telecommunications, telephonic and communications apparatus and instruments; Secure Sockets Layer (SSL) security software; Transport Layer Security (TLS) software; software for authenticating mobile phones; radio telephones, mobile and fixed telephones; mobile phones; portable telecommunications apparatus; smartphones; cases for telephones; headsets for telephones; handheld, mobile and tablet computers; wearable electronic telecommunication and computing devices; data communication apparatus and instruments; digital voice signal processors; computer networking and data communications equipment; software in the form of decentralised systems; software in the form of blockchain and Distributed Ledger Technology (DLT) validation systems; Computer software in the form of decentralised networks; software in the form of embedded software agents (ESAs); mobile data communications apparatus; data processing systems; electronic databases; digital telephone platforms and software; computer hardware for telecommunications; telecommunication networks hardware; modems; network routers; broadband data interconnecting computer installations; decoders; set-top box apparatus including apparatus having an interactive viewing guide and/or a recorder for recording television and audio programmes; electrical and electronic apparatus for use in the reception of satellite, terrestrial or cable broadcasts; apparatus and instruments for the processing, transmission, storage, logging, reception and retrieval of data being in the form of encoded data, text, audio, graphic images or video or a combination of these formats; wireless handheld telecommunication units and devices, namely, tablets, wireless phones, mobile phones, smart phones, computers, portable telephones, video telephones, radios, smart watches, USB dongles, plug-in hardware, machine wearables (namely, sensors that are attached to machines to track and monitor the machine's performance) and digital accessories, GPS trackers, wearable activity trackers, video cameras, cameras, personal digital assistants, handheld, mobile and tablet computers for the synchronisation, transmission, recordal, storage and manipulation of data and/or voice; remote controls for electric and electronic devices; personal digital assistants; electronic sensors including pedometers, altimeters and weighing scales; barcode and quick response code readers and scanners; audio and video recordings; electronic media for storing information, data, images and sound; digital media content (downloadable), including films, television programmes, radio programmes, videos, images, music, text, data, images, graphics and ringtones, provided from a computer database, the Internet or other electronic network; satellite receiving and transmission apparatus and instruments; computer and video game software programs, including downloadable games programs; electronic publications (downloadable) provided online from computer databases, the Internet or other electronic networks; machine readable data carriers; streamed or/and downloadable digital audio, video and data provided from a computer database, or the Internet or other electronic network; battery chargers for use with telecommunications apparatus; batteries; battery back-up power supply; peripheral equipment for televisions and computers; device and sensor data processing equipment and software; computers including laptop and notebook computers; electronic personal organisers; electronic and satellite navigational and positional apparatus and instruments including global positioning systems; desk or car mounted units incorporating a loud speaker which permits hands-free use of a telephone handset; in-car telephone handset cradles; teaching apparatus and instruments; metering apparatus; smart meters; blank and pre-recorded magnetic cards; cards containing microprocessors; telephone cards; encoded credit, debit and payment cards; encoded telephone credit cards; encoded cards; computer software, including computer software supplied from a computer database, the Internet or other electronic public or private network; data communications software; application software, including application software for connected devices, embedded devices, sensors, phones, and mobile devices; downloadable computer software applications; computer software for wireless data communication; computer software and application software for the synchronisation, transmission, encryption and sharing of voice, data, calendar and content between one or more electronic devices, for secure, encrypted transactions and/or purchases; operating system software; operating device software; computer software for the streaming transmission and encryption and storage, of audio, video, graphics, text and data on and over communication networks; computer software to enable peer-to-peer networking and file sharing; search engine software; computer software for conducting and co-ordinating communications among computer users sharing information and audio data via electronic communications networks; software for interactive televisions; image and video editing software including software applications for use on mobile devices; software for the identification of things and/or persons; software for access control video control, permissioned access, and detecting the presence of data, things, devices and/or persons; encryption, digital signing, digital certificates, authentication, authorization software; virtual private network software; computer software for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index, sleep patterns, locations, attitude, weather and temperature; computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; anti-theft devices not for vehicles; distance sensors being anti-collision sensors for vehicles, other than vehicle parts; devices and apparatus for locating movable property; apparatus for sending and receiving information from movable property; devices and apparatus for remote control of electrical apparatus and household appliances; alarm devices and installations, other than vehicle parts; satellite location and navigation systems; systems for the downloading and updating of computer software to and from electronic apparatus; electronic and biometric apparatus and installations for access control; smart devices, namely smartphones, tablets, computers, smart watches, smart speakers, smart thermostats, smart plugs, smart meters, smart doorbells, smart locks, smart wearable devices, smart televisions, smart cameras, smart sensors, home automation devices, smart controllers for fridges, smart controllers for freezers, smart

controllers for dishwashers, smart controllers for cookers, smart controllers for washing machines, smart controllers for tumble dryers, smart controllers for microwaves, smart controllers for air conditioners, health and fitness monitors, sensors, intelligent gateways for communication, Internet of Things (IoT) gateways, network hubs, communication hubs, home automation and smart home hubs, computer hardware and electronic devices for use in connecting, managing, controlling, monitoring and enabling communication among Internet of Things (IoT) devices over a network, onboard computers and computer hardware modules for vehicles that enable the vehicle to communicate with other devices and vehicles over a network, and computer hardware modules for use with the Internet of Things (IoT); Internet of Things (IOT) range extenders (antennas); connected devices, namely smartphones, tablets, computers, smart wearable devices, speakers, thermostats and smart meters, plugs, smart doorbells and smart locks, cameras, smart sensors, health and fitness monitors, onboard computers and computer hardware modules for vehicles that enable the vehicle to communicate with other devices and vehicles over a network, and computer hardware modules for use with the Internet of Things (IoT), that can connect to other devices or networks via wired or wireless protocols; electronic apparatus for identifying persons; closed circuit television systems; cameras, television cameras and video recorders for closed-circuit television; optical and photographic apparatus; electronic speedometers; electronic odometers; electronic tachometers; speed checking apparatus for vehicles; kilometre recorders for vehicles; electric or electronic sensors for vehicles, other than vehicle parts; electronic sensors; sirens; electric locks for vehicles; remote control apparatus; electronic keys for vehicles; electronic keyless remote controls for vehicle access devices; remote controls for starters of vehicles; remote control systems for the automatic operating of the locks of vehicle doors, boot, bonnet and roof; communication apparatus integrated into motorcycle helmets; GPS apparatus; GPS apparatus for vehicles for determining or signalling vehicle location, locations of site, travel routes, time, traffic conditions, presence of emergency vehicles and hazard conditions; systems for communication networks between vehicles and road infrastructures; electronic equipment for detecting road markings; vehicle teleguidance systems and instruments; computer monitoring systems for blind spot and lane changing assistance; vehicle on-board computers; on-board electric, electronic and optical equipment for vehicles, namely, electric batteries, mileage recorders, radios for vehicles, on-board cameras, on-board electronic systems for providing driving and parking assistance in land vehicles, cruise controls for vehicles, displays for vehicles, audio speaker systems for vehicles, automatic indicators of low pressure in vehicle tyres, automatic vehicle speed control devices, autonomous driving control systems for vehicles, including for land vehicles; on-board electric, electronic and optical equipment for vehicles, including land vehicles, namely vehicle automatic driving control devices, smartphone battery chargers for use in vehicles, communications apparatus for vehicles, mobile phone connectors for vehicles, multi-camera systems for vehicles, vehicle navigation systems featuring interactive displays, radios for vehicles, temperature control apparatus (thermostats) for vehicles; on-board electric, electronic and optical equipment for vehicles, including land vehicles, namely ultrasonic object detectors for use on vehicles, on-board vehicle tracking apparatus, black boxes (data recorders) for land vehicles; on-board diagnostic computer apparatus and remote-controlled diagnostic computer apparatus for vehicles; computer systems for the downloading and updating of computer software to and from vehicles; electronic devices to detect and/or exchange data between a vehicle and a remote unit for security purposes; parking aids in the nature of electronic obstacle detection device sensors; parking assistance, namely, blind spot detection sensors; electronic apparatus for the control of car parking; pre-collision detection and collision avoidance systems, namely, on-board computers; in-vehicle touch screen computer systems; smart watchbands that communicate data to smartphones; downloadable software for promotional and demonstration purposes, for customised display screens on telecommunications apparatus; SIM cards; telematics apparatus; telematics software; haptic sensors; haptic equipment and apparatus, namely tactile monitors, screens, electronic displays, switches, sensors, smart glasses and virtual or augmented reality glasses and headsets and holographic projectors; software for use with haptic sensors, equipment and apparatus; virtual reality software and hardware; augmented reality software and hardware; downloadable computer software for virtual worlds; software for metaverse environments; computer software for metaverse environments; virtual server software; virtual assistant software; digital and virtual currency wallets; hardware secure modules, being computing devices that safeguard and manage confidential data (including digital keys), perform encryption and decryption functions for digital signatures, and perform authentication and cryptographic functions; computer hardware modules for use in electronic devices using the Internet of Things (IoT); software for use in implementing the Internet of Things (IoT); computer software and application software for connecting, operating, and managing networked devices, appliances, machinery and systems in the Internet of Things (IoT); communications software; computer software and application software for secure, encrypted purchases; customer support and customer service computer software and application software; voice command and recognition software, speech to text conversion software, and voice-enabled software applications; messaging software; personal assistant software; computer software for personal information management; computer software for use to connect and control Internet of Things (IoT) electronic devices; chatbot computer software and application software; artificial intelligence and machine learning software; interactive software based on artificial intelligence; computer software and application software in the field of artificial intelligence (AI); artificially intelligent chatbot computer software and application software for providing customer support and customer services; customer service chat robot software; humanoid robots with artificial intelligence; electronic apparatus incorporating artificial intelligence software; electronic controllers; electronic controllers to impart sensory feedback, namely, sounds and vibrations that are perceptible to the user; computer software for use in connection with the transmission of voice and data; computer software, and peripherals for personalised, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data, and for social networking; wireless controllers to monitor and control the functioning of other electronic devices; touchscreens; parental control software; communication network apparatus; networking apparatus; networking devices; e-commerce software; watches that communicate data to smartphones, namely smartwatches; safety devices for vehicles, namely, parts and fittings for electronic collision avoidance systems on vehicles; collision avoidance safety systems for vehicles; steering apparatus, automatic, for vehicles; Ethernet

routers; wide area network (WAN) routers; wireless routers; computer network routers; computer network hubs, switches and routers; network servers; communications servers [computer hardware]; network access server hardware; Ethernet adapters; Ethernet cables; Ethernet controllers; Ethernet switches; Ethernet transceivers; switches, electric; automatic switching apparatus for telecommunications; computer network switches; electronic encryption units; downloadable computer software for use in electronically trading, storing, sending, receiving, accepting, and transmitting digital currency, and managing digital currency payment and exchange transactions; interactive computer software and computer hardware for providing financial services online from a global computer network and the Internet via computer terminals and mobile communication devices; electronic and computer databases, namely, asset databases that can be shared and transmitted.; smart home hubs; Internet of Things (IoT) sensors; Internet of Things (IoT) gateways; Computer application software for use in implementing the Internet of Things (IoT); Downloadable software for use to connect and control Internet of Things (IoT) electronic apparatus, instruments, devices, appliances, machinery and systems; Downloadable software for connecting, operating, and managing connected devices and/or networked apparatus, instruments, devices, appliances, machinery and systems in the Internet of Things (IoT); Downloadable software for connecting, operating, and managing networked apparatus, instruments, devices, appliances, machinery and systems in the Internet of Things (IoT); payment software; e-money and e-payment software; transaction processing software; apparatus for electronic payment processing; computer hardware and software for facilitating payment transactions by electronic means; computer software for blockchain technology; software that enables autonomous identification and communication between connected devices in the Internet of Things (IoT); software that enables the automatic processing of payments using connected means, including SIM cards; software that enables networked devices to communicate securely with each other; unified communications software; downloadable computer software applications for minting non-fungible tokens (NFTs); downloadable software for receiving and accessing non-fungible tokens (NFTs); downloadable software for spending and trading non-fungible tokens (NFTs); computer software for issuing digital certificates authenticated by non-fungible tokens (NFTs); downloadable files authenticated by non-fungible tokens (NFTs); downloadable wallets for storing digital files authenticated by non-fungible tokens (NFTs); computer software that can virtually represent goods authenticated by non-fungible tokens (NFTs).

Class 35:
Advertising, marketing and promotion services; retail and wholesale services connected with telephones, mobile telephones, smartphones, mobile digital devices, connected devices, telecommunication apparatus, computer software, computers and electronic communication networks and physical and virtual software accessories for such goods, set-top boxes and modems, telecommunication apparatus, devices and accessories; retail services relating to communications and computer services; the bringing together, for the benefit of others, of a variety of physical and digital goods in the fields of communications, pharmaceuticals, logistics, digital licenses and certificates, software, automotive diagnostics, automotive insurance monitoring, connected and autonomous vehicles, eCall systems, fleet management, infotainment systems, roadside assistance, stolen vehicle recovery systems, vehicle leasing, vehicle navigation, digital security, banking and investment, cash dispensing, point-of-sale systems, electronic investments, investment in digital utilities and securities, non-fungible tokens (NFTs), media communications, broadcasting and publishing, film, television, drone filming, advertising (including out of home advertising), energy and utilities, smart grid systems for gas and electricity, grid-scale storage, energy storage, electricity generation, power generating equipment and sensors, electricity metering, gas metering, oil and gas extraction, oil and gas extraction systems, oil and gas extraction sensors, pipeline monitoring, pipeline monitoring systems and sensors, smart grid systems for the water industry, drink- and waste-water process equipment and sensors, water metering, government, city asset tracking, emergency population communication, public safety alarms, fire services monitoring, fire engine systems and fire officer equipment, offender tagging, outdoor surveillance, foot traffic systems, police evidence gathering, police officer equipment, public communication and wayfinding, indoor and outdoor digital signage, road toll and traffic management, Automatic Number Plate Recognition (ANPR) cameras and systems, electronic toll collection systems, in-vehicle toll collection systems, road traffic sensors and systems, smart roads, toll roads, solar roads, smart waste disposal, street and outdoor lighting, healthcare, ambulance management, ambulance and paramedic equipment, assisted living, healthcare equipment and systems, chronic condition management, medical devices, medical monitoring equipment, healthcare robotics, clinical data collection, diagnostic and screening equipment, hospital hygiene monitoring, hospital asset tracking, hospital location monitoring, pharmaceutical management, telemedicine, IT systems, hands free working systems, printing and photocopying, simulated training systems, insurance, insurance investigations, manufacturing, natural resources, agricultural equipment tracking, construction monitoring, construction site monitoring equipment and systems, construction equipment and systems, livestock management, agricultural equipment and systems, manufacturing systems, asset tracking systems for the manufacturing sector, tag reading and tag tracking systems, manufacturing facilities management, energy monitoring systems and equipment, manufacturing process automation, manufacturing equipment and systems, supply chain tracking systems for the manufacturing sector, mine operation, mining equipment and systems, farming, crop farming, hospitality and restaurants, housekeeping, audio and video (AV) entertainment systems and equipment, hotel security, security equipment and systems, in-store checkout systems and equipment, in-store inventory tracking, retail customer communication, retail customer monitoring, advertising in the retail sector, retail fulfilment, retail loss prevention, retail workforce management, roaming services, telecommunications, satellite navigation, vehicle concierge, media, paywall access, electronic tickets, digital art, smart buildings, building access control, building intruder detection, building intruder detection equipment and systems, building safety, building safety equipment and systems, building structure monitoring, commercial asset tracking, heating, ventilation, and air conditioning (HVAC) management, lighting and connected lighting, lighting systems, energy device monitoring, energy device monitoring systems, in-building transportation, indoor surveillance, security equipment and systems, transportation, aircraft equipment management, airport baggage handling, airport drone management, airport infrastructure management, airport passenger management, bicycle sharing, bus passenger management, cargo freight tracking, cold chain monitoring, aircraft management, bus

management, ship management, train management, logistics, autonomous warehouse systems and equipment, passenger information displays, port management, rail infrastructure management, rail passenger management, wholesale trade, loss prevention, workforce management, logistics systems and equipment, enabling customers to conveniently identify, view and purchase those goods, including such services provided on-line from a computer database, the Internet or other electronic network; the bringing together, for the benefit of others, of a variety of telecommunications and computer services, enabling customers to conveniently view and purchase those services; telephone answering and message handling services; provision of space on websites for advertising goods and services; the bringing together, for the benefit of others, of a variety of communications and telecommunications apparatus, instruments and software, enabling customers to conveniently view and purchase those goods, including such services provided online from a computer database, the Internet or other electronic network; the bringing together, for the benefit of others, of a variety of services, namely, business, finance and trade reporting and information services, technology information services, science information services, nature information services, transport services, transport information services, art information services, history information services, travel and culture information services, games and gaming, film and navigation information services enabling users to conveniently view and acquire those services; the bringing together, for the benefit of others, of a variety of services, namely, entertainment services, entertainment information services, fashion information services, fashion design services, lifestyle (health) information services, life coaching services, health, beauty and fitness information services, music information services, sports information services, news reporting services, current affairs reporting and information services enabling users to conveniently view and acquire those services; the bringing together, for the benefit of others, of a variety of services in the field of business information services and, finance information services enabling users to conveniently view and acquire those services; the bringing together, for the benefit of others, of a variety of services in the field of trade information services in the nature of stocks and shares, technology information services, science information services, nature information services, transport information services, art exhibition services, art information services, history information services enabling users to conveniently view and acquire those services; the bringing together, for the benefit of others, of a variety of downloadable digital media content, including firmware, software, device agents, software applications, programmes, videos, music, text, data, images, and graphics, enabling customers to conveniently view and purchase those goods; the bringing together for the benefit of others, of a variety of services providers, namely providers of digital data, connected devices and/or digital media content including software, software applications videos, music, text, data, images, and graphics via the Internet or telecommunications network or via a streaming service), content providers, and data centre providers, enabling customers to conveniently view and purchase those services; provision of commercial information and advice to the prospective purchasers of commodities and goods; administration of loyalty programmes involving discounts or incentives; loyalty card services; organisation, operation and supervision of sales and promotional incentive schemes; provision of commercial information and advice on the supply and promotion of products and selection and display of goods; compilation and systemisation of information into computer databases and online searchable databases; data storage and retrieval services; Internet services namely creating indexes of things, data, information, sites and other resources available on a global computer network for others; compilation of directories, including business and commercial directories, for publication on computer databases, the Internet or other electronic networks; administrative services, namely collection, systematisation, compilation and analysis of data and information from sites and other resources available on global computer networks into computer databases for others; searching, browsing and retrieving information, sites and other resources available on global computer networks for others; organizing content of information provided over a global computer network according to user preference; compiling and providing commercial prices and statistics information; arranging and conducting of exhibitions for business purposes; database and data processing services; data management services; collection of data; data analysis and data mining services; business promotion, research, management, administration, assistance and information services; business strategy and planning services; economic forecasting, marketing, market research, market analysis and survey services; publication of publicity texts; compilation of statistical information; provision of trade information; dissemination of advertising for others via wireless networks, telecommunication apparatus or devices or a global computer network; customer club services, for commercial, promotional and/or advertising purposes; subscriptions (arranging -) to telecommunication services for others; subscriptions (arranging -) to a telematics, telephone or computer service [Internet]; subscription to a television channel; auctioning via telecommunications networks; electronic transaction and commerce services, namely, providing information about products via connectivity networks for advertising and sales products; publicity and sales promotion relating to goods and services, offered and ordered by communications; business promotion services provided by mobile telephones and/or connected devices; organisation for a third party of telephone welcoming services and of telephone receptionist services; commercial information services provided by access to a computer database; providing online business directory information services; providing telephone directory information via the Internet; arranging of subscriptions to online music streaming services; compilation of information resulting from the surveillance of traffic; loyalty scheme services; provision of an online marketplace for buyers and sellers of downloadable digital image files authenticated by non-fungible tokens (NFTs); providing an online marketplace for buyers and sellers of downloadable cryptocurrency wallets authenticated by non-fungible tokens (NFTs); providing an online marketplace for buyers and sellers of downloadable virtual goods authenticated by non-fungible tokens (NFTs) for metaverse environments; providing an online marketplace for buyers and sellers of downloadable virtual goods authenticated by non-fungible tokens (NFTs) for use in virtual environments; retail services relating to downloadable digital image files authenticated by non-fungible tokens (NFTs); online auction services featuring goods authenticated by non-fungible tokens (NFTs); providing advertising and promotional services to promote the sale of non-fungible tokens (NFTs); providing consumer product information relating to goods authenticated by non-fungible tokens (NFTs).

Class 36:
Financial transaction and banking services including connected devices, home, mobile, Internet and remote banking; financial sponsorship; insurance and finance services, including such

services provided over the Internet or any other electronic network; electronic wallet services (payment services); digital wallet services for storing data and processing payments; transaction and/or payment services provided via connected apparatus and devices; electronic payment, transaction and e-money facilitation services, including electronic fund transfer services and online transaction facilities; issue, collection and redemption of tokens, vouchers, points and cash back; credit card services; charge card services; virtual card services; electronic currency transfer services; insurance, financing and financial guarantee services relating to telecommunications and communications apparatus and instruments; financial guarantee services relating to telecommunications and communications apparatus and instruments; provision of investment and fund management information; financial affairs; monetary affairs; real estate affairs; administration of funds and investments; stock, brokerage, shares and bond trading information and brokerage services; financial and monetary services in relation to charitable services including charitable fundraising and support services; charitable collections; investment of funds for charitable purposes; distribution and allocation of charitable funds; provision of information and advisory services relating to monetary affairs, including the provision of information from a computer database, the Internet or other electronic network; provision of information and advice for the prospective purchasers of goods, all related to payment terms and insurance; financial information services provided by access to a computer database; providing financial information in the metaverse and other virtual worlds; digital banking services; insurance services for mobile telephones; telephone banking services; financial, banking, monetary and payment services related to cryptocurrency, virtual and digital money; virtual currency services; electronic financial trading, namely trading in the field of digitised assets such as cryptocurrency, digital tokens, virtual currency and digital currency; trading in digitised assets (such as cryptocurrency, digital tokens, virtual currency and digital currency), including over a global computer network or the Internet; financial trading in the field of non-fungible tokens (NFTs); financial and commercial transactions via blockchain; electronic funds transfer and payment services via blockchain technology; payment processing services; automated payment services; electronic payment services; conducting cashless payment transactions; automated payment of accounts; providing processing of virtual credit card, virtual debit card, virtual prepaid card, and virtual payment card transactions in the metaverse; financial services, namely, providing a decentralised and open source cryptocurrency on a global computer network utilising a blockchain currency exchange service; property insurance; consultancy services relating to insurance; insurance for telecommunication apparatus and instruments; insurance for mobile telecommunication apparatus and instruments; insurance for digital apparatus and instruments; insurance for digital tablets; insurance for computer software and hardware; financial leasing; hire purchase financing; lease-purchase financing; lease-purchase of telecommunication equipment.

Class 38:
Telecommunications; mobile and fixed telecommunication and telephone, satellite telecommunication, cellular telecommunication, radio and cellular telephone, radio facsimile, radio paging and radio communication services; voice transmission services; voice messaging and voicemail services; electronic mail services for data and voice; hire, leasing and rental of telecommunications, radio, radio telephone and radio facsimile apparatus; rental of telecommunication facilities; leasing of telephone circuits; communication of data by radio, telecommunications and by satellite; transmission and receiving by radio; communications services by satellite, television and/or radio; communication services in the nature of transmission and reception of voice; voice over IP services; telecommunication services via a global computer network or the Internet; telephone and mobile telephone message collection and transmission; delivery and reception of sound data and images; telephone communication services provided for hotlines and call centres; automated telephone call screening services; automated telephone voice message services; telephone communication services in the nature of automatic telephone answering services; personal numbering services (telephony services); rental of replacement telecommunications apparatus in the case of breakdown, loss or theft; provision of Internet services, namely Internet access services; Internet service provider (ISP) services; telecommunication of information (including web pages), computer programs and any other data; electronic mail services; provision of broadband services, namely wireless and fibre optic broadband communication services; wireless broadband communication services; providing Internet access via wireless broadband networks; providing Internet access via optical fibre broadband networks; wireless communication services; wireless telephony services; digital network telecommunications services; providing access to portals on the Internet; telecommunication services provided via Internet portal; provision of location based telecommunications services for telecommunications apparatus; provision of transfer of data via wireless application protocols (WAP), including those utilising a secure communications channel; provision of telecommunications information relating to or identifying telephone and telecommunications apparatus and instruments; telecommunications routing and junction services; electronic data interchange services; transfer of data by telecommunications; data streaming; streaming of digital media content, including films, television programmes, radio programmes, videos, music, text, data, images, graphics and ringtones, via the Internet or a telecommunications network; delivery of digital media content, including films, television programmes, radio programmes, videos, music, text, data, images, graphics and ringtones, via the Internet or a telecommunications network; data transmission services; broadcasting services; data broadcasting services; broadcast or transmission of radio or television programmes; transmission of digital audio, video and multimedia content by telecommunications; electronic transmission of audio and video files via computer and other electronic communications networks; transmission of news and current affairs information; delivery of digital music by telecommunications; providing access to social networking websites; telecommunication services for the provision of video text, telexes and view data services, video communication services, interactive video text services; messaging services, namely, sending, receiving and forwarding messages in the form of text, audio, graphic images or video or a combination of these formats; unified messaging services; voicemail services; providing telecommunications connections to a global computer network or database; video conferencing services; video telephone services; providing telecommunications connections to the Internet or databases; computer aided transmission of messages, data and images; computer communication services; providing electronic conferencing services; providing and leasing access time to computer databases, computer bulletin boards, computer networks, interactive computer communications networks, electronic publications in various

fields, merchandising and service catalogues and information and computerised research and reference materials; providing access to educational content, websites and portals; communication services for the remote control of electronic devices; provision of communications networks for systems of smart metering; communication services for the delivery of emergency messages and calls; electronic transmission of data and documents via computer terminals and electronic devices; signal transmission for electronic commerce via telecommunications systems and data communication systems; providing access to electronic communications networks and electronic databases; provision of communication facilities for the interchange of digital data; communication of data by means of telecommunications; transmission of data, including by audio-visual apparatus; transmission of sound, picture, video and data signals; providing access to databases; telecommunication services for data bank interconnection; electronic data exchange services; email data services; data broadcasting and communications services; providing third party users with access to telecommunication infrastructure; provision of information relating to telecommunications, providing electronic telecommunications connections; telecommunication gateway services; interactive telecommunications services; network telecommunication services; telecommunications consultancy services; telecommunications services for aircraft passengers; provision of access to the internet in relation to electronic payment services including electronic fund transfer services and online transaction facilities; providing telecommunications connections and networks for use with the Internet of Things (IoT); communication services for the Internet of Things (IoT); communication via virtual private networks; providing chatrooms in virtual environments; providing virtual facilities for real-time interaction among computer users; providing access to e-commerce platforms on the Internet; transmitting information resulting from traffic surveillance; provision of access to databases in relation to online address book, calendar and diary services; providing user access to data networks; transmission of digital data in the nature of user-generated digital media content; computer network access services provided by means of a metro Ethernet; electronic transmission of encrypted data; telecommunications services provided via fibre optic, wireless and cable networks; leasing of mobile phones.

Class 41:
Education; providing of training; entertainment; sporting and cultural activities; education and training including such services provided online from a computer, the Internet or other electronic network; training services delivered by virtual means; game services provided online from a computer network; radio and television entertainment services including those provided online from a computer, the Internet or other electronic network; providing online electronic publications; publication of electronic books and journals online; publication of periodicals; publication of magazines; publication of electronic magazines online; online publication of electronic periodicals; publication of texts; newspaper publication; publication of printed matter; arranging and conducting of conferences, seminars, symposia, tutorials and workshops; interactive and distance learning courses and sessions provided online via a telecommunications link or computer network or provided by other means; electronic library services for the supply of electronic information (including archive information) in the form of text, audio and/or video information; providing non-downloadable electronic publications; providing online non-downloadable general feature magazines; providing online non-downloadable pictures; providing online non-downloadable video content; providing online non-downloadable audio content; providing publication of online directories for obtaining data in the fields of music, video, film, books, television, games and sports via online searchable databases; production of media content, namely, television programme production, audio production, music production, video production, film production and production of animation; publication and dissemination of user-generated digital media content for entertainment and educational purposes; publication of blogs and vlogs; entertainment services provided online from a computer database or the Internet; educational information provided online from a computer database or the Internet; entertainment services provided by telephone; entertainment services provided in virtual environments; arranging and conducting of competitions provided by telephone; providing sports information by telephone; library services provided by means of a computerised database; electronic games services provided by means of the Internet; providing digital music from the Internet; publication of material which can be accessed from databases or from the Internet; providing non-downloadable publications from the Internet which may be browsed; electronic publishing; providing interactive multi-player games via communications networks including the Internet; arranging and conducting of exhibitions for entertainment purposes; entertainment services, namely, provision of music, films, TV programmes, audio books and games to online usage via global or local computer networks; providing films and television programmes, not downloadable, via video-on-demand services; providing online music and audio books, not downloadable; providing information, reviews and personalised recommendations in the field of entertainment; providing digital music from a computer database or the Internet; providing non-downloadable films and television programmes from a computer database or the Internet; providing online computer games from a computer database or the Internet, all for entertainment or educational services.

Class 42:
Hosting software interfaces to provide personalised access to computer and/or device databases (including centralised and decentralised databases), the Internet or other electronic networks; providing non-downloadable software applications through computer databases, the Internet or other electronic networks; hosting services; hosting of digital content on the Internet including online blogs and journals; server hosting; hosting websites and computer databases; hosting virtual environments; providing virtual computer environments through cloud computer; maintenance and updating of computer software and programs; online computer services, namely providing online information about the design and development of computer hardware and software; cloud computing; cloud hosting services; computer rental; design, graphic arts design and commissioned writing for the creation of web pages on the Internet; consultancy services relating to blockchain and decentralised computing; computer technology consultancy; computer programming and software design; installation, maintenance and updating of computer software; creating and maintaining websites; information technology (IT) consultancy; hosting the website of others; provision of technical information and advice for the prospective purchasers of goods and services; information technology consultation relating to hardware or software or services, provided online from a global computer network or the internet; providing Internet search engines; design of communications systems; Software as a Service (SaaS); Unified Communications as a Service

(UCaaS); application service provider (ASP) services, namely, hosting computer software applications of others; design of software including software applications for use on connected devices; provision of technical information, advisory and consultancy services relating to computers and information technology; designing, monitoring and hosting online forums for discussion; research and development services; research and development of new products and software applications; research in the field of technology; monitoring of network systems in the field of telecommunications; encryption, decryption and authentication of information, messages and data; provision of security services for computer networks, computer access and computerised transactions, including through electronic means via wireless network and/or mobile telecommunication devices; data conversion of electronic information, including data and computer programs (except physical conversion); data warehousing; data mining; database design; testing of electronic data processing systems; rental of software; hosting of web portals for providing podcasts; time sharing services for data processing apparatus; computer programming for telecommunications; data security services [firewalls]; data encryption services; data migration services; data recovery services; off-site data backup; digital compression of data; providing temporary use of non-downloadable computer software design of telecommunications apparatus and equipment; development, maintenance and updating of a telecommunication network search engine; design of telephones, including mobile telephones; provision of weather information via the telephone; computer rental provided by Internet café; Internet web site design services; provision of Internet search engines; rental of software for Internet access; maintenance of software for Internet access; providing temporary use of non-downloadable computer software over communication networks, intranets and the Internet; updating of software databases; computer programming for data processing; computer network services; monitoring of computer networks; technical data analysis and data mining services; creating, maintaining and updating computer software for databases of traffic and travel information; installation and updating of computer software on electric and electronic apparatus, installations for access control; hosting of software for computer security, including antivirus, firewalls, antispam, anti-spyware, web filtering, intrusion detection software (IDS) and virtual private network (VPN) software; technology consultancy services in the field of telecommunication, blockchain, digital identity, digital twins, Artificial Intelligence (AI), machine learning and/or security technology; provision of artificial intelligence computer programs on data networks;
