmaceutical preparations for treating hypertension; antiviral preparations; analgesic preparations; urinary tract preparations; anti-uric preparations; antiemetics; hypnotics; asthma treatment preparations; antihistamines.

Class 35:
Wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies.

Class 42:
Pharmaceutical research and development services; chemical research; development of pharmaceutical preparations and medicines; testing of pharmaceuticals; inspection of pharmaceuticals; research and development for the pharmaceutical industry.

Certificate Mark

International priority date claimed: 27 February 2025 (EM) (019149117)

Class 1:
Industrial chemicals; conductive adhesives; adhesives for use in industry; adhesives for floor coverings; adhesives for mortar; adhesives for cement manufactured products; adhesives for the building industry; adhesives for wall tiles; adhesives for the building industry; adhesives for applying floor tiles; adhesives for wall coverings; adhesives for applying wall coverings; cements for fixing floor tiles; cements for laying floor tiles; cements for fixing tiles; cements for affixing tiles; adhesives for the building industry; adhesives for fixing wall tiles; adhesives for affixing wall tiles; water based adhesives for industrial use; industrial adhesives for use in building; adhesives of synthetic origin for industrial use; cement-waterproofing chemicals, except paints; additives, chemical, for cement, mortar and concrete; damp-proofing chemicals, except paints, for masonry; bond-promoters [chemical products for use in industry]; agglutinants for plaster; adhesive for cement and concrete; air void formers being additives for mortar; bonding agents for admixture with mortars; polymer dispersions; plastics in the form of liquids; putties, and fillers and pastes for use in industry; putties [paste fillers]; agglutinants for putty; coatings for the renovation of floor coverings [other than paints or oils]; retaining compounds.

Class 2:
Coatings; coating materials in the nature of oils; coatings having dust-binding properties; coatings having waterproofing properties for roofs, walls and floors; non-stick coatings in the nature of paints; damp proofing paints; plastic-containing coatings in paste or liquid form for damp proof treatment of wooden and metal surfaces; concrete coatings for impregnation purposes, anti-corrosives, paints, colorants, varnishes, natural resins and lacquers; binding preparations and thickeners for paints and lacquers; paste fillers in the form of coatings, including for smoothing surfaces to be painted; conductive paints; ground coatings [paints and oils]; coatings for use as primers [paints, varnishes, and oil]; paints having flexible properties; paints for use as elastic facade coatings; primers; anti-rust preparations; impregnating preparations (paints) for wood, including for use as flame retardants; plastics paints for use in construction; liquid coatings (paints) based on cellulose, synthetic resin or starch; agglutinants for paints; dispersion paints; floor sealing compounds [paints and oils]; lacquers and varnishes; sealing preparations for floors [paint]; substances in the nature of paint for filling cracks in plastic surfaces, in wall surfaces and in wooden surfaces.

Class 17:
Seals, sealants and fillers; sealing tapes; caulking compounds for sealing cracks; filtering materials of semi-processed foams of plastic; filtering materials of semi-processed films of plastic; insulating foils; insulating waterproofing membranes; gaskets; fillers for joint packing; mineral raw materials, included in this class, namely substitutes for unprocessed and semi-processed asbestos, mica, raw or partly processed, substitutes for unprocessed and semi-processed mica, mineral fibers, mineral wool, stone wool, glass fibre and glass wool; mineral raw materials, included in this class, for insulation, for building insulation, for use as an insulating material, for insulation purposes, for acoustic insulation purposes and for thermal insulation purposes; sealant compounds for joints; joint sealing compounds; heat insulation and insulating materials, included in this class; insulating sheets and insulating underlays, not of metal; shaped parts of plastic foam for insulating floors and walls, ceilings and roofing of buildings; fabrics of fibreglass and plastics for covering and insulating walls; adhesive tapes, strips, bands and films; pipe thread tapes for sealing; gap filling tapes; tapes (adhesive -) for electrical insulating purposes; self-adhesive tapes, other than stationery and not for medical or household purposes.

Class 19:
Building materials (non-metallic); natural and artificial stone; screed; flooring screeds; mortar, building adhesives, building protection preparations, included in class 19; mortar for building; dry mortar; hard-surfaced wall, ceiling and roofing parts of non-metallic materials; joint mortar (building material); underlayment screed; construction foam for building; spackling compound; mortar mix; wall coatings (cementitious -); gypsum wallboards; plastic wallboards; acoustic panels of wood for walls; plastic panels for covering floors and walls, ceilings and roofing of buildings; multilayer panels of plastic for use in building.

Class 9:
Computer programs using artificial intelligence for interactive conversations, chat-based communications, and natural language processing; computer programs using artificial intelligence for facial and speech recognition; computer programs in the field of virtual dating; downloadable software using artificial intelligence for providing virtual companionship, emotional support, entertainment and interactive conversations for use in simulating romantic and platonic relationships; downloadable software for creating virtual avatars and objects and interacting with virtual avatars and objects in virtual worlds; downloadable artificial intelligence software for generating and interacting with chatbots, ai personalities, digital companions and conversational agents; downloadable chatbot software for simulating conversations and social interactions with artificial intelligence; downloadable chatbot software using artificial intelligence for creating personalised companions, engaging in romantic and platonic conversations and facilitating interactive multimedia communication; downloadable chatbot software using artificial intelligence for creating customisable digital companions, and enabling text, image, and voice-based interactions; downloadable software for creating and interacting with artificial intelligence generated virtual companions, facilitating text-based conversations, image sharing and voice communication; downloadable software for adult entertainment; downloadable virtual reality software being adult-themed virtual reality software; downloadable virtual reality software for immersive virtual companion experiences and interactions; downloadable virtual assistant software using artificial intelligence for providing a virtual companion; downloadable software applications [apps] for simulating romantic and platonic relationships using fictional characters and virtual avatars; downloadable images, sound and video recordings featuring fictional characters and virtual avatars, including image, sound and video recordings generated by artificial intelligence.

Class 38:
Providing online forums and chatrooms; providing chat rooms in virtual environments; telecommunication services; data transmission; audio and video streaming services; transmission of messages, images, sound, audio and video content.

Class 41:
Interactive entertainment services provided in virtual environments for adults; entertainment services for adults namely AI-generated audiovisual content including adult-themed roleplaying content; entertainment services namely the production and presentation of audiovisual content generated by artificial intelligence featuring fictional characters, virtual avatars, fictional stories and role-playing narratives; providing electronic or online interactive entertainment experiences featuring AI-generated or customisable virtual characters in the nature of digital companions or chatbots for entertainment purposes; entertainment services namely providing an interactive service featuring multimedia content generated by artificial intelligence namely, images, videos, audio, text and graphic designs for entertainment purposes; electronic publishing services namely publication of AI-generated artistic and audiovisual works and multimedia content featuring fictional characters, virtual avatars, fictional stories and role-playing narratives; production of AI-generated multimedia content for entertainment purposes namely production of animated and non-animated digital multimedia content featuring fictional characters, virtual avatars, fictional stories and role-playing narratives.

Class 42:
Artificial intelligence as a service [AIaaS] featuring software using artificial intelligence for use in creating images, text, audio, video, music and virtual environments; artificial intelligence as a service [AIaaS] featuring software using artificial intelligence for machine-human interaction; provision of online non-downloadable software using artificial intelligence for providing virtual companionship, emotional support, entertainment and interactive conversations for use in simulating romantic and platonic relationships; provision of online non-downloadable software using artificial intelligence for creating virtual avatars and objects and interacting with virtual avatars and objects in virtual worlds; provision of online non-downloadable software for generating and interacting with chatbots, AI personalities, digital companions and conversational agents, including facilitating text-based conversations, image sharing and voice communication;

provision of online non-downloadable software using artificial intelligence for creating personalised companions, engaging in romantic and platonic conversations and facilitating interactive multimedia communication; provision of online non-downloadable software using artificial intelligence for generating multimedia content, namely, images, videos, audio, text, and graphic designs; online non-downloadable chatbot software using artificial intelligence for simulating conversations and social interactions in a virtual environment; provision of non-downloadable software for providing adult entertainment; provision of online non-downloadable virtual reality software for immersive virtual companion experiences and interactions; provision of online non-downloadable virtual assistant software using artificial intelligence for providing a virtual companion; software as a service (SaaS) featuring software using artificial intelligence for generating fictional characters and avatars for virtual interactions, including images, videos, audio, text and graphic designs; software as a service (SaaS) featuring software using artificial intelligence for creating, managing and operating fictional characters and avatars for virtual interactions and digital companions; software as a service (SaaS) featuring software using artificial intelligence for providing virtual companionship, emotional support, entertainment and interactive conversations for use in simulating romantic and platonic relationships; software as a service [SaaS] featuring artificial intelligence software for facial and speech recognition; platform as a service (Saas) featuring software platforms for creating personalised virtual companions, engaging in romantic and platonic conversations and facilitating interactive multimedia communication; platform as a service [PaaS] featuring software platforms for transmitting images, audiovisual contents, video contents and messages generated by artificial intelligence; platform as a service [PaaS] for providing adult entertainment; hosting of digital content on the Internet; hosting of multimedia entertainment content; hosting virtual environments.

Class 45:
Online social networking services, including in virtual environments or using artificial intelligence; simulated dating services, including using artificial intelligence; personal companionship services, including provided virtually or using artificial intelligence.

The mark contains the colours blue, green and white.

Class 7:
Compressors being components for heat pumps; compressors being components for heating systems.

Class 11:
Cooling installations; freezing installations; cooling equipment; refrigeration units [commercial -]; cooling fans [electric -]; installations for cooling; dryers for cooling systems; industrial cooling systems; refrigerated displays; cooling systems, namely cooling installations, cooling devices and apparatus for heating and cooling of buildings, homes, greenhouses and industrial processes [CHP installations]; air-conditioning equipment; energy-efficient cooling systems; heating, ventilation, air-conditioning and air purification systems; HVAC [heating, ventilation, and air-conditioning] systems; heating elements and wires in the form of cables; heating systems; industrial heating systems; central heating systems; solar heating systems; heat storage [solar] equipment for heating; heat controllers [valves] being components of heating systems; heat exchangers, evaporators and pipe systems being components for heating systems; heat pumps; heat exchangers and regulating valves being components for heat pump; combustion units (thermal -); cooling units (commercial -).

Class 35:
Business consultancy; wholesale services relating to refrigeration equipment, cooling installations, freezing installations, commercial refrigeration units, cooling fans [electrical -], cooling installations, dryers for refrigeration systems, industrial refrigeration systems, refrigerated displays, refrigerated storage systems, air-conditioning equipment and energy-efficient refrigeration systems, heating, ventilation, air-conditioning and purification systems, HVAC systems for heating, ventilation and air-conditioning, heating elements and wires, heating installations, industrial heating installations, central heating installations, solar heating installations, heat storage [solar] equipment for heating, heat controllers [valves] being parts of heating installations, compressors, heat exchangers, evaporators and pipe systems being parts of heating installations, heat pumps, compressors, heat exchangers and controllers being parts of heat pumps, solar heating installations, heat installations, energy management systems, thermal management systems, industrial energy systems, as well as related to industrial thermal systems.

Class 37:
Installation and maintenance of cooling installations, freezing installations, cooling equipment, refrigeration units [commercial-], cooling fans [electric-], cooling systems, dryers for cooling systems, industrial cooling systems, refrigerated displays, refrigerated storage systems, air-conditioning equipment, heating, ventilation, air-conditioning and purification systems, HVAC systems for heating, ventilation and air-conditioning, heating elements and wires, heating installations, industrial heating installations, central heating installations, solar heating installations, heat storage equipment [solar] for heating, heat controllers [valves] being parts of heating installations, compressors, heat exchangers, evaporators and pipe systems being parts for heating installations, heat pumps, compressors, heat exchangers and controllers being parts for heat pumps; installation and maintenance of solar thermal systems; installation and maintenance of heating installations; thermal insulation of buildings; insulation of buildings by using the thermal properties of the structures; installation and maintenance of energy management systems; installation and maintenance of thermal management systems; installation and maintenance of industrial energy systems for optimising energy efficiency inside buildings.

CMX

International priority date claimed: 11 February 2026 (JM) (96670)

Class 9:
Computer hardware, namely, computer storage systems for extending GPU memory with network-attached flash storage optimized for artificial intelligence inference workloads; computer hardware, namely, computer hardware for accelerating data storage and retrieval in artificial intelligence inference systems; computer hardware, namely, computer hardware featuring integrated processors for Software-Defined acceleration of storage, networking, and security functions; computer hardware, namely, hardware accelerators for facilitating distributed key-value cache management in artificial intelligence computing systems; computer hardware for enabling implementation of reference architectures for artificial intelligence (AI)-native storage infrastructure, context memory storage, and distributed key-value cache management for AI inference systems; computer servers, namely, storage servers and storage enclosures for managing context memory in artificial intelligence computing pods; data storage devices, namely, computer storage platforms comprising computer hardware and software sold as a unit for storing, managing, and routing key-value cache data for artificial intelligence inference computing systems; data storage devices, namely, data storage apparatus for storing and managing inference context data in artificial intelligence computing systems; downloadable software for managing, routing, storing, retrieving, sharing, and transferring key-value cache data and inference context across artificial intelligence compute, networking, and storage systems; downloadable software, namely, software libraries, application programming interfaces (APIs), and software development kits (SDKs) for implementing reference architectures for artificial intelligence (AI)-native storage infrastructure and context memory storage systems; downloadable software for enabling implementation of reference architectures for artificial intelligence (AI)-native storage infrastructure, context memory storage, and distributed key-value cache management for AI inference systems; computer software, namely, device drivers for managing, routing, storing, retrieving, sharing, and transferring key-value cache data and inference context across artificial intelligence compute, networking, and storage systems; downloadable software development kits (SDKs) for managing, routing, storing, retrieving, sharing, and transferring key-value cache data and inference context across artificial intelligence compute, networking, and storage systems; downloadable electronic publications in the nature of technical specifications, reference architecture documents, implementation guides, and technical manuals in the field of artificial intelligence (AI)-native storage infrastructure, context memory storage, and management of key-value cache data and inference context for AI inference systems; downloadable application programming interfaces (APIs) for managing, routing, storing, retrieving, sharing, and transferring key-value cache data and inference context across artificial intelligence compute, networking, and storage systems; downloadable computer software libraries for managing, routing, storing, retrieving, sharing, and transferring key-value cache data and inference context across artificial intelligence compute, networking, and storage systems; computer hardware for accelerating artificial intelligence (AI) inference workflows; computer hardware featuring integrated processors for Software-Defined acceleration of storage, networking, and security functions; hardware accelerators for facilitating distributed ai-native key-value (kv) cache management; hardware and downloadable software sold as a unit for managing agentic workflows and treating inference context as a persistent data type.

Class 42:
Providing temporary use of online non-downloadable software for managing, routing, storing, retrieving, sharing, and transferring key-value cache data and inference context across artificial intelligence compute, networking, and storage systems; providing online non-downloadable software for the storage of electronic data; providing online non-downloadable software for managing large scale data storage and storage system performance analysis; electronic storage of data; computer software technical support services, technical information and technical support regarding software patches, upgrades and updates; providing information relating to computer technology; providing information relating to computer technology, namely, providing technical information, consulting, design, and development services relating to reference architectures for artificial intelligence (AI)-native storage infrastructure, context memory storage, and distributed key-value cache management for AI inference systems; providing information relating to computer technology, namely, providing support services for implementing artificial intelligence (AI)-native storage reference architectures; providing information relating to computer technology, namely, troubleshooting and optimization of Software-Defined acceleration for storage, networking, security, and inference context management; technology consultation in the field of artificial intelligence (AI); providing computer hardware and software information online; providing information in the fields of technology and software development via an on-line website; providing information relating to computer technology and programming via a website; software as a service (SaaS) featuring software for managing agentic workflows in artificial intelligence (AI) applications; providing temporary use of non-downloadable software for managing, distributing, and optimizing access to ai-native key-value (kv) cache data within agent-based inference systems; technical support services in the field of ai-native storage infrastructure, namely, troubleshooting performance of Software-Defined acceleration for storage, networking, and security; design and development of custom hardware and software solutions

for managing persistent inference context in ai-native data workflows; consulting services related to the integration of agentic workflow orchestration and ai-native storage systems.

cases especially made for photographic apparatus and instruments; cases adapted for CD players; cases adapted for DVD players; cases adapted for MP3 players; recorded content; electronic databases; audio recordings; video recordings; integrated circuit cards [smart cards]; computer operating systems; information technology and audiovisual equipment; communications equipment excluding microphones, equalisers, amplifiers, loudspeakers, car radios and accessories therefor, namely, regulators, switches, aerials and screens; computer networking and data communications equipment; broadcasting equipment excluding microphones, equalisers, amplifiers, loudspeakers, car radios and accessories therefor, namely, regulators, switches, aerials and screens; memory storage devices; photocopiers; image scanners; printers for use with computers; page 13 data processing equipment and accessories [electrical and mechanical]; ticket dispensing terminals, electronic; electronic payment terminals, money dispensing and sorting devices; coinoperated mechanisms; computer peripherals; computer hardware; computer components and parts; audio/visual and photographic devices; audio devices and radio receivers excluding microphones, equalisers, amplifiers, loudspeakers, car radios and accessories therefor, namely, regulators, switches, aerials and screens; display devices, television receivers and film and video devices; image capturing and developing devices; signal cables for IT, AV and telecommunication; magnetizers and demagnetizers; apparatus, instruments and cables for electricity; apparatus and instruments for accumulating and

storing electricity; photovoltaic cells; electric and electronic components excluding microphones, equalisers, amplifiers, loudspeakers, car radios and accessories therefor, namely, regulators, switches, aerials and screens; electric cables and wires; electrical circuits and circuit boards; optical devices, image enhancers and correctors; optical enhancers; lasers, not for medical purposes; safety, security, protection and signalling devices; alarms and warning equipment; access control systems; diving equipment; navigation, guidance, tracking, targeting and map making devices; monitoring instruments; sensors and detectors; measuring, counting, alignment and calibrating instruments; data loggers and recorders; instrumentation simulators; monitoring apparatus, electric; downloadable virtual goods, namely, computer programs featuring cars, sports cars, racing cars, vehicles, electric vehicles, electric motors and engines, structural parts of automobiles and vehicles, spare parts and accessories for automobiles and vehicles, bicycles, clocks, wristwatches, pocket watches, stationery articles, clothing, footwear, headgear, eyewear and eyewear accessories, bags, sport bags, rucksacks, sports equipment, art, toys, video games and their accessories for use online and in online virtual worlds; downloadable virtual goods, namely, downloadable image files featuring virtual goods; recorded digital files featuring virtual goods; downloadable digital cars, sports cars, racing cars, vehicles, electric vehicles, electric motors and engines, structural parts of automobiles and vehicles, spare parts and accessories for automobiles and vehicles, bicycles, clocks, wristwatches, pocket watches, stationery articles, clothing, footwear, headgear, eyewear and eyewear accessories, bags, sport bags, rucksacks, sports equipment, art, toys, video games and their accessories, all the above mentioned goods authenticated by non-fungible tokens [NFTs]; downloadable interactive characters, avatars and skins; downloadable digital files authenticated page 14 by non-fungible tokens [NFTs] using blockchain technology; downloadable digital files authenticated by non-fungible tokens [NFTs] and application tokens; downloadable digital files authenticated by non-fungible tokens [NFTs] featuring collectible images and videos; downloadable collectible images and videos authenticated by non-fungible tokens [NFTs]; downloadable collectible images authenticated by non-fungible tokens [NFTs] used with blockchain technology; digital tokens used with blockchain technology in the nature of data; digital tokens used with blockchain technology in the nature of data to represent a collectible item; downloadable digital files authenticated by nonfungible tokens [NFTs] using blockchain technology to represent a collectible item; electronic devices for enabling the authenticity, ownership, availability and trading of digital assets and creations on computer software platforms authenticated by non-fungible tokens [NFTs]; encoded record tokens; magnetically encoded record tokens; recorded tokens being magnetically encoded gift cards; gift tokens being encoded gift cards; gift tokens being magnetically encoded gift cards; pre-recorded gift tokens being pre-recorded gift cards; pre-recorded tokens being pre-recorded gift cards; security tokens [encryption devices]; encoded gift vouchers; pre-recorded gift vouchers; utility tokens being digital assets using blockchain technology; fan tokens being digital assets using blockchain technology, namely digital objects for voting in team polls, predicting results in competitions and races, check-in for competitions and races, playing games, choosing drivers; downloadable multimedia files containing artwork, texts, audio and video authenticated by nonfungible tokens [NFTs]; downloadable multimedia files containing artworks, audio files, texts and videos relating to automobiles authenticated by non-fungible tokens [NFTs]; downloadable audio and video recordings authenticated by nonfungible tokens [NFTs]; downloadable image files authenticated by non-fungible tokens [NFTs]; downloadable digital media, downloadable digital assets, downloadable digital collectibles, downloadable digital tokens and downloadable digital files authenticated by non-fungible tokens [NFTs]; downloadable digital files authenticated by non-fungible tokens [NFTs]; downloadable digital files containing collectible images, texts, videos and/or music; downloadable music files authenticated by non-fungible tokens [NFTs]; downloadable graphics authenticated by nonfungible tokens [NFTs]; downloadable digital event tickets and digital documents; downloadable digital materials, namely, audio-visual content, videos, films, multimedia files, and animation; downloadable software for receiving and accessing non-fungible tokens; downloadable software for spending and trading non-fungible tokens; downloadable computer page 15 software for managing cryptocurrency transactions using blockchain technology; computer software for blockchain technology and cryptocurrency; downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital assets, digital collectibles, digital tokens and non-fungible tokens [NFTs]; downloadable software for use in displaying, monetizing, buying, selling, trading, clearing, confirming digitized assets authenticated by non-fungible tokens [NFTs]; augmented reality computer hardware; augmented reality software; virtual reality software; augmented reality game software; augmented reality software for use in mobile devices; games software; virtual reality game software; downloadable software for providing access to an online virtual environment; downloadable computer software for the creation, production and modification of digital animated and non-animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments, and extended reality virtual environments; downloadable software and mobile application software providing a virtual marketplace; downloadable computer software for interactive games for use via a global computer network and through various wireless networks and electronic devices; downloadable software for accessing and streaming multimedia entertainment content; downloadable software for engaging in social networking and interacting with online communities; downloadable cryptographic keys for receiving and spending cryptocurrency; downloadable computer software relating to digital goods; downloadable software in the nature of a mobile application to browse and perform electronic transactions of retail consumer goods; virtual reality glasses; augmented reality glasses; augmented reality headsets; virtual reality headsets; head-mounted augmented reality displays; virtual reality gloves; virtual reality helmets; electronic communication devices for playing virtual reality games; virtual reality controllers; telecommunication apparatus in the form of jewellery; electronic numeric displays; hand-held electronic dictionaries; sports whistles; teaching robots; telepresence robots; wah-wah pedals; devices for the projection of virtual keyboards; data gloves; trackballs [computer peripherals]; climate control digital thermostats; dry suits; gimbals for digital cameras; sunglasses for pets; scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus

and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing page 16 or processing sound, images or data excluding microphones, equalisers, amplifiers, loudspeakers, car radios and accessories therefor, namely, regulators, switches, aerials and screens; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; mechanisms for coin-operated apparatus; cash registers, calculating devices; computers and computer peripheral devices; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; fire-extinguishing apparatus.

Class 12:
Automobiles; cars; racing cars; sports cars; motor cars; self-driving cars; hydrogen-fueled cars; electric vehicles; hybrid vehicles; autonomous land vehicles; sports utility vehicles; trailers [vehicles]; physical automobiles, physical cars, physical racing cars, physical sports cars, physical vehicles, authenticated by non-fungible tokens [NFTs]; structural parts of automobiles, racing cars, sports cars, land, air and water vehicles; physical structural parts of automobiles, racing cars, sports cars, land, air and water vehicles, authenticated by non-fungible tokens [NFTs]; spare parts and accessories for automobiles, racing cars, sports cars, land, air and water vehicles; physical spare parts and physical accessories for automobiles, racing cars, sports cars, land, air and water vehicles, authenticated by non-fungible tokens [NFTs]; motors, electric, for land vehicles; engines for land vehicles; motors for land vehicles; vehicle seats; racing seats for automobiles; seat covers for vehicles; vehicle covers [shaped]; steering wheels for vehicles; covers for vehicle steering wheels; dashboards for automobiles; fitted dashboard covers for vehicles; doors for automobiles; handles for automobile doors; covers for baggage compartments [parts of vehicles]; upholstery for vehicles; interior trim for automobiles; sun-blinds adapted for automobiles; sun visors for automobiles; head-rests for vehicle seats; arm rests for vehicle seats; ski carriers for cars; cigar lighters for automobiles; luggage carriers for vehicles; direction signals for vehicles; automobile seat cushions; pneumatic tyres; casings for pneumatic tyres; inner tubes for pneumatic tyres; vehicle tires; automobile tires; adhesive rubber patches for repairing inner tubes; repair outfits for inner tubes; clips adapted for fastening automobile parts to automobile bodies; bodies for vehicles; vehicle chassis; hoods for vehicles; vehicle bumpers; driving motors for land vehicles; mudguards; rearview mirrors; windows for vehicles; windscreens; windscreen wipers; brakes for vehicles; fuel tanks for land vehicles; caps for vehicle fuel tanks; horns for vehicles; crankcases for land vehicle components, other than for engines; automobile wheels; rims for vehicle wheels; freewheels for land vehicles; lug nuts for vehicle wheels; automobile sunroofs; tops for land vehicles; ashtrays for automobiles; glass holders for automobiles; cup holders for vehicles; dashboard drawers [parts of automobiles]; dashboard hatches [parts of automobiles]; glove compartments for automobiles; glove boxes for automobiles; seat back organizers specially adapted for use in cars; vehicle bonnet pins; vehicle hood pins; bearings [parts of vehicles]; car back seat organizers; bicycles, parts and accessories thereof included in this class; electric bicycles; trailers for transporting bicycles; motorcycles; electric motorcycles; cycles, parts and accessories thereof included in this class; tricycles, parts and accessories thereof included in this class; push scooters [vehicles]; kick sledges; sleighs [vehicles]; safety belts for vehicle seats; security harness for vehicle seats; air bags [safety devices for automobiles]; non-skid devices for vehicle tires; safety seats for children, for vehicles; pet safety seats for use in vehicles; anti-theft devices for vehicles; prams; covers for prams; pushchairs; pushchair covers; carrycots [parts of prams and pushchairs], namely carrycots for use with prams and pushchairs; bags adapted for prams and pushchairs; fitted footmuffs for prams and pushchairs; pet strollers; parachutes; two-wheeled trolleys; human-powered trolleys and carts; ski lifts; golf buggies; self-balancing scooters; self-balancing boards; self-balancing electric unicycles; water scooters [personal watercraft]; tow trucks; dining cars; photography drones; surveillance towers specially adapted for vehicles; pneumatic or hydraulic linear actuators for land vehicles; motorized skateboards; snow-going vehicles; mobility vehicles; vehicles; apparatus for locomotion by land, air or water.

Class 28:
Toys; amusement apparatus adapted for use with an external display screen or monitor; apparatus for games adapted for use with an external display screen or monitor; video game machines for use with televisions; video game machines; television game sets, namely, games adapted for use with television receivers; apparatus for games; amusement machines, automatic and coin-operated; amusement machines, other than those adapted for use with television sets and with an external display screen or monitor; pocket-sized apparatus for playing video games; pocket-sized video games; pocket-sized electronic games; hand-held video games; portable electronic games; portable electronic toys; hand-held units for playing video games; stand alone video game machines; computer game equipment, namely computer game joysticks and game controllers for computer games; electronic games consoles adapted for use with an external display screen or monitor; controllers for game consoles; joysticks for video games; bags specially adapted for hand-held video game apparatus; bags specially adapted for video games consoles; games consoles; gamepads for use with game consoles; handheld game consoles; handheld video game consoles; video game consoles; video game consoles for use with an external display screen or monitor; protective carrying cases specially adapted for video game consoles for use with an external display screen or monitor; mouse for video game machines; gaming keyboards; toy models; models featuring racing scenes [toys]; models featuring racing scenes for collectors; scale model racing cars [toys]; scale model racing cars for collectors; scale model racing vehicles [toys]; scale model racing vehicles for collectors; scale model cars [toys]; scale model cars for collectors; scale model vehicles [toys]; scale model vehicles for collectors; resin models featuring racing scenes [toys]; scale model drivers; scale model pit crews; physical model cars, being toys, authenticated by non-fungible tokens [NFTs]; physical model vehicles, being toys, authenticated by non-fungible tokens [NFTs]; physical model cars for collectors, authenticated by non-fungible tokens [NFTs]; physical model vehicles for collectors, authenticated by non-fungible tokens [NFTs]; racing car model silhouettes, being scale model racing cars; racing car model silhouettes, being stylized scale reproductions of racing cars for ornamental purposes; full-size toy car replicas; full-size toy vehicle replicas; full-size toy steering wheel replicas; vehicle construction toys; toy vehicle

trucks; toy vehicles; toy racing car tracks; toy steering wheels; pull-along toy vehicles; toy trucks with cars; toy pedal karts for kids; ride-on toys; ride-on toy cars for children in pedal version or working with batteries; toy cars for children in pedal version or working with batteries; ride-on toy vehicles, electric, reproducing the original models; toy go-karts for children in pedal version or working with batteries; tricycles for infants [toys]; push scooters [toys]; balance bicycles [toys]; race pit-stops [toys]; race tracks [toys]; toy trucks; toy trailers for transporting cars; radio-controlled toy vehicles; radio-controlled toy cars; toy gasoline service stations; toy car garages; toy car showrooms; toy telephones; plush toys; toy plush steering wheels; teddy bears; playing cards; toys designed to be attached to car seats; toys designed to be attached to car back seats; padded toys for seatbelts; streetboards; ankle guards [sports articles] not including those designed for use in skiing or snowboarding; ankle pads for sports use not including those designed for use in skiing or snowboarding; ankle guards for skating; ankle pads for skating; abdomen protectors for sports not including apparatus or equipment designed for use in skiing or snowboarding and for fishing; golf bag carts; sticks for fans and for entertainment [novelty items]; toy sticks for fans and for entertainment shaped as flags [novelty items]; toy lanyards; sports articles and equipment not including those designed for use in skiing or snowboarding and for fishing; hunting equipment, namely hunting tackle, bows and lures; flippers for swimming; floats for swimming; swimming belts; swimming gloves; swimming jackets; inflatable armbands for swimming; swimming floats for recreational use; swimming kick boards; party poppers; streamers [party novelties]; novelties for parties, dances [party favors, favours]; balloons [party novelties]; paper party hats; decorations for artificial Christmas trees; fairground and playground apparatus; portable games and toys incorporating telecommunication functions; toy dough; party poppers [party novelties]; games, toys and playthings; video game apparatus; gymnastic and sporting articles not including apparatus or equipment designed for use in skiing or snowboarding and for fishing; decorations for Christmas trees.

FERRARI S.P.A.

Representative: Dr. Modiano & Associati SpA
Via Meravigli 16 I-20123 Milano ITALY

WO0000001926247(1, 17, 19, 37, 41)
Office of Origin: CH

Date of International Registration: 04 March 2026
Date of Designation in the UK: 04 March 2026

The figurative elements contained in the sign will be reproduced neither in red on a white background, nor in other colors likely to be confused with the emblem of the Red Cross

International priority date claimed: 29 October 2025 (CH) (843259)

Class 1:
Adhesives for industrial use; gluten (glue), other than for stationery or household purposes; adhesives (adhesive materials) for the building industry.

Class 17:
Adhesive tapes and strips other than for medical use and other than for stationery or household purposes; packing, stopping and insulating materials; duct tapes; caulking materials; non-metallic seals for sealing buildings; insulating waterproofing membranes; plastic film, other than for wrapping; viscose sheets other than for wrapping; sheets of reclaimed cellulose other than for packaging; insulating tapes; insulating films; insulating paper; insulation materials for building; polyurethane films for use in sealing and insulating of buildings; rubber sheets for insulation; foam sheets used as building insulation; plastic sheets used in the construction sector as vapor barriers; plastic films used in the construction sector as a vapor barriers; steam-proof laminated films; foils of metal for insulating; metal foils for building insulation.

Class 19:
Non-metallic construction materials; non-metallic lining coatings for construction.

Class 37:
Construction; construction and renovation of buildings and other structures; repair and maintenance of buildings; waterproofing and sealing of buildings; thermal insulation of buildings; insulation of interior and exterior walls, ceilings and roofs; construction advice; consultancy and information services with respect to construction; provision of advice relating to the maintenance, repair and renovation of buildings and other structures.

Class 41:
Instruction and training services; arranging and hosting of conferences, congresses, seminars and training workshops; entertainment services; sporting and cultural activities.

WO0000001926185(9, 37, 41, 42)
Office of Origin: EM

Date of International Registration: 17 April 2026
Date of Designation in the UK: 17 April 2026

GMC INSTRUMENTS ACADEMY

International priority date claimed: 20 October 2025 (EM) (019263206)

Class 9:
Scientific apparatus and instruments for laboratory research and being laboratory equipment, nautical, surveying, photographic,

cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; electronic and electrotechnical apparatus and instruments, included in class 9, namely indicating and recording panel meters, measuring transducers, electronic regulators, sensors, in particular physical and electronic sensors, limit switches, laboratory recorders; apparatus for measuring and testing electrical, optical and thermal parameters, in particular electronic laboratory apparatus and multimeters for measuring electrical parameters, in particular for power measurements and for energy measuring technology, for use in operation, during assembly, in laboratories and in electrical testing areas, measuring apparatus for photographic technology, power and voltage supply apparatus; mains voltage regulators and monitors, earth fault monitoring apparatus, text display apparatus, apparatus and instruments for measuring, controlling, regulating, recording, and storing measurement values; apparatus, instruments and computer software (included in class 9) for the logging, processing, measuring, transforming, transmission, regulating, presentation, display and registration of events and process data, for laboratory and industrial purposes; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; coin-operated mechanisms; cash registers, calculating machines, data processing equipment, computers, in particular personal computers and industrial personal computers, computer peripheral devices (included in class 9); computer software in the form of computer programs, data carriers of all kinds containing recorded computer programs; parts of the aforesaid goods.

Class 37:
Installation, commissioning, maintenance, repair and servicing of electronic and electromechanical apparatus and instruments.

Class 41:
Education and instruction services; organisation of conferences, exhibitions and competitions.

Class 42:
Engineering services, physics and chemistry research; services in connection with the recording, processing, measuring, conversion, transmission, regulating, presentation, display and registration of measurement values and process data, for laboratory, commercial and industrial purposes [measuring services]; development and creation of computer programmes; development and design of electronic and electromechanical apparatus and instruments; engineering in relation to the testing of electronic and electromechanical apparatus and instruments.

WO0000001921383(9, 42)
Office of Origin: NZ

Date of International Registration: 07 May 2026
Date of Designation in the UK: 04 June 2026

MeshCore

Class 9:
Communications software; embedded operating software; communication networks; mesh network software; networks for the transmission of data; computer software for wireless network communications; downloadable computer software for the transmission of data and information; downloadable computer utility programs; communication software; networking software; telecommunications software; software development kit [SDK].

Class 42:
Software design and development; design and development of computer software; design and development of software; software development; custom design and development of software; development and design of mobile applications; software authoring.

MESHCORE TECHNOLOGIES LIMITED

WO0000001928365(9, 10, 42)
Office of Origin: JP

Date of International Registration: 15 May 2026
Date of Designation in the UK: 15 May 2026

HydroBalance

International priority date claimed: 01 May 2026 (JP) (2026-050163)

Class 9:
Optical machines and instruments; measuring and testing machines and instruments; telecommunication machines and apparatus; personal digital assistants; smartphones; personal digital assistants in the shape of a watch; electric or magnetic meters and testers; wavemeters; computer program for acquiring and displaying biometric information.

Class 10:
Medical apparatus and instruments; medical apparatus and instruments for use in surgery; measuring and testing machines and instruments for medical purposes; oxygen monitors for medical purposes; temperature monitors for medical purposes; body fat monitors for medical purposes; electronic temperature monitors for medical purposes; electronic heart rate monitors for medical purposes; electronic heart signal monitors for medical purposes; in-ear monitors for hearing tests for medical purposes; diagnostic apparatus for medical purposes; ultrasonic diagnostic apparatus for medical purposes; clinical thermometers; heart rate recorders; electrocardiographs; devices for measuring blood sugar; sphygmomanometers; sphygmotensiometers; massage apparatus; electric massage apparatus for household purposes; electric esthetic massage

apparatus for household purposes; pulse oximeters; pulse oximeters for medical purposes; tumor marker examination device; blood testing apparatus.

Class 42:
Software as a service [SaaS]; providing computer programs on biometric analysis; providing computer programs on data networks; computer programming; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; testing or research on electricity; testing and research services relating to machines, apparatus and instruments; rental of measuring apparatus; rental of computers; rental of laboratory apparatus and instruments.

International priority date claimed: 26 August 2025 (EM) (019237265)

Class 7:
Printing machines; offset printers; web fed rotary printing machines; sheet fed rotary printing machines; screen printing machines; pad printing machines; flexographic printing machines; intaglio printing machines; printing machines for use on sheet metal; printing machines for use on cans; printing machines for use on hollow bodies; printing machines for corrugated cardboard; inkjet printing machines and apparatus; laser marking machines and apparatus; laser printing machines and apparatus; marking machines; lacquering machines; packaging machines; coating machines, in particular working rotationally, for web-type and separate materials; digital printing and marking machines based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; numbering, imprinting and marking machines, in particular for the graphics sector, the packaging sector and data processing; labellers [machines]; engraving machines; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; palette changing and transferring machines; stacking machines; machines for handling sheets and plates of metal; foodstuff distribution machines; machines and apparatus for the surface treatment of metals; hot stamping machines and apparatus; thermal transfer machines and apparatus; rotary die-cutters for punching of printed matter or paper or plastics; flat-bed die cutters for stamping printed matter or paper or plastics; carton bonding machines; addressing and marking machines for printed matter; machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; printing plates; flexographic printing plates; coating plates; accessories, the aforesaid goods included in this class, for use in relation to the following goods: the aforesaid goods, namely printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; accessories, the aforesaid goods included in this class, for use in relation to the following goods: the aforesaid goods, namely inkjet printing machines and apparatus, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, rotary punching, flat bed punching, carton bonding machines; accessories, the aforesaid goods included in this class, for use in relation to the following goods: the aforesaid goods, namely machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, namely control apparatus, printer engines, inking apparatus, dampening units, painting units, reel splicers, folding apparatus; machines and mechanical apparatus for the storing of printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines; machines and mechanical apparatus for the storing of printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; machines and mechanical apparatus for the storing of printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus; machines and mechanical apparatus for the storing of printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labellers [machines], engraving machines;

machines and mechanical apparatus for the storing of printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; conveyors [machines], conveyor belts, conveying apparatus for conveying printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines; conveyors [machines], conveyor belts, conveying apparatus for conveying printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; conveyors [machines], conveyor belts, conveying apparatus for conveying printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus; conveyors [machines], conveyor belts, conveying apparatus for conveying printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labellers [machines], engraving machines; conveyors [machines], conveyor belts, conveying apparatus for conveying printed matter or printing material or rolls of printing material or paper or rolls of paper or plastic or rolls of plastic or metal or organic or inorganic materials for use in relation to the following goods: machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for the folding of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical devices for changing and/or bending and/or punching printing plates and/or flexographic printing plates; machines and mechanical apparatus for the storing of printing plates for printing machines; conveying machines, conveyor belts, conveying apparatus for conveying printing plates for printing machines; machines and mechanical apparatus for cleaning rollers in inking apparatus or damping units and/or cylinders and/or painting units and/or inkjet print heads and/or laser systems in printing machines, offset printing machines, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines; machines and mechanical apparatus for cleaning rollers in the following goods: pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus; machines and mechanical apparatus for cleaning rollers in the following goods: marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for storing and/or adjusting rollers in inking apparatus or damping units and/or cylinders and/or lacquering units and/or inkjet printing modules and/or laser systems in the following goods: printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines; machines and mechanical apparatus for storing and/or adjusting rollers in the following goods: pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus; machines and mechanical apparatus for storing and/or adjusting rollers in the following goods: marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labellers [machines], engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjustment, for inking apparatus and/or damping units and/or printer engine cylinders and/or for lacquering units in printer engines and/or in lacquering units and/or for inkjet printing modules and/or laser systems; parts for inking apparatus and/or damping units and/or inkjet printing modules and/or laser systems and cylinders in tempering machines, included in this class; machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders in the following goods: printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders in the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines; machines and mechanical apparatus for adjusting cutting equipment and cutting cylinders in the following goods: packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials;

machines and mechanical apparatus for adjusting registers and/or passers in the following goods: printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; machines and mechanical apparatus for adjusting registers and/or passers in the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus; machines and mechanical apparatus for adjusting registers and/or passers in the following goods: marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; machines and mechanical apparatus for adjusting web tension in the following goods: printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; machines and mechanical apparatus for adjusting web tension in the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus; machines and mechanical apparatus for adjusting web tension in the following goods: marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; accessories, the aforesaid goods included in this class, for use in relation to the following goods: the aforesaid goods, namely printing machines, offset printers, web fed rotary printing machines, sheet fed rotary printing machines, screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; accessories, the aforesaid goods included in this class, for use in relation to the following goods: the aforesaid goods, namely laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labellers [machines], engraving machines, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; accessories, the aforesaid goods included in this class, for use in relation to the following goods: the aforesaid goods, namely palette changing and transferring machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus, rotary punching, flat bed punching, carton bonding machines; machines and mechanical apparatus for producing security labels, securities, banknotes and/or components therefor; machines and mechanical apparatus for applying security labels and/or components therefor; machines and mechanical apparatus for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; parts for the aforesaid goods and accessories for the aforesaid goods, included in this class.

Class 9:
Electronic inspection, control, display and measuring apparatus for use in relation to the following goods: printing machines, offset printers, web-fed rotary printing machines, sheet fed rotary printing machines, silk-screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; electronic inspection, control, display and measuring apparatus for use in relation to the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines; electronic inspection, control, display and measuring apparatus for use in relation to the following goods: machines for packing, coating machines, digital printing and marking machines, labellers (machines), engraving machines, rotary punching, flat bed punching, carton bonding machines, coding machines, the aforesaid goods in particular for the graphics sector, the packaging sector and data processing; machines and mechanical apparatus for quality control in the following goods: printing machines, offset printers, web-fed rotary printing machines, sheet fed rotary printing machines, silk-screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; machines and mechanical apparatus for quality control in the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines; machines and mechanical apparatus for quality control in the following goods: machines for packing, coating machines, digital printing and marking machines, labelling machines, engraving machines, rotary punching, flat bed punching, carton bonding machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; electronic checking, control, display and measuring apparatus for producing goods security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electronic checking, control, display and measuring apparatus for applying goods security means, identification features, security features, security labels and/or components therefor; electronic checking,

control, display and measuring apparatus for packaging goods security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electronic checking, control, display and measuring apparatus being and/or for goods security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and/or temperature monitoring apparatus, web tension controllers being parts or fittings of the following goods: printing machines, offset printers, web-fed rotary printing machines, sheet fed rotary printing machines, silk-screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and/or temperature monitoring apparatus, web tension controllers being parts or fittings of the following goods: printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and/or temperature monitoring apparatus, web tension controllers being parts or fittings of the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and/or temperature monitoring apparatus, web tension controllers being parts or fittings of the following goods: laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, machines for packing, coating machines, digital printing and marking machines; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and/or temperature monitoring apparatus, web tension controllers being parts or fittings of the following goods: labellers (machines), engraving machines; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and/or temperature monitoring apparatus, web tension controllers being parts or fittings of the following goods: machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printed materials or paper or plastics or metal; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controllers, machines and mechanical apparatus for quality control being parts or fittings for machines for producing goods security means, identification features, security features, security labels; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus, web tension controllers, machines and mechanical apparatus for quality control being parts or fittings for machines for producing securities, banknotes and/or components therefor; regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controllers, machines and mechanical apparatus for quality control being parts or fittings for machines for applying goods security means, identification features, security features, security labels and/or components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controllers, machines and mechanical apparatus for quality control being parts or fittings for machines for packaging goods security means, identification features, security features, security labels; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and/or web tension controllers, machines and mechanical apparatus for quality control being parts or fittings for machines for packaging securities, banknotes and/or components therefor; electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, machines and mechanical apparatus for quality control being parts or fittings of and/or for machines for security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electric and electronic measuring and testing apparatus and testing instruments for adjusting and pre-adjusting subassemblies and parts of the following goods: printing machines, offset printers, web-fed rotary printing machines, sheet fed rotary printing machines, silk-screen printing machines, pad printing machines, flexographic printing machines, intaglio printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard; electric and electronic measuring and testing apparatus and testing instruments for adjusting and pre-adjusting subassemblies and parts of the following goods: inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus; electric and electronic measuring and testing apparatus and testing instruments for adjusting and pre-adjusting subassemblies and parts of the following goods: marking machines, lacquering machines, machines for packing, coating machines, digital printing and marking machines, labellers (machines), engraving machines, machines and mechanical apparatus for the graphics industry; electric and electronic measuring and testing apparatus and instruments for adjusting and preadjusting subassemblies and parts of machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials; electric and electronic measuring and testing apparatus and testing instruments for adjusting and pre-adjusting subassemblies and parts of the following goods: drying machines, drying stoves, palette changing and transferring machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for producing product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for applying product security means, identification features, security features, security labels and/or components therefor; electric and electronic measuring

and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and/or components therefor; electronic data carriers; magnetic data carriers, recording discs; rfid systems (radio frequency identification); encoded identification chips and cards; apparatus for the payment of goods and/or services and/or bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and/or coins and/or tokens of value and/or cashless payment by debit, credit and/or loyalty cards, in particular contactless and/or contact cards and/or nfc (near field communication) apparatus, including in particular with return of change; automated teller machines [atm]; money-receiving apparatus; money-dispensing and -receiving apparatus; fittings for the aforesaid apparatus, included in this class, in particular cartridges for collecting payment means, in particular bank notes and/or coins and/or tokens of value; electric apparatus, namely data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display; data processing equipment for personalising recording media; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs; cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals; coded telecommunication cards; coded and uncoded digital recording media with contactless interfaces; integrated circuits with characteristic physical properties for protection against forgery; memories for data processing installations, in particular non-volatile memories (digital storage media); digital recording media containing memories, in particular non-volatile memories (digital storage media); electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation; electronically/optically stored pre-recorded advertising and communications media, included in this class, in particular films, videos; accessories for the aforesaid inkjet printers, in particular with one or more inkjets, single colour or multiple colour inkjet printers; parts for the aforesaid goods and accessories for the aforesaid goods, included in this class.

Koenig & Bauer AG

Representative: Koenig & Bauer AG
Friedrich-Koenig-Str. 4 97080 Würzburg GERMANY

WO0000001928429(9, 42)
Office of Origin: NO

International priority date claimed: 06 October 2025 (EM) (019256781)

Class 4:
Candles; tealights.

Class 11:
Lighting apparatus; glow sticks for lighting; solar lamps; lighting lamps; floor lamps; LED lamps; table lamps; portable lamps; lanterns; LED candles; LED tealights; strings of lights; refrigerating apparatus; ventilating fans; portable fans; lanterns, not of precious metal.

Class 14:
Jewels; ornaments [jewellery, jewelry (am.)]; clocks and watches; bracelets; necklaces [jewellery]; earrings; key rings [split rings with trinket or decorative fob].

Class 16:
Stationery and office requisites (except furniture); paper lamps; paper stars; paper garlands; fillable advent calendars of cardboard; tree ornaments of paper; easter and christmas

decorations of paper; paper stools; cards; calendars; wall planners; desk calendars.

Class 18:
Leather and imitations of leather; storage baskets of artificial leather; bags; carrier bags; bags for transporting bottles; travelling bags; cosmetic bags sold empty; umbrellas.

Class 20:
Furniture, mirrors, picture frames; book shelves; cushions; chair pads; stools; pouffes; containers, not of metal, for storage or transport; baskets, non-metallic; wall hooks of non-metallic materials; figurines made of wood; houses of wood for decoration; air cushions, not for medical purposes; hand fans.

Class 21:
Household or kitchen utensils and containers; cookware and tableware, except forks, knives and spoons; glassware, porcelain and earthenware; candle holders and candle sticks not of precious metal; tealight holders; tealight houses; coffee boxes and tea boxes (not of precious metals); cookie jars, none of the aforesaid being of precious metal; storage tins, none of the aforesaid being of precious metal; mugs; bowls [basins]; teapots; drinking glasses; wine glasses; decanters; vases; tiered platters, none of the aforesaid being of precious metal; advent wreath trays; baskets for household purposes; trays for household purposes; bottle openers, electric and non-electric; straws for drinking, not of paper; boxes of porcelain; potholders; oven mitts; heat-insulated flasks; cool bags (non-electric).

Class 24:
Textiles; bed linen; blankets; table linen; table mats of textile; tea towels; beach towels; bath towels; fouta towels; pillow shams.

Class 25:
Clothing; headgear; footwear; beach wraps; rainwear; slippers; scarves; caps being headwear; scarves; hosiery; towels that may be worn as a dress or similar garment.

Class 27:
Door mats; carpets; carpet runners; mats.

Class 28:
Games, toys and playthings; parlour games; memory games; manipulative games; dice games; multi-part construction toys; throwing games, jigsaw puzzles; gymnastic and sporting articles; decorations for christmas trees; birthday trains [toys]; soft toys; boccia balls; balls; fillable fabric advent calendars.

BLENDORE

International priority date claimed: 04 March 2026 (FR) (5233889)

Class 9:
Scientific, geotechnical, geophysical, geoseismic, surveying, cartographic, measuring, detecting, testing, inspecting and recording apparatus and instruments; measuring apparatus and instruments relating to drilling, blasting and explosive firing operations; sounding apparatus and instruments; scientific probes and non-medical analysis probes; gyroscopes; global positioning system (GPS) devices; apparatus and instruments for recording, transmitting, processing, synchronizing, managing, backing up and sharing data; recorded or downloadable media; computers, calculating devices and computer peripherals; software and software applications, including downloadable software and mobile applications; business software; software packages; artificial intelligence software; software for simulation, modeling, testing, cost estimation, resource evaluation, management, processing, data retrieval and data search; software for database integration; recorded or downloadable software platforms; data management and retrieval systems (software); software for generating reports; computer systems and software for programming blasts and recording post-blast data; electronic and interactive databases; downloadable electronic publications; devices and instruments for measuring the geological, environmental or vibration impact relating to drilling, blasting or explosive firing, especially in terms of noise, vibration and carbon footprint.

Class 13:
Explosives and pyrotechnic materials; explosive substances; explosive devices other than weapons.

Class 35:
Compilation, management and administration of databases; computer file management; collection, organization and administration of data, especially data from instruments for measuring vibration or impact in connection with drilling or blasting; administrative management of a platform for hosting technical data; advisory services relating to technical data management and monitoring (including vibration data); provision of specialist personnel.

Class 38:
Transmission and communication services for technical, geotechnical, mining or topographical data; secure transmission of data from measurements, 3D models, drilling, firing calculations and technical reports; electronic communication between drilling equipment, loading equipment and firing systems; providing access to digital platforms, databases, dashboards and operational management systems; providing access to communication networks for sharing files and data; telecommunication services; information with respect to telecommunications; providing access to databases (as operating services).

Class 42:
Consultancy, engineering, study and research services in the scientific, technological, geotechnical, pyrotechnic, mining, construction and demolition fields; technical project studies; engineering relating to the firing of explosives for the mining, quarrying, construction and demolition industries; technical and engineering advice for optimizing drilling operations, blasting operations and operations involving explosives; technical and engineering services for conducting demolition, deconstruction, asbestos removal and site remediation operations; geotechnical research; geotechnical measurements; measurements and recordings of seismic and/or acoustic waves; operation and provision of testing facilities for explosives; technical inspection and control of drilling, blasting and demolition operations; scientific assessment of risks, including risks relating to explosives; quality control; technical measuring and testing; development of measuring and testing methods; conducting of industrial tests and computer-aided scientific testing; analysis and evaluation of product design; evaluation of data processing performance against standards; environmental testing and inspection services (quality audits); architecture; construction and demolition engineering services; drafting construction and demolition plans; urban planning; land surveys; technical advisory services for modeling and managing geometric and topographical data of sites affected by explosives; definition and design of systems for implementing pyrotechnic control systems and pyrotechnically actuated mechanisms; development of computer systems related to the understanding and modeling of operational and action mechanisms of explosive firing; design of scientific and technical methodology covering the entire extractive process during drilling and blasting operations, from the characteristics and geometry of the in-situ rock mass to the result of explosive firing; evaluations, assessments and research in the fields of science and technology provided by engineers; design and development of computers, computer systems, software architectures and computer hardware; design, development, maintenance, updating and rental of software and firmware (software) for electronic blasting and firing systems; programming of software for Internet platforms; developing computer programs for simulating experiments during blasting

and drilling operations; development of software and computer platforms; development and provision of computer platforms as a service (PaaS) and software as a service (SaaS); research and development of new products for third parties; technological research and development relating to the firing of explosives; research and consultancy services relating to computer programs; computer system design and analysis; technical consulting and advice relating to information technology, software, artificial intelligence and the design of software and hardware architectures; digitization of documents; design and IT management of websites and computer systems; providing temporary use of non-downloadable computer programs and artificial intelligence solutions on data networks; research in the field of artificial intelligence; editing, design and development services for computer systems, computer software, Internet applications and artificial intelligence solutions; cartographic, topographical and thermographic measurement-taking services by drone; digital image analysis services; analysis services for data obtained from aerial capture.

FEL-Ω

The mark consists of the capital letters "FEL" next to a dash and a Greek letter uppercase omega.

International priority date claimed: 13 January 2026 (US) (99591658)

Class 35:
Business consulting services in the field of early-stage technology commercialization and providing techno-economic assessments, cost driver analysis, and feasibility evaluations for emerging industrial processes.

Class 36:
Providing capital cost estimates for commercial-scale industrial facilities, namely, Class V cost estimates and associated assumption write-ups.

Class 37:
Consultation in the field of construction.

Class 42:
Consulting in the field of engineering, namely, engineering and scientific analysis services for evaluating emerging industrial processes and assessing technical feasibility, identifying major technical cost drivers, and providing early-stage process development guidance.

INTUIT INTELLIGENCE

International priority date claimed: 27 October 2025 (US) (99464602)

Class 9:
Downloadable artificial intelligence software for enabling interaction and communication between humans and machines, humans and software, humans and other humans, machines and other machines, software and other software, and between and among machines and software applications and operating systems; downloadable computer software for use in providing information and advice using a hybrid of artificial intelligence

and human intelligence; downloadable computer software for generative artificial intelligence and human intelligence applications to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; downloadable computer software for knowledge engineering, namely, software for use in creating rules to apply to data to imitate the thought process of a human expert; downloadable computer chatbot software for simulating conversations; downloadable computer search engine software; downloadable computer software featuring artificial intelligence and human intelligence and machine learning features and capabilities; downloadable computer software featuring artificial intelligence and human intelligence for use in processing physical commands; downloadable computer software featuring artificial intelligence and human intelligence for use in processing voice commands, searching databases, and creating audio, images, textual, and numeric responses to user-specific inquiries; downloadable computer software featuring artificially intelligent bots, virtual agents, virtual assistants, chatbots, and live chat; downloadable computer software for artificial intelligence and human intelligence processing and machine learning to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; downloadable computer software for automated analysis of data and for producing automated insights; downloadable computer software for automated analysis of large datasets to enable decision-making; downloadable computer software for automatically analyzing data to enable reporting, behavioral analysis and trend analysis; downloadable computer software for automatically categorizing data; downloadable computer software for automation of actions on behalf of a user, a machine, an application, or operating system to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; downloadable computer software for automation of business and personal tasks; downloadable computer software for designing and creating computerized virtual agents, virtual assistants, chatbots, and live chat; downloadable computer software for enabling interaction and communication between humans and AI (artificial intelligence); downloadable computer software for enabling multimodal natural language, speech, text, numerical, image, video, and sound data inputs; downloadable computer software for enabling sentiment analysis; downloadable computer software for facilitating interaction and communication between users and artificial intelligence platforms, systems, and applications, including but not limited to chatbots, virtual agents, virtual assistants, and conversational agents, using machine learning; downloadable computer software for multi-modal machine learning-based language, text, speech, images, sound, and numerical calculation data processing; downloadable computer software for producing automated reminders and recommendations; downloadable computer software for use in data management, data analysis, artificial Intelligence, business intelligence, digital virtual agents, chatbots, live chat, predictive systems, machine learning, natural language processing, and deep learning algorithms; downloadable computer software for use in performing predictive data analysis; downloadable computer software for use in performing predictive data analysis, recommendations, personalization, automatic data understanding, automatic rules generation, and automatic software code generation to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; downloadable computer software for use in processing and generating natural language queries; downloadable computer software to match users with virtual agents and live experts in the fields of finance, accounting, payments, project management; downloadable computer software using artificial intelligence and human intelligence for rendering and navigating virtual reality environments; downloadable computer software using artificial intelligence and human intelligence for the production of speech, text, images, sound, and numerical calculations; downloadable computer software using artificial intelligence, artificially intelligent bots, virtual agents and virtual assistants for aggregation, compilation, processing and analysis of data and information in the fields of finance, accounting, payments, project management; downloadable computer software which takes automated actions on behalf of a user, an application, or operating system to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; downloadable computer software for accounting, bookkeeping, financial and business transaction processing management, financial and business transaction management, personal finance, business finance, tax preparation and tax planning, business process management, and financial planning; downloadable computer software for customer relationship management; downloadable computer software for enabling multiple users to screen share and communicate for use in providing business and financial consulting and advice; downloadable computer software for marketing services and marketing automation, namely, supporting and managing the creation, sending, optimizing and targeting of bulk electronic mail, advertising and promotional campaigns and surveys, and for promotion of e-commerce web sites; downloadable computer software for monitoring consumers' credit scores, reports, and alerts; downloadable computer software for providing financial tools and financial advice; downloadable computer software for use in customer relationship management (CRM); downloadable computer software for inventory management, operation management, retail management, enterprise resource planning (ERP); downloadable computer software that enables communication between financial, business and tax professionals and customers; downloadable computer software that enables multiple users to screen share and communicate for use in providing remote tax, business, and financial consulting and advice; downloadable computer software used for multiple-user online communication, real-time collaboration, and document sharing; downloadable computer software for tracking time worked by employees and subcontractors; downloadable computer software for transaction processing, point of sale transactions, invoicing, credit card payment processing, online banking; downloadable computer software for human resource management, payroll services, management of employee benefit plans, insurance plans, health care plans, workers' compensation plans, and retirement plan; downloadable business management computer software for health care practice management; downloadable software for artificial intelligence processing and machine learning; downloadable application programming interface (API) software featuring artificial intelligence and human intelligence and machine learning features and capabilities; downloadable computer software tools for software development.

Class 35:
Accounting and bookkeeping services; advertising, promotion, and marketing services in the nature of email campaigns for

others; business consulting services; business information and accounting advisory services; business invoicing services; business management services, namely, providing human resource department services for others featuring payroll preparation, payroll tax calculation, payroll tax filing, and employee benefit planning; business intermediary services relating to the matching of various live and virtual professionals with clients, namely, assisting users to find and engage with virtual agents and live experts in the fields of finance, accounting, payments, and project management; business consultation and advisory services in the field of taxes, namely, tax calculation, tax planning, tax return preparation, tax refund, tax management, preparation of tax forms, and tax return filing; consultation, advisory, and assessment services with regard to accounting and taxes, namely, accounting consultation, accounting advisory services, advice and consultancy relating to tax preparation, tax filing services, and tax auditing services; electronic tax filing services; monitoring of consumers' credit reports for business purposes; online business and personnel management services; business intermediary services in the nature of provision of an online marketplace to connect users with virtual agents and live experts in the fields of finance, accounting, payments and project management; providing business advice and business information relating to finance, accounting, tax planning, tax filing, business invoicing, marketing, loans, and credit monitoring; providing human resource department services for others and employee benefit planning; providing business information concerning accounting, taxes, tax calculation, tax planning, tax return preparation, tax refunds, tax management, preparation of tax forms, and tax returns filing; consultation and advisory services in the field of taxes; electronic bill presentment for others, namely, billing services.

Class 36:
Financial services; financial consultation, advisory, analysis, and assistance services with regard to taxes and financial management; financial administration of employee benefits for others; electronic banking and bill payment services; electronic bill presentment for others; electronic financial transaction services, namely, budget planning in the nature of income and expense transaction tracking; electronic fund transfer services; finance information services; provision of financial information relating to financial matters, insurance, banking, investments, shares, credit card services, and tax; financial consultation and advisory services in the field of tax refunds and tax management; employee benefit planning, namely, financial planning in the field of employee benefits.

Class 42:
Providing online non-downloadable artificial intelligence software for enabling interaction and communication between humans and machines, humans and software, humans and other humans, machines and other machines, software and other software, and between and among machines and software applications and operating systems; providing online non-downloadable computer software for creating searchable databases of information and data for use in providing information and advice using a hybrid of artificial intelligence and human intelligence; providing online non-downloadable computer software for generative artificial intelligence and human intelligence applications to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; providing online non-downloadable computer software for generative artificial intelligence applications to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; providing online non-downloadable computer software for knowledge engineering, namely, software for use in creating rules to apply to data to imitate the thought process of a human expert; providing online non-downloadable computer chatbot software for simulating conversations; providing online non-downloadable computer search engine software; providing online non-downloadable computer software featuring artificial intelligence and human intelligence and machine learning features and capabilities; providing online non-downloadable computer software featuring artificial intelligence and human intelligence for use in processing physical commands; providing online non-downloadable computer software featuring artificial intelligence and human intelligence for use in processing voice commands, searching databases and creating audio, images, textual and numeric responses to user-specific inquiries; providing online non-downloadable computer software featuring artificially intelligent bots, virtual agents, virtual assistants, chatbots for simulating natural conversation for use during live chat with humans; providing online non-downloadable computer software for artificial intelligence and human intelligence processing and machine learning to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; providing online non-downloadable computer software for automated analysis of data and for producing automated insights; providing online non-downloadable computer software for automated analysis of large datasets to enable decision-making; providing online non-downloadable computer software for automatically analyzing data to enable reporting, behavioral analysis and trend analysis; providing online non-downloadable computer software for automatically categorizing data; providing online non-downloadable computer software for automation of actions on behalf of a user, a machine, an application, or operating system to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; providing online non-downloadable computer software for automation of business and personal tasks; providing online non-downloadable computer software for designing and creating computerized virtual agents, virtual assistants, chatbots, and live chat virtual agents; providing online non-downloadable computer software for enabling interaction and communication between humans and AI (artificial intelligence); providing online non-downloadable computer software for enabling multi-modal natural language, speech, text, numerical, image, video, and sound data input; providing online non-downloadable computer software for enabling sentiment analysis; providing online non-downloadable computer software for facilitating interaction and communication between users and artificial intelligence platforms, systems, and applications, through simulating natural conversation, for use with chatbots, virtual agents, virtual assistants, and conversational agents, using machine learning; providing online non-downloadable computer software for multi-modal machine learning-based language, text, speech, images, sound, and numerical calculation data processing; providing online non-downloadable computer software for producing automated reminders and recommendations; providing online non-downloadable computer software for use in data management, data analysis, artificial Intelligence for database management, business intelligence for database

management, simulating natural conversation with digital virtual agents, chatbots for simulating conversation, live chat natural conversation simulation, predictive systems in the nature of using machine learning for developing predictive models, natural language processing, and developing, creating, analyzing and running deep learning quantum algorithms; providing online non-downloadable computer software for use in performing predictive data analysis; providing online non-downloadable computer software for use in performing predictive data analysis, recommendations, personalization, automatic data understanding, automatic rules generation, and automatic software code generation to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; providing online non-downloadable computer software for use in processing and generating natural language queries; providing online non-downloadable computer software to match users with virtual agents and live experts in the fields of finance, accounting, and taxes; providing online non-downloadable computer software using artificial intelligence and human intelligence for rendering and navigating virtual reality environments; providing online non-downloadable computer software using artificial intelligence and human intelligence for the production of speech, text, images, sound, and numerical calculation data processing; providing online non-downloadable computer software using artificial intelligence, artificially intelligent bots, virtual agents and virtual assistants for aggregation, compilation, processing and analysis of data and information in the fields of finance, accounting, payments, project management; providing online non-downloadable computer software which takes automated actions on behalf of a user, an application, or operating system to allow users to optimize management of accounting, financial planning, marketing, business, and tax preparation; providing online non-downloadable computer software for accounting, bookkeeping, tax preparation, planning, and filing, project management, business process management, financial planning and management, personal and business finance, financial transaction processing and management; providing online non-downloadable computer software for creating, customizing, and managing of invoices, recording payments, and issuing receipts; providing online non-downloadable computer software for credit card invoicing and credit card payment processing, credit card transaction processing, and point of sale transactions processing; providing online non-downloadable computer software for customer relationship management; providing online non-downloadable software for inventory management, operation management, retail inventory management, enterprise resource planning (ERP); providing online non-downloadable computer software for enabling multiple users to screen share and communicate for use in providing business and financial consulting and advice; providing online non-downloadable computer software for online bill payments; providing online non-downloadable computer software for providing financial tools, namely, for producing financial models and financial advice, namely, database management software for use by financial advisors; providing online non-downloadable computer software for providing online banking and managing online bank accounts; providing online non-downloadable computer software for use in organizing, servicing, tracking, and creating reports of sales, expenses, invoices, payments, collections, accounts payable, and receivables data; providing online non-downloadable computer software that enables communication between financial, business and tax professionals and customers; providing online non-downloadable computer software that enables multiple users to screen share and communicate for use in providing assistance with regard to finance, accounting, and taxes; providing online non-downloadable computer software for marketing services, namely, supporting in the nature of database management and managing the creation, sending, optimizing and targeting of bulk electronic mail, advertising and promotional campaigns and surveys, and for promotion of e-commerce web sites through the creation and distribution of bulk electronic mail; electronic credit monitoring, namely, electronic monitoring of credit card activity to detect fraud via the internet; providing online non-downloadable computer software for monitoring consumers' credit scores, creating credit score reports, and sending email alerts to consumers; providing online non-downloadable computer software used for multiple user online communication, real-time collaboration, and document sharing; providing online non-downloadable software for tracking time worked by employees and subcontractors; providing online, non-downloadable computer software for human resource data management, payroll services in the nature of payroll processing management of employee benefits, insurance plans, workers' compensation plans, and retirement plans; providing temporary use of online, non-downloadable business management computer software for health care practice management; providing online non-downloadable software for artificial intelligence processing and machine learning; application service provider (ASP) featuring application programming interface (API) software featuring artificial intelligence and human intelligence and machine learning features and capabilities; providing online non-downloadable computer software tools for software development; new product research, design, and development in the field of artificial intelligence and artificial intelligence software.

Intuit Inc.

Representative: Connie L. Ellerbach Fenwick & West LLP Silicon Valley Center, 801 California Street Mountain View CA 94041 UNITED STATES OF AMERICA

WO0000001938517(9, 41, 42)
Office of Origin: CH

Date of International Registration: 15 June 2026
Date of Designation in the UK: 15 June 2026

International priority date claimed: 13 May 2026 (CH) (848709)

Class 9:
Application for smartphones and for mobile telephones; software application for computers; downloadable software applications; measuring apparatus and instruments; barometers; thermometers, not for medical use; hygrometers; liquid

crystal displays (LCD); apparatus for recording, transmission and/or reproduction of sounds and/or images; mobile telecommunication handsets.

Class 41:
Organization of sports competitions; teaching; providing training; entertainment services; publication of periodicals and books in electronic form.

Class 42:
Software as a Service (SaaS); computer Platform as a Service (PaaS); cloud computing; development of computer programs; hosting of Web sites on the Internet.

Maria Letizia Arrighi

WO0000001938641(1, 3, 5, 35, 42, 44)
Office of Origin: EM

Date of International Registration: 12 March 2026
Date of Designation in the UK: 12 March 2026

TRIXIA

International priority date claimed: 16 September 2025 (EM) (019247082)

Class 1:
Chemical substances for use in industry, as well as in agriculture, horticulture and forestry; compost, manures, fertilizers; biological preparations for industry and science; biofertilizers; nitrogenous biofertilizers; biochar (charcoal); biostimulants for plants; non-chemical biofertilizers; biostimulants for plants; biological activators; biostimulants being plant hormones; biological additives for converting crops into green manure; biological additives for converting vegetation into agricultural feeds; biostimulants for plant growth stimulation; biological additives for converting vegetation into silage feed; biostimulants which are prepared for plant nutrition; biofertilizers for use in seed treatment; biofertilizers for use in soil treatment; genes formed by biotechnological methods for use in the manufacture of seeds for agriculture; ammonia for industrial use; microorganisms for agricultural purposes; bacteria for agricultural purposes; inoculants for seeds; preparations of micronutrients for plants; preparations of trace elements for agricultural purposes; silicon preparations for improving resistance of plants; seed preserving substances [chemical].

Class 3:
Cleaning and washing preparations having disinfectant properties for agricultural and industrial use; detergents for use in agriculture; detergents for agricultural machinery; cleaning products for equipment for irrigation and storage of fertilizers; cleaning preparations for floors, surfaces and greenhouse equipment; preparations for cleaning agricultural seeds and agricultural products; agricultural cleaning preparations; preparations for cleaning agricultural machinery.

Class 5:
Disinfectants; vermin destroying preparations; fungicides, herbicides; biocides; biological fungicides; biological herbicides; biopesticides for agriculture; biopesticides for domestic use; insecticidal preparations for agricultural use; preparations for agricultural pest control; nematicides for agricultural use; acaricides for agricultural purposes; antiviral preparations for plants; preparations for the disinfection of greenhouse surfaces (not for medical purposes); disinfectants for non-medical use in agricultural facilities.

Class 35:
Retail and wholesale services for chemical products for industry, as well as for agriculture, horticulture and forestry; retail and wholesale services for compost, manures, fertilizers; retail and wholesale services for biological preparations for industry and science; retail and wholesale services for biofertilizers; retail and wholesale services for nitrogenous biofertilizers; retail and wholesale services for biochar (charcoal); retail and wholesale services for biostimulants for plants; retail and wholesale services for non-chemical biofertilizers; retail and wholesale services for biostimulants for plants; retail and wholesale services for biological activators; retail and wholesale services for biostimulators which are plant hormones; retail and wholesale services for biological additives for converting crops into green manure; retail and wholesale services for biological additives for converting vegetation into agricultural feeds; retail and wholesale services for biostimulants for plant growth stimulation; retail and wholesale services for biological additives for converting vegetation into silage fodder; retail and wholesale services for biostimulants which are prepared for plant nutrition; retail and wholesale services for biofertilizers for use in seed treatment; retail and wholesale services for biofertilizers for use in soil treatment; retail and wholesale services for genes formed by biotechnological methods for use in the manufacture of seeds for agriculture; retail and wholesale services for microorganisms for agricultural purposes; retail and wholesale services for bacteria for agricultural use; retail and wholesale services for inoculants for seeds; retail and wholesale services for preparations of micronutrients for plants; retail and wholesale services for preparations of trace elements for agricultural purposes; retail and wholesale services for silicon preparations for plants; retail and wholesale services for preparations for cleaning agricultural use; retail and wholesale services for insecticidal preparations for agricultural use; retail and wholesale services for agricultural pest control preparations; retail and wholesale services for nematicides, acaricides and antivirals for plants; retail and wholesale services for disinfectants; retail and wholesale services for products for destroying vermin; retail and wholesale services for fungicides, herbicides; retail and wholesale services for biocides; retail and wholesale services for biological fungicides; retail and wholesale services for biological herbicides; retail and wholesale services for biopesticides for agriculture; retail and wholesale services for biopesticides for domestic use.

Class 42:
Consultancy in the field of environmental protection; environmental tests; consulting services in the field of environmental protection; collection of environmental information by scientific research; environmental monitoring services; environmental assessment services; environmental risk assessment; technical consultancy

relating to environmental engineering; technical consultancy in environmental sciences; consultancy services relating to environmental planning; consultancy with respect to environmental protection; research relating to environmental conservation; environmental monitoring of areas for waste storage; environmental monitoring of waste treatment areas; research in the field of environmental protection; collection of information relating to environmental conditions by scientific research; environmental testing services for detecting pollutants in water; engineering services in the field of environmental technology; consultancy services regarding research in the field of environmental protection; agricultural biotechnology research services; research services in the field of biofertilizers and biostimulants; soil analysis services for agricultural purposes; crop analysis services to optimize fertilization.

Class 44:
Agriculture, aquaculture, horticulture and forestry services; sustainable agriculture advisory services; crop fertilization advisory services; advisory services relating to agricultural pest control; agricultural advisory services relating to cultivation practices, sowing, harvesting, efficient irrigation, sustainable use of water, environmental conservation, soil management and crop productivity.

Siebertstr. 3 81675 München GERMANY

WO0000001938650(3, 14, 16, 18, 25, 28)
Office of Origin: MA

Date of International Registration: 25 March 2026
Date of Designation in the UK: 25 March 2026

International priority date claimed: 26 February 2026 (MA) (298584)

Class 3:
Perfumes; perfumery products; cosmetic preparations for baths; bath salts not for medical use; incense sticks; beauty masks; hair lotions; hair colorants; hair-waving preparations; hair dyes; cosmetics for eyelashes; depilatory wax; cosmetics; cosmetic creams; make-up removing products; dentifrices; dental bleaching gels; depilatories; deodorants for personal use [perfumery]; deodorant soaps; scented waters; eaux de toilette; essential oils; extracts of flowers as essential oils for perfuming; blush; lipstick; products for perfuming linen; lotions for cosmetic use; hair straightening products; after-shave lotions; tissues impregnated with cosmetic lotions; make-up products; mascara; beauty masks; cosmetic kits comprised primarily of mascara, lipsticks, eyebrow pencils, make-up, foundation and lip gloss; nail care products; cosmetic products for skin care; ointments for cosmetic use; false eyelashes; false nails; potpourris [fragrances]; make-up powder; shaving products; cakes of toilet soap; soaps; shampoos; mouth care products not for medical use; eyebrow pencils; eyebrow cosmetics; talcum powder for toiletry use; cleansing milk for toilet purposes; toiletry oils; toiletries; nail polish.

Class 14:
Precious metals and their alloys; amulets [jewelry]; works of art of precious metal; jewelry articles; jewelry cases; boxes of precious metal; earrings; cuff links; bracelets [jewelry]; watch bands; charms; brooches [jewelry]; chains [jewelry]; chronometric instruments; key rings [trinkets or fobs]; necklaces [jewelry]; tie pins; presentation cases for jewelry; figurines [statuettes] of precious metal; clocks; jewelry ("joaillerie"); watches; ornaments [jewelry]; statues of precious metal; statuettes of precious metal; precious stones; semi-precious stones; gemstones; pearls [jewelry].

Class 16:
Printing products (printed matter); publications; newspapers; books; handbooks [manuals]; posters ("affiches"); advertisement boards of paper or cardboard; albums; almanacs; cigar bands; aquarelles; hand-rests for painters; slate pencils; modeling clay; molds for modeling clays [artists' materials]; writing slates; drawer liners of paper, perfumed or not; engravings (works of art); lithographic works of art; drawing pads; pads [stationery]; wood pulp board [stationery]; boxes of cardboard or paper; bottle envelopes of cardboard or paper; bottle packaging of cardboard or paper; embroidery patterns; paintbrushes; office requisites except furniture; flower-pot covers of paper; sealing wax; calendars; writing or drawing books; notebooks; cards; catalogs; cardboard hat boxes; folders for papers; painters' easels; cabinets for stationery; office requisites; patterns for making clothes; letter trays; chalk holders; chalk for lithography; tailors' chalk; pencils; electric or non-electric pencil sharpening machines; pastels [crayons]; drawing materials; drawing instruments; drawings; nibs; writing cases [inkstands] [term considered too vague by the International Bureau pursuant to Rule 13[2][b] of the Regulations]; writing instruments; inks; inkwells; drawing squares; fabrics for bookbinding; stencil cases; figurines [statuettes] of papier mâché; charcoal pencils; watercolor saucers for artists; engravings; pictures; writing paper; bookmarks; bookends; modeling materials; palettes for painters; canvas for painting; framed or unframed paintings [pictures]; photographs; photoengravings; drawing boards; pen cases; stencil plates; postcards; bookbinding material; stamp pads; place mats of paper; pens.

Class 18:
Raw leather, semi-finished leather and imitation leather; animal skins and imitation animal skins; furs (animal skins); hat boxes of leather; boxes of leather or leatherboard; walking sticks; key cases of imitation leather; key cases made of leather; document cases; trunks [luggage]; attaché cases; sunshades; umbrellas; traveling sets (leatherware); handbags; shoulder bags; travel bags; reusable shopping bags; luggage; wallets; coin purses, other than of precious metal; purses; card cases (wallets); briefcases (leather goods); vanity cases (not fitted), school bags; school satchels; gym bags; beach bags; sports bags;

belt bags; wheeled bags; bags for climbers; bags for campers; all-purpose carrying bags with handles; traveling satchels; suitcases; luggage tags; backpacks; clutch bags; bags made of leather for packaging or small bags (envelopes, pouches) made of leather for packaging; net bags for shopping; empty boxes for toiletries; toiletry cases sold empty; empty bags for cosmetic products; make-up bags sold empty; traveling sets, namely, sets of matching luggage for travel; straps of leather for key rings; leather and artificial leather cases; cases for credit cards (wallets); credit card cases of leather; business card cases of imitation leather; business card cases; parasols; harness for animals; whips; saddlery articles; collars for animals; clothing for pets; leashes for animals; leather leashes for animals; tissue boxes made of leather; boxes made of leather.

Class 25:
Clothing; headwear; articles of clothing (garments); bathing suits; bathrobes; headbands [clothing]; caps; belts [clothing]; dressing gowns (robes); hats; scarves, socks; slippers ("chaussons"); footwear; shirts; lingerie [underwear]; corsets; suits; neckties; underclothing; long scarves; scarves; furs [clothing]; girdles [underwear]; gloves [clothing]; vests; gaiters; brassieres; panties; skirts; petticoats; garters; stocking suspenders; coats; trousers; dressing gowns; pullovers; dresses; pajamas; tee-shirts; jackets.

Class 28:
Games; toys; ornaments for Christmas trees, except illumination articles and confectionery; balls for games; balls for games; rocking horses; bodyboards; carnival masks; playing cards; kites; checkers [games]; chess games; marbles for games; table-top games; toys for pets; kaleidoscopes; dolls' beds; dolls' houses; puppets; theatrical masks; plush toys; roller skates; ice skates; paragliders; skateboards; sailboards; dolls; dolls' clothes; jigsaw puzzles; elbow guards [sports articles]; knee guards [sports articles]; golf bags with or without wheels; cricket bags; skis; parlor games; spinning tops [toys]; scooters.

AMERIA

Class 9:
Electronic devices for gesture control, the 3D detection and visualisation of objects and people, the tracking of objects and people; sensors relating to gesture control, the 3D detection of objects and people, the tracking of objects and people; computers relating to gesture control, the 3D detection of objects and people, the tracking of objects and people, AI systems; laptop and notebook computers relating to gesture control, the 3D detection of objects and people, the tracking of objects and people, AI systems; monitors or displays relating to gesture control and 3D visualisation; radar/IR/LiDAR sensors; FPGA boards relating to gesture control, the 3D detection of objects and people, the tracking of objects and people, AI systems; sensor fusion electronics; multisensory detection systems relating to gesture control, the 3D detection of objects and people, the tracking of objects and people; RGB/IR cameras relating to gesture control, the 3D detection of objects

and people, the tracking of objects and people; software/apps being an AI-based assistant; computer software for capturing, processing, transmitting and compiling images, in particular depth images in relation to gesture control, the 3D detection and visualisation of objects and people, the tracking of objects and people; software/apps relating to gesture control, the 3D detection of objects and people, the tracking of objects and people, 3D visualisation, in particular for marketing purposes, voice control, touchscreen control; AI software for analysing sensor data; AI software for image analysis; AI software relating to gesture control, the 3D detection of objects and people, the tracking of objects and people, 3D visualisation, voice control, touchscreen control; AI models; video projectors relating to gesture control; housings for video projectors and for computers relating to gesture control; computer software and hardware systems for gesture control, in particular in the form of an external accessory for displays, in particular 3D displays; camera modules for gesture control, in particular infrared (IR) stereo cameras being external systems for fixing to a screen, in particular 3D screens; software for gesture control by means of external components, in particular in the form of an app; computers for flight regulation and flight control; computers for recording, processing and controlling real-time and sensor data for flight control and flight management; software and software tools and generators for the creation of flight control-related applications; sensors relating to flight control and flight management.

Class 35:
Advertising, marketing and promotional services using 3D visualisation and gesture control; computerised business promotion using 3D visualisation and gesture control; compilation, systemization and input of information into computer databases relating to gesture control, the 3D detection and visualization of objects and people, the tracking of objects and people; database marketing services relating to gesture control, the 3D detection and visualization of objects and people, the tracking of objects and people; updating and maintenance of data in computer databases relating to gesture control, the 3D detection and visualization of objects and people, the tracking of objects and people; data processing relating to gesture control, the 3D detection and visualization of objects and people, the tracking of objects and people; provision of commercial information from online databases relating to gesture control, the 3D detection and visualization of objects and people, the tracking of objects and people.

Class 42:
IT services, namely software development, programming and implementation, in particular relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis, in particular sensor data; rental of computer software, in particular relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; rental of computer hardware and rental of computer hardware systems, in particular in relation to gesture control and 3D visualisation; design, development and documentation of hardware and software for military and civil missile systems and guided missile systems; installation and maintenance of database software relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; updating of software databases relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; eletronic storage services for archiving databases relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; creation, further development and maintenance (improving and updating) of computer programs, program systems, program libraries and databases, and the rental or transfer thereof, in the form of special contractual relationships (licence-based transfer), relating to gesture control, 3D visualisation, AI models, autonomous targeting, tracking of objects, system integration, sensor fusion, real-time data analysis; application support and deployment planning for computer solutions relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; development, hosting, administration and maintenance of online database products relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; system integration relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; cloud computing relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; installation and maintenance of computer software, custom software adaptation relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion,real-time data analysis; design, consultancy and updating of computer software in relation to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; computer software technical support relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; server administration relating to gesture control, 3D visualisation, AI models, autonomous target acquisition, object tracking, system integration, sensor fusion, real-time data analysis; graphic design in relation to gesture control and 3D visualisation.

Class 7:
Agricultural machines; aerating pumps for aquaria; disintegrators; milking machines; hair cutting machines for animals; electric salt mills; mechanized horse walkers; woodworking machines; papermaking machines; machines for the manufacture of paper diapers; printing machines; spinning machines; dyeing machines; tea processing machines; mills (machines); brewing machines; cigarette machines for industrial purposes; leather-working machines; ironing machines; machines for the bicycle industry; machines for the ceramic industry; portable laser engraving machines; battery manufacturing machinery; cord making machines; chopstick making machines; dual-purpose peeling and shelling machines; pen making machines; candle making machines; straw mat weaving machines; enamel making machines; light bulb making machines; wrapping machines; briquette making machines; kitchen machines, electric; washing machines (laundry); centrifugal mills; machines for processing plastics; machinery for glass manufacture (including domestic glassware fabrication); fertilizer manufacturing machines; electromechanical machines for chemical industry; machinery for geologic exploration, mining and ore concentration; machines for geological, mining and ore exploration; rolling mills; oil refining machines; shovels, mechanical; jacks (machines); metalworking machines; metal forming machines; steam engines, not for land vehicles; sparking plugs for automotive engines; radiators (cooling) for automobile engines; compressed air engines; cylinders for machines; pistons (parts of machines or engines); belts for motors and engines; mufflers for automobile engines; air filters for automobile engines; wind power installations; thumbtack manufacturing machines; zipper making machines; industrial robots; electric wire and cable manufacturing machines; glue guns, electric; machines for the electronics industry; spectacle glasses processing machines; gas separating installations; spray guns for paint; alternators; starters for motors and engines; oil pumps for automobiles; hydraulic controls for machines, motors and engines; turbochargers for motors; hydraulic cylinders (parts of machines); control mechanisms for machines, engines or motors; flywheels for automobile engines; clutches for machines; bearings (parts of machines); belts for machines; welding machines, electric; rechargeable sweepers; sorting machines for industry; drums (parts of machines); labellers (machines); shoe polishers, electric; racket stringing machines; vending machines; 3D printers; robotic exoskeleton suits, other than for medical purposes; 3D bioprinters; ticket vending machines; fluid dispensing machines for industrial use; connector for aviation fuelling vehicles; reservoirs (parts of machines); rice grain sorting machines; brake fluid replacement and filling machines; automatic tire removing and installing devices; automatic clothes folding machines for industrial purposes; ice-resurfacing machines; electroplating machines; axles for machines; turbocompressors; air cylinders (parts of machines); electric scroll gate operator; machines for filtering milk; filtering machines for chemical processing; screening machines; curtain drawing devices, electrically operated; vending machines for scratch cards for playing lottery games.

Class 9:
Computer programs, recorded; computer programs, downloadable; data processing apparatus; central processing units (processors); computer chatbot software for simulating conversation; video display monitors; parking meters; apparatus to check franking; point-of-sale (pos) terminals; mechanisms for coin-operated apparatus; holograms; hemline markers; voting machines; electronic terminals for generating lottery tickets; dictating machines; face identification apparatus; ticket dispensing terminals, electronic; time and date recording apparatus for attendance registration; scales; vehicle dipsticks; vehicle breakdown warning lamps; intercommunication apparatus; navigational instruments; radar apparatus; equipment for network communication; blind spot cameras for cars; head-up display apparatus for vehicles; multimedia projectors; cameras with linear image sensors; azimuth instruments; steering apparatus, automatic, for vehicles; thermostats for vehicles; wheel alignment meters; laboratory robots; electric loss indicators; scanners (apparatus) for performing automotive diagnostics; particle accelerators; lasers, not for medical purposes; probes for scientific purposes; satellites for scientific purposes; diaphragms for scientific apparatus; simulators for the steering and control of vehicles; crash test dummies; nucleonic instruments; optical lenses; electric wire harnesses for automobiles; semiconductors; chips (integrated circuits); transistors; sensors; electronic control units for automobiles; electronic controllers for automobiles; video screens; electronic key fobs being remote control apparatus; optical fibres (light conducting filaments); electric installations for the remote control of industrial operations; lightning conductors; ionization apparatus not for the treatment of air or water; fire extinguishing apparatus; radiology screens for industrial purposes; reflective safety vests; theft prevention installations, electric; biometric locks; spectacles; batteries, electric, for vehicles; animated cartoons; egg-candlers; dog whistles; electronic collars to train animals; animal signalling rattles for directing livestock; decorative magnets; electrified fences; sports whistles; humanoid robots with artificial intelligence for preparing beverages; sunglasses for pets; humanoid robots with artificial intelligence for use in household cleaning and laundry; remote-controlled engine shut-off devices for cars or remote-controlled kill switches for cars; charging stations for electric vehicles; humanoid robots having communication and learning

functions for assisting and entertaining people; car stereos; wheel balancing apparatus.

Class 11:
Light projectors; lights for vehicles; running lights for vehicles; germicidal lamps for purifying air; nail lamps; oil lamps; induction ovens; lava rocks for use in barbecue grills; car refrigerators; ventilation (air-conditioning) installations for vehicles; air purifiers for automobiles; air conditioning installations for vehicles; air conditioners for vehicles; heaters for vehicles; hair dryers; heat pumps; fog machines for theater; fog machines; automatic faucets; watering installations, automatic; toilet bowls; drinking fountains; electrically heated cushions, not for medical purposes; gas lighters; polymerisation installations; personal cooling packs, not for medical purposes; silkworm egg dehydrator.

Class 12:
Electric vehicles; vehicles for locomotion by land, air, water or rail; remote control vehicles, other than toys; automobiles; driverless cars (autonomous cars); self-driving cars; automobile chassis; motors, electric, for land vehicles; automobile seats; head-rests for automobile seats; reversing alarms for vehicles; air springs for vehicle suspension components for cushioning driver's seats and cabs; torsion bars for vehicles; interior trims (parts) for automobiles; shock absorbers for automobiles; self balancing unicycles; pumps for bicycle tyres; pushchairs; sleighs (vehicles); tires for vehicle wheels; repair outfits for inner tubes; unmanned aerial vehicles/drones; head-rests for vehicle seats; vehicle chassis; vehicle seats; undercarriages for vehicles; balance weights for vehicle wheels; braking devices for vehicles; vehicle bumpers; axles for air suspension systems in vehicles; non-skid devices for vehicle tyres; vehicle joysticks; telpher railways (cable cars); boats.

Class 37:
(providing) information relating to repairs; rental of bulldozers; mining extraction; varnishing; heating equipment installation and repair; repair or maintenance of vehicle washing installation; interference suppression in electrical apparatus; installation and maintenance of medical devices; motor vehicle maintenance and repair; charging of electric vehicles; vehicle service stations (refuelling and maintenance); vehicle maintenance; photographic apparatus repair; clock and watch repair; repair of security locks; rustproofing; retreading of tyres; furniture maintenance; leather care, cleaning and repair; disinfecting; elevator installation and repair; burglar alarm installation and repair; shoe maintenance and repair; repair and maintenance of smartphones; drill bit sharpening; pump repair; umbrella repair; artificial snow-making services; restoration of works of art; repair or maintenance of musical instruments; swimming pool cleaning services; rental of drainage pumps; repair of power lines; rental of dishwashing machines; repair of hand tools; jewellery repair services; installation and maintenance of entertainment or sports apparatus; care and repair of skis; repair or maintenance of storage tanks; maintaining septic systems; book restoration services; maintenance and repair of telescopes; repair of toys or dolls; repair of game machines and apparatus; rental of carpet cleaning machines; maintenance of aquariums; repair of fishing tackle; mobile phone repair services; installation of lightning conductors; maintenance and repair of microscopes; repair of sports equipment; repair of wireless earphones; beer keg cleaning services; repair of billiard equipment; repair of suitcases; window blind installation and repair; installation of cables for Internet access; installation, maintenance and repair of card readers; refilling of gas cylinders used for making carbonated beverages; restoration of printed photographs; repair of curtains; repair of orthodontic appliances; rental of battery chargers.

Class 38:
Television broadcasting; message sending; teleconferencing services; communications by computer terminals; computer aided transmission of messages and images; providing online forums; streaming of data; radio communications; geolocation services (telecommunications services); providing chatrooms in virtual environments; providing online virtual reality-based forums for work collaboration; providing access to databases; providing user access to a global computer network; providing Internet chatrooms.

Class 39:
Piloting; packaging of goods; rental of navigational systems; vehicle breakdown towing services; yacht and boat charter services; marine transport; car transport; rental of photography drones; car sharing services; vehicle driving services; carting; storage of goods; rental of diving suits; distribution of renewable energy; operating canal locks; courier services (messages or merchandise); providing driving directions for travel purposes; transport by pipeline; rental of wheelchairs; launching of satellites for others; bottling services; rental of baby strollers; rental of wheelbarrows; rental of go-karts.

Class 42:
Research in the field of artificial intelligence; research in the field of self-driving car technology; quality assessment; surveying (engineering); chemical research and analysis; biological research; providing weather information; vehicle roadworthiness testing; automotive design; construction drafting; dress designing; software as a service (SaaS); platform as a service (PaaS); cloud computing; providing online non-downloadable computer software; computer programming; computer software design; providing virtual computer systems through cloud computing; updating of computer software; authenticating works of art; graphic arts design; cloud seeding; handwriting analysis (graphology); cartography services; rental of meters for the recording of energy consumption; testing and analysis of goods being imported or exported for quarantine clearance purposes; rental of telescopes; weighing goods for others; set design for theatrical enterprises; design of artwork; animation design for others; design of brand names; design of customized books; radon detecting; rental of scientific microscopes; authenticating banknotes; graphic design of advertising materials; fridge magnet sticker design; graphic arts design; truck weighing services; design of logos for corporate identity.

Class 7:
Joints [parts of engines]; sealing joints [parts of machines]; sealing sleeves [parts of engines, motors or machines]; shape memory sealing sleeves [parts of engines, motors or machines]; radial shaft sealing rings [parts of engines, motors or machines]; spring-energized U-rings [parts of engines, motors or machines]; piston segments [parts of engines, motors or machines]; piston rings for heat pumps; scroll seals [parts of engines, motors or machines]; guide rings [parts of engines, motors or machines]; laminated pistons [parts of engines, motors or machines]; membranes [parts of engines, motors or machines]; bellows [parts of machines]; slide bearings; flexible hoses [parts of engines, motors or machines]; profiles [parts of engines, motors or machines]; heat shrink tubes [parts of engines, motors or machines]; roller coverings [parts of engines, motors or machines]; heat exchangers [parts of engines, motors or machines]; discharge rings [parts of engines, motors or machines]; structural parts of and accessories for the aforementioned goods.

Class 9:
Gasket and seals as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; gasket and seals as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; gaskets and seals as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; membranes as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; membranes as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; membranes as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; bellows as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; bellows as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; bellows as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; slide bearings as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; slide bearings as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; slide bearings as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; flexible hoses as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; flexibles hoses as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; flexible hoses as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; profiles as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; profiles as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; profiles as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; heat shrink tubes as parts

of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; heat shrink tubes as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; heat shrink tubes as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; roller coverings as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; roller coverings as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; roller coverings as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; discharge rings as parts of scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; discharge rings as parts of apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; discharge rings as parts of apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; structural parts of and accessories for the aforementioned goods.

Class 10:
Gaskets and seals as parts of surgical, medical, dental and veterinary apparatus and instruments; membranes as parts of surgical, medical, dental and veterinary apparatus and instruments; bellows as parts of surgical, medical, dental and veterinary apparatus and instruments; trochars as parts of surgical, medical, dental and veterinary apparatus and instruments; slide bearings as parts of surgical, medical, dental and veterinary apparatus and instruments; flexible hoses as parts of surgical, medical, dental and veterinary apparatus and instruments; profiles as parts of surgical, medical, dental and veterinary apparatus and instruments; heat shrink tubes as parts of surgical, medical, dental and veterinary apparatus and instruments; roller coverings as parts of surgical, medical, dental and veterinary apparatus and instruments; discharge rings as parts of surgical, medical, dental and veterinary apparatus and instruments; structural parts of and accessories for the aforementioned goods.

Class 11:
Gaskets and seals as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; membranes as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; bellows as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; slide bearings as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; flexible hoses as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; profiles as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; heat shrink tubes as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; roller coverings as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; discharge rings as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; warmers [not for medical use]; immersion bath warmers [not for medical use] as parts of apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; heat exchangers, other than parts of machines; structural parts of and accessories for the aforementioned goods.

Class 12:
Gaskets and seals as parts of vehicles; gaskets and seals as parts of apparatus for locomotion by land, air or water; membranes as parts of vehicles; membranes as parts of apparatus for locomotion by land, air or water; bellows as parts of vehicles; bellows as parts of apparatus for locomotion by land, air or water; slide bearings as parts of vehicles; slide bearings as parts of apparatus for locomotion by land, air or water; flexible hoses as parts of vehicles; flexible hoses as parts of apparatus for locomotion by land, air or water; profiles as parts of vehicles; profiles as parts of apparatus for locomotion by land, air or water; heat shrink tubes as parts of vehicles; heat shrink tubes as parts of apparatus for locomotion by land, air or water; roller coverings as parts of vehicles; roller coverings as parts of apparatus for locomotion by land, air or water; discharge rings as parts of vehicles; discharge rings as parts of apparatus for locomotion by land, air or water; structural parts of and accessories for the aforementioned goods.

Class 17:
Seals and gaskets; fluid-tight rings; weatherstripping sealants in the nature of caulk; caulking materials; draught excluder strips; duct tapes; non-metallic seals [not stamps]; expansion joint fillers; gaskets for automotive use; packing, stopping and insulating materials; non-metallic sealing membranes; gaskets for commercial vehicles; gaskets in the form of sheets; sealing membranes; insulations with sealing functions for heat protection; sealing agents for use in the construction industry; non-metallic insulated pipes; flexible hoses, not of metal; pipes made of plastic for motor vehicles; extruded plastics in the form of tubes for use in manufacture; fittings, not of metal, for flexible pipes; junctions, not of metal, for flexible pipes; flexible pipes, not of metal, flexible tubes, not of metal, and flexible hoses, not of metal; plastics in the form of sheets, films, blocks, rods and tubes; flexible pipes, tubes, hoses, and fittings therefor, including valves, non-metallic; extruded plastic in the form of bars, blocks, pellets, rods, sheets and tubes for use in manufacturing; plastic materials in the form of profiles [semi-finished products]; semi-worked plastic substances; flexible pipes, not of metal; shrink tubing, not of metal; roll coverings [semi-finished products] of plastic; non-metal engine gaskets for vehicles.

Class 1:
Industrial chemicals; chemicals used in science; chemical preparations for use in photography; chemicals for use in agriculture; chemicals used in horticulture; chemicals used in forestry; synthetic resins, unprocessed; unprocessed plastics; fire extinguishing compositions; fire prevention compositions; tempering preparations; soldering preparations; tanning compositions for animal skins; adhesives for use in industry; putties and other paste fillers; compost; fertilizing preparations; fertilizers; biological preparations for use in industry and science; plastics in the form of powders, granules, pellets, chips and agglomerates; the aforementioned materials with the addition of cork and/or tree bark; the aforementioned materials for making chemical compounds and composites, in particular in combination with bitumen, rubber, carbon or plastics, namely thermosetting plastics, thermoplastics and elastomers, powders, fine powders, fibres, shavings and chippings for industrial purposes made of ligno-cellulosic material, in particular cellulose, wood, cork and annual plants.

Class 4:
Automotive engine oils; industrial grease; wax; lubricants; dust absorbing compositions; dust wetting compositions; dust controlling compositions; fuel; lighting fuel; candles for lighting; wicks for candles.

Class 6:
Common metals and their alloys; ores of metal; materials of metal for building and construction; buildings, transportable, of metal; non-electric cables and wires of common metal; metal hardware; storage containers of metal; containers of metal for transport; safes; cast iron, in particular ferritic cast iron, in particular ductile iron, in particular with a high nickel content; cast iron containing spheroidal graphite, in particular with graphite spheres embedded in a ferritic structure; cast iron, in particular austenitic cast iron, in particular ductile iron, in particular with a high nickel content; cast iron containing spheroidal graphite, in particular with graphite spheres embedded in an austenitic structure; cast iron with a single-phase or multiple-phase matrix structure, in particular with a single-phase matrix structure formed from austenitic cast iron; ductile cast iron; solid cast iron materials; unbreakable cast materials; cast iron for heat applications; cast iron manufactured in an electric induction furnace; cast iron, unwrought or semi-wrought; engine casings of metal, in particular cast iron; machine foundations, namely press machine foundations of metal, in particular cast iron; materials of metal for building and construction; buildings, transportable, of metal; materials of metal for building, in particular cast iron for building; structural parts, such as bridges and parts of bridges; building materials of metal, in particular cast iron material for railway tracks, cast iron material for bridges; cast iron pipes; swage blocks; common metals, unwrought or semi-wrought; metal hardware; containers of metal, in particular cast iron, for storage, in particular for long-term storage; containers of metal, in particular cast iron, for transport;

vaults and safes of metal, in particular cast iron; strongrooms; railway sleepers of metal, in particular cast iron; bridges [constructions] and their structural parts, such as bridge railings, bridge posts, bridge bearings, in particular railway bridges and their structural parts of metal, in particular of cast iron; temporary bridges of metal, in particular cast iron; building and construction materials and elements of metal; structures and transportable buildings of metal; containers of metal for storage, transport and packaging; branching pipes of metal; gutter pipes of metal; jets of metal; acoustic panels of metal; reinforcing materials of metal for building; anchors; mooring buoys of metal; anchor plates; mooring bollards of metal; cladding of metal for building; ingots of common metal; building materials of metal; buildings of metal; tanks of metal; containers of metal for compressed gas or liquid air; containers of metal for the interim and final storage of radioactive materials; closures of metal for containers; shuttering of metal for concrete; metals in foil or powder form for 3d printers; cermets; containers of metal [storage, transport]; turnstiles of metal; turntables [railways]; penstock pipes of metal; nozzles of metal; railway sleepers of metal; railway points; check rails of metal for railways; casks of metal; refractory construction materials of metal; flanges of metal [collars]; handling pallets of metal; hoppers of metal, non-mechanical; armoured doors of metal; scaffolding of metal; framework of metal for building; foundry moulds of metal; latticework of metal; chimney pots of metal; chimney cowls of metal; fireplace grates of metal; fireplace mantles of metal; boxes of common metal; chests of metal; metal hardware; chill-moulds [foundry]; duckboards of metal; alloys of common metal; crash barriers of metal for roads; ducts of metal for ventilating and air-conditioning installations; reinforcing materials of metal for pipes; masts of metal; wall claddings of metal for building; reinforcing materials, of metal, for concrete; frames of metal for building; fittings of metal for furniture; collecting trays of metal; materials of metal for funicular railway permanent ways; armour-plating of metal; pyrophoric metals; common metals, unwrought or semi-wrought; cast iron, unwrought or semi-wrought; steel, unwrought or semi-wrought; lead, unwrought or semi-wrought; iron, unwrought or semi-wrought; copper, unwrought or semi-wrought; brass, unwrought or semi-wrought; tubes of metal; elbows of metal for pipes; pipework of metal; pipe muffs of metal; clips of metal for pipes; junctions of metal for pipes; safes [metal or non-metal]; pillars of metal for building; containers of metal for storing acids; tubbing of metal; manhole covers of metal; rails of metal; railway material of metal; fish plates [rails]; chimney cowls of metal; chimney pots of metal; chimney shafts of metal; screws of metal; nuts of metal; sills of metal; steel sheets; cast steel; steel buildings; steel alloys; steel masts; steel tubes; steel tubes; props of metal; beams of metal; buildings, transportable, of metal; partitions of metal; doors of metal; staircases of metal; valves of metal, other than parts of machines; manifolds of metal for pipelines; chimneys of metal; platforms, prefabricated, of metal; angle irons of metal; brackets of metal for building; brackets of metal for furniture; pot hooks of metal; ducts of metal, for central heating installations; building materials of metal; common metals and their alloys; metal building structures and parts thereof; shuttering and moulds of metal; shutters, shuttering and mouldings of metal for concrete; shutters, shuttering and mouldings of metal for precast and cast-in-situ concrete; structural parts and structures of common metals and their alloys; metal structures for use in the building in- dustry; metal structures for use in architecture; support structures of metal; structural parts, of metal, for boats, ships, maritime, aviation and local transport structures; metal structures for use in wind- and sea turbines; common metals, unwrought or semi-wrought; rails of metal; railway material of metal; building and construction materials and elements of metal; buildings being fixed structures of metal; guide rails of metal; boxes of common metal; flap valves of metal, namely for drainage pipes; flap valves of metal, namely for water pipes; flap valves of metal, namely for gas pipes, namely for air pipes; small parts of metal; reinforcing materials of metal for pipes; ducts of metal for ventilating and air-conditioning installations; chimneys of metal for energy and drying technology, for the power plant industry; pipes of metal, large pipelines, exhaust steam pipes; compensator pipes, flue gas ducts in the form of gas pipes, superheated steam, water, condensate and thermal oil pipes; steel buildings; non-electric building materials of metal; metallic composite structures, namely composite structures containing metal; parts and fittings for all the aforesaid goods, included in this class.

Class 7:
Machines, machine installations and parts thereof for mechanical and chemical process engineering and for the production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; partly automated, fully automated or artificial intelligence-aided [smart] industrial robots for the material processing and production of material assets [goods] and semi-finished products, namely for the production of endless or discrete web-shaped or spatially defined goods and semi-finished products with organic or inorganic, naturally or artificially produced content, such as web-shaped materials, panels, flat or three-dimensional mouldings, pressed parts or castings; manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of castings from alloyed and unalloyed ferrous and non-ferrous metals, alloyed and unalloyed steels, preferably of castings in a large mould; cast troughs and cast platens [parts of machines]; cast filters [parts of machines]; cast hoppers [parts of machines]; moulds [parts of machines]; moulds that can be used multiple times, preferably chill-moulds, namely single chill-moulds and multiple child-moulds [parts of machines]; crushing machines; mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision surface-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, secondary crushers, classifier mills, milling layer installations, fine mills, precision mills, mills for producing mineral and metallic powder, granulators, wet

granulators, pipe granulators, precision granulators, profile granulators, lead-frame granulators, hard foam granulators, film granulators, small granulators, pelletisers, strand granulators, band granulators, chippers, drum chippers, hammer mills, impact hammer mills, pulp separators, impact crushing machines, turbo mills, blow nose mills, pin mills, universal mills, ball mills, jet mills, counter-jet mills, colloidal mills, counter-flow mills, double-flow mills, rolling mills; pulping machines [refiners]; cutting, shearing, mixing, grinding, impact and striking tools, all being parts of machines, knives [parts of machines], cutter blocks, cutting discs, cutting tips, shearing strips, grinding tracks, grinding discs, milling pins, grinding segments, grinding grids, grinding sets, pan grinder rollers, sieves [parts of machines], sifting tracks, disc screens, drum screens, perforated sheets [parts of machines], beater plates, impact strips, hammers [parts of machines], cylinders, pinion rollers, cylindrical milling cutters, grates [parts of machines], strainer bars, rod plates and gratings, mixing blades, pressure fittings, matrices [parts of machines], doctor blades, break cams, linings [parts of machines], wear plates [parts of machines], wear discs, wear rings, wear strips, wear shoes; machines and mechanical appliances for the shredding, granulation, disintegration, de-agglomeration, defibration and fine and ultra-fine grinding of materials, and parts thereof; machines for shredding soft to medium-hard materials such as minerals, plastics, wood, foodstuffs and animal feed, leather, cellulose, rubber, elastomers and soft sheet metal; machines for the shredding of temperature-sensitive materials such as plastics, thermoplastics, thermosetting plastics, elastomers, food and luxury foods, aromatic materials, pharmaceutical and cosmetic materials, chemical materials, materials containing oil and grease, highly viscous and adhesive materials, and parts thereof; rolling mills; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; machines and mechanical apparatus for separating bulk materials of differing densities and/or sizes; dynamic and static air separators, cross-flow separators, centrifugal separators, basket separators, reverse separators, cascade separators, gravity separators, zig-zag separators, sifting machines, vacuum sifting machines, vibration sifting machines, drum screening machines, vibrating screening machines, flat sifting machines, eddy current sifting machines, tumbler sifting machines, roller separators, filtering machines, hose filters (parts of machines), cartridge filters (parts of machines), pocket filters (parts of machines), cyclones, separators, centrifuges, disintegrators, blowing machines, extracting machines, magnetic drums (parts of machines), magnetic rollers (parts of machines), magnetic grates (parts of machines), mechanical separators, gravity separators, overbelt magnetic separators, induction separators, metal detection coils (parts of machines); machines and mechanical apparatus for the recycling and separation of materials, in particular for separating the components of composite materials; separating machines; plant shredding machines; wood-crushing machines; machinery and installations for the production of wood chips; long log flakers; beating flakers; breakers, jaw crushers, primary crushers; machines and installations for the mechanical processing of materials and bulk materials into powders and granulates; machines and installations for the crushing and processing of thermoplastics, plastic waste and rubber; pulverizing mills; disc mills; filtering machines, separators and centrifuges; drum shredders, bale shredders, guillotines, guillotine shears, scrap shears, scrap presses, chippers, drum chippers, disc chippers, plastic chippers, vertical crushers, shredders, single-shaft shredders, multi-shaft shredders, horizontal shredders, vertical shredders; flakers, knife ring flakers, disc flakers, universal flakers, mills [machines], mills for cryogenic grinding, impact grinding crushers, hammer mills, cross beater mills, precision service-layer mills, whirlwind mills, toothed-disc mills, bark mills, delamination mills, impact crushing machines; sifters; sorting machines for industry; machines and machine tools for treatment of materials and for manufacturing; industrial robots; material production and processing machines; single- and multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, namely plant-based raw materials, namely raw materials obtained from annual or perennial plants, into single- or multi-layer panel-shaped materials such as fibreboard, chipboard, oriented strand board [osb] or into mixed forms thereof [hybrid boards]; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from a mixture of raw materials, namely a mixture of two or more single-origin raw materials [basis], of which at least one forms a continuous phase [composite material], namely a composite material that features a matrix and a mesh arranged therein, namely a composite material with a matrix formed from resin and a fibre or grid structure formed from carbon; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from plastics, namely thermoplastics, thermosetting plastics or elastomers; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from mineral raw materials, namely from gypsum, carbonised plant materials, silicon dioxide, silicates or ceramics, portland cement, gypsum-cement-pozzolan compounds [gcp binders], magnesia binders; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from insulating materials, namely stone wool, glass wool, slag wool, polyurethanes, wood wool or glass wool; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of materials or products consisting of two or more layers bonded or glued together over the entire area, whereby the layers may consist of the same or different material grades and of the same or different kinds of material [laminates], namely heating foils, temperature foils, display foils, laminated insulating material, aluminium composites such as aluminium-wood composites, aluminium-composite composites such as glass-fibre-reinforced aluminium, packaging composites such as beverage carton composites, composite materials of plant materials and plastics, mineral composites such as porcelain stoneware-plastic composites; single- or multi-daylight mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from reinforced materials, namely fibre-reinforced plastics such as glass- or carbon-fibre-reinforced

plastics, occ composites, rubber-steel composites, such as conveyor belt materials or treads for tyres, recycling materials; single- and multi-daylight mechanical or hydraulic presses for the production of shaped parts, namely continuously or intermittently operating mechanical or hydraulic presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; membrane presses, namely fluid-loaded membrane presses for the production of shaped parts, namely continuously or intermittently operating membrane presses for the production of shaped parts from materials derived from raw materials, namely plant-based raw materials, alloyed and unalloyed steels, composite materials, metal and steel sheets, organosheets, plastics, organic and inorganic materials, materials containing minerals; woodworking machines; machine tools for woodworking machines; composite-material processing machines; tools for the processing of composite materials; machines for working plastic; tools for plastic processing machines; mineral processing machines; tools for mineral processing machines; insulating-material processing machines; tools for insulating-material processing machines; composite processing machines; tools for composite processing machines; machine tools; machines and mechanical appliances for mixing, dispersing, emulsifying and homogenising materials; agitators, tumbling mixers, conical mixers, batch mixers, screw mixers; machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, such as web-shaped materials, panels, moulded products, pressed products and cast products [castings]; extrusion presses, injection moulding machines, agglomerators, heating/cooling mixers, compactors, calenders and parts of calenders, pelletisers, briquetting machines, pellet mills, wet compressors, screw compresses, double belt presses, packing presses, channel baling presses; compres- sors [machines]; resin transfer moulding machines; coating installations [coaters], namely flow coaters and bath coaters; painting machines incorporating painting lines; lacquering installations; painting robots; machines and mechanical apparatus for the conditioning of materials; fluidised bed dryers, drum dryers, screw coolers; machines and mechanical apparatus for the washing of materials; friction washers; machines and mechanical apparatus for the separation, classification, removal, degassing and filling of materials; machines and mechanical apparatus for conveying, feeding and dosing materials into a production process; apron conveyors, sliding floors, belt conveyors, bucket conveyors, tube chain conveyors, stuffing screws, archimedian screws, auger fillers, sluices, dosing valves, hydraulic or pneumatically operated feeding devices, blowing machines, load conveyors, vibratory conveyors, oscillating conveyor troughs, conveying chains and drag chain conveyors; gluing flash tube [part of a machine]; transferring machines; mechanical process engineering installations for forming a mixture of free-flowing scatter material, namely fibrous material, chip material, plastic, carbon, dry binding material, resins or mineral material, in a defined geometric shape with a defined grammage, with the help of dosing, scattering and transport equipment that has been synchronised through monitoring and measuring systems; conveyors; moving and handling equipment; conveyors and conveyor belts; lifting and hoisting equipment; process control units [mechanical]; process control instruments [mechanical]; machines and mechanical appliances for conveying, feeding and dosing materials into a production process, and parts thereof; stuffing screws; archimedian screws; auger fillers; sorting machine locks [sluices]; cell wheel dosing devices [parts of machines]; unmanned transportation conveyors being cargo handling machines; guides for machines; indoor self-driving robots for industrial use; drives for conveyors; vibrators [machines] for industrial use; valves [parts of machines]; lifting machines and installations for transporting bulk materials; lifting machines for load transport; machines and installations in the field of press automation, industrial automation and transport automation and parts therefor; transporters [machines]; valves and sluices for machines and transport systems; control and regulating units and installations for manually operated, partly automated or fully automated machines [such as material production and processing machines], mechanical appliances, machine tools, installations and parts of installations for the material processing and production of material assets [goods] and semi-finished products, preferably within mechanical or chemical process engineering and general and special-purpose machine construction, vehicle construction and series production support; All of the aforementioned goods for processing continuous or finite shaped pieces and bulk materials, as well as pasty, flowable, vegetable, and fibrous materials and mixtures of materials, as well as liquids, fluid-solid mixtures and low- and high-consistency suspensions, in particular fibrous materials such as lignin-containing or lignocellulose-containing materials, composite materials such as organic sheets in particular, plastics and plastics with admixtures of perennial or annual plant components such as wood, waste wood, grass, bark, paper, cardboard, cellulose, or with components of other materials, such as textiles, waste, rubber, resins, leather, food, luxury foods, and animal feed, minerals, carbons, plastics, pigments, dyes, pharmaceuticals, chemical products, metals, composite materials, electronic scrap, cables, and old tires, parts, spare parts, accessories, and tools for the aforementioned goods, insofar as included in this class; parts, spare parts, accessories and tools for the aforementioned goods, included in this class; machine tools; power operated tools; motors, other than for land vehicles; propulsion mechanisms, other than for land vehicles; power transmission couplings [other than for land vehicles]; transmission components (except for land vehicles); agricultural implements other than hand operated hand tools; engines, drive units and parts of engines, engine housings, pistons, piston rods, piston rings, gear rods, gear wheels, toothed wheels, axles, shafts and valves, turbines, compressors, all being parts of machine; rolling mills, mills and wind turbines, in particular wind turbine foundations, casings, frameworks and rotor casings; gantry canes and parts of gantry cranes; moulds [parts of machines], in particular chill-moulds and matrices; moulds for production [parts of machines]; regulators [parts of machines]; control mechanisms for machines, engines or motors; electricity generators; machines and machine tools for treatment of materials and for manufacturing; parts of machines, namely cast iron parts, for machines and machine tools for the treatment of materials and production; machines for generating and converting energy, for example steam engines, wind turbines, hydroelectric power plants, turbines; steam engine boilers for power generation, other than for land vehicles; woodworking machines; machine tools for woodworking machines; machine tools; woodworking machines; composite material treatment machines; tools for composite material treatment machines;

machines for processing composite materials; industrial robots; material production and processing machines; rollers; thrust pieces; matrices (parts of machines); linings (parts of machines); power operated tools; motors [other than for land vehicles]; propulsion mechanisms, other than for land vehicles; power transmission couplings [other than for land vehicles]; transmission components (except for land vehicles); agricultural implements other than hand operated hand tools; agricultural, earthmoving, construction, oil and gas extraction and mining equipment; bonding machines; industrial mixing machines; shaping and moulding machines; foundry machines; metal production machines; generators; engine housings; parts of engine housings; compressors for refrigerators; compressors; industrial machines and mechanically driven appliances, namely machines and equipment for use in industrial production and processing plants; energy-generating installations; industrial drying installations heated both directly via hot gases and indirectly via steam, hot water and thermal oil; blowing engines; sound absorbers being parts of machines; heat exchangers (parts of machines); pumps for industrial heating installations and furnaces; metalworking machines; machines for processing organic and inorganic homogeneous and composite materials; machines for manufacturing structures and architecture; machines for manufacturing organic and inorganic homogeneous and composite architecture; machines for manufacturing organic and inorganic homogeneous and composite structures; machines for manufacturing simply or multiply curved organic and inorganic homogeneous and composite structures and architecture; machines for manufacturing curved organic and inorganic homogeneous and composite panels and surfaces; machines for treating organic and inorganic homogeneous and composite materials; machines and mechanical apparatus for mechanical process engineering, and installations constructed from the aforesaid goods; machines and mechanical appliances for mixing and homogenising materials; mechanical equipment for foundry machines and metal production machines; aids for producing castings, namely hoppers and filters [parts of machines]; cast iron parts for pipes [parts of machines]; atomising machines; dispensing machines; automatic dispensing machines; blending machines for chemical processing; vacuum pumps [machines]; stud tensioning technology systems; stud tensioning machines, namely for pressurised water reactors, boiling water reactors; stud tensioning devices for steam generators; single tensioners for pressurised and boiling water reactors; multi-stud tensioners; stud turning devices such as single-stud turning devices, double-stud turning devices, multi-stud turning devices, namely for industrial applications; cleaning machines, namely for industrial applications; cleaning machines for reactors; bolt cleaning machines, reactor pressure vessel bolt cleaning machines; blind hole cleaning machines, namely for industrial applications; hydraulic high-pressure components and sealing systems [parts of machines]; machines for washing materials, in particular wood, fibrous materials, food and animal foodstuffs, plastics, chemicals, pharmaceutical and cosmetic products and minerals; control appliances for machines and installations; parts and fittings for all the above goods; parts of casings, parts of engines, in particular moving parts of engines.

Class 8:
Hand tools, hand-operated; hand implements, hand-operated; cutlery; cutlery; side arms, other than firearms; razors; razors; parts and fittings for all the aforesaid goods.

Class 9:
Robotic process automation [RPA] software; recorded content; software; databases; software for monitoring, analysing, controlling and running physical world operations; physical analysing apparatus [other than for medical use]; machine learning software for analysis; artificial intelligence software for analysis; downloadable computer software for collecting, analyzing and organizing data in the field of deep learning; surveillance cameras; monitoring units [electric]; monitoring control apparatus [electric]; video cameras adapted for monitoring purposes; checking (supervision) apparatus and instruments; monitoring instruments; computer software for the monitoring of computer systems; sensors for monitoring physical movements; measuring, detecting, monitoring and controlling equipment; monitoring apparatus, other than for medical purposes; machine learning software for surveillance; sensors, detectors and monitoring instruments; cloud network monitoring software; industrial automation controls; industrial automation software; artificial intelligence software; artificial intelligence software for surveillance; interactive software based on artificial intelligence; software for the integration of artificial intelligence and machine learning in the field of big data; process monitors; process controlling software; process controlling apparatus [electric]; process controlling apparatus [electronic]; process control digital controllers; process controllers [electric]; process controlling apparatus [electric]; process controlling apparatus [electronic]; process controlling apparatus [electronic]; process controlling apparatus [electronic]; process controlling apparatus [electronic]; information technology and audio-visual, multimedia and photographic equipment; navigation, guidance, tracking, targeting and map making equipment; data storage devices and media; data processing equipment and accessories (electrical and mechanical); communications equipment; signal cables for it, av and telecommunication; computer networking and data communications equipment; point-to-point communications equipment; computers and computer hardware; sensors; electric sensors; optical sensors; sensors for use with machine tools; sensor controllers; sensors for measuring instruments; sensors used in plant control; sensors for determining position; internet of things [iot] sensors; network communication apparatus; network operating system programs; networking software; local area networks; computer software platforms for social networking; computer software for wireless network communications; telecommunications apparatus for use with mobile networks; smart manufacturing software; smart manufacturing system controls; editing software; computer operating programs; operating systems; operating system programs; computer operating system software; factory automation software; production support software; computer programs for connecting remotely to computers or computer networks; computer hardware for remotely accessing and transmitting data; downloadable software for remotely accessing and controlling a computer; cloud servers; cloud server software; cloud computing software; application software for cloud computing services; downloadable cloud computing software; optimisation software; automatic control apparatus; automatic control apparatus; control installations (electric -); electric control apparatus; electric control apparatus; electronic controllers; electronic control units; electronic control instruments; electronic control systems; programmable controllers; industrial process control software; scientific, research, navigation, surveying, photographic,

cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded media; downloadable media; computer software; blank digital or analogue recording and storage media; coin-operated mechanisms; calculating devices; computers; computer peripheral devices; fire extinguishers; pressure indicator plugs for valves; surveying apparatus and instruments; air analysis apparatus; switchboxes [electricity]; control units for machines and installations; all of the aforementioned goods, in particular for the areas of press automation, industry automation and transport automation; apparatus for broadcasting sound, data or images; cabinets for loudspeakers; cases for loudspeakers; loudspeakers; studio monitor loudspeakers; speakers for video conferencing; multi-room audio devices; power cables; connection cables; loudspeaker cables; microphone cables; electrical power extension cords; electronic cables; connection boards [electric]; lighting control panels; instrument panels [electric]; distribution boards [electricity]; loudspeaker systems; horns for loudspeakers; speaker switches; portable speakers; speaker docks; personal speakers; speakers [audio equipment]; monitor speakers; loudspeakers with built in amplifiers; signal processors for audio speakers; led screen displays; electronic controllers; measuring, signalling, inspecting, switching and monitoring appliances and instruments; electromagnetic valves; computer software [saved] for controlling installations for heating installations and furnaces for generating heat and steam, drying installations, cooling installations, thermotechnical installations for saving energy, installations for exhaust gas purification and exhaust gas filtration, installations for exhaust air purification and exhaust air filtration, installations for air treatment, and installations for treating water; numerical controllers for controlling the aforementioned installations; measuring appliances, control appliances, regulating appliances, indicators for the aforementioned installations; fire-extinguishing devices for the aforementioned installations; video screens; all of the aforementioned goods, in particular for the areas of press automation, industry automation and transport automation; apparatus for broadcasting sound, data or images; cabinets for loudspeakers; cases for loudspeakers; loudspeakers; studio monitor loudspeakers; speakers for video conferencing; multi-room audio devices; power cables; connection cables; loudspeaker cables; microphone cables; electrical power extension cords; electronic cables; connection boards [electric]; lighting control panels; instrument panels [electric]; distribution boards [electricity]; loudspeaker systems; horns for loudspeakers; speaker switches; portable speakers; speaker docks; personal speakers; speakers [audio equipment]; monitor speakers; loudspeakers with built in amplifiers; signal processors for audio speakers; led screen displays; video screens; numerical controllers for controlling the aforementioned installations; measuring appliances, control appliances, regulating appliances, indicators for the aforementioned installations; fire-extinguishing devices for the aforementioned installations; measuring, detecting, monitoring and controlling equipment; controllers and regulators; sensors, detectors and monitoring instruments; appliances and equipment for testing, weighing, analysing and measuring materials; all of the aforementioned goods for controlling and regulating processes, machines, appliances and installations for mechanical engineering; apparatus for scientific research and laboratories; lighting transformers; fire safety installations, essentially consisting of sliding plate fire dampers of metal and/or plastic and/or mineral materials, sliding plate smoke dampers of metal and/or plastic and/or mineral materials, smoke detectors, all of the aforementioned components also as individual goods and parts thereof; electronic monitoring systems.

Class 11:
Appliances and installations, and parts of appliances and installations for heating, cooling, steam-generating, cooking, drying, ventilating and water supply purposes; heat pumps for energy processing; industrial water treatment installations; industrial air treatment installations; industrial wastewater treatment installations; burners, boilers and heaters; drying installations; industrial ovens and furnaces [not for food and beverages] for grate firing; distillation apparatus; drying machines, humidifying (other than for medical use) and wetting apparatus, in particular for wood, fibrous materials, food and animal feed, plastics, chemical fiber and cosmetic products and minerals; machines and installations constructed therefrom for industrial drying purposes; gas/heating boilers, including industrial steam boilers, water tube boilers, saturated steam and hot steam boilers, hot water boilers, waste heat boilers, fire-tube boilers, special boilers for thermal disposal and afterburning, including installations for stoking and ash removal, process heat generation, heat transfer oil installations and in particular including installations that essentially consist of heat transfer heaters, heat transfer pumps, heat exchangers and heat transfer lines; heat recovery installations; ventilation stacks and exhaust air installations; appliances and installations connected to heating boilers for heating purposes, namely regulating and safety accessories for water and gas pipes, taps for pipes and pipelines, water supply installations; pressure vessels, expansion tanks, valves, taps for heat transfer and steam pipes, appliances for the treatment of heat transfer media; cooling installations for industrial purposes; oil burners; gas burners; dust and granule burners and combination burners as well as surface burners; oil burner control units; automatic gas stokers; appliances and equipment for exhaust air purification and exhaust gas purification; gas cleaners and purifiers; heating, ventilating, and air conditioning and purification equipment (ambient); air filtering installations; water filtering apparatus; lighting apparatus; lamp mantles; safety lamps; incandescent light bulbs; lighting installations; security lighting; lamps; lamp shades; light diffusers; lamp reflectors; floodlights; luminaires for security use; strobe lights [light effects]; light projectors; decorative lights; electric lamps; lights for vehicles; led luminaires; light-emitting diode [led] light bulbs; led lighting installations; fans [air-conditioning]; fans [parts of air-conditioning installations]; evaporators; air deodorizing apparatus; air heating apparatus; air filters; air filtering installations; air sterilizers; air dryers; refrigerators and refrigerating installations; refrigerating chambers; chilling machines; cooling installations for panels; cooling installations for reactors; cooling installations for liquids; air conditioning installations and air conditioning apparatus; ventilation installations, essentially consisting of ventilation grilles, ceiling diffusers, slot diffusers, floor diffusers, window parapet induction diffusers, swirl diffusers, induction swirl diffusers, ventilation valves, multi-leaf dampers, weather grilles, airtight steel doors, fans, water level regulators [valves] being parts of sanitary installations, the aforementioned components also as

individual goods and parts thereof; apparatus for filtering water, consisting of automatic roll filters, wall and channel filters, bag filters, particulate filter modules for ceilings, mini dust extractors, centrifugal separators and filter media, namely glass fibre paper, glass fibre matting, randomly-oriented-fibre fleeces and activated carbon, all being parts of sanitary installations; the aforementioned components also as individual goods and parts thereof; hydrogen reactors and parts thereof; parts and fittings for all the aforesaid goods, included in this class.

Class 12:
Vehicles; apparatus for locomotion by land; apparatus for locomotion by air; apparatus for locomotion by water; powertrains, including engines and motors, for land vehicles; rail vehicles; rail vehicles; autonomous cars; load carrying vehicles; trolleys; sledges for transportation; self-driving transport vehicles; autonomous vehicles; transport vehicles for internal transport tasks; vehicles and conveyances; apparatus for locomotion by land; appliances for locomotion by air and appliances for locomotion by water, in particular for carrying loads, freight or passengers, in particular railbound or non-railbound vehicles and conveyances, and appliances for locomotion by land, air or water; unmanned, manned, autonomous, remotely operated, automated guided and manually guided vehicles and conveyances, and appliances for locomotion by land, air or water; wheeled vehicles; land vehicles and conveyances; mobility conveyances; rail vehicles, in particular trains, locomotives, trams, underground railway trains, magnetic trains; elevated trains, cable cars, chairlifts, rack railway trains, and vehicles on rails, such as sledges for transportation, trolleys, mine cars, handcars; air and space vehicles; water vehicles; cars, carts and trailers; vehicles adapted for military purposes, in particular armoured vehicles; parts and components for vehicles and appliances for locomotion by land, air or water; hulls and superstructures for boats, ships, maritime, aviation and local transport structures; structural parts for boats, ships, maritime, aviation and local transport structures; parts and accessories for all of the aforementioned goods, included in this class, in particular casings, chassis, drive units, propulsion mechanisms, gearboxes and gearbox parts, steering racks, gearbox casings and parts of gearbox casings, axles and shafts, wheels, protective heat shields, brake discs, brake drums; powertrains, including engines and motors, for land vehicles; rail vehicles; rail vehicles; autonomous cars; load carrying vehicles; trolleys; sledges for transportation; self-driving transport vehicles; autonomous vehicles; transport vehicles and transport appliances for machine and plant construction, not included in other classes; hulls and superstructures for boats, ships, maritime, aviation and local transport structures; structural parts for boats, ships, maritime, aviation and local transport structures; and parts and fittings for the aforesaid goods; driverless transport systems; hulls and superstructures for boats, ships, maritime, aviation and local transport structures.

Class 17:
Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; goods and semi-finished products of plastics or resins, namely for use in manufacturing processes; goods and semi-finished products of plastics or resins in extruded form, namely for use in manufacturing processes; goods and semi-finished products of fibre composite materials, namely for use in manufacturing processes; fibre-matrix semi-finished products for use in manufacturing processes; thermoplastic laminate composite materials; thermosetting laminate composite materials; goods and semi-finished products made of natural fibre composites, namely for use in manufacturing processes; asbestos sheets; plastic sheeting for agricultural purposes; viscose sheets, other than for wrapping; self-adhesive plastic sheets for use in industry; injection-moulded goods and semi- finished products of plastic, thermoplastic polymer, thermosetting plastic, reinforced plastic, carbon-fibre-reinforced plastic, glass-fibre-reinforced plastic, composite products of artificial or natural fibres for insulating, sealing, packing and padding, composite products of resin and carbon or resin and ceramics; compression-moulded goods and semi-finished products of plastic, thermoplastic polymer, thermosetting plastic, reinforced plastic, carbon-fibre-reinforced plastic, glass-fibre-reinforced plastic, composite products of artificial or natural fibres for insulating, sealing, packing and padding, composite products made from resin and carbon or resin and ceramics; sealing materials; packing materials; insulating materials; flexible hoses, not of metal; flexible hoses, not of metal; flexible hoses, not of metal; artificial fibres made from synthetic polymers [not for textile use] such as polycondensation fibres, polymerisation fibres, polyaddition fibres; all of the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; all of the aforementioned goods for industrial and commercial purposes, namely for making composite products from artificial or natural fibres, for example wpc products, insulating, sealing and packing materials and materials for padding; goods [semi-finished products] made of plastic or composites involving plastics, in particular wpc goods; the aforementioned goods in the form of blocks, also being fabrics, mats and laminates; fibre-reinforced plastics for industrial purposes [as semi-finished products]; fibres infused with natural or synthetic resin [not for textile use]; artificial insulating fibres for reinforcing concrete, cement and mortar; artificial insulating fibres made from natural polymers, namely, cellulose, rubber, plant pro- tein, animal protein; the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; natural fibres as insulating materials, in particular made from cotton, kapok, poplar fluff, bamboo, palm tree, stinging nettles, hemp, jute, linen, kenaf, ramie, wood, sisal, manila, coconut, wool, hair; the aforementioned goods also in conjunction with plastics, in particular with a thermoplastic shell; insulating materials made from materials containing cork and bark, from plastic and from material mixtures of plastic, cork and/or materials containing bark; all of the aforementioned goods in the form of agglomerates and compounds; semi-finished products of plastic in the form of agglomerates and compounds, included in class 17; parts and fittings for all the aforesaid goods.

Class 19:
Building materials, not of metal, namely for building purposes; rigid pipes, not of metal, for building; asphalt; pitch; tar; bitumen; buildings, transportable, not of metal; monuments, not of metal; building materials, not of metal; shutters, shuttering and moulds [not of metal] for concrete; shuttering, shuttering and moulds for concrete, organic and inorganic composite materials and glass; shuttering, shuttering and moulds for precast and cast-in-situ concrete, organic and inorganic composite materials and glass; composite structures, namely non-metallic composite struc- tures [building material]; building structures, not of metal; architecture [structures] of concrete, organic and inorganic composite materials or

glass; mouldings, not of metal, for building; structures for use in the building industry, in bridge construction and in the construction of energy-generating installations; structures for use in architecture; flap valves, not of metal or plastic, namely for water pipes; flap valves, not of metal or plastic, namely for drainage pipes; ducts, not of metal, for ventilating and air-conditioning installations; building products (non-metallic); building materials, not of metal, in the form of rods, blocks, boards, profiles, containers, mouldings, fleeces, felts, fabrics; non-metal cladding for windows; non-metallic window frames; non-metal door panels; door casings, not of metal; non-metal coverings for ceilings; roof coverings, not of metal; wall panels, not of metal; the aforementioned goods as composites, especially with fibres or composite fibres; natural fibres [building materials not of metal] for building and construction purposes, in particular as an admixture in building materials that can be cast and hardened, in particular cement, mortar and concrete; parts and fittings for all the aforesaid goods.

Class 35:
Advertising; business management; business organization; business administration; office functions; wholesale and retail services, also online, in connection with machines and machine tools for material processing and production, industrial robots, material production and processing machines, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials from raw materials, machine tools, machines and mechanical appliances for mechanical process engineering, and installations, machines and mechanical appliances constructed from the aforementioned goods for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for compressing, compacting, agglomerating, compounding and coating materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, spare parts, accessories and tools for the aforementioned goods, robotic process automation [rpa] software, recorded data, software, databases, software for monitoring, analysing, controlling and running physical world operations, physical analysing appliances [other than for medical use], machine learning software for analysis, artificial intelligence software for analysis, downloadable computer software for collecting, analysing and organizing data in the field of deep learning, monitoring units [electric], monitoring control appliances [electric], monitoring instruments and appliances, computer software for the monitoring of computer systems, sensors for monitoring physical movements, industrial automation controls, industrial automation software, artificial intelligence software, process monitors, process controlling software, process controlling appliances [electric], process controlling appliances [electronic], digital process controllers, process controllers [electric], process controllers [electronic], data processing equipment and accessories [electrical and mechanical], communications equipment, signal cables for it, av and telecommunication, computer networking and data communications equipment, point-to-point communications equipment, computers and computer hardware, sensors, network communication appliances, network operating system programs, networking software, local area networks, smart manufacturing software, smart manufacturing system controls, editing software, computer operating programs, operating systems, operating system programs, computer operating system software, factory automation software, production support software, computer programs for connecting remotely to computers or computer networks, computer hardware for remotely accessing and transmitting data, automatic control appliances, control installations [electric], electric control appliances, electronic controllers, programmable controllers, industrial process control software, computer software, computers, computer peripheral devices, parts and accessories for all of the aforementioned goods; business management consultancy; administrative support for the operation of energy-generating and energy-converting installations such as nuclear installations and energy installations powered by natural forces, such as installations powered by wind or water; administrative support for the operation of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; market analysis, marketing and customer loyalty programme services relating to machines and installations for carrying out mechanical or chemical process engineering, and regarding special parts, special appliances, special machines, special installations and parts of special installations for carrying out mechanical or chemical process engineering; wholesale and retail services in connection with machines and installations for carrying out mechanical or chemical process engineering, and of special parts, special appliances, special machines, special installations and parts of special installations for carrying out mechanical or chemical process engineering; wholesale and retail services in connection with machines and installations for the production of pressed goods; market analysis, marketing and customer loyalty programme services relating to machines and installations for the production of pressed goods; wholesale and retail services in relation to virtual representations of machines, installations, parts and fittings for carrying out mechanical or chemical process engineering.

Class 37:
Repair or maintenance of machines and apparatus for woodworking; installation services of machines and machine tools for treatment of materials and for manufacturing; installation services of industrial robots; installation services of material production and processing machines; installation services of mills and crushing machines; installation services of moving and handling equipment; installation services of conveyors and conveyors belts; installation services relating to: lifting and hoisting equipment, installation services relating to: woodworking machines; installation services of machine tools for woodworking machines; repair and maintenance of machines and machine tools for treatment of materials and for manufacturing; repair and maintenance of industrial robots; repair and maintenance of material production and processing machines; repair and maintenance of mills and crushing machines; repair and maintenance of moving and handling equipment; repair and maintenance of conveyors and conveyors belts; repair and maintenance of lifting and hoisting equipment, elevators and escalators; repair and maintenance of woodworking machines; repair and maintenance of machine tools for woodworking machines; installation of wireless telecommunications equipment and wireless local area networks; installation of plant; computer hardware and

telecommunication equipment installation, maintenance and repair; construction; mining extraction; oil drilling; gas drilling; installation of audiovisual equipment; advisory services relating to the installation of audiovisual equipment; advisory services relating to the installation of lighting apparatus; installation of stands for trade fairs; installation of stands for conferences; installation of stands for exhibitions; building of trade fair and exhibition stands; installation of lighting apparatus; installation of plant; installation of communication equipment; installation of high tensile structures; maintenance of communications equipment; plant maintenance; plant refurbishment; building construction and repair; repairing construction works; scenery construction; construction, installation, repair, maintenance, renovation, refurbishment and overhaul of industrial heating installations and furnaces for generating heat and steam, installations for protecting the environment, and installations for industrial drying purposes; installation, rebuilding, commissioning, maintenance, cleaning and repair of machines and mechanical appliances and installations for mechanical process engineering manufactured therefrom; replacement of parts of machines, in particular of wear parts and machine tools; locksmithing in the context of the aforementioned services; monitoring, remote diagnostic and remote maintenance of machines and installations made therefrom, also by means of remote monitoring systems; repair or maintenance of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; installation services relating to: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; refurbishment of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/

or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; maintenance or repair of: woodworking machines and appliances, machines and appliances for processing composite materials, machines and appliances for plastics working, machines and appliances for processing mineral materials, machines and appliances for processing insulating materials, machines and machine tools for treatment of materials and for manufacturing, industrial robots, material production and processing machines, conveyors and conveyors belts, mechanical or hydraulic presses for the production of panel-shaped materials, namely continuously or intermittently operating mechanical or hydraulic presses for the production of panel-shaped materials, machines and mechanical appliances for conveying, feeding and dosing materials into a production process, machines and mechanical appliances for mixing and homogenising materials, machines and mechanical appliances for conditioning materials, machines and mechanical appliances for separating, classifying, removing, degassing and filling materials, machines and mechanical appliances for separating bulk goods of different densities and/or sizes, machines and mechanical appliances for recycling and separating materials, in particular for separating the components of composite materials, all of the aforementioned goods for processing piece and bulk goods as well as paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and liquids, fluid/solid mixtures and low- and high-consistency suspensions, process control units [mechanical], process control instruments [mechanical], machines and mechanical appliances for mechanical process engineering, and installations constructed from the aforementioned goods; rental of machine tools; mechanical and electrical installation of machines and installations for the production and processing of goods using mechanical or chemical process engineering; mechanical and electrical installation work for industrial custom manufacture, namely the custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; mechanical and electrical installation work for industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; civil construction services; construction consultancy services; erection, construction and installation of energy-generating and energy-converting installations such as nuclear installations and energy installations powered by natural forces, such as installations powered by wind or water; erection, construction and dismantling of facilities for sorting low-level radioactive waste, caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste, fuel element disposal management, data and calculations for protection against radiation, process computer systems, personal and job-based dose control; drilling and deep drilling work; painting.

Class 40:
Material processing using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; material processing using chemical engineering; recycling of waste; recycling of waste; air purification; water treating; printing; preservation of food; preservation of drink; metal treating; treating [forging] of metal; treating [stamping] of metal; treating [stamping] of metal; treating [shaping] of metal; treating [shaping] of metal; treating [embossing] of metal; treating [tempering] of metal; treating [tempering] of metal; treating [enamelling] of metal; metal casting; metallurgical smelting; metal melting services; custom manufacture of tools for others; die casting; die-casting of metals; machining parts for others; metal tempering; treating [tempering] of metal; metal finishing; shaping of metal components; processing of metal surfaces using precision grinding techniques; treatment of metal parts to prevent corrosion using hot-dip galvanizing and powder coating processes; millworking; blast treatment; sandblasting services; metal brazing; chromium plating of metal articles; hard chromium plating and hard nickel plating of metal surfaces; extruding of metal alloys; surface finishing of metal articles; galvanising of metal; shot blasting; metal hardening; metal laminating; processing of metal surfaces by abrasive polishing; metalworking; polishing of metals; metal stamping; cutting of metal; treatment and coating of metal surfaces; vulcanization [material treatment]; custom construction of machines; custom manufacture and assembly services; custom moulding services; custom 3d printing for others; 3d reproduction services; custom manufacture and processing of organic and inorganic homogeneous and composite goods, semi-finished products, structures and architecture, namely for the building industry, the production of panels, vehicle and aircraft construction, machine and plant construction in a level form or in a simply or multiply curved form; recycling of waste; recycling of waste; recycling of recycling materials, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; material treatment services in connection with recycling, namely wood, paper, cardboard, occ, in combination with a binding agent, plastics, sewage sludge, coal, coal-dust waste, mixed packaging waste; air purification; water treating; printing; food processing; preservation of drink; material processing of piece and bulk goods, and of paste, fluid, vegetable-based and fibrous substances and mixtures of substances, and of liquids, fluid/solid mixtures and low- and high-consistency suspensions; material processing of ligno-cellulosic materials, of composite materials such as organosheets in particular, of plastics, and of plastics with the addition of wood, waste wood, paper, cardboard, cellulose, textiles, waste, rubber, latex, resins, leather, food, luxury foods and animal foodstuffs, minerals, pigments, colourants, pharmaceuticals, chemical products, metals, composite materials, electronic waste, cables and old tires; material processing of temperature-sensitive materials using mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, for example pressing; material processing of temperature-sensitive materials using chemical process engineering; material processing in the form of the shredding, chopping, cutting, delamination,

defibration, grinding, cryogenic grinding, fine and precision grinding, mixing, coating, wetting, pelletising, compounding, compacting, granulation, agglomeration, coagulation, separation and recycling of materials as a service for others; processing of fibrous materials and waste wood to form cellulose powder and wood flour; processing of minerals and metals to form mineral and metal powders; rental of machines and mechanical appliances for processing and converting materials for custom manufacture; mechanical or chemical treatment or processing of materials; generation of energy, in particular hot gases, steam, thermal oil and electricity; electricity generating; incineration of waste and trash; waste treatment [transformation]; steam and electricity generating from biomass; air purification; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production or processing of goods containing natural fibres, of composite structures, namely non-metallic composite structures, and of metallic composite materials as well as composite materials containing plastic; industrial custom manufacture, namely the industrial custom manufacture of special parts, special appliances, special machines, special installations and parts of special installations for the production of pressed goods; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [mechanical] process engineering; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for [chemical] process engineering; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of special goods or goods produced in series production; industrial custom manufacture of structural parts, appliances, machines, installations and parts of installations for the production of endless goods, namely [flat] web-shaped goods, such as fibrous goods, namely plant-based panels, goods containing minerals, namely panels containing minerals, namely goods containing stone wool or composite materials such as organosheets, ferrous and non-ferrous metallic goods or goods containing plastic, namely panels containing plastic; industrial production and custom manufacture of series-produced or special structural parts by casting, shaping, separating, for example cutting, joining, for example soldering, coating, for example varnishing, changing material properties, for example hardening; industrial production and custom manufacture, namely of turned parts of metal, turned parts of plastic, large turned parts such as shafts and cylinders for machines and installations, milled parts of metal, milled parts of plastic, large milled parts such as parts for machine and plant construction, namely for the construction of treatment installations for fibrous materials, intermittently or continuously operating presses and large presses for processing fibrous materials such as paper, cardboard, engineered woods, fibre composites, plastics, composite materials, iron, steel, cast materials; welding services; processing of large structural parts with individual volumes of at least 500 litres using chemical or mechanical process engineering, namely through crushing, atomising, agglomerating, separating, sieving, mixing, storing, joining or shaping, in particular pressing; coating of coatable material, namely wood, paper, cardboard, cellulose, textiles, plastics, rubber, minerals, pharmaceuticals, chemical products, metals, composite material; custom manufacture of models for generating moulds for making castings, preferably large castings; moulding shop services for generating moulds for the manufacture of castings, in particular large castings; processing of moulds for the manufacture of castings, in particular large castings; fettling shop services for processing moulds for the manufacture of castings, in particular large castings; metallurgical smelting services for processing moulds for the manufacture of castings, in particular large castings; metal treating and casting, cooling of metal casting products, hardening of metal and metal products; production of machines, mechanical appliances and installations for mechanical process engineering; consultancy in the field of the manufacture of flat and simply or multiply curved or structured organic and inorganic homogeneous and composite goods, semi-finished products and structures.

Class 41:
Educational instruction; training; entertainment services; sporting activities; cultural activities; instruction and training of users and service staff, namely relating to industrial production installations; instruction and training of users and service staff, namely relating to the use of machines, installations and parts of installations for mechanical or chemical process engineering; instruction and training of users and service staff, namely relating to heating installations and furnaces for generating heat and steam, exhaust gas purification and drying installations; instruction and training of users and service staff, namely relating to energy-generating installations; instruction and training of users and service staff, namely relating to installations processing natural fibres; training and instruction of users and service staff, namely relating to the operation of presses, namely of continuously or intermittently operating presses and large presses, of single- or multi-daylight presses, of presses for generating endless goods, namely web products in the form of natural-fibre-based web goods for the production of panels, in the form of organically or inorganically based web goods for the production of panels, in the form of composite-forming web goods for the production of composite materials, such as organosheets; instruction and training of users and service staff, namely relating to mills and refiners; instruction and training of users and service staff, namely relating to plastic-processing machines and installations; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of industrial machines, installations and parts of installations, namely of machines, installations and parts of installations for the production of material assets; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of installations for mechanical or chemical process engineering; training and instruction of users and service staff, namely relating to control and regulating units, namely control and regulating units of software, namely of software for controlling industrial installations, such as production installations or installations for mechanical or chemical process engineering and parts of these installations; rental of audio/visual and photographic equipment and facilities; rental services relating to equipment and facilities for education, entertainment, sports and culture; arranging and conducting of entertainment events; provision of recreational events; organizing cultural and arts events; organisation of sporting events; organisation of parties; party planning [entertainment]; information and advisory services relating to entertainment; organising of shows for entertainment purposes; entertainment services; entertainment, sporting and cultural activities; radio entertainment; audio-visual display presentation services for entertainment purposes; arranging of presentations for

entertainment purposes; entertainment services provided at discotheques; entertainment services relating to sport; musical entertainment; production of sound recordings; organization of entertainment events; organisation of entertainment and cultural events; organisation of educational events; conducting of cultural events; conducting of educational events; training services relating to the adaptation and use of monitoring systems, namely of vibration measurements and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems.

Class 42:
Development of computer based networks; design and development of networks; implementation of computer programs in networks; computer aided design for manufacturing operations; engineering consultancy relating to manufacture; technological services relating to manufacture; design and development of computer hardware for the manufacturing industry; editing of computer programs; cloud computing; cloud hosting provider services; cloud storage services for electronic files; cloud storage services for electronic data; providing virtual computer systems through cloud computing; providing virtual computer environments through cloud computing; consulting in the field of cloud computing networks and applications; programming of electronic control systems; scientific and technological services and research and design relating thereto; industrial analysis; industrial research; industrial design; quality control; authentification services; design and development of computer hardware and software; planning, development and technical project planning of machines, mechanical appliances and installations for mechanical process engineering; services of an engineer in connection with the provision of the aforementioned services; research in the field of mechanical process engineering; laboratory analysis of materials and clinical trials relating to the treatment of materials, in particular the conveyance, dosing, crushing, mixing, agglomeration, compressing, conditioning, separation and sorting of materials; process-related technical consultancy in connection with the operation of machines, mechanical appliances and installations for mechanical process engineering manufactured therefrom; industrial testing, calibration, condition monitoring; it services; software development, programming and implementation, in particular to monitor and control machines, installations and processes for mechanical process engineering; engineering services; technical research; technical project studies; preparation of reports relating to scientific research on electrical energy; electric meter reading and data analysis for energy auditing purposes; research and development of new products relating to environment protection; services of engineers and inspections in the field of energy generation; quality control and assessment services; construction drafting, building design, technical project planning, technical project management, technical building supervision, quality control and assurance in the area of industrial heating installations and furnaces for generating heat and steam, industrial drying installations and environmental engineering; science and technology services; design services; custom design services; interior design services and information and advisory services relating thereto; industrial design; design, development and implementation of software; construction drafting; consultancy in the field of construction drafting; computer design services; design services relating to interior decorating for homes; technological services; industrial design services, architectural consultancy services; design services for architecture; engineering services; consultancy in the field of engineering; consultancy in the field of engineering, namely the design of installations and parts of installations for mechanical or chemical process engineering, and the refurbishment of installations and parts of installations for mechanical or chemical process engineering; consultancy in the field of engineering, namely the design of installations and parts of installations for producing goods and semi-finished products, namely organic and inorganic panels, fibreboard, composite panels, organosheets, gypsum boards, plastic panels, wpc panels, energy carrier panels; computer software design; planning and design of energy-generating and energy-converting installations; planning and design of nuclear installations; planning and design of energy generating installations powered by natural forces, namely wind or water; planning and design of facilities for sorting low-level radioactive waste; planning and design of caissons and housings, automatic drum cappers, hot cells, in-drum presses, cementation of liquid waste; planning and design of facilities and systems for fuel element disposal management; preparation of data and calculations for radiation protection; design and development of process computer systems; design and development of systems for personal and job-based dose control; technical consulting, and engineering services and technological consultancy relating to concept development, plan development/design, planning and support during the approval process, advice regarding the selection of the correct business partner, project execution, project support, project management, supervision/optimisation of revision processes, quality monitoring and construction supervision, creation and checking of documentation; testing and quality control of monitoring systems, namely of vibration measurements

and vibration measurement systems, cutting monitoring and cutting monitoring systems, blade vibration measurements and blade vibration measurement systems, soil analyses and soil analysis systems, environmental system analyses and emission monitoring, and environmental system analysis and emission monitoring as well as forecasts derived therefrom and the necessary scientific and engineering calculations, soil information analyses as well as soil information systems and soil protection cadastral systems and the use and evaluation thereof, the electronic maintenance of structures and bodies of water, the creation, operation, providing, further development and evaluation of climate databases, statistical ground water analyses, the creation, operation, providing, further development and evaluation of drinking water information systems and other database and information systems, such as government information systems, soil information systems and soil protection registers, the electronic maintenance of structures and bodies of water, computer-aided calibration system, document management system, energy data balancing and budgeting, the management of occurrence reports, fuel element information and reporting systems, fuel element disposal management, measurement and laboratory data management and reporting system, services relating to nuclear physics, mobile data collection, the management of occupationally exposed persons, such as persons who are classed as occupationally exposed in accordance with the german radiation protection ordinance, personal and job-based dose control, data and calculations for radiation protection, operation and providing of process computer systems, calculation, manufacture, operation and providing of process of location-optimised process computer systems for monitoring and control on the basis of standards that are tried-and-tested in the industry, and of project information systems and radiological spacial data and of process information systems; providing temporary use of on-line non-downloadable software for importing and managing data; preparation of reports in the field of measurement and laboratory data; software creation and further development, and the use of software for costing nuclear dismantling projects, waste tracking and documentation, the radiological spatial data project information system; design of models for generating moulds for making castings, preferably large castings; testing such as vibration measurements, temperature profile analyses, and temperature profile adjustment; technological engineering analysis regarding bearings, couplings, belt pulley alignments; performance measurement; operating point measurement; pressure measurement; volume flow measurement; mass flow measurement; technological consultancy in the field of measurement and calculations for the adjustment of the operating materials.

Class 45:
Licensing of computer software [legal services].

Siempelkamp Maschinen- und Anlagenbau GmbH

Representative:ip21 Limited
Central Formalities Department Suite 2 The Old Dairy Elm Farm Business Park Wymondham Norwich Norfolk NR18 0SW UNITED KINGDOM

WO0000001926450(31, 35)
Office of Origin: DE

Date of International Registration: 14 May 2026
Date of Designation in the UK: 14 May 2026

SciReef

International priority date claimed: 14 November 2025 (DE) (30 2025 123 800)

Class 31:
Live animals; live animals for breeding; live coral; live aquarium coral; animal feed and pet food; feed for marine animals; fish feed.

Class 35:
Retail, wholesale, and mail-order retail services related to marine aquarium products, particularly live corals.

SciReef GmbH

Date of International Registration: 17 April 2026
Date of Designation in the UK: 17 April 2026

TRACKINSIGHT

Class 9:
Software applications (downloadable software for mobile telephones, touchpads and apparatus with multimedia and interactive functionality), software, software packages and other recorded computer programs, related to the field of finance; electronic publications (downloadable), electronic books (downloadable), newsletters, electronic newspapers and magazines (downloadable) related to the field of finance.

Class 35:
Analysis, research and information services relating to business; business investigation services; compilation of information into computer databases; compilation of statistical models for the provision of information on market dynamics; commercial data recovery services; processing and verification of commercial data; market studies; collection and systematization of data in a central file; arranging subscriptions to a set of information tools; arranging subscriptions to telecommunication services for others; provision of advertising space by electronic means and via global information networks; sales promotion services for third parties.

Class 36:

Financial affair services; provision of information relating to finance provided online from a database or on the Internet; financial market analysis and preparation of reports relating thereto; computerized financial analysis services; provision of information on the stock/securities market; provision of financial information for portfolio management professionals relating to portfolio management; financial portfolio management and monitoring services; financial portfolio performance comparison services; provision and dissemination of financial information and indexes; provision of information relating to securities and stock index futures transactions on foreign markets; integration of financial data within customer systems; security portfolio risk monitoring services; collection, verification, organization, management, processing and provision of financial information intended for the management and/or mitigation of risk, as well as for commercial exchanges; financial evaluation, analysis and consulting services; financial analysis of risk profiles.

Class 38:
Provision of access to content, websites and Internet portals relating to the field of finance; electronic communication services for the preparation of financial information; provision of access to data or documents stored electronically in central files with a view to remote inquiry thereof; electronic exchange of data stored in databases accessible via telecommunication networks; provision of access and rental of access time to a computer database; telecommunication services; data transfer services; transmission services for digital data; provision of access to online simulation tools for testing and qualifying investment solution patterns on financial markets.

Class 39:
Physical storage of databases, images and other electronic data stored electronically.

Class 41:
Organization of professional workshops, classes and training relating to the field of finance; publication and editing of books, newsletters, newspapers and magazines relating to the field of finance; electronic desktop publishing; provision of non-downloadable online electronic publications; organization and conducting of colloquiums, conferences and congresses relating to the field of finance; organization of exhibitions for cultural or educational purposes.

Class 42:
Installation, maintenance and development of software applications (downloadable software for mobile telephones, touch pads and apparatus with multimedia and interactive functionality), software, software packages and other recorded computer programs related to the field of finance; temporary provision online of non-downloadable operating software for accessing a cloud computing network as well as for use thereof; provision of temporary use of non-downloadable software for analyzing financial data and generating reports; computer system integration services; electronic backup and storage of data in computer databases; conversion of computer data and programs other than physical conversion; document digitizing (scanning) services; computer database design services; rental of financial management software; research and development services relating to software for the financial industry; hosting of platforms on the Internet; infrastructure as a service [IaaS] being the hosting of computer software platforms for the storage, archiving and saving of data on cloud servers intended for use by third parties.

Class 6:
Pipes of metal; tubes of metal; pipework of metal; pipe collars of metal; pipe couplings of metal; pipe muffs of metal; clips of metal for pipes; valves of metal, other than parts of machines; elbows of metal for pipes; metal forgings; steel forgings; cable clamps of metal; hose clamps of metal; pipe clamps of metal; clamp connectors of metal for pipes, other than parts of machines; clamp connectors of metal for piping, other than parts of machines; clamps of metal for pipes, other than parts of machines; clip clamps of metal; metal band type clamps; metal clamps; metal flanges; anchor flanges of metal; flange plates of metal; flanged branch connections of metal; flanged branched outlets of metal; orifice flanges of metal; metal valves not being parts of machines; valves of metal for piping, other than parts of machines; valves of metal other than parts of machines including those from alloy steel and titanium; common metals and their alloys; common metals, unwrought or semi-wrought; articles of common metal for use in building; articles of metal for use in construction; building materials of metal; building materials made principally of common metal; couplings of metal for use with high pressure hoses; high pressure metal

cylinders [containers]; high pressure precision valves of metal, other than parts of machines; pressure reducing valves of metal, other than parts of machines; metal high pressure hoses; pressure pipes of metal, other than parts of machines; pipelines of metal for use with pressure gas cylinders; pressure actuated rings of metal; pressure gas cylinders made of metal; tanks of metal incorporating pumps; metal engine stands.

Class 7:
Valves being parts of machines; hydraulic valves [parts of machines]; machine couplings; pumps [machines]; compressors [machines]; filters being parts of machines or engines; regulators [parts of machines]; control valves [parts of machines]; pneumatic actuators for control valves; pneumatic control valves [parts of machines]; actuators for mechanisms; actuators for dampers; hydraulic actuators, other than for land vehicles; pneumatic actuators, other than for land vehicles; hydraulic rotary actuators, other than for land vehicles; pneumatic rotary actuators, other than for land vehicles; fluid pressure operated actuators, other than for land vehicles; hydraulic linear actuators, other than for land vehicles; pneumatic linear actuators, other than for land vehicles; hydraulic valve actuators; pneumatic valve actuators; gear boxes being parts of machines; automatic gear boxes, other than for land vehicles; gear boxes for hydraulic transmissions, other than for land vehicles; machine tools; machine tools for working metals; separators for liquids; steam/oil separators; separators [machines]; compressors as parts of machines, motors and engines; filters being parts of machines; filters for machines; machines for filtering; pressure regulating apparatus being parts of machines; pressure switches being parts of machines; pressure transformers [machines]; pressure vacuum pumps; pressure valves [parts of machines]; pressure reducers [parts of machines]; pressure intensifiers [machines]; pressure pipes of metal [parts of machines]; pressure pumps; oil pressure pumps; high pressure pumps; high pressure compressors; fluid pressure operated flow control valves [parts of machines]; machine tool holders for high-pressure water tools; pump installations; pumps [parts of machines, engines or motors]; oil-well pumping machines; pumps for the extraction of gases [machines]; portable pump installations for gases, other than for medical use; fluid pumps; fluid pumping installations; hydraulic pumps; aerating pumps; air compressor pumps; centrifugal pumps; circulating pumps; compressed air pumps; diaphragm pumps for pumping fluid material; diffusion pumps; electric water pumps; engine driven water pumps; engine fuel pumps; motors and engines, except for land vehicles; jet engines, other than for land vehicles; hydraulic engines; gas turbine engines; engines for compressors; engines for fixed installations; engines for mobile installations; engines for the generation of electricity; engines for use in powering stationary land installations; mechanical control apparatus for engines; mechanical control installations for machines, motors and engines; industrial control apparatus, hydraulic, for machines, engines or motors; industrial control apparatus, pneumatic, for machines, engines or motors; machines for use in building engines; parts of engines; metal joints for pipes [parts of engines]; metal high pressure hoses [parts of machines, engines or motors]; metal pipes [parts of engines]; oil filtering apparatus for engines; oil coolers for engines; turbochargers for engines; separators for oil; separators for separating solids from liquids; water separators; dust separators; magnetic separators for industrial use in separating magnetic materials from non-magnetic materials; floatation type oil-water separators; compressors for fluids; compressors for gases; air compressors; electric compressors; pistons for compressors; valves for compressors; hydraulic control devices for compressors; mechanical control devices for compressors; gas generators [compressors] for underwater lifting; turbocompressors; pneumatic compressors.

Class 11:
Safety valves for water pipes; apparatus for water supply; valves [parts of heating installations]; valves [parts of sanitary installations]; valves for controlling levels in tanks; water regulating valves [regulating accessories]; water regulating valves [safety accessories]; safety valves for water apparatus; safety valves for gas apparatus; apparatus for producing steam; air valves for steam heating installations; heat exchange apparatus, other than parts of machines; separators for the cleaning and purification of liquids; separators for the cleaning and purification of gases; pressure water tanks; pressure controllers [regulators] for gas apparatus; pressure controllers [regulators] for water apparatus; pressure relief valves [safety apparatus] for gas apparatus; pressure relief valves [safety apparatus] for water apparatus; water pressure reducers [regulating accessories]; water pressure reducers [safety accessories]; separators for purifying air; separators for purifying gas.

Class 35:
Procurement of goods on behalf of other businesses; procurement services for others [purchasing goods and services for other businesses]; import-export agency services; negotiation and conclusion of commercial transactions for third parties; compilation of information into computer databases.

SERGI
PROTECTING ENERGY INFRASTRUCTURE

International priority date claimed: 23 February 2026 (FR) (5230655)

Class 9:
Scientific apparatus, measuring apparatus, signaling apparatus, checking (supervision) apparatus and life-saving apparatus intended for use in the prevention of transformer explosions; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; fire extinguishers; fire detectors; pressure gauges; pressure gauges; temperature sensing apparatus; flow meters for circulating fluids included in this class; shut-off apparatus and devices using fluid circulation and/or differential pressure designed to monitor fluid flows, equipped with plugs and valves that close when the maximum output of the flow is exceeded; apparatus for monitoring and controlling the flow of gases; electric and electronic safety equipment and instruments; alarms; fire and explosion alarms; pressure alarms particularly flash devices [luminous signals] and sirens; warning beacons [flashing lights]; control and distribution apparatus, apparatus for transforming, accumulating, regulating or controlling electricity, namely electric transformers, fire stop apparatus, junction boxes [electricity], control and tap-off boxes [electricity]; equipment and apparatus for protecting transformers against explosions and fire particularly rupture discs; alarm control systems; devices for monitoring fire dust emissions; gas flow monitoring apparatus; apparatus for controlling the production of energy; temperature monitoring apparatus for industrial use; equipment for checking and recording the performance of machines; monitoring equipment for Internet of Things (IoT) devices; wireless controllers to remotely monitor and control the functions and status of electric, electronic or mechanical apparatus; power control devices; alarm control panels; apparatus and instruments for the electronic control of machines; electric installations for remote industrial operation; electro-dynamic apparatus for the remote control of signals.

Class 37:
Supervision (management) of construction works; construction, installation, repair and maintenance services, particularly by remote means; preventive maintenance services particularly the preventive replacement of parts and regular tests; maintenance services namely repair and/or refurbishment services; maintenance supervision services carried out by certified third parties; all the aforementioned services provided in relation to: mechanical devices intended for preventing (or controlling) transformer explosions and fires, apparatus and instruments for conducting, switching, transforming, accumulating, regulating

or controlling electricity, machine tools, pumps (machines), shut-off apparatus and devices using fluid circulation and differential pressure particularly non-metal valves, non-metal pressure relief flow valves, membranes and shutters, apparatus for evacuating dangerous gases, settlement tanks, fire extinguishers, fire detectors, manometers, pressure gauges, temperature sensing apparatus, flow meters for circulating fluids, shut-off apparatus and devices using fluid circulation and/or differential pressure designed to monitor fluid flows, apparatus for monitoring and controlling the flow of gases, electric and electronic security equipment and instruments, alarm instruments, fire and explosion alarms, pressure alarms particularly flash devices (luminous signals) and sirens, warning lights (flashing beacons), control and distribution apparatus, apparatus for transforming, accumulating, regulating or controlling electricity, namely electric transformers, fire stop apparatus, junction boxes (electricity), control and tap-off boxes (electricity), equipment and apparatus for protecting transformers against explosions and fire particularly rupture discs, alarm control systems, devices for monitoring fire dust emissions, apparatus for monitoring gas flows, apparatus for controlling energy production, temperature monitoring apparatus for industrial use, equipment for checking and recording the performance of machines, monitoring equipment for Internet of Things (IoT) devices, wireless controllers to remotely monitor and control the functions and statuses of electric, electronic or mechanical apparatus, power control devices, alarm control panels, apparatus and instruments for the electronic control of machines, electric installations for remote industrial operation, electro-dynamic apparatus for the remote control of signals.

Class 42:
Scientific and technological services; research, design and development services, namely assessment, analysis and research in the fields of science and technology, offered by engineers relating to the prevention of explosions and fire for transformers and apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; industrial research services, namely research and development of new products and technical research relating to the protection of transformers; industrial design; technical project studies relating to the protection of transformers and apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; energy auditing; electronic data storage.

HHOYA

Class 1:
Chemical and organic compositions for use in the manufacture of (animal) food, beverages, and food supplements; vitamins for the food industry; fermentation products for the food industry, including microorganisms such as bacteria, yeasts, and molds for use in the production of foodstuffs and ingredients; artificial sweeteners for the food industry; emulsifiers, including for foodstuffs; proteins for the food industry; plant extracts for the food industry; citric acid; acidic chemical thickeners; chemical products for preparing flavorings; enzymes for use in flavorings; aromatics [chemicals]; polyols [artificial sweeteners for industry]; tea extracts for the food industry; flavor enhancers for tea; vegetable proteins for processing in the (food) industry.

Class 5:
Dietary fibers; vitamin and mineral supplements; nutritional preparations not included in other classes; nutrients for microorganisms; oils and fats for medical use; the aforementioned products formulated with amino acids, vitamins, minerals, and trace elements, produced chemically or via fermentation; extracts of medicinal plants and herbs.

Class 29:
Processed fruits, mushrooms, vegetables, nuts, and pulses; fruit powders; dried vegetables; vegetable powders; processed seeds; oils and fats for food purposes; dairy products and dairy substitutes; egg products; albumen [white of egg]; protein in powder form; soups and broths; meat extracts.

Class 30:
Sugar, natural sweeteners, sweet coatings and fillings, bee products, and edible decorations; vegetable thickeners; salts, aromatics [other than volatile oils], flavorings [other than volatile oils], seasonings and herbs [spices]; flavoring substances for addition to food or drink [other than volatile oils]; coffee, tea, and cocoa and substitutes therefor.

Class 31:
Fresh fruits, nuts, vegetables, and herbs; natural plants; bulbs, seedlings, and seeds for planting; unprocessed tea leaves.

Class 35:
Advertising; marketing; promotional services; business management, organization, and administration; business organizational consultancy for new market developments and for sustainability in the food industry; providing advice on consumer products related to foodstuffs; administrative services; data processing, systematization, and management; business organizational, economic, and administrative consultancy; commercial mediation services; procurement services for third parties; wholesale services and retail services connected with the sale of chemical and organic compositions for use in the manufacture of (animal) food, beverages, and food supplements, vitamins for the food industry, fermentation products for the food industry, including microorganisms such as bacteria, yeasts, and molds for use

in the production of foodstuffs and ingredients, artificial sweeteners for the food industry, emulsifiers, including for foodstuffs, proteins for the food industry, plant extracts for the food industry, citric acid, acidic chemical thickeners, chemical products for preparing flavorings, enzymes for use in flavorings, aromatics [chemicals], polyols [artificial sweeteners for industry], tea extracts for the food industry, flavor enhancers for tea, vegetable proteins for processing in the (food) industry, dietary fibers, vitamin and mineral supplements, and nutritional preparations, formulated with amino acids, vitamins, minerals, and trace elements, produced chemically or via fermentation, nutrients for microorganisms, oils and fats for medical use, extracts of medicinal plants and herbs, processed fruits, mushrooms, vegetables, nuts, and pulses, fruit powders, dried vegetables, vegetable powders, processed seeds, oils and fats for food purposes, dairy products and dairy substitutes, egg products, albumen [white of egg], protein in powder form, soups and broths, meat extracts, sugar, natural sweeteners, sweet coatings and fillings, bee products, and edible decorations, vegetable thickeners, salts, aromatics [other than volatile oils], flavorings [other than volatile oils], seasonings and herbs [spices], flavoring substances for addition to food or drink [other than volatile oils], coffee, tea, and cocoa and substitutes therefor, fresh fruits, nuts, vegetables, and herbs, natural plants, bulbs, seedlings, and seeds for planting, unprocessed tea leaves, foodstuffs, and beverages; import-export agency services; online ordering services; commercial information; organization of events for publicity and/or commercial purposes; consultancy, guidance, and information regarding the aforementioned services; the aforementioned services also provided via electronic networks, such as the internet.

Class 39:
Transport; transport services, including freight transport and courier services; sorting (in the context of transport), weighing (in the context of transport), packaging, repackaging, wrapping, storage, transshipment, loading, and unloading of goods; rental of storage space; logistics planning regarding transport and distribution [delivery] of goods; consultancy, guidance, and information regarding the aforementioned services, also to be provided via electronic networks such as the internet.

Class 42:
Food hygiene (quality control regarding -); food analysis; research and development services in the field of nutrition, including in the field of reducing sugar content in soft drinks; inspection and testing of foodstuffs; quality assurance services; advice on the data to be included on foodstuffs, including nutritional values and health claims; consultancy, guidance, and information regarding the aforementioned services; the aforementioned services also provided via electronic networks, such as the internet.

The mark should have advertised in the following form:

ORIGIN
REPTILE

The specification for this application has been amended to read as follows:

Class 5:
Vitamin and mineral supplements for pets; Vitamin supplements for animals; Dietary supplements for animals.

Class 21:
Indoor terrariums for insects; Terrariums (Indoor -) [vivariums].

Class 31:
Food products for reptiles, amphibians, invertebrates, insects and arachnids; Foodstuffs for domestic reptiles, amphibians, invertebrates, insects and arachnids.

UK00004437456 (2026/037, 11 September 2026)

The mark should have advertised in the following form:

The specification for this application has been amended to read as follows:

Class 28:
Electronic games for teaching children; toys; toys for pets; toy robots; controllers for toys; action figures; talking dolls; smart toys; ball-jointed dolls [BJD]; mechanical action toys; playsets for dolls; toy dolls.

UK00004396279 (2026/028, 10 July 2026)

UK00004302066 (2026/037, 11 September 2026)

The specification for this application has been amended to read as follows:

Class 36:
Financial services; financial grant services; monetary services; fundraising services; financial sponsorship services; provision and arrangement of financial assistance, loans and grants; provision and arrangement of financial assistance, loans and grants for energy efficiency purposes; provision and arrangement of financial assistance, loans and grants for the purposes of installation and maintenance of renewable energy and heating systems; management of schemes for funding energy saving; provision of financial information to consumers and businesses; charitable fundraising; charitable services, namely, delivery and managing government schemes and programmes to enable the access of funding and award grants; information, advisory and consultancy services relating to all of the aforementioned services.

UK00004302067 (2026/037, 11 September 2026)

The specification for this application has been amended to read as follows:

Class 36:

Financial services; financial grant services; monetary services; fundraising services; financial sponsorship services; provision and arrangement of financial assistance, loans and grants; provision and arrangement of financial assistance, loans and grants for energy efficiency purposes; provision and arrangement of financial assistance, loans and grants for the purposes of installation and maintenance of renewable energy and heating systems; management of schemes for funding energy saving; provision of financial information to consumers and businesses; charitable fundraising; charitable services, namely, delivery and managing government schemes and programmes to enable the access of funding and award grants; information, advisory and consultancy services relating to all of the aforementioned services.

UK00004302070 (2026/037, 11 September 2026)

The specification for this application has been amended to read as follows:

Class 36:
Financial services; financial grant services; monetary services; fundraising services; financial sponsorship services; provision and arrangement of financial assistance, loans and grants; provision and arrangement of financial assistance, loans and grants for energy efficiency purposes; provision and arrangement of financial assistance, loans and grants for the purposes of installation and maintenance of renewable energy and heating systems; management of schemes for funding energy saving; provision of financial information to consumers and businesses; charitable fundraising; charitable services, namely, delivery and managing government schemes and programmes to enable the access of funding and award grants; information, advisory and consultancy services relating to all of the aforementioned services.

UK00004396681 (2026/026, 26 June 2026)

The specification for this application has been amended to read as follows:

Class 35:
Business management consultancy; organisational development consultancy; human resources management consultancy; workplace culture consultancy; business efficiency consultancy; consultancy relating to employee engagement; personnel management consultancy; business strategy consultancy; consultancy services relating to organisational behaviour; business analysis services; Business organisation consultancy; Professional business consultancy; Consultancy (Professional business -); Business organization consultancy; Business planning consultancy; Business organisation consulting; Business recruitment consultancy; Business organisation and management consultancy; Business management organisation consultancy; Business management consultancy services; Business management and organization consultancy; Business organisation and management consulting; Business management and organization consultancy services; Business management consultancy and advisory services; Consultancy and advisory services for business management; Business management consulting; Business organisation and management consulting services; Business organization and operation consultancy; Business process management consultancy; Consultancy relating to business organisation; Consultancy and advisory services in the field of business strategy; Consultancy relating to business management; Business management consulting services; Business research consulting; Business research and advisory services; Management consultancy services; Business research; Business management consultation; none of the aforesaid services relating to real estate, commercial real estate, property management, property investment, property finance, property valuation, property leasing, property letting, estate agency services, real estate agency services, real estate franchising, tenant vetting, tenant checks, tenant screening, tenant referencing, building construction, building repair, building maintenance, or security services for real estate or property.

UK00004429603 (2026/039, 25 September 2026)

The mark should have advertised in the following form:
SWIM by Huub

The specification for this application has been amended to read as follows:

Class 9:
Triathlon wet suits; wetsuits; wetsuits for surfing; wetsuits for water-skiing; wetsuits for diving; wetsuits for swimming.

UK00004298040 (2026/028, 10 July 2026)

UK00004397403 (2026/034, 21 August 2026)

UK00004434224 (2026/036, 04 September 2026)

The mark should have advertised in the following form:

Restrictions

UK00004399086 (2026/025, 19 June 2026)
Specifications have been restricted as follows:

Class 35:
Retail and wholesale services relating to hearing aids, hearing devices, assistive listening devices, hearing protection products, ear protection products, medical devices relating to audiology hearing health and ear health, audiology apparatus, diagnostic audiology equipment, hearing healthcare products, ear-health products, hearing technologies and accessories for the aforesaid goods; subscription retail services relating to hearing, audiology and ear-health products and devices; e-commerce services relating to hearing healthcare, audiology, ear-health and hearing technology products; business management, administration and operation of hearing healthcare, audiology and ear-health clinics; marketing, promotional and business consultancy services relating to hearing healthcare, audiology and ear-health services; provision of online marketplaces relating to hearing healthcare, audiology and ear-health products and services;

UK00004414344 (2026/030, 24 July 2026)
Specifications have been restricted as follows:

UK00004383948 (2026/030, 24 July 2026)
Specifications have been restricted as follows:

Class 44:
Healthcare; healthcare services; health screening; mental health services; human healthcare services; health risk assessment surveys; mental health screening services; healthcare information services; medical and healthcare services; providing medical information in the healthcare sector; information services relating to health care; birth attendant services; medical advice in the field of pregnancy; advisory services relating to health care.

UK00004389116 (2026/032, 07 August 2026)

UK00004415697 (2026/030, 24 July 2026)
Specifications have been restricted as follows:

Class 35:
Sales promotion; promotion of sales to third parties; sales promotion for third parties; trade statistical information services; dissemination of advertising material by post (brochures, leaflets, printed matter and samples); advertising services; organisation of exhibitions for commercial or advertising purposes; organisation of exhibitions for business purposes; trade fair organisation services for commercial or advertising purposes; marketing, advertising and promotion services; presentation of products in any means of communication for retail sale; retail services connected with the sale of sports equipment, clothing, games, toys, bags, wallets, toys and playthings, jewellery, stationery, printed matter, books and computer software; online retail services for downloadable digital music; retail services in relation to downloadable virtual works of art; retail services in relation to downloadable music files; retail services in relation to downloadable electronic publications; retail services relating to audio-visual equipment; providing a searchable online advertising guide featuring the goods and services of online vendors; providing a searchable online advertising guide featuring the goods and services of other online vendors on the internet; retail services in relation to gardening products; retail services in relation to educational supplies; retail services in relation to games.

UK00004403070 (2026/027, 03 July 2026)

UK00004403070 (2026/027, 03 July 2026)

UK00004408910 (2026/030, 24 July 2026)
Specifications have been restricted as follows:

Class 5:
Pharmaceutical preparations for the treatment of obesity, delivered by injection or tablet.

UK00004392174 (2026/027, 03 July 2026)

UK00004435836 (2026/037, 11 September 2026)
Specifications have been restricted as follows:

Class 9:
Software; Computer software; Collaboration software platforms [software]; Computer software packages; Enterprise software; Software for computers; Plugin software; Multimedia software; Software applications; System software; Workflow software;

Computer software applications; Downloadable computer software; Computer application software; Computer software platforms; Server-side software; Application software; Computer e-commerce software; Computer software programs; E-commerce software; Computer software applications, downloadable; Downloadable computer software applications; Downloadable software; Server software; Computer interface software; Business software; Platform software; Operating software; Accounting software; Programs (Computer -) [downloadable software]; Computer programs [downloadable software]; Computer operating software; Smartphone software; Software suites; Embedded software; Optimisation software; Mobile software; Computer software [programmes]; Utility software; Software for smartphones; Business technology software; Downloadable software applications; Computer software for database management; Downloadable computer software for the management of data; none of the aforesaid goods being on the subject of, or for use in relation to animals, pets, animal products, pet products, animal identification, location monitoring tracking and recovery or animal health monitoring.

Class 42:
Computer software integration; Development of computer software; Computer software consultancy; Consultancy (Computer software -); Computer software consulting; Computer hardware and software design; Software development in the framework of software publishing; Computer software design; Software design (Computer -); Computer software (Design of -); Design of computer software; Computer software engineering; Development of software; Software development; Computer software installation; Installation of computer software; Computer software (Installation of -); Update of computer software; Design of software; Software design; Rental of computer hardware and software; Development of computer database software; Installation of software; Software installation; Computer software maintenance; Maintenance of computer software; Leasing of computer software; Computer software design services; Developing computer software; Software as a service [SaaS] featuring software for machine learning; Upgrading of computer software; Updating of computer software; Software (Updating of computer -); Computer software (Updating of -); Development of computer software application solutions; Computer software programming services; Hiring of computer software; none of the aforesaid goods being on the subject of, or for use in relation to animals, pets, animal products, pet products, animal identification, location monitoring tracking and recovery or animal health monitoring.

UK00004413908 (2026/029, 17 July 2026)

UK00004437526 (2026/037, 11 September 2026)
Specifications have been restricted as follows:

Class 28:
Electronic games for teaching children; toys; toys for pets; toy robots; controllers for toys; action figures; talking dolls; smart toys; ball-jointed dolls [BJD]; mechanical action toys; playsets for dolls; toy dolls.

UK00004409722 (2026/035, 28 August 2026)
Specifications have been restricted as follows:

Class 9:
Computer software; Computer software applications, downloadable; Downloadable computer software; Downloadable mobile applications; Application software; Business software; software; Artificial intelligence software; Internet messaging software; Email software; Scheduling software; Reservation systems software; Decision-making software; Platform software; Data management software; none of the aforementioned in the field of dating and social networking; Business management software; Business process management [BPM] software; Workflow management system software; Project management software; Database server software; Enterprise resource planning [ERP] software; Workforce management software; Optimisation software; Payment software; Accounting software; Inventory software; Document management software; Machine learning software ; Cloud computing software; Software for GPS navigation; Map software; Vehicle tracking systems; Maintenance software; Financial management software.

Class 35:
Business management; Business administration; Office functions; Business management services; Business administration and management; Business project management; Business process management; Business records management; Business accounts management; Commercial business management; Data management; Database management; Business management and consultancy; Business management and consulting; Business management and consultancy services; Business management consultancy; Business organisation consultancy; Business management and organisation consultancy; Business information services; Business efficiency expert services; Data processing; Computerized database management; Compilation of information into computer databases; Systemisation of information into computer databases; Administrative data processing; none of the aforementioned in the field of dating and social networking.

Class 42:
Development of computer software; Computer software development; Software development; Development of software; Design of software; Software design; Design of computer software; Computer software design; Computer software integration; Development of computer software application solutions; Software as a service [SaaS] featuring software for machine learning; Software as a service [SaaS] featuring software for deep learning; Software as a service [SaaS] featuring computer software platforms for artificial intelligence; Software as a service [SaaS]; Software as a service; Software as a service [SAAS] services; Computer software design services; Services for the design of computer software; Services for designing computer software; Software as a service [SaaS] services featuring software for machine learning, deep learning and deep neural networks; Software as a service [SaaS] featuring software for deep neural networks; Design and development of computer software; Updating of software; Maintenance of software; Hosting services, software as a service, and rental of software; Computer programming; Cloud computing services; Cloud hosting provider services; Platform as a Service [PaaS]; Hosting computer software applications for others; Providing temporary use of non-downloadable software; Providing temporary use of online non-downloadable software; Software engineering; Software maintenance services; Software consultancy services; Electronic data storage; Hosting of databases; Application service provider [ASP] services;

Artificial intelligence consultancy; Artificial intelligence as a service (AIAAS); Software engineering services; Database design and development; none of the aforementioned in the field of dating and social networking.

UK00004400126 (2026/026, 26 June 2026)
Specifications have been restricted as follows:

UK00004383323 (2026/022, 29 May 2026)
Specifications have been restricted as follows:

Class 36:
Financial services relating to the acquisition and financing of data centres, AI infrastructure, physical grid operations; financial loan services relating to the acquisition and financing of data centres, AI infrastructure, physical grid operations; financial payment services relating to the acquisition and financing of data centres, AI infrastructure, physical grid operations; payment processing services relating to the acquisition and financing of data centres, AI infrastructure, physical grid operations; financial services relating to acquisition of data centres; services relating to the financing of data centres; real estate services; real estate management services; land acquisition services; management of land; real estate services relating to the acquisition of data centres; real estate management of data centres; information, advice and consultancy relating to the aforesaid services.

Class 37:
Installation of data centres; installation of computer hardware for data centres, AI infrastructure, physical grid operations; installation of telecommunications equipment for data centres, AI infrastructure, physical grid operations; maintenance of data centres; maintenance of computer hardware for data centres, AI infrastructure, physical grid operations; maintenance of telecommunications equipment for data centres, AI infrastructure, physical grid operations; repair of data centres; repair of computer hardware for data centres, AI infrastructure, physical grid operations; repair of telecommunications equipment for data centres, AI infrastructure, physical grid operations; information, advice and consultancy relating to the aforesaid services.

Class 42:
Provision of data centre facilities; rental of data centre facilities; design services relating to data centres; rental of web servers; server hosting in data centres; electronic data storage in data centres; cloud computing provided via data centres; computer system analysis relating to data centres, AI infrastructure, physical grid operations; computer security consultancy relating to data centres, AI infrastructure, physical grid operations; hosting computer sites [web sites] in data centres; internet security consultancy; monitoring of computer systems in data centres, AI infrastructure, physical grid operations by remote access; data security consultancy; computer security system monitoring services; monitoring of computer systems for detecting unauthorised access or data breach; computer security services for protection against illegal network access; data encryption services; information, advice and consultancy relating to the aforesaid services.

UK00004367156 (2026/023, 05 June 2026)
Specifications have been restricted as follows:

Class 9:
Battery powered torches, magnifiers, camera filters, cameras, digital cameras, camera containing a linear image sensor, camera lenses, cameras with liquid crystal projector, glass filters, forensic goggles; security and detection equipment, namely, light guides, interference filters, polarising filters, light emitting diodes (LED's); monochromatic light sources; photographic light sources and ring lights; all of the aforementioned goods for use in forensics.

Class 11:
Forensic light sources, light sources; lights and lighting apparatus; torches, flash lights, filters for use with torches; security and search lights and lamps; all of the aforementioned goods for use in forensics.

UK00004419139 (2026/034, 21 August 2026)
Specifications have been restricted as follows:

Class 9:
Computer software, computer hardware, mobile apps, machine learning software, and artificial intelligence software, all relating to fraud prevention; Computer software, computer hardware, mobile apps, machine learning software, and artificial intelligence software for communications and telecommunications purposes, namely detecting, reporting, analysing and preventing fraudulent communications; Computer software, computer hardware, mobile apps, machine learning software, and artificial intelligence software for privacy purposes in the fields of communications and telecommunications; none of the aforesaid being for use in the field of military security.

UK00004413984 (2026/030, 24 July 2026)
Specifications have been restricted as follows:

Class 9:
Mobile apps; Application software for mobile phones; Mobile software; Software for mobile phones; Mobile application software; Application software for mobile devices; Computer application software for mobile phones; Downloadable software applications for mobile phones; Downloadable mobile applications; Downloadable applications for use with mobile devices; Downloadable applications for mobile devices; Software applications for use with mobile devices; Software applications for mobile devices; Software and applications for mobile devices; Downloadable mobile applications for use with wearable computer devices; Downloadable software in the nature of a mobile application; Computer application software for mobile telephones; Educational mobile applications; Mobile app's; all of the aforesaid goods relating to religious development.

Class 42:
Platform as a service [PaaS] featuring software platforms for transmission of images, audio-visual content, video content and messages; Hosting of digital content online; Hosting of digital content, namely, on-line journals and blogs; all of the aforesaid services relating to religious development.

UK00004407522 (2026/030, 24 July 2026)
Specifications have been restricted as follows:

Class 35:
Advertising; Business management, organization and administration; Office functions; Retail services and online retail services connected with the sale of food, non-alcoholic

beverages, coffee, tea, cocoa, bakery products, pastries, cakes, confectionery, sandwiches, prepared meals, crockery, mugs, apparel; Business management of restaurants, cafés, and coffee shops; Business administration of café and restaurant franchises; Advertising, marketing and promotional services for cafés and restaurants; Administration of customer loyalty and loyalty card schemes; Online ordering services in the field of restaurant take-out and food delivery; none of the foregoing to include alcoholic beverages; Information, advice and consultancy services relating to the aforesaid.

Specifications have been restricted as follows:

Class 9:
Downloadable software for use in relation to AI; AI-enabled software; AI software; AI-enabled software tools; AI agent software; downloadable AI agent platforms; workflow software and applications; workflow management software; computer software for creating, managing and implementing software applications; none of the aforesaid goods relating to entertainment software, gaming, computer games or video games; all the aforesaid goods excluding software for building information modelling (BIM), software for digital construction, software for architecture, software for engineering, software for construction project management, software for construction information management, software for common data environments, software for construction documents, software for data management and software for digital twins for buildings, infrastructure or built assets; downloadable computer software for the management of business processes and workflow, business processes automation, enterprise transformation, the development of marketing strategies and concepts, personnel and human resource management, leadership marketing strategies and concepts and business strategy.

Class 35:
Business management services; business consultancy services; business consultancy relating to the adoption, use and administration of information technology; business management consulting services relating to information technology; business advice services relating to the use and adoption of AI technology; all the aforesaid services excluding business management, business consultancy or business advice services for building information modelling (BIM), digital construction, architectural design services for buildings and the built environment, engineering, construction, construction information management, common data environments, construction documents, construction data management, digital twins for buildings, infrastructure and built assets; business organisation and management consultancy in the field of personnel management; human resources management; advice and consultancy relating to leadership; business advice services relating to enterprise transformation; development of marketing strategies and concepts; business strategy development services; business resilience consultancy services; operational resilience consultancy services; technology resilience consultancy services; organisational change and transformation services; business consultancy services relating to disaster planning and recovery; business resilience architecture services; business resilience programme design and consultancy.

Class 42:
Information technology consulting; software design and consultancy; design and development of AI; artificial intelligence consultancy; artificial intelligence as a service (AIAAS); software as a service (SaaS) featuring computer software platforms for artificial intelligence; technological advice in relation to the adoption of AI; platform as a service (PaaS) featuring computer software for creating, managing and implementing software applications; software as a service (SaaS) services featuring computer software for creating, managing and implementing software applications; non-downloadable AI agent platforms; software as a service (SaaS) featuring AI agent platforms; none of the aforesaid services relating to entertainment software, gaming, computer games or video games; all the aforesaid software and technology services excluding software and technology services for building information modelling (BIM), architecture, engineering, digital construction, construction project management, construction information management, common data environments, construction document management, construction data management and digital twins for buildings, infrastructure and built assets; scientific and technological services and research and design relating thereto; industrial analysis and industrial research services; technological consultancy; non-downloadable computer software for the management of workflow and business processes automation, enterprise transformation, the development of marketing strategies and concepts, personnel and human resource management, leadership marketing strategies and concepts and business strategy; software as a service (SaaS) featuring software for management of business processes and workflow, business processes automation, enterprise transformation, the development of marketing strategies and concepts, personnel and human resource management, leadership marketing strategies and concepts and business strategy; platform as a service (PaaS) featuring software for management of business processes and workflow, business processes automation, enterprise transformation, the development of marketing strategies and concepts, personnel and human resource management, leadership marketing strategies and concepts and business strategy; technology resilience consultancy services; technology resilience architecture services; technology resilience programme design and consultancy.

UK00004400116 (2026/026, 26 June 2026)
Specifications have been restricted as follows:

Class 7:

Vibration and pneumatic machines and associated machine tools; Anti vibration tools made from rubber; air-driven tools; air-powered tools; mechanical tools; tool bits for use in power operated hand tools; tools for machine tools; tools for machines; tools for use in machine tools; tools for use with machine tools; tools (Hand-held -), other than hand-operated; machines and machine tools for treatment of materials and for manufacturing; machines, machine tools, and power-operated tools and apparatus, for fastening and joining; machine tools namely sockets, socket sets, spanners, timing sets, screwdrivers, puller sets; air tools including impact guns, air ratchets, jacks,wheel bearing sets; air powered tools; electrically powered hand tools; motors and engines (except for land vehicles); parts of engines and motors; machine coupling and transmission components (except for land vehicles); exhausts and starters (for vehicles); agricultural implements other than hand-operated; power operated machines and apparatus all for the digging, excavating, mechanical handling, lifting, loading and transporting of earth, minerals, soil, crops and of like materials; hydraulic jacks; hydraulic hammers; hydraulic excavators; hydraulic engines and motors; hydraulic door openers; hydraulic door closers; hydraulic conveyors; hydraulic circuits for machines; hydraulic actuators; hydraulic power tools; hydraulic pumps; hydraulic tools; conveying chains; alternators; water pumps; oil pumps for use in motors and engines; ignition devices for motors of land vehicles; power operated drills; power operated screwdrivers; power operated saws; power operated planers; power operated sanders; gardening and woodworking tools; hoisting machines including overhead cranes for industrial lifting and machine tools; flame sprayers; vacuum cleaners; electric drills; electric screwdrivers; parts and fittings for all the aforegoing goods; none of the above-mentioned goods are connected with the naval defence sector.

Class 9:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, supervision, life-saving and teaching apparatus and instruments; electrotechnical vibration meters; vibration dampeners, detectors, gauges, meters, sensors and speakers; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; mechanisms for coin operated apparatus; calculating machines; fireextinguishing apparatus; recorded media; telecommunications cable; Electrotechnical vibration meters; computer equipment adapted for use with an external display screen or monitor; mouse mats; mobile phone accessories; spectacles and sunglasses; clothing for protection against injury, accident, irradiation or fire; protective hats; protective boots; furniture adapted for laboratory use; electric accumulators; acidmeters for batteries; acoustic alarms; aerials; alarm bells [electric]; alarms; ammeters; anti-glare visors; anti-theft warning devices; battery boxes; battery chargers; bells [warning devices]; buzzers; electric buzzers; junction sleeves for electric cables; cables [electric]; capacitors; chargers for electric batteries; choking coils; circuit breakers; electric conductors; electric contacts; control panels [electricity]; detectors; light dimmers; distance measuring apparatus; distance recording apparatus; distribution boards [electricity]; distribution boxes [electricity]; distribution consoles [electricity]; ducts [electricity]; fuses; identification sheaths for electric wires; identification threads for electric wires; inclinometers; indicators [electricity]; quantity indicators; speed indicators; water level indicators; inductors [electricity]; intercommunication apparatus; junction boxes [electricity]; junction sleeves for electric cables; electric locks; meters; mileage recorders; ohmmeters; plugs; sockets and other contacts [electric connections]; pressure gauges; automatic indicators of low pressure tyres; pressure indicating plugs for valves; pressure indicators; pressure measuring apparatus; printed circuits; radios; telephone receivers; automatic steering apparatus for vehicles; tachometers; tape recorders and players; temperature indicators; thermostats; automatic indicators of low pressure in tyres; all of the above being for power operated machines and apparatus all for the lifting, loading and handling of earth, minerals and the like materials or for vehicles, including trains, agricultural vehicles and tractors; anti-glare glasses; workmens' protective face shields; filters for respiratory masks; fire hose nozzels; flashing lights [luminous signals]; goggles; gloves for protection against accidents; helmets [protective]; knee pads for workers; levelling instruments; levelling staffs [surveying instruments]; levels [instruments for determining horizontal]; nets for protection against accidents; protective masks for workmen; remote control apparatus; respirators for filtering air; safety restraints [other than for vehicle seats and sports equipment]; safety tarpaulins; reflective discs for wear for the prevention of traffic accidents; vacuum gauges; vehicle breakdown warning triangles; none of the above-mentioned goods are connected with the naval defence sector.

Class 16:
Printed matter; user manuals; manuals; instructional and teaching materials; printed manuals; printed technical manuals, technical bulletins and technical advisories; photographs; printed diagrams and illustrations; graphic art; graphic works; printed leaflets; publications; books; educational books; printed tutorials, seminars and lectures; printed forms; calendars and diaries; organisers; reminder pads; magazines; stationery; goods made from paper and cardboard namely, stickers, labels, posters, brochures, flyers, journals; printed certificates; newsletters; reports; notes, plans, drawings and pamphlets; document files and printed forms; manuscript books; pocket memorandum books; note books; boxes; office requisites; stationary; binders and folders; business cards; forms and files made of paper; logbooks [bookkeeping]; advertising and promotional materials; pop up stands made from paper or cardboard; boxes and materials for packaging (not included in other classes); coasters; parts and fittings for all the aforegoing goods; none of the above-mentioned goods are connected with the naval defence sector.

UK00004398488 (2026/026, 26 June 2026)
Specifications have been restricted as follows:

Class 9:
Prerecorded fitness DVDs; Downloadable podcasts; Training guides in electronic format; Training manuals in the form of a computer program; Downloadable videos; Downloadable e-books; Mobile application software; Downloadable publications; Downloadable instruction manuals in electronic form; All the aforesaid being in relation to health, fitness and wellbeing.

Class 41:
Exercise and fitness classes; Fitness and exercise instruction; Health and fitness training; Personal trainer services [fitness training]; Fitness and exercise training services; Sports and

fitness; Physical fitness training services; Conducting physical fitness conditioning classes; Health club services [health and fitness training]; Instruction courses relating to physical fitness; Physical fitness consultation; Health and fitness club services; Consultancy relating to physical fitness training; Aerobics training services; Providing fitness and exercise facilities; Sports and fitness services; Physical fitness education services; Pilates instruction; Conducting training sessions on physical fitness online; Physical fitness centres; Yoga instruction; Health and wellness training; Instruction in weight training; Keep-fit instruction; Instruction in group exercise; Provision of health club [physical exercise] facilities; Providing instruction and equipment in the field of physical exercise; Provision of educational health and fitness information; Instruction in circuit training; Recreation and training services; Personal trainer services; Exercise [fitness] training services; Physical fitness instruction; All the aforesaid being in relation to health, fitness and wellbeing.

UK00004419185 (2026/031, 31 July 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable computer software, downloadable mobile applications, downloadable application programming interface software and downloadable software development kits for insurance quotation and comparison; none of the aforesaid being software for statutory financial reporting, prudential reporting or regulatory reporting, or software for preparing, reading, reviewing, validating or submitting XBRL or iXBRL data or filings.

Class 42:
Software as a service [SaaS] for insurance quotation and comparison; hosting, development, maintenance, deployment and integration of white-label insurance quotation and comparison platforms and web applications; design, development, maintenance, deployment and integration of application programming interfaces for insurance quotation and comparison; none of the aforesaid services being for or relating to software for statutory financial reporting, prudential reporting or regulatory reporting, or software for preparing, reading, reviewing, validating or submitting XBRL or iXBRL data or filings.

UK00004397547 (2026/028, 10 July 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable electronic publications related to personal and professional development such as: Downloadable books; Downloadable e-books; Downloadable workbooks; Downloadable journals; Downloadable educational materials; Downloadable training materials; Downloadable templates; Downloadable marketing materials; Downloadable audio recordings; Downloadable video recordings; Downloadable courses and instructional content; None of the foregoing relating to or for use in connection with medical, surgical, therapeutic or diagnostic goods or services.

Class 16:
Printed publications related to personal and professional development courses, programs, consultancy such as: Books; Workbooks; Journals; Planners; Printed training materials; Printed educational materials; Printed instructional and teaching materials; Printed marketing materials; Stationery; None of the foregoing relating to or for use in connection with medical, surgical, therapeutic or diagnostic goods or services.

Class 35:
Marketing services related to personal and professional development programs, courses, consultancy, public speaking; Marketing consultancy related to personal development programs, courses, consultancy; Business marketing consultancy related to personal development programs, courses, consultancy, public speaking; Development of marketing strategies and concepts related to personal development programs, courses, consultancy, public speaking; Preparation of marketing plans related to personal development programs, courses, consultancy, public speaking; Preparation and production of advertising and marketing materials; Copywriting for advertising and promotional purposes related to personal development programs, courses, consultancy, public speaking; Brand strategy services; Business consultancy services related to personal development programs, courses, consultancy, public speaking; Business development consultancy services; Business networking services; Consultancy, advisory and information services relating to marketing, branding, business development and business strategy; None of the foregoing relating to or for use in connection with medical, surgical, therapeutic or diagnostic goods or services.

Class 41:
Education and training services; Personal and professional coaching services such as: Leadership training; Professional and personal development training; Public speaking services; Keynote speaking services; Motivational speaking services; Arranging and conducting workshops, seminars, webinars, masterclasses, training courses and educational events; Provision of online non-downloadable educational content; Publication of educational materials; Consultancy, advisory and information services relating to education, training, coaching, leadership, business development and professional development; None of the foregoing relating to or for use in connection with medical, surgical, therapeutic or diagnostic goods or services.

UK00004402526 (2026/026, 26 June 2026)
Specifications have been restricted as follows:

Class 5:
Nutritional supplements; Dietary and nutritional supplements; Dietary supplements; Food supplements; Vitamin and mineral supplements; Herbal dietary supplements for persons special dietary requirements; none of the aforesaid goods being pharmaceuticals or supplements containing citicoline, choline salts, choline alfoscerate or any acetylcholine precursor; and none of the aforesaid goods being nootropic supplements for use in relation to memory, attention or cognitive functions.

Class 35:
Retail services in relation to dietary supplements; excluding retail services in relation to pharmaceuticals or supplements containing citicoline, choline salts, choline alfoscerate or any acetylcholine precursor, and excluding retail services in relation to nootropic supplements for use in relation to memory, attention or cognitive functions.

UK00004435764 (2026/037, 11 September 2026)
Specifications have been restricted as follows:

Class 43:

Mobile catering services provided at festivals; Mobile catering; Catering services.

UK00004399589 (2026/026, 26 June 2026)

UK00004437927 (2026/037, 11 September 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable mobile applications; downloadable navigation software; downloadable software for flight planning; downloadable software for flight tracking; downloadable software for recording and managing flight logs; downloadable software for displaying maps, airspace information, weather information and notices to airmen [NOTAMs]; downloadable software for GPS navigation; downloadable software for social networking; downloadable software for messaging and sharing photographs, videos, audio recordings, location data and flight data; downloadable software for organising aviation events and competitions; all the aforesaid in the field of aviation.

Class 38:
Providing online chatrooms; providing online forums; providing online chatrooms for social networking; provision of online forums for the transmission of messages among users; electronic transmission of messages, photographs, videos, audio recordings, location data and flight data; providing access to online communities; digital communication services; all the aforesaid in the field of aviation.

Class 41:
Organisation of sporting competitions; arranging and conducting sporting events; organisation of aviation events; providing information relating to sporting events and competitions; arranging and conducting recreational events; all the aforesaid in the field of aviation.

Class 42:
Software as a service [SaaS]; platform as a service [PaaS]; providing online non-downloadable software for aviation navigation, flight planning, flight tracking, flight recording, flight logging and flight playback; providing online non-downloadable software for displaying maps, airspace information, weather information and notices to airmen [NOTAMs]; providing online non-downloadable software for social networking, messaging, content sharing and organising aviation events and competitions; hosting of online platforms; electronic storage of flight data; providing online geographic maps, not downloadable; providing weather information; all the aforesaid in the field of aviation.

Class 45:
Online social networking services; internet-based social networking services; online social networking services for pilots and aviation enthusiasts; providing user profiles for social networking purposes; all the aforesaid in the field of aviation.

UK00004415849 (2026/030, 24 July 2026)
Specifications have been restricted as follows:

Class 5:
Vitamin tablets; Effervescent vitamin tablets; none of the aforesaid containing malt and/or malt extract.

UK00004410434 (2026/038, 18 September 2026)
Specifications have been restricted as follows:

Class 12:
Hub caps; Vehicle running boards; Bumpers for automobiles; Shock absorbers for automobiles; Shock absorbing springs for automobiles; Spare tire carriers for vehicles; Automobile roof racks; Trailer hitches for vehicles; Tailboard lifts [parts of land vehicles]; Air pumps [vehicle accessories]; Arm rests for vehicles; Roof boxes for vehicles; Roof rack storage containers for land vehicles; Caps for vehicle fuel tanks; Fuel tanks for vehicles; Cup holders for vehicles; Hubs for vehicle wheels; Air deflectors for vehicles; Handbrake knobs for vehicles; all the aforesaid goods being aftermarket exterior accessories and protective parts for sport utility vehicles, pick-up trucks, multi-purpose vehicles and off-road vehicles; none of the aforesaid goods being body panels, body pressings or replacement body parts for classic, historic or vintage motor vehicles.

UK00004420971 (2026/032, 07 August 2026)
Specifications have been restricted as follows:

Class 35:
Retail services in relation to pet products; Retail services relating to bakery products; Retail services in relation to chocolate; Online retail services relating to jewelry; Retail services in relation to toiletries; Retail services connected with the sale of subscription boxes containing food; Retail services relating to jewelry; Online retail store services relating to clothing; Online retail services relating to handbags; Online retail services relating to luggage; Retail services in relation to furnishings; Providing online marketplaces for sellers of goods and or services; Retail services in relation to dietary supplements; Retail services relating to sporting goods; Wholesale services in relation to horticulture products; Online retail services relating to cosmetics; Retail services connected with stationery; Retail services in relation to bags; Retail services in relation to bakery products; Retail services in relation to agricultural equipment; Retail services in relation to jewellery; Online retail services relating to clothing; Retail services in relation to sanitation equipment; Retail services in relation to teas; Retail services in relation to cookware; Retail services in relation to confectionery; Online retail services relating to toys; Online retail store services in relation to clothing; Retail services in relation to smartphones; Retail services in relation to baked goods; Retail services in relation to tableware; Retail services in relation to educational supplies; Purchasing of goods and services for other businesses; Shop retail services connected with carpets; Retail services in relation to hair products; Retail services in relation to gardening products; Online retail store services relating to cosmetic and beauty products.

UK00004367145 (2026/026, 26 June 2026)
Specifications have been restricted as follows:

Class 9:
Downloadable podcasts; Downloadable videocasts; all the aforesaid goods being provided on the subjects of pregnancy, maternity, parenting, infant healthcare, antenatal information and advice, postnatal information and advice and/or in the field of paediatric healthcare.

Class 38:
Streaming audio and video material on the Internet; all the aforesaid services being provided on the subjects of pregnancy, maternity, parenting, infant healthcare, antenatal information

and advice, postnatal information and advice and/or in the field of paediatric healthcare.

Class 42:
Hosting of podcasts; Hosting of videocasts; all the aforesaid services being provided on the subjects of pregnancy, maternity, parenting, infant healthcare, antenatal information and advice, postnatal information and advice and/or in the field of paediatric healthcare.

UK00004422492 (2026/032, 07 August 2026)
Specifications have been restricted as follows:

Class 5:
Dietary supplements; nutritional supplements; food supplements; vitamin supplements; mineral supplements; vitamin and mineral supplements; herbal supplements; probiotic supplements; prebiotic supplements; protein supplements; amino acid supplements; electrolyte supplements; antioxidant supplements; collagen supplements; dietary supplements for human consumption; dietary supplements for athletes and sportspeople; supplements for use in sport, fitness, exercise and recovery; none of the aforesaid for animals or veterinary purposes.

UK00004390408 (2026/032, 07 August 2026)
Specifications have been restricted as follows:

UK00004427671 (2026/035, 28 August 2026)
Specifications have been restricted as follows:

Class 5:
Baby diapers; babies' diaper-pants; Anti-bacterial wipes; medicated diaper rash ointments; medicated baby powder; bath preparations, medicated; medicated baby oils; disinfecting preparations, germicides; pharmaceutical preparations for treating heatstroke; sunburn ointments; lacteal flour for babies; food for infants; breast-nursing pads; antiseptic cotton; diapers for pets; diaper; swim diapers for babies; babies' nappy-pants; sanitizing wipes.

UK00004421774 (2026/031, 31 July 2026)

UK00004401216 (2026/026, 26 June 2026)
Specifications have been restricted as follows:

UK00004399796 (2026/030, 24 July 2026)

UK00004224414 (2025/029, 18 July 2025)
Specifications have been restricted as follows:

Class 36:
Estate agency and property letting services offered via computer software or other digital means to landlords, estate agents and property managers; Real estate affairs offered via computer software or other digital means to landlords, estate agents and property managers ; Insurance offered via computer software or other digital means to landlords, estate agents and property managers ; Real estate property leasing offered via computer software or other digital means to landlords, estate agents and property managers; Real estate property services offered via computer software or other digital means to landlords, estate agents and property managers; Estate agency and property letting services offered via computer software or other digital means to landlords, estate agents and property managers; Property valuation offered via computer software or other digital means to landlords, estate agents and property managers; Provision Of information, consultancy and advisory services to landlords, estate agents and property managers in relation to the sale and purchase Of real estate and house moving; Brokerage services offered via computer software or other digital means to landlords, estate agents and property managers; Insurance brokerage services offered via computer software or other digital means to landlords, estate agents and property managers; Financial brokerage services offered via computer software or other digital means to landlords, estate agents and property managers; Real-estate brokerage services Offered via computer software or Other digital means to landlords, estate agents and property managers; Financial evaluation offered via computer software or other digital means to landlords, estate agents and property managers; Information, advisory and consultancy services relating to all the aforesaid services.

UK00004400116 (2026/026, 26 June 2026)
Specifications have been restricted as follows:

Class 6:
Metal tool boxes; metal containers for tools; metal cases fitted for tools; metal racks for tools; metal materials for tools; signs of metal; common metals and their alloys; non-electric cables and wires of common metal; ironmongery, small items of metal hardware; pipes and tubes of metal; safes; ores; wrought common metals; steel, unwrought or semi-wrought; linkages of metal (cable -) [non-electric]; metal rods; cables of metal, non-electric; collars of metal; metal brackets; couplings of metal for chains; locks of metal; latches of metal; metal handles; hinges of metal; number plates of metal; ducts and pipes of metal; metal ventilation channels; parts and fittings for all the aforegoing goods.

Class 7:
Vibration and pneumatic machines and associated machine tools; Anti vibration tools made from rubber; air-driven tools; air-powered tools; mechanical tools; tool bits for use in power operated hand tools; tools for machine tools; tools for machines; tools for use in machine tools; tools for use with machine tools; tools (Hand-held -), other than hand-operated; machines and machine tools for treatment of materials and for manufacturing; machines, machine tools, and power-operated tools and apparatus, for fastening and joining; machine tools namely sockets, socket sets, spanners, timing sets, screwdrivers, puller sets; air tools including impact guns, air ratchets, jacks,wheel bearing sets; air powered tools; electrically powered hand tools; motors and engines (except for land vehicles); parts of engines and motors; machine coupling and transmission components (except for land vehicles); exhausts and starters (for vehicles); agricultural implements other than hand-operated; power operated machines and apparatus all for the digging, excavating, mechanical handling, lifting, loading and transporting of earth, minerals, soil, crops and of like materials; hydraulic jacks; hydraulic hammers; hydraulic excavators; hydraulic engines and motors; hydraulic door openers; hydraulic door closers; hydraulic conveyors; hydraulic circuits for machines; hydraulic actuators; hydraulic power tools; hydraulic pumps; hydraulic tools; conveying chains; alternators; water pumps; oil pumps for use in motors and engines; ignition devices for motors of land vehicles; power operated drills; power operated screwdrivers; power operated saws; power operated planers; power operated sanders; gardening and woodworking tools; hoisting machines including overhead cranes for industrial lifting and machine tools; flame

sprayers; vacuum cleaners; electric drills; electric screwdrivers; parts and fittings for all the aforegoing goods; none of the above-mentioned goods are connected with the naval defence sector.

Class 9:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, supervision, life-saving and teaching apparatus and instruments; electrotechnical vibration meters; vibration dampeners, detectors, gauges, meters, sensors and speakers; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; mechanisms for coin operated apparatus; calculating machines; fireextinguishing apparatus; recorded media; telecommunications cable; Electrotechnical vibration meters; computer equipment adapted for use with an external display screen or monitor; mouse mats; mobile phone accessories; spectacles and sunglasses; clothing for protection against injury, accident, irradiation or fire; protective hats; protective boots; furniture adapted for laboratory use; electric accumulators; acidmeters for batteries; acoustic alarms; aerials; alarm bells [electric]; alarms; ammeters; anti-glare visors; anti-theft warning devices; battery boxes; battery chargers; bells [warning devices]; buzzers; electric buzzers; junction sleeves for electric cables; cables [electric]; capacitors; chargers for electric batteries; choking coils; circuit breakers; electric conductors; electric contacts; control panels [electricity]; detectors; light dimmers; distance measuring apparatus; distance recording apparatus; distribution boards [electricity]; distribution boxes [electricity]; distribution consoles [electricity]; ducts [electricity]; fuses; identification sheaths for electric wires; identification threads for electric wires; inclinometers; indicators [electricity]; quantity indicators; speed indicators; water level indicators; inductors [electricity]; intercommunication apparatus; junction boxes [electricity]; junction sleeves for electric cables; electric locks; meters; mileage recorders; ohmmeters; plugs; sockets and other contacts [electric connections]; pressure gauges; automatic indicators of low pressure tyres; pressure indicating plugs for valves; pressure indicators; pressure measuring apparatus; printed circuits; radios; telephone receivers; automatic steering apparatus for vehicles; tachometers; tape recorders and players; temperature indicators; thermostats; automatic indicators of low pressure in tyres; all of the above being for power operated machines and apparatus all for the lifting, loading and handling of earth, minerals and the like materials or for vehicles, including trains, agricultural vehicles and tractors; anti-glare glasses; workmens' protective face shields; filters for respiratory masks; fire hose nozzels; flashing lights [luminous signals]; goggles; gloves for protection against accidents; helmets [protective]; knee pads for workers; levelling instruments; levelling staffs [surveying instruments]; levels [instruments for determining horizontal]; nets for protection against accidents; protective masks for workmen; remote control apparatus; respirators for filtering air; safety restraints [other than for vehicle seats and sports equipment]; safety tarpaulins; reflective discs for wear for the prevention of traffic accidents; vacuum gauges; vehicle breakdown warning triangles; none of the above-mentioned goods are connected with the naval defence sector.

Class 16:
Printed matter; user manuals; manuals; instructional and teaching materials; printed manuals; printed technical manuals, technical bulletins and technical advisories; photographs; printed diagrams and illustrations; graphic art; graphic works; printed leaflets; publications; books; educational books; printed tutorials, seminars and lectures; printed forms; calendars and diaries; organisers; reminder pads; magazines; stationery; goods made from paper and cardboard namely, stickers, labels, posters, brochures, flyers, journals; printed certificates; newsletters; reports; notes, plans, drawings and pamphlets; document files and printed forms; manuscript books; pocket memorandum books; note books; boxes; office requisites; stationary; binders and folders; business cards; forms and files made of paper; logbooks [bookkeeping]; advertising and promotional materials; pop up stands made from paper or cardboard; boxes and materials for packaging (not included in other classes); coasters; parts and fittings for all the aforegoing goods; none of the above-mentioned goods are connected with the naval defence sector.

Class 17:
Anti-vibration tape; articles made of rubber for use in vibration attenuation and suppression; articles made of synthetic rubber for use in vibration attenuation and suppression; rubber for vibration deadening; shock-absorbing and packing materials; vibration dampers; hoses for pneumatic tools; parts and fittings for all the aforegoing goods.

Class 25:
Clothing; footwear; headgear; overalls; workwear; none Of the above-mentioned goods are connected with the naval defence sector.

Class 37:
Hire of tools; maintenance and repair of machines and machine tools; vehicle repair and servicing; maintenance of pneumatic hand tools; providing information relating to the repair or maintenance of machines and tools; rental of tools; Rental of hand and power tools, rental of machines, tools and apparatus; rental of tools, plant and equipment for construction, demolition, cleaning and maintenance; repair of tools; repair or maintenance of machines and tools; services for the hire of tools; servicing of machine tools; construction, installation, maintenance, repair and refurbishment of vehicles, engines, and machines, and apparatus and tools; rental of power operated machines and of vehicles and of equipment including pumps and cranes; provision of information concerning the repair and maintenance of tools, machines and vehicles, including such services provided using the Internet; information, advisory and consultancy services in relation to all the aforesaid services; none Of the above-mentioned services are connected with the naval defence sector.

Class 40:
Manipulating, altering, and processing of metals; custom manufacture of tools for others; application of coatings to machines and tools; information, advisory and consultancy services in relation to all the aforesaid services; none Of the above-mentioned services are connected with the naval defence sector.

Class 42:
Design of tools; design of air vibration tools; design services relating to tools; technological studies relating to machine tools; vibration analysis and measurement; testing of vibration

tools; surveying services; inspection and testing of tools; design and construction drafting services; design of industrial plant; inspection of plant and machinery; vehicle and plant design services; vehicle engine design services; design of tooling; design of vehicle transporters; engineering project management services; civil engineering services; monitoring of activities and events which influence the environment within civil engineering structures; design services relating to civil engineering; preparation of technical studies and reports; technical drawing services; technical engineering; technical research; information, advisory and consultancy services in relation to all the aforesaid services; none Of the above-mentioned services are connected with the naval defence sector.

UK00004400993 (2026/027, 03 July 2026)
Specifications have been restricted as follows:

Class 9:
Software and computer hardware for tactical command, control, communications, intelligence, surveillance and reconnaissance (C2ISR) systems for defense and military operations, including the collection, integration, fusion, analysis, exploitation and dissemination of information from sensors, platforms and intelligence systems, the management and coordination of manned and unmanned platforms, interoperability among operational systems, and multidomain integration of land, air, maritime, space and cyber capabilities; computer software; Downloadable computer software; Computer software platforms; Computer software for mission planning, operational management, intelligence analysis, data fusion, situational awareness, decision support, secure communications and multidomain operations; Software for the management and control of autonomous systems, unmanned vehicles and manned and unmanned platforms; Cybersecurity software; Artificial intelligence software; Machine learning software; Artificial intelligence and machine learning software for intelligence analysis, data fusion, pattern recognition, anomaly detection, decision support, predictive analysis and operational planning; Communications systems and secure communications devices; Data processing equipment; Command and control terminals and workstations; Sensors, detectors and monitoring equipment; Radar systems; Electro-optical systems; Surveillance and reconnaissance systems; Geolocation, navigation and positioning equipment; Thermal and infrared cameras; Target identification and tracking systems; Tactical information display devices; Satellite communications equipment; Simulation and mission training systems; All of the aforesaid relating to tactical command and control, communications, intelligence, surveillance and reconnaissance (C2ISR) systems for defence and military operations applications and none relating to the collection, compilation, analysis, provision, commercialisation or exchange of market information, market intelligence, indices, price assessments or market data, the operation of trading or transaction platforms and online marketplaces, the provision of consulting, advisory, events, conferences or training, or software and digital services all for the foregoing purposes, in each case, relating to energy, commodities, transportation and emissions.

Class 38:
Telecommunication services; Satellite communication services; Secure communications services for defense, security and military operations; Transmission of data, messages, images and operational information via telecommunications networks and satellite communications networks; Secure exchange of information among command and control centers, operational units, manned and unmanned platforms, sensors, intelligence systems and communications systems; Transmission of intelligence, surveillance and reconnaissance (ISR) information; Communication and interoperability services among land, air, maritime, space and cyber systems; providing access to telecommunications networks, communication platforms and online portals; Electronic transmission and distribution of data, documents, images and information; Data communication services; Electronic mail services; Providing access to computer and communications networks; Rental of telecommunications equipment and communications systems; Information, advisory and consultancy services relating to telecommunications, secure communications and communications networks; All of the aforesaid relating to tactical command and control, communications, intelligence, surveillance and reconnaissance (C2ISR) systems for defence and military operations applications and none relating to the collection, compilation, analysis, provision, commercialisation or exchange of market information, market intelligence, indices, price assessments or market data, the operation of trading or transaction platforms and online marketplaces, the provision of consulting, advisory, events, conferences or training, or software and digital services all for the foregoing purposes, in each case, relating to energy, commodities, transportation and emissions.

Class 42:
Design, development, programming, integration, maintenance, updating and validation of software, and software as a service (SaaS), for tactical command, control, communications, intelligence, surveillance and reconnaissance (C2ISR) systems for defence and security applications, military operations, management of manned and unmanned platforms, intelligence analysis, operational awareness and multidomain integration; Software as a service (SaaS); Platform as a service (PaaS); Providing temporary use of non-downloadable computer software for tracking freight over computer networks, intranets and the internet; Software as a service featuring software for mission planning, operational management, intelligence analysis, data fusion, situational awareness, decision support, secure information exchange and multidomain operations; Software as a service featuring artificial intelligence and machine learning software for intelligence analysis, pattern recognition, anomaly detection, predictive analytics and operational planning; Design and development of software platforms for the management and control of autonomous systems, unmanned vehicles and manned and unmanned platforms; Design, development and integration of command and control systems, intelligence, surveillance and reconnaissance systems, interoperability systems and secure information exchange systems; Engineering services; Computer systems integration services; Cybersecurity services; Technical consulting relating to software, computer systems, communications systems and operational technologies; Scientific and technological research and development services in the fields of defence, security, telecommunications, artificial intelligence, autonomous systems and command and control systems; Testing, verification, validation, simulation and evaluation of software, computer systems and operational systems; Hosting, management and monitoring of computer systems and communications networks; All of the aforesaid relating to tactical command and control, communications, intelligence, surveillance and reconnaissance (C2ISR) systems

for defence and military operations applications and none relating to the collection, compilation, analysis, provision, commercialisation or exchange of market information, market intelligence, indices, price assessments or market data, the operation of trading or transaction platforms and online marketplaces, the provision of consulting, advisory, events, conferences or training, or software and digital services all for the foregoing purposes, in each case, relating to energy, commodities, transportation and emissions.

UK00004412790 (2026/038, 18 September 2026)
Specifications have been restricted as follows:

Class 16:
Printed publications; editorial publications; printed books, magazines, newspapers, newsletters, brochures, journals, guides, catalogues; printed matter; all of the aforementioned goods only relating to watches, horology and jewellery.

Class 41:
Publishing, reporting, and writing of texts; publication of printed magazines; publication of electronic magazines; online publishing services; publication of journals, periodicals, newsletters, articles and reviews; providing online non-downloadable magazines; editorial services; journalism services; providing educational and entertainment services; arranging and conducting exhibitions, competitions, seminars, interviews, awards and events for educational and entertainment purposes; educational and entertainment services provided via online publications; all of the aforementioned services only relating to watches, horology and jewellery.
