Hybrid motors for boats; engines for marine use; motors for boats; electric motors, other than for land vehicles; hybrid marine motorized systems; spare parts for marine engines; electric propulsion mechanisms for water vehicles; jet propulsion engines for watercraft; transmissions for water vehicles; electric power generators for ships; electric alternators for water vehicles; gears for water vehicles; transmission belts for water vehicles; differential gear mechanisms for water vehicles; starting couplings for water vehicles.

Class 9:
Nautical apparatus and instruments; autopilots for boats; autonomous navigation systems for ships; hybrid integrated circuits; marine navigation apparatus; electric navigation instruments; GPS navigation and positioning devices; sensors for water vehicles; interfaces for navigation systems; software and mobile applications for nautical navigation and watercraft propulsion management; embedded software for electric and hybrid motors; electronic control, regulating and monitoring systems for boat motors and engines; control units, sensors, digital interfaces and multi-function screens; software for energy consumption management, trajectory tracking, course holding, autopilot and docking maneuvers; simulation and diagnostic software for electric motor maintenance; position-maintaining software; downloadable software platforms for energy optimization and emission reduction.

Class 12:
Water vehicles; motorized watercraft; marine vehicles with hybrid or electric propulsion; parts and components of water vehicles; propellers for boats; structural parts for boats; control, steering and maneuvering devices for boats; electric watercraft; hybrid vehicles.

Class 37:
Installation, maintenance and repair of marine engines; installation, maintenance and repair of parts and accessories for boats; converting, renovating, refurbishing and repairing boats; inspection, diagnostic and upgrade services for marine navigation engines and electronic systems; provision of information relating to ship repair, conversion and maintenance.

Class 42:
Research and development services in the field of marine propulsion; engineering with respect to sustainable marine technologies; development of connected technologies for navigation; layout design services for boats; advice with respect to the design of boats; development of embedded software for intelligent navigation and energy management of watercraft; design and development of electronic control and regulation systems for boat engines; research and development services with respect to hybrid and electric marine propulsion; design of digital solutions for hydrodynamic and energy optimization of watercraft; technical testing and assessment services in the field of nautical navigation; design and development services for computer systems with respect to simulation for energy management of boats.

Class 7:
Metalworking machines and tools; mining machines and apparatus; earth moving machines; lumbering, woodworking, or veneer or plywood making machines and apparatus; plastic processing machines; semiconductor manufacturing machines; machines and apparatus for manufacturing rubber goods; stone working machines and apparatus; non-electric prime movers, not for land vehicles; parts of non-electric prime movers; machine elements, not for land vehicles; starter motors; AC motors and DC motors [not including those for land vehicles but including parts for any AC motors and DC motors]; AC generators [alternators]; DC generators; alternators for land vehicles; generators for land vehicles; cutting tools for metalworking machinery; grinding tools [parts of machines]; metal sawing machines; press dies for metal forming; diamond tools for metal working; wear-resistant diamond-pointed metal-cutting tools; diamond-pointed metal-cutting tools; cemented carbide tools; electric welding machines; toolholders for metalworking machines (machine parts); sand blasting machines; drill chucks [parts of machines]; drill chucks being parts of machines; parts and fittings for metalworking machines and tools; drilling bits [parts of machines]; loading-unloading machines and apparatus; filters for filtering machines; chemical processing machines and apparatus; filters for chemical processing machines and apparatus; dust collecting machines; woodworking machines and apparatus; wood sawing machines; circular saw blades being parts of machines; pistons for cylinders; piston rings; parts of non-electric prime movers, other than water mills and wind mills; timing belts for motors and engines; fan belts for motors and engines; timing belts for land vehicle engines; exhaust pipes for land vehicle engines; oil pumps for land vehicle engines; pistons for land vehicle engines; engine bearings; mufflers for motors; engine cooling radiators; sealing joints [parts of engines]; camshafts for vehicle engines; oil filters; oil filters for motors and engines; particulate air filters for exhaust systems for internal combustion engines; fuel filters; automotive intake manifolds; exhaust manifold for engines; pistons for internal combustion engines; rocker arms for engines; cam shafts; automobile oil pans; parts of engines, not for land vehicles; cylinder heads for engines; cylinder liners for engines; cylinder head gaskets for engines; cylinder blocks for engines; piston pins for internal combustion engines; air filters for automobile engines and parts thereof; connecting rods for pistons [parts of machines]; fuel tank filler pipes for internal combustion engines; pneumatic or hydraulic machines and instruments; pumps [parts of machines, engines or motors]; plunger pistons; filters for air compressors; bearings, machine elements not for land vehicles; shaft couplings, machine elements not for land vehicles; shafts, axles or spindles, machine elements other than for land vehicles; bearings [parts of machines]; shafts for pumps; shaft couplings as parts of machines; cranks [parts of machines]; bearings [parts of machines, other than for land vehicles]; crankshafts; power transmissions and gearing, machine elements not for land vehicles; toothed wheels or gears, machine elements not for land vehicles; cams, machine elements not for land vehicles; power transmission belts, machine elements not for land vehicles; pulleys, machine elements not for land vehicles; clutch mechanisms, machine elements other than for land vehicles; hydraulic torque converters, machine elements not for land vehicles; speed change gears, machine elements not for land vehicles; clutches and apparatus for power transmission, other than for land vehicles; gear boxes, other than for land vehicles; clutches for machines; electric pulley blocks; power transmission belts for machines; cams being parts of machines; gears for machines; drive chains, other than for land vehicles; hydraulic torque converters, other than for land vehicles; gears, other than for land vehicles; shock absorbers, machine elements not for land vehicles; springs, machine elements not for land vehicles; springs being parts of machines; shock absorbers for machines; brakes, machine elements not for land vehicles; brakes for machines; brake pads, other than for vehicles; valves, machine elements not for land vehicles; valves being parts of machines; starter motors for land vehicles; automatic tool changers for industrial robots; spring shock absorbers, machine elements not for land vehicles; spring-assisted hydraulic shock absorbers, machine elements not for land vehicles; filtering

machines for chemical processing; polycrystalline diamond compact [PDC] drill bits for drilling machines; sintering machines for chemical processing; parts and accessories for compound semiconductor manufacturing apparatus; optical fiber fusion splicers.

Class 9:
Photographic apparatus and instruments; cinematographic apparatus; optical machines and apparatus; measuring or testing machines and instruments; power distribution or control machines and apparatus; rotary converters; phase modifiers; solar cells; batteries, electric; electric or magnetic meters and testers; electric conductors; electrical communication machines and instruments; personal digital assistants; magnetic cores; resistance wires; electrodes; consumer video game programs; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; phonograph records; downloadable music files; downloadable image files; recorded video discs and video tapes; electronic publications; life-saving apparatus and equipment; fire alarms; gas alarms; burglar alarms; monitoring and alarm apparatus for crime and disaster prevention; anti-theft apparatus and instruments, other than for vehicles; infrared cameras; laboratory apparatus and instruments; camera lenses; prisms [optics]; optical lenses; optical filters; optical mirrors; distance measuring apparatus; motion detectors; velocity sensors; acceleration sensors; gyroscopic sensors; electrical controlling devices; optical phase shifters; battery charging devices for motor vehicles; connectors [electricity]; plug-in connectors; noise filters for power supplies, for automobiles; charging connectors for electrically-powered vehicles, including electric automobiles, hybrid automobiles and electric bicycles; switching power supplies for automobiles; voltage regulators for automobiles; chargers for batteries; photovoltaic installations for generating electricity [photovoltaic power plants]; fuel cells; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; dry cells; accumulators [batteries]; car batteries; battery separators; telecommunication cables; power cables; fibre-optic cables; electric wire harnesses for automobiles; threaded cable connectors of metal; parts for insulated electric wires; connectors for optical fibres; end caps for electrical conduits and cable protection tubes; radio communication machines and apparatus; vehicular radio communication machines and apparatus; navigation apparatus for vehicles; radio direction finders; radar machines and apparatus; navigation apparatus for vehicles [on-board computers]; communication apparatus for vehicle-to-vehicle communication; radar apparatus; electronic broadcasting apparatus; video surveillance apparatus; magnetic wires; electromagnetic coils; video monitors; data communication apparatus and instruments; communication apparatus for video conferencing systems; radar reflectors; optical demultiplexers; image processing apparatus; vibration damping parts specially adapted for audio equipment for automobiles; telecommunication machines and apparatus, and parts and accessories therefor; head-up display apparatus for vehicles; smartphones; apparatus for recording, transmission, reception, processing or reproduction of sound, images or data; integrated circuits; transistors; thermistors; computer programs; computer programs for data processing; integrated circuit module; electronic circuit board; printed circuits; flexible printed circuits; electric discharge tubes; semi-conductors; semiconductor chips; semi-conductor devices; heat sinks for semiconductor devices; discharge tubes, electric, other than for lighting; image scanners; bar code readers; computer software platforms, recorded or downloadable; downloadable computer software for remote monitoring and analysis; downloadable cloud computing software; software for diagnostics and troubleshooting; computer hardware and computer software for database management; computer network server; computer programs for monitoring computer networks; computer software for cloud computing; computer application software for streaming audio and video media content via the internet; computer peripherals; electronic publications recorded on computer media; electronic control apparatus for automobiles, and parts thereof; electronic circuits and parts thereof; ultrasonic sensors; lasers for non-medical purposes; electromagnets; ultrasonic object detectors for use on vehicles; computerized vehicle engine analyzers; apparatus for testing vehicle brakes; apparatus for testing vehicle transmissions; speed checking apparatus for vehicles; speedometers for vehicles; thermostats for vehicles; thermostats for vehicle engines; automatic indicators of low pressure in vehicle tires; kilometer recorders for vehicles; vehicle wheel alignment machines; parking sensors for vehicles; water level indicators for vehicles; vehicle dipsticks; tire balancing machines for land vehicles; scanners [apparatus] for performing automotive diagnostics; voltage regulators for vehicles; power adapters for use in vehicle lighter sockets; charging stations for electric vehicles; batteries for vehicles; electric batteries for powering electric vehicles; cell phone battery chargers for use in vehicles; navigation computers for cars; subwoofers for vehicles; vehicle stereos; radios for vehicles; remote control apparatus for opening and closing vehicle doors; rearview cameras for vehicles; remote controls for operating vehicle alarms; vehicle tracking devices; power locks for motor vehicles; electronic keys for vehicles; sirens for vehicles; anti-theft alarms not for vehicles; electric actuators; electric cables and wires; lead wires; underwater power cables; special covered electric wires; electricity conduits; cable adapters; data transmission cables; battery cables; optical cables; protective sheaths for fiber optical cables; electron tubes; semi-conductor elements; magnetic object detectors; position sensors; sensors for determining position; pressure sensors; power wires; electrical bare wires; materials for electricity mains [wires, cables]; identification sheaths for electric wires.

Class 12:
Non-electric prime movers for land vehicles, not including their parts; mechanical elements for land vehicles; ac motors or dc motors for land vehicles, not including their parts; vessels and their parts and fittings; aircraft and their parts and fittings; railway rolling stock and their parts and fittings; automobiles and their parts and fittings; two-wheeled motor vehicles, bicycles and their parts and fittings; adhesive rubber patches for repairing tubes or tires; couplings for land vehicles; internal combustion engines for land vehicles; engines for land vehicles; clutches for land vehicles; shafts, axles or spindles, machine elements for land vehicles; bearings, machine elements for land vehicles; axles for land vehicles; power transmissions and gearing, machine elements for land vehicles; clutch mechanisms for land vehicles; cams, machine elements for land vehicles; speed change gears for land vehicles; torque converters for land vehicles; steering units for land vehicles; drive gears for land vehicles; gearboxes for land vehicles; transmission chains for land vehicles; transmission belts for land vehicles; transmissions for land vehicles; transmission components for land vehicles; transmission shafts for land

vehicles; shock absorbers, machine elements for land vehicles; springs, machine elements for land vehicles; air springs, machine elements for land vehicles; suspension shock absorbers for land vehicles; suspension systems for land vehicles; brakes, machine elements for land vehicles; brake calipers for land vehicles; brake cylinders for land vehicles; brake drums for land vehicles; disc brake pads for land vehicles; cone brakes for land vehicles; disc brakes for land vehicles; anti-theft alarms for vehicles; fuel tanks for vehicles; caps for vehicle fuel tanks; arm rests for vehicle seats; head restraints for vehicles; air bags [safety devices for automobiles]; clutch pedals of automobiles; motor car seats; tires [for automobiles]; tires for two-wheeled motor vehicles; inner tubes for automobile tires; inner tubes for motorcycle tires; rearview mirrors for automobiles; steering wheels for automobiles; handle bars for motorcycles; automobile wheel spokes; spokes for two-wheeled motor vehicles; airbags for vehicles; door handles for land vehicles; running boards for land vehicles; fuel tanks for land vehicles; gear shifts for land vehicles; door panels for land vehicles; fenders for land vehicles; direction indicators for land vehicles; tires for land vehicles; vehicle wheel spokes; spikes for tyres; tire chains for land vehicles; windscreen wipers [for automobiles]; windshield wiper blades; toothed wheels or gears, machine elements for land vehicles.

Class 17:
Valves of rubber or vulcanized fiber [not including machine elements]; gaskets; junctions for pipes, not of metal; joint packings; electrical insulating materials; washers of rubber or vulcanized fiber; chemical fiber, not for textile use; industrial packaging containers of rubber; rubber stoppers; rubber lids and caps for industrial packaging containers; condenser paper; vulcanized fiber; adhesive tapes, other than stationery and not for cosmetic, medical or household purposes; semi-worked plastic products; rubber [raw or semi-worked]; connecting hoses for vehicle radiators; adhesive sealant compounds; bonded seals; pipe joint sealant; static seals; dynamic seals; reinforcing materials, not of metal, for pipes; hose fittings, not of metal; flexible pipe and hose connectors, being flanges, not of metal; hoses made of plastic; hoses made of rubber; floating anti-pollution barriers; plastic oil fences; electrical insulating tapes; electrical insulating rubber products; insulating splice covers for electrical cables; insulating sleeves for power lines; soundproofing materials; adhesive tapes for bundling electrical wires; flexible pipes, tubes and hoses, not of metal; heat-shrinkable flexible plastic tubes; rubber sleeves for protecting parts of machines; synthetic rubber for use in manufacture; natural rubber; synthetic rubber; electrical insulators made of rubber; adhesive tapes of fluororesin, other than for stationery or medical purposes; adhesive-coated plastic sheets for use in manufacture; plastic sheets with surface treatment for affixing multilayer sheets to enhance friction resistance, and coated with adhesive; caulking materials; padding materials of rubber or plastics.

Class 7:
Motors and engines (other than for land vehicles); Machine couplings and transmission components (other than for land vehicles); machine tools; Motors, couplings and transmission belts, transmissions, couplers, torque converters, clutches, flywheels and damper wheels, all other than for land vehicles; retarders and brakes for all kinds for machines, command and control devices and parts thereof, especially mechanical, hydraulic, pneumatic, electrical, electrostatic, electromagnetic devices; Alternators; starters for motors and engines; Dynamos; igniting devices for internal combustion engines; Spark plugs; glow plugs for diesel engines; Anti-friction linings and friction linings for machines or motors; carbon brushes, particularly for alternators, electric motors or dynamos; Fans for motors and engines; hydraulic actuators of clutch controls; Electric motors other than for land vehicles; turbines other than for land vehicles; Hydraulic or pneumatic controls for hydraulic clutches other than for land vehicles; hydraulic or pneumatic

control units for engines; Clutch mechanisms other than for land vehicles; friction discs other than for land vehicles; Clutch release bearings other than for land vehicles; hydraulic clutch controls other than for land vehicles; Electric clutch controls other than for land vehicles; electronic actuators other than for land vehicles; Hydraulic actuators for clutch control other than for land vehicles; torque converters for vehicles (other than for land vehicles); Electric generators; aeronautical engines; Compressed air engines; filters for cleaning cooling air, for motors and engines; Oil filters, gasoline filters; shock absorber pistons (parts of machines); Anti-pollution devices for motors and engines; vacuum cleaners; Vacuum cleaner attachments for disseminating perfumes and disinfectants; gearboxes other than for land vehicles; Fuel economizers for motors and engines; cartridges for filtering machines; Clack valves [parts of machines]; control cables for machines, engines or motors; Control devices for machines, engines or motors; hydraulic controls for machines, motors and engines; Pneumatic controls for machines, motors and engines; fuel conversion apparatus for internal combustion engines; Fan belts for motors and engines; belts for motors and engines; Jacks; cylinder heads for engines; Cylinders for motors and engines; pistons for cylinders; Starters for motors and engines; water separators; Heat exchangers (parts of machines); exhausts for motors and engines; Injectors for engines; gaskets (parts of engines); Washing apparatus; washing installations for vehicles; Lifting apparatus; machine wheels; Pistons (parts of machines, motors or engines); air pumps (garage installations); Pressure valves (parts of machines); propulsion mechanisms other than for land vehicles; Cooling radiators for motors and engines; turbocompressors; Brake shoes, brake pads and segments and brake discs, other than for vehicles; filters (engine parts); Shoes, shoe plates, clamps, washers, sectors, discs, belts, furrings, rollers, made of or coated with friction or anti-friction bodies, all being parts of machines; valves (parts of machines); Control modules for electric motors; variable speed drives for motors and engines; Exhausts, electric motors; equipment for eliminating pollutant gases by photocatalysis; Cooling radiators for motors and engines; exhausts and starters for land vehicle engines; Carburetor feeders; air suction machines; Carburetors; air condensers; Catalytic converters; engines for air cushion vehicles; Hydraulic engines and motors; industrial robots; Mufflers for motors and engines; ethanol engines and motors; Endless electric field motors; ion engines; Noble gas engines; compressed air propulsion engines; Graphene-fueled battery engines; fuel cell electric engines; Equipment for eliminating pollutant gases for vehicles, namely, machines filtering air disseminated in the passenger compartment, cartridges for filtering machines, valves (parts of machines), exhaust gas recycling valves, valves for exhaust gas recycling; exhaust gas recirculation devices for reducing polluting gas emissions and in particular exhaust gases and nitrogen oxide emissions, exhaust gas recirculation valves (EGR valves); Electric door closers; ignition distributors for internal combustion engines; Machines, namely, electric cleaning machines and apparatus, shaft couplings [machines], machines for honing / machines for sharpening, agricultural machines, adjusting machines, diggers [machines], suction machines for industrial use, air suction machines, bicycle assembly machines; electromechanical actuators for mechanisms particularly for locking doors, adjusting the position of seats, rearview mirrors and the direction of headlights, for controlling sunroofs, window regulators; Automatic opening and closing systems for vehicle doors, trunks, hoods and roofs; electronic devices for opening and closing doors, trunks, hoods and roofs of motor vehicles; Ignition coils; ignition distributors; Electronic devices for opening and closing vehicle locks; shutters regulating air intake on a vehicle radiator (parts of radiators for regulating air intake); Exhausts; fuel economizers.

Class 9:
Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; Apparatus for sound or image recording, transmission and reproduction; magnetic recording media, sound recording disks; Compact disks, DVDs and other digital recording media; mechanisms for coin-operated apparatus; Calculating machines, data processing equipment, computers; software; Fire extinguishers; image analysis software, obstacle detection software for autonomous vehicles, software for self-driving vehicles, automated accelerator; Sensory sensor; lane departure warning system, stereoscopic cameras, all these goods intended for automated or semi-automated driving; On-board electronic systems in land vehicles for autonomous driving and parking; integrated electronic hazard and collision avoidance systems for automobiles; Pattern recognition software; artificial intelligence software; Computer hardware for data processing; odometric sensor; Automated speed selector; multidirectional rotary sensor; 3D mapping system; inertial power unit; Warning triangles for vehicles; digital sensors; Cameras; radar apparatus; Static magnetometer; automated electronic braking device; Automated electronic steering device; remote sensing; Ultrasonic rangefinder; rotary encoder; Speedometers; sonars; Lidars (laser detectors of obstacles); GPS; Software for connecting the driver and passengers of vehicles to a global computer network; apparatus and software for vehicle diagnostic apparatus; Electronic equipment and material used for assistance in driving, navigation, active safety, evasive maneuvers, emergency braking of land vehicles, namely, laser scanner for detecting static and/or moving obstacles; Electric, electronic or optical material and equipment for driving assistance, navigation, dynamic security for land vehicles, namely electronic control apparatus for motor functions, brakes and navigation for land vehicles in automated, semi-automated and manual operation mode; Electric, electronic or optical material and equipment for driving assistance, navigation, dynamic security for land vehicles, namely dashboard cameras, dashboard navigation device holders, dashboard touchscreens for vehicles, dashboard digital screens for vehicles, touch screens placed on steering wheels for land vehicles; electric, electronic or optical material and equipment for driving assistance, navigation, dynamic security for land vehicles, namely motion detection apparatus and cameras for land vehicle drivers; Equipment for data processing and computers; software (recorded programs); Computer peripherals; detectors; Integrated circuit cards [smart cards]; sensors for the assisted driving and navigation of land vehicles; On-board and ground diagnostic calculators; on-board diagnostic systems and remote query diagnostic systems; Electric and electronic material and equipmentfor controlling, managing, regulating and checking air conditioning, ventilation, de-icing and heating apparatus for motor vehicles; systems for downloading software and updating software; Systems for communication between vehicles and road infrastructure; alarms; Fire extinguishers, protection devices for personal use against accidents; optical data media,

magnetic data media; Transmitting sets (telecommunication); transmitters of electronic signals; Multimedia equipment for the information and entertainment of passengers of a vehicle; optical signal transmitting electronic apparatus for land vehicles (alarms); Application software for mobile phones in the automotive and transport sector; downloadable computer software applications; Keyless access and starting system for a vehicle; system for automatic and remote starting of vehicle components; Systems for wireless connection between electronic devices and land vehicles; systems for wireless monitoring, regulating, control and connection between electronic apparatus and a land vehicle; Electric and electronic locks; software for opening and closing doors, trunks, hoods and roofs of motor vehicles; Data processing equipment for opening and closing doors, trunks, hoods and roofs of motor vehicles; communication system between a motor vehicle and a mobile telephone; Software for communication between a motor vehicle and a mobile telephone; application development software; Data processing equipment for vehicle rental services; mobile telephones for vehicle rental services; Software for vehicle rental services; data processing equipment for vehicle lending services; Mobile telephones for vehicle lending services; software for vehicle lending services; Data processing equipment for control from a vehicle and/or delivery of online commands to a vehicle; mobile telephones for control from a vehicle and/or delivery of online commands to a vehicle; Software for control from a vehicle and/or delivery to a vehicle of online orders; scientific, nautical, optical, measuring, signaling, position-indicating, detection, checking (supervision) and security apparatus and instruments; Electric and electronic components, apparatus, instruments and equipment for headlights namely headlight controls, optical, electric and electronic wiring systems, including in pre-assembled form, particularly for vehicles and all components for transmission by multiplexing, coupling or other means of signals (sounds, images, data) or information on vehicles; online carrier currents (OCC); Systems for the wireless connection of electronic devices; traditional semi-conductor fuse boxes, electric interconnection housings; On-board communication networks for vehicles, especially multiplexed, namely electric cables and optical fibers; electric, electronic or optical on-board equipment for vehicles, namely electric cables and optical fibers; Cable connectors; coaxial connectors; Electric connectors; interface links; Electric, electronic or optical equipment, on board vehicles, including land vehicles, for steering, signaling, controlling, for information, safety as well as processing of information and signals (sounds, images, data) related thereto; position, angle, torque and rotary speed sensors; Light sensors, sensors for varying light intensity, sensors for dimming a light source; light detectors, detectors for varying light intensity, detectors for dimming a light source; Transmitter/receivers of light sources, transmitter/receivers for varying light intensity, transmitter/receivers for dimming a light source; testing apparatus for light sources, testing apparatus for varying light intensity, apparatus for analyzing the variation of a light source; Devices for adjusting headlight beams; chopper circuits (current converters); Supercapacitors; current rectifiers; Diode bridges; electrical or electronic variators; Electric accumulators; electric relays and commutators; Printed circuits; electronic components; Diodes and semiconductors; rectifiers, particularly diode bridges, electronic ignition modules; Electronic ignition modules; electromagnetic relays; Measuring sensors; wiring harnesses; Ignition harnesses; remote control systems; Electronic key fobs; electric switches; Electric switches; on-board computers for vehicles; Navigation assistance devices comprising compact disk players or other digital data media, liquid crystal display screens, microphones, keyboards, loudspeakers and headphones; electric switches-commutators; Electric control levers; systems for communication between a motor vehicle and a fixed station; Electronic cards; housings for electronic circuits; Rotating contacts; switches below steering wheels; Flashing-light units; electronic power supply devices for discharge lamps; Data media, especially magnetic or optical media; integrated circuits; Fiber-optic cables; coaxial cables; Distance recording apparatus; information processing apparatus; Readers (data processing equipment); signaling system with light-emitting diodes, including high power diodes; Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, position indicating, detecting, checking (inspecting), life-saving and safety apparatus and instruments; magnetic recording media, optical or sound recording disks; Compact discs, DVDs and other digital recording media, equipment for data processing and computers; electric batteries; Electric wires; electric relays; Diagnostic apparatus not for medical use; integrated circuit cards [smart cards]; Electric and electronic apparatus, instruments, materials and equipment for the driving assistance and navigation of land vehicles; utility trays, optical, electric and electronic wiring systems, including in pre-assembled form particularly for vehicles and all components for transmission by multiplexing, coupling or other means of signals (sounds, images, data) or information on vehicles; Wireless monitoring, regulation, control and connection systems between electronic apparatus and a land vehicle; on-board communication networks for vehicles, microphones; Earphones; electric terminals; Electric connectors; electric and/or electronic controls for driving assistance, navigation of land vehicles; Transponders; alarms, especially with ultrasound sensors; Air analysis apparatus; starter cables for motors; Fuses; multimedia equipment for the information and entertainment of passengers of a vehicle; Headlight inclination correctors; signaling lights indicators; Electronic or digital position indicators for valves and faucets, and parts thereof; capacitors; Batteries for vehicles; electric and electronic apparatus, instruments, materials and equipment for the driving assistance and navigation of land vehicles; On-board communication networks for vehicles; electric and electronic apparatus, instruments and material and equipment for vehicles, namely, controls for windshield wipers, headlights, heating and air conditioning, seat adjustment, window regulators, sunroofs, radio and navigation, cruise control; Combined systems of car radio, navigation and air-conditioning management; optical readers; Distance measuring apparatus; modems; Monitors (hardware); monitors (computer programs); Satellite navigation apparatus; navigation apparatus for vehicles (on-board computers); Computers; simulators for the steering or control of vehicles; Electric cards; devices for regulating headlight beams; Variators for lighting intensity, especially as a function of braking for brake lights; pre-collision detection and collision avoidance systems; Light variation sensors; equipment for communication via Internet link or similar equipment and for data display inside a vehicle; Reception antennas, transmission antennas for sound, images and data; "head-up" screen display; Lateral trajectory monitoring systems; road-marking detection apparatus; Apparatus and instruments for processing video images; systems and instruments for the remote control of vehicles; Systems for blind spot monitoring and lane changing assistance; electronic management systems

for lighting and signaling and cameras; Lenses for sunglasses, polarizing lenses, tinted lenses, filtering lenses, colored lenses, light-sensitive lenses, light-adjusting lenses; computer software for controlling and monitoring optical and measuring apparatus and instruments; Software for measuring and displaying optical parameters; optical measuring apparatus; Circuit breakers; battery kill-switch (at rest and in the event of collision); Electronic battery management devices; traditional semi-conductor fuse boxes, electric interconnection housings; On-board communication networks for vehicles, in particular multiplexed and in particular apparatus and instruments for mobile telephones known as hands-free kits with a microphone, headphones whether wired or wireless; liquid level sensors; Oil level sensors; temperature sensors; Rain sensors; dirt sensors; Pressure sensors; presence detectors; Motion and motion analysis detectors; electric or electronic regulators for alternators; Electronic power equipment (current inverters and current converters); rectifiers, particularly diode bridges, Peltier-effect modules and heat exchangers for diodes and modules; Software download and software update systems; ignition switches; Capacitors for radio interference suppression; electric and/or electronic clutch controls; Electric or electronic gearbox controls; electric control panels; Navigation assistance devices comprising a compact disk player or other digital data carrier, a liquid crystal display screen, a microphone, a keyboard, loudspeakers, earphones; parking assistance and automated parking system, namely parking assistance radars, vehicle reversing sensors, anti-collision and shock-prevention sensors for vehicles, electronic devices for electric and/or electronic power steering, lidars, video cameras, infrared sensors, sonars, anti-collision and shock-prevention radars for vehicles, transmitters, ultrasonic wave transmitters and receivers; Obstacle detection device; automatic coin or token-operated apparatus, talking machines, cash registers, calculating machines; Electronic apparatus for engine thermoregulation; electronic steering apparatus for valved, pumps, ventilation fans; Speed checking apparatus for vehicles, speed governors; time recording apparatus; Sound recording apparatus; kilometer recorders for vehicles; Gasoline gauges; fire alarms; Slope indicators; electric loss indicators; Pressure indicator plugs for valves; temperature indicators; Speed indicators; barcode readers; Electronic notice boards; taximeters; Decelerometers; apparatus for checking the efficiency of vehicle braking devices; Variators for lighting intensity, especially for brake lights in accordance with braking; electronic control units for electric motors; Systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; assistance system for parking, reverse gear and blind spot detection; Automatic and remote locking and unlocking system for vehicle apertures; remote control systems for vehicle heating or conditioning by means of a badge, or combined with another apparatus such as a telephone, pocket computer, electronic agenda; System for recovering certain vehicle data on a badge; control monitors; Flat screens; compact disk players, including for video compact disks; Digital compact disks, including video compact disks and other data media; signaling light indicators; Control devices for torque converters for vehicles; control devices for brakes and braking installations for vehicles; Apparatus for checking the efficiency of vehicle braking devices; measuring, signaling, position indication, detection, checking (inspection), life-saving, security apparatus and instruments; Electronic apparatus intended for vehicle driving assistance; electronic apparatus for vehicle parking assistance; Electronic apparatus for detecting and warning of continuous or discontinuous line crossing for vehicles; electronic apparatus for detecting, recognizing and reading road traffic signs; Electronic navigation apparatus for vehicles; GPS receivers; Systems for the remote control of vehicle heating or air conditioning by means of a badge, or in combination with another device such as a telephone, mobile telephone, pocket computer, electronic agenda; systems for recovering certain vehicle data on the badge or in combination with another device such as telephone, mobile telephone, pocket computer, electronic agenda; Systems for recovering certain vehicle data on the badge; equipment for communication via telephone link or the Internet or similar type and displaying of data on handset or other devices such as a telephone, mobile telephone, pocket computer, electronic agenda; Video sensors, video cameras; apparatus and instruments for electrical and electronic communication and telecommunication; Special mounting brackets for telecommunications equipment, power supply, electrical connecting devices, batteries, protective shells for mobile phones, GPS receivers, video cameras; software for use in vehicle driving assistance; Software for vehicle parking assistance; software for detecting and warning of continuous or discontinuous line crossing for vehicles; Software for the detection, recognition and reading of road traffic signs; software used for navigation for vehicles; Telephones; software used for obstacle detection; Software for communication between a motor vehicle and a fixed station; software for communication between a motor vehicle and a mobile telephone; Software for the automatic and remote starting of vehicle components; software for the access and starting of a vehicle without a key; Software for the automatic opening and closing of the doors, trunk, hood, roof of a vehicle; software for the remote control of vehicle heating or air conditioning by means of a badge, handset or other devices such as a telephone, mobile telephone, pocket computer, electronic agenda; Software for recovering some vehicle data on the badge or in combination with other devices such as a telephone, mobile telephone, pocket computer, electronic agenda; voice recognition software, voice synthesis software; Combined car radio, navigation and air-conditioning management systems; anti-pinching systems for window regulators and sunroofs; Power electronics (current inverter and current converter); electrical and/or electronic power steering device; Dashboard instruments, namely tachometers; systems for the remote control of vehicle heating or air conditioning by means of a fob, or in combination with another device such as a telephone, pocket computer, electronic agenda; Battery cut-off switches (at rest and in the event of collision); electronic battery control equipment; Traditional semi-conductor fuse boxes, electric interconnection housings; signaling systems with light-emitting diodes, including high-power diodes; Current inverters and current controllers (power electronics); direct current converters (for transforming direct current voltage); Rectifiers, in particular diode bridges, Peltier-effect modules, exchangers for diodes and modules; software download and update systems; Electronic devices for electric and/or electronic power steering; electric devices for electronic assisted suspension; Electric or electronic controls for gearboxes; dashboard instruments, namely revolution counters, speedometers, multi-function displays, liquid crystal displays, on-board vehicle computers, navigation assistance devices comprising a compact disk player or other digital data media, a liquid crystal display screen, a microphone, a keyboard, loudspeakers, earphones; Liquid crystal displays; electric control levers; Parking assistance systems, namely parking assistance radars, vehicle

reversing sensors, anti-collision and shock-prevention sensors for vehicles, lidars, video cameras, infrared sensors, anti-collision and shock-prevention radars for vehicles, transmitters, ultrasonic wave transmitters and receivers; systems for parking assistance and self-parking; Obstacle detection devices; systems for communication between a motor vehicle and a fixed station; Modules that cause lights to flash intermittently (turn signals); electronic thermoregulators for motors and engines; Electronic pilots for valves, pumps and fans; barcode readers; Variators for lighting intensity, especially as a function of braking for brake lights; systems for detecting, processing, signaling and following stationary and moving objects around a vehicle; Built-in electronic driver assistance systems, namely electronic systems for parking, reversing and blind spot detection, and electronic automatic braking systems; pre-collision detection and collision avoidance systems; Automatic and remote locking and unlocking systems for vehicle apertures; automatic and remote starting for vehicle systems; Keyless access and starting systems for vehicles; automatic opening and closing systems for vehicle doors, trunks, hoods and roofs; Systems for remote control of heating or air conditioning in vehicles by means of a fob, or in combination with other devices such as a telephone, pocket computer or electronic agenda; systems for recovering some vehicle data on a fob; Antennas for reception, antennas for transmission of images, sounds and data; electronic lateral trajectory correction devices in case of accidental deviation of a vehicle; Vehicle teleguidance systems and instruments; blind spot monitoring and lane changing assistance systems; Electronic management systems for lighting and signaling and cameras; electromagnetic light-emitting diode lighting systems, in particular carrying devices; Dashboard instruments, namely, tachometers; parking assistance and automated parking system, namely: parking assistance radars, vehicle reversing sensors, anti-collision and shock-prevention sensors for vehicles, electronic devices for electric and/or electronic power steering, lidars, video cameras, infrared sensors, anti-collision and shock-prevention radars for vehicles, ultrasonic wave transmitters and receivers; Electronic equipment and software for vehicle location services; downloadable software applications for keyless vehicle access and start; Downloadable software applications for automatically opening and closing vehicle doors, trunks, hoods, roofs; downloadable software applications for vehicle rental services; Downloadable software applications for vehicle loan services; downloadable software applications for vehicle location services; Downloadable software applications for activating and deactivating electronic apparatus and instruments installed on a vehicle; downloadable software applications for traffic condition and accident alerts; Downloadable software applications for weather forecast warnings; downloadable software applications for the control from a vehicle and/or delivery to a vehicle of online orders; Software for coordinating transportation services, namely software for automated control and dispatch of vehicles; on-board electronic modules for broadcasting, transmitting, receiving, processing, diagnosing, analyzing, correcting vehicle operating status information; Embedded electronic module software for the broadcasting, transmission, reception, processing, diagnosis, analysis, correction of vehicle operating status information; apparatus for locating, identification, monitoring, remote control of vehicles; Software for collecting and providing information on parking spaces for vehicles; automatic driving systems for vehicles; Downloadable software applications for vehicles; photovoltaic cells; Lasers not for medical purposes; computer software and computer hardware, namely, sensors, wireless transceivers providing connectivity within the vehicle, between vehicles, with cell phones, and data centers, with touch, audio and visual interfaces enabling interaction with the driver and passengers of the vehicle; Diagnostic apparatus incorporating sensors for testing vehicle operation and for diagnosing electric, electronic and mechanical vehicle problems, anti-theft warning apparatus; warning device for low pressure in vehicle tires; Encoded key cards; battery chargers; Intercommunication apparatus; meteorological instruments; Electronic devices for reading, transmitting and processing of traffic signs data; electronic devices for reading, transmitting and processing data emitted by a vehicle; Solar panels for electricity production; vehicle driver facial recognition device; Biometric vehicle driver identification system; vehicle driver fingerprint identification apparatus; Alcohol interlock for vehicles; software intended for the detection of signs of vehicle driver fatigue; Software for the detection of signs of vehicle driver inattention; vehicle passenger fingerprint identification apparatus; Wire for aerials, namely connection cables; electromagnets, especially for carrying purposes; Equipment for eliminating pollutant gases for vehicles, namely gas-testing apparatus; electric controls for the driving assistance and navigation of land vehicles; Electronic actuators for assisting in the driving, navigation of land vehicles; electro-mechanical actuators for driving assistance, navigation of land vehicles; Command or control elements and devices and control panel for vehicle heating, cooling, ventilation, conditioning, climate control, and demisting apparatus; apparatus for checking the efficiency of a vehicle braking device, decelerometers; Air ozonizers; ozonizers (ozonators); Signaling lights for vehicles; electric control apparatus for cleaning and washing vehicle rear windows; Electric control apparatus for cleaning and washing vehicle cameras; electrical control apparatus for cleaning and washing front and rear vehicle headlights; Electric control apparatus for cleaning and washing vehicle windshields; activation system for lighting, heating, cooling, drying, ventilating and water distribution apparatus triggered by electronic devices for reading, transmitting and processing traffic sign data; Deactivation system for apparatus for lighting, heating, cooling, drying, ventilating, water supply triggered by electronic devices for reading, transmitting and processing data from signaling panels; controllers for lighting, heating, refrigeration, drying, ventilation, water distribution apparatus triggered by electronic devices for reading, transmitting and processing data from traffic signs; Activation system for lighting, heating, cooling, drying, ventilating and water distribution apparatus triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; deactivation system for apparatus for lighting, heating, cooling, drying, ventilating, water supply triggered by electronic devices for reading, transmitting and processing data emitted by a vehicle; Controllers for lighting, heating, refrigeration, drying, ventilation, water distribution apparatus triggered by electronic devices for reading, transmitting and processing data transmitted by a vehicle; charging stations for vehicles; Electronic and hydraulic control systems for driving assistance, navigation of land vehicles.

Class 11:
Apparatus for lighting, heating, steam generating, refrigerating, drying, ventilating and water distribution; Lighting installations, headlights for vehicles; headlamp glasses; Vehicle headlights; ceiling lights; Lamps; hot air ovens; Air

conditioners; air conditioners; Convectors; heat exchangers; Radiators, finned tubes for heating vehicles, boilers; central heating equipment; Urban heating facilities; apparatus for heating, refrigerating, aeration, ventilation, conditioning, air-conditioning, defogging for vehicles; Heat exchangers; ventilator fans for air-conditioning; Heat accumulators; air purification apparatus and machines; Air deodorizing apparatus; air filters for air conditioning; Air filtering installations; light bulbs; Light bulbs for directional signals for vehicles; electric light bulbs; Demisting heating apparatus for vehicles; anti-glare devices for vehicles (lamp fittings); Heating apparatus for defrosting windows of vehicles; radiator caps; Solar collectors (heating); heat regenerators; Air conditioners for vehicles; air-conditioning installations for vehicles; Defrosters for vehicles; liquid coolers (installations); Level controlling valves in tanks; pressurized water tanks; Evaporators; electric radiators; Storage devices for heat or cold; lighting systems, directional lighting systems; Anti-dazzle devices for automobiles [lamp fittings]; anti-glare devices for vehicles [lamp fittings]; Thermal controls [valves] for central heating radiators; installations for heating, ventilation, comprising a device for the distribution of fragrances and perfumes inside a vehicle passenger compartment, apparatus for heating, aeration, ventilation, air conditioning, cooling, demisting for vehicles comprising a device for the distribution of fragrances and perfumes inside a vehicle passenger compartment; Installations for heating, ventilation, comprising a device for dispensing anti-allergenic products in a vehicle passenger compartment, apparatus for heating, aeration, ventilation, air-conditioning, defogging for vehicles comprising a device for dispensing anti-allergenic products inside a vehicle passenger compartment; installations for heating, ventilation, comprising a device for the distribution of air purifying products inside a vehicle passenger compartment, apparatus for heating, aeration, ventilation, air conditioning, cooling, demisting for vehicles comprising a device for the distribution of air purifying products inside a vehicle passenger compartment; Installations for air conditioning for vehicles comprising a device for the distribution of fragrances and perfumes inside a vehicle passenger compartment; vehicle air-conditioning installations comprising a device for dispensing anti-allergenic products inside a vehicle passenger compartment; Air-conditioning installations for vehicles comprising a device for the distribution of air-sanitizing products in the passenger compartment of vehicles; glass panes for headlamps; Air conditioners for land vehicle interiors; turbine blowers for ventilation; Lighting systems with light-emitting diodes, including high-power diodes; headlight mirrors (transparent wall for enclosing headlights); Lighting and signaling systems with light-emitting diodes, including high-power diodes; lighting systems for automatic activation and deactivation of high beam when approaching another vehicle; Lighting systems for automatic activation and deactivation of high beam when approaching a pedestrian; lighting systems for automatic activation and deactivation of high beam when approaching a lit section of road; Air humidifier; air reheaters; Air dryers; air sterilizers; Fans (parts of air-conditioning installations); facial sprays; Electric fans for personal use; air cooling devices; Deodorizing apparatus for diffusing fragrances in motor vehicles; equipment for eliminating pollutant gases for vehicles, namely air filters for air conditioning, thermostatic valves (parts of heating and air conditioning installations), apparatus for purifying pollutant gases to prevent their intrusion into the passenger compartment of motor vehicles; Electronic apparatus and installations for servicing, cleaning and recharging air-conditioning installations for vehicles; lighting apparatus with light-emitting diodes (LED); LED light bulbs; lighting system with light-emitting diodes, including high-power diodes; Directional lighting systems.

Class 12:

Class 7:
3D printing pens; portable saw mills; food processors, electric; industrial robots for welding; industrial inkjet printing machines; 3D printers; lawnmowers, electric; lawn edge trimmers [machines]; water heaters being parts of machines; dust exhausting installations for cleaning purposes; water pumps for use in aquariums; snow ploughs; cordless electric sweepers; electric feeding machine for animal; washing apparatus; rechargeable sweepers; ride-on lawn mowers; machines and apparatus for cleaning, electric; centrifugal pumps; pumps for counter-current swimming; pumps [parts of machines, engines or motors]; swimming pool cleaning machines; filters being parts of machines or engines; electromechanical machines for chemical industry; motors, other than for land vehicles; water pumps for swimming pools.

Class 8:

Apparatus for destroying plant parasites, hand-operated; garden tools, hand-operated; hand-operated lawn aerators; saws for cutting branches; three-pronged garden rake (hand tool); pruning scissors; hand tools, hand-operated; trowels [gardening]; gardening shears; gardening trowels.

Class 9:
Battery chargers; computer game software, recorded; smartglasses; multimedia projectors; cameras [photography]; remote control apparatus; solar batteries; smartglasses [data processing apparatus]; computer operating programs, recorded; downloadable electronic game programs; optical communications instruments; electrical transmitters for communication; camcorders; audio speakers; holographic projection apparatus; electronic motion sensitive switches; computer peripheral devices; downloadable video game software; wearable activity trackers; humanoid robots designed to assist humans and provide entertainment, equipped with communication and learning capabilities; diaphragms [acoustics]; loudspeakers; digital projectors; humanoid robots with artificial intelligence for use in scientific research; humanoid robots with artificial intelligence (AI) for use in scientific research; teaching robots; motion recognizing sensors; computer game software, downloadable; virtual reality software; megaphones; portable speakers; projection screens; light dimmers; cabinets for loudspeakers; audio equipment; computer chatbot software for simulating conversations; central processing unit for information, data, sound and images; downloadable virtual reality computer game software; transmitting and receiving apparatus for long-distance transmission; network communication equipment; humanoid robots having communication and learning functions for assisting and entertaining people; video recorders; security surveillance robots; video projectors; accumulators, electric; charging stations for electric vehicles; humanoid robots with artificial intelligence for preparing beverages; humanoid robots with artificial intelligence for use in household cleaning and laundry; user-programmable humanoid robots, not configured; user-programmable unconfigured humanoid robot; computer software, recorded; interactive multimedia computer game programs; virtual reality headsets; miniature projector; motion-activated cameras; electric light dimmers; motion sensors; batteries, electric; photovoltaic cells; telepresence robots; wearable video display monitors; three-dimensional software for the representation of a character and its movements and for interaction with the character in a virtual world; global positioning system [GPS] apparatus; apparatus for transmission of communication; smart speakers.

Class 10:
Nanorobots for medical purposes; medical apparatus and instruments; medical robot for treating attention deficit disorder in children; wearable walking assistive robots for medical purposes; dental apparatus, electric; medical robots for use in cognitive therapy for children; medical robots for treating children's language disorders; surgical robots; heart rate monitoring apparatus; apparatus for use in medical analysis.

Class 11:
Light-emitting diode [LED] light bulbs; smart light bulbs; cooking stoves; apparatus for fertilizer irrigation; water sterilizers; aquarium filtration apparatus; polymerisation installations; cooling installations for water; refrigerating appliances and installations; roasters; heaters for swimming pools; fountains; cookers; dehumidifiers; water heaters; solar water heaters; lamps; LED lights; griddles [cooking appliances]; robotic air purifiers for household use; heating apparatus; disinfectant apparatus; water softening apparatus and installations; cooling installations and machines; air-source heat pump water heaters; drip irrigation emitters [irrigation fittings]; cooking apparatus and installations; air-conditioning installations; drying apparatus and installations; agricultural irrigation units; watering installations, automatic; air cooling apparatus; solar lamps; solar cookers; coffee machines, electric; air dryers; light projectors; irrigation sprinklers; swimming pool chlorinating apparatus; heat pumps; thermostatic valves being parts of heating installations; LED underwater lights; coffeepots, electric; drying apparatus; solar energy collectors; nuclear reactor vessels; lighting fixtures; gas purifying apparatus; sanitary apparatus and installations; solar thermal collectors [heating]; water filtering apparatus; water purification installations; installations for processing nuclear fuel and nuclear moderating material; cooling appliances and installations.

Class 12:
Water vehicles; remote control vehicles, other than toys; electric bicycles; aerial photography drone, other than toys; electric vehicles; motorized skateboards; bicycles; self-driving robots for delivery; self-balancing boards; push scooters [vehicles].

Class 28:
Toy robots; smart toys; toys for pets; bite sensors [fishing tackle]; plush toys; balance bicycles [toys]; rods for fishing; toys; knee guards for sports; video game consoles; swimming pools [play articles]; swimming floats; apparatus for games; flying discs [toys]; swimming pool air floats; strength training apparatus; remote-controlled toy vehicles; drones [toys]; swimming kickboards.

Class 35:
Internet advertising services; provision of an online marketplace for buyers and sellers of goods and services; wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies; marketing; goods import-export agencies; rental of yard signs for advertising purposes; promotion of goods through influencers; outdoor advertising; sales promotion for others; retail services for pharmaceutical, veterinary and sanitary preparations and medical supplies.

Class 7:
Actuators for mechanisms and for valves; auxiliary web processing equipment, in particular, roll and web handling machines, web drying and conditioning machines; automatic throttle valves for pressure control; filtering machines, namely bag filter apparatus for cleansing industrial gas streams; bearings [parts of machines], in particular roller bearings and slide bearings; bevel gears with motor; catalytic converters, in particular honeycombs made of ceramic; compressors [machines]; condensers for liquifying gases or vapors; control mechanisms for machinery or engines; current generators and electrical generators; devices for heat recovery [parts of machines]; electric driving motors for machines; electric motors and electrical engines, other than for land vehicles; industrial machines and robotic systems for manufacturing, processing and transport, and control devices therefor; exhaust gas catalysts, exhaust gas treatment equipment, in particular for marine engines and industrial installations, exhaust pipes [machine parts] and exhaust silencers, for turbines, air compressors and industrial blowers; exhausters being suction ventilators; exhausts, filters and silencers, in particular for engines, machines and motors; filters [parts of machines or engines]; fluid supply and disposal installations for installations and apparatus using high-pressure media; gas turbines, in particular for use in mobile and stationary applications; gear motors and gears, other than for land vehicles; heat exchangers

[parts of machines]; heat insulated metal piping elements [parts of machines] and heat recovery devices [parts of machines]; hydraulic actuators and hydraulic and pneumatic controls for machines; metal joints for tubes [parts of machines]; machine parts, namely, cylinders [machine parts], brakes for industrial machines, belt drives, belt pulleys, clutch levers, other than for land vehicles, drive mechanisms, industrial process controllers [hydraulic], pressure regulating apparatus being parts of machines, regulators [parts of machines], valves [parts of machines] and heat exchangers; machines for fluidization and spraying of powdery media, being parts of machines; machines for the supply of compressed air for industrial purposes; marine engines for propelling ships, boats or other marine vessels; mechanical seals [machine parts]; micro gas turbines for waste heat recovery; machines for drying and conditioning paper rolls; motorised fans for machines; mufflers [parts of exhaust systems and part of machines] as well as mufflers for engines, turbines, air compressors, and industrial blowers; intake and exhaust silencers and replacement parts therefor, air filters and filtration systems comprised of air filtration housings and air filter elements for engines, power-operated blowers, power-generating turbines, compressors for machines, fans and vents for industrial machine engines; nozzles for dispensing particles and liquids and gas; particulate filters and air filters for engines, turbines, air compressors and power operated industrial blowers; air filtration systems comprising air pre-cleaners for reducing dust and debris entering the air filtration system, particulate filters, air filters, and air flow ducts and sensors for regulating the direction and velocity of air flow, for industrial installations; planetary gear motors; pneumatic actuators; powder handling apparatus [machines]; pressure cylinders [hydraulic and pneumatic cylinders], being parts of machines; printing cylinders; process control mechanisms for manufacturing installations; pumps [machines]; rotor actuators; separators for liquid solutions; sewage pulverizers; silencers; sound absorbers, being parts of machines; spraying machines; taps, clack valves and throttle valves being parts of machines, engines and motors; thermal fluid flow machines; tools for machines; transmission mechanisms other than for land vehicles; turbine blades and turbine vanes as parts of gas turbine engines; turbo generators; valves [parts of machines], in particular butterfly valves and disc valves; ventilators [parts of machines]; vessels for thermal or chemical and biological treatment of industrial fluids, being parts of machines; vibrating separators [machines]; waste gas conduits [parts of machines].

Class 9:
Apparatus and installations for testing status-oriented machine maintenance; apparatus for transmitting data and data communication; apparatus for vibration monitoring and measuring, in particular for rotors; apparatus for machine monitoring purposes; application software for cloud computing services, to monitor data in a cloud and for the planning and control of products, production processes and machines by means of a cloud; artificial intelligence apparatus, namely, AI-based measuring and control apparatus; audio-recorders; augmented reality software for use in mobile devices for integrating electronic data with real world environments; bimetallic strip thermometers; boiler control instruments; cables, electric and electrical; capsule element pressure gauges; checking [supervision] apparatus and instruments; communication interface units and communication networks; communication software for connecting computer network users and for connecting global computer networks; commutators; computer database servers and data entry as well as data output terminals; computer programs and programs for data processing, data transmission and data analysis, for browsing and searching online databases, for data storage and for operating systems and network operating systems; computer programs, in particular control and regulating programs for optimizing the use of ventilation installations, exhaust air purifying installations, heating systems and energy accumulators; computer software for mobile phones and for remote controls; computer utility programs for data compression and computer programs for accessing online databases; data and image processing software for making three dimensional models; data collection devices; data communication and compression software; data loggers and data recorders as well as data terminals; data networks and networks for data transmission; data storage devices and media, in particular for smartphones; computer hardware and software for cloud computing and IoT (Internet of things) for mechanical engineering; devices for computer networks, data communication and for network management control; diagnostic apparatus and installations constructed thereof; digital data storage media; downloadable software applications for use with three dimensional printers and for the transmission of data; electric actuators; electric and electronic controls for dryers for drying and hardening lacquers, paints on lacquered or painted objects and coated webs; electric connectors and connections, in particular plugs, sockets and other contacts [electric connections]; electric reactors; electric switch cabinets; electrical switch cabinets; electricity conduits; electronic displays; electronic sensors and sensor controllers; electronically stored data; encryption devices; energy regulators; fire detectors and fire sensors; flame monitors and flame sensors; flow meters; frequency converters and frequency transformers; gas sensors and gas composition sensors; gas measuring apparatus, in particular gas sensors; gas flow monitors; hardware and computer hardware, computing equipment and databases for computer systems; heat regulating apparatus; high pressure manometers and high-pressure pressure gauges; infrared thermometers; instruments for physical measurements; interface devices; LAN [local area network] access points for connecting network computer users; light dimmers [regulators], electric; measuring apparatus, devices and instruments; network-attached storage [NAS]; local network [LAN local area network]; NIR or FID sensors; optical lenses and sensors; optical measuring, signaling, display and checking [supervision] apparatus and instruments, in particular for monitoring gas or liquid flows and for monitoring machine functions and conditions or state variables or composition of gas or liquid flows; peripheral devices for data duplication; piezoelectric igniters; pressure gauges, regulators, sensors and pressure transmitters; process controlling software; radio transmission devices; range sensors; recorded and downloadable computer software; recorded content [recorded data]; regulating and control software; remote control apparatus, receivers and remote control transmitters; resistance thermometers; revolution counters; safety devices, namely, light barriers, switches, shielding hoods and actuating devices therefor; sensors for measuring and measurement technology, in particular related to cloud computing, cloud networks or IoT (Internet-of-things); sockets, plugs and other contacts [electric connections]; software; software [interactive] for the exchange of information; software for virtual reality and for mobile terminals; software for authorizing access to databases and for communication between computers over a

local network; software for controlling gas or liquid flows, for controlling gas burners and for controlling heat exchangers; software for data processing and for data research; software for generating an augmented reality experiences, for graphical user interfaces, for host and gateway systems and for industrial applications as well as for industrial process control; software for numerical control and for predictive maintenance; software for use in conjunction with industrial production and production planning; solenoid valves [electromagnetic switches]; spark electrodes; spring callipers; strain gauges; switch cabinets; switches, in particular pressure switches, differential pressure switches, vibration switches and proximity switches; tablet monitors; tachometers; temperature controllers, indicators, probes and switches; thermal controllers; thermocouples; thermometers; transducers, namely, displacement and vibration speed as well as acceleration transducers; transformers, in particular electricity and ignition transformers; transmitters; vibration gauges, measuring devices, sensors and vibration sensors for installation in wind mill housings and wind turbines; video-recorders.

Class 11:
Air filters for industrial installations; air cleaning and air cooling apparatus; air driers; air entrainment devices [included in this class], in particular, ventilators, blowers, air coolers, air filters, air volume control valves, air conduits and nozzles; air filter systems and installation; thermal incineration installations, in particular afterburning installations; air filters and air handlers; air heating and air humidifying installations; air pollution control equipment, namely, catalytic and sorptive and thermal oxidizers and heat recovery units; air purification installations, machines and apparatus, in particular for removing pollutions, dust, solvents, for drying and hardening of surfaced coatings on objects by means of hot air as well as particulate material from air flows and objects by burners; chimney extractors and chimney flues; combustion chambers and combustors; cooling machines, installations and devices; cooling installations for liquids; ventilating apparatus, namely throttle valve registers for air distribution system; dehumidifiers; drying apparatus and installations; dust filters; electrical, electromagnetic, electro-resistive or inductive heaters or heating elements; evaporators; exhaust air purifying devices and exhaust ventilation apparatus and installations for discharging exhaust gases; fans [air-conditioning]; filters and preseparators for process air engineering, for filtering dust and aerosols; filters for cleaning gases [parts of household or industrial installations], in particular honeycombs made from plastics or ceramic; flexible pipes being parts of basin plumbing installations; flues and installations for conveying exhaust gas; gas burners, gas cleaners and purifiers; gas ovens for industrial purposes; gas purification apparatus and installations; heat accumulators, heat exchangers and parts therefor, for exhaust air purification installations; heat exchangers, in particular for chemical processing, for condensate removal and for exhaust gas removal; heat regenerators; heat regulating devices [valves] being parts of heating installations; heating apparatus and installations; hot air apparatus and hot air ovens for industrial purposes; humidifying apparatus; industrial furnaces; installations and apparatus for exhaust air purification, in particular for removing dust and aerosols and solvents from an air stream; lighting apparatus and installations; muffler for fan blower (air conditioning unit), for ventilation equipment [air conditioning components] and for fans [air conditioning parts]; fan muffler [air conditioning parts]; filters and filter unit for fan blowers [air conditioning unit], filters for ventilators [air conditioning components]; pipe line spigots; pipe taps; refrigerators, refrigerating apparatus and refrigerating installations, in particular for gases; regulating accessories for water or gas apparatus and pipes; separators for gas purification and for scrubbing gas; steam generating apparatus and steam generators; steam nozzles for cooling and heating apparatus; steam pipes for steam apparatus; storage heaters; taps [cocks and spigots] for pipes; thermal energy accumulators for energy generating installations; thermal incineration installations and thermal incinerators; thermal storage apparatus having heat storage masses made from ceramic, salts, rock flour or metal alloys; ventilating fans, ventilation systems and parts therefor; water filters, water purification units and water regulating apparatus and water softening apparatus and installations.

Class 37:
Advisory services in relation to the installation, repair or maintenance of silencers, mufflers, gas inlets, gas outlets, exhausts; advisory services in relation to the installation of fire prevention equipment and relating to building demolition and to the alteration of buildings; application of protective coatings for buildings; assembling [installation] of building framework; beneath ground construction work relating to foundation laying; bricklaying; building construction, insulation, consultancy and repair of buildings; building, assembly, installation, maintenance and repair of industrial installations, in particular metrological devices, silencers, mufflers, gas inlets, gas outlets, exhausts, heat exchanger installations, heat recovery installations, sorptive systems, sorptive exhaust air purification installations and exhaust gas treatment installations; construction and cleaning services; construction of industrial furnaces, manufacturing and industrial buildings, factories, silencers, mufflers, ventilation shafts, gas inlets, gas outlets and exhausts, heat exchanger installations, heat recovery installations, sorptive systems, sorptive exhaust air purification installations and exhaust gas treatment installations; construction of walls, steel fabrications and steel structures for buildings; repair, maintenance and installation consultancy services relating to upgrades of gas turbines and combustion engines with regard to exhaust gas and intake air treatment, inlet air filtering, ducting, exhaust stacks and emission treatment; installation of air conditioning systems, apparatus for air-conditioning and heating as well as apparatus for ventilating; installation of communication hardware and communication network instruments; installation of conveyors, dust extraction apparatus, energy-saving apparatus and devices, as well as installation of environmental protection systems; installation of heating equipment, hydraulic equipment and industrial equipment, industrial machinery and industrial plants; installation of instrumentation systems and of lighting systems; installation of pipe systems for conducting of gases, liquids and steam; installation of piping and pipe systems for gas transport, for liquid transport and for steam transport; installation of plants for manufacture of industrial products; installation of security systems; installation of plumbing silencers, mufflers, gas inlets, gas outlets and exhausts and of ventilation equipment; installation services for industrial machines; installation, maintenance and repair of air-conditioning, cooling, drying and ventilation installations and systems, air reheaters, air heaters, heating pipes, piping systems, boiler tubes, steam condensers, as well as of air treatment installations and ventilation systems; installation, maintenance and repair of compressors, air pumps, vacuum

pumps, air blowers, air filters, alternators, boilers for solid fuels, industrial boilers, pressure regulators and oil separators; maintenance and repair of engines, motors, pipes in industrial plants and pipes used in industrial equipment; maintenance, servicing and repair of silencers, mufflers, gas inlets, gas outlets and exhausts, water pollution control equipment, air pollution control equipment, industrial boilers, heat exchangers and equipment and systems for power generation; pipe installation services; pump repair; repair of heat exchangers, industrial furnaces, of silencers, mufflers, gas inlets, gas outlets and exhausts; repair or maintenance of turbines, conveyors, of painting machines and apparatus, of power distribution or control machines and apparatus; servicing of pipelines; storage tank cleaning.

Class 40:
Air deodorizing, air freshening and air purification; carbon capture; destruction, recycling and incineration of waste and trash; distillation services; exhaust air purification services; industrial waste, air, and water treatment services, namely on-demand services for tank degazing including air pollution control, for VOC removal, for providing air deodorizing, air purification for waste gas abatement, waste heat recovery and for air-pollution control, as well as providing solvent recovery and refining; production of renewable green energy; refining services; rental of air purification apparatuses, devices and plants, of electricity generators, of space heating apparatus and of tank degazing devices or systems; upcycling [waste recycling]; waste gas purification services; waste [transformation] and water treatment.

Class 42:
Chemical analysis and engineering; civil engineering planning services; cloud computing services; computer engineering consultancy services; computer programming for data processing; computer security system monitoring services; computer software consultancy, in particular for software design, system design, computer technology consultancy and virus protection services; computerized data storage; conducting technical project studies; consultancy and research services in the fields of science, engineering and information technology; consultancy and information services in the field of design and development of computer hardware, relating to information technology architecture and infrastructure in the field of computer and information technology [IT] as well as in connection with computer programming; consulting services in connection with human-machine interfaces and machine-machine interfaces for software; consulting services to optimize the control of production plants and facilities; creating and maintaining web sites; creation of control programs for automated measurement, assembly, adjustment and related visualization; data conversion of electronic information; data encryption services; data warehousing; design of homepages and websites, computer cluster configurations and hardware and software for industrial applications and for the processing industry, as well as computer systems; design and development of navigation systems and route planning software; design and development of operating software to access and use a cloud computing network; design and development of software, in particular for software for mechanical engineering and for automated production (CAD/CAM) and for the control and operation of numerically controlled machine tools, as well as virtual reality software; design and implementation of network web pages; design of installations for application of coatings to vehicles and vehicle parts and components; design, development, maintenance and updating of software for process control, computer equipment, computer programs, computer-based networks and data programs; electronic data storage; engineering and engineering services, in particular conducting engineering surveys, services related to the design and development of programs and software for data processing for use on or in conjunction with numerically controlled machine tools and related to the design of machine tools as well as robotics in the field of process planning; engineering services for the analysis of machines; environmental testing of exhaust gas emissions; services for extracting information from large data collections [data mining]; hosting, in particular web hosting, hosting of databases and hosting of platforms on the Internet, as well as hosting of implementation, installation, maintenance and updating of software and technology applications, in particular for software for transport and software for communication systems; information technology support services; infrastructure as a service (IaaS); measurement services; mechanical research in the field of mechanical engineering and mechanics; migration of data services; monitoring of network systems; online data storage; technical planning, design and computer program maintenance of industrial installations, mobile production plants, production facilities, metrological devices, heat exchanger installations, heat recovery installations and exhaust gas treatment installations; technical planning and computer-simulated model design of air-conditioning, cooling, drying and ventilation installations and systems, and of air treatment installations and ventilation systems; preparation of reports relating to scientific research; process monitoring for quality assurance; programming of data processing operating software for the use of a cloud computing network and access to IT; software programming; project management in the field of IT; technology expert report services in relation to production plant design, layout, conception of manufacturing processes, exhaust gas treatment, heat recovery from fluids, air purification, energy conversion processes, information technology and software design; providing technological advice, expertise, statistics and prognoses, relating to energy-saving measures, ventilation installations, exhaust air purifying installations, heating systems and energy accumulators; provision of online information on industrial analysis and research and surveys [scientific]; quality control; research and development of new products for others, research in the field of data processing and in the field of information technology as well as relating to mechanical engineering; safety technology services relating to land vehicles; server hosting; services in the field of data security, services of an application service provider (ASP) and an industrial designer; services related to computer-aided industrial analysis and services related to IoT (Internet of things) in the field of mechanical engineering; services related to technical data analysis; software as a service (SaaS); surveying; technical analysis of large amounts of data with respect to the relationships between data as well as technical targeted data search; technical analysis, planning, development and presentation of ventilation installations, exhaust air purifying installations, heating systems and thermal energy accumulators; technical consultancy and project planning; technical design and planning of water purification plants, cooling appliances and installations; technical services and IT services related to the analysis of data, in connection with data processing and related to information technology; technological

consulting in the field of mechanical engineering analysis; updating of computer software; vehicle roadworthiness testing.

Class 3:
Non-medicated cosmetics and toiletry preparations; non-medicated dentifrices; perfumery; essential oils; bleaching preparations and other substances for laundry use; cleaning, polishing, scouring and abrasive preparations; soaps; skin lotions; skin creams; facial masks; cosmetics; lipsticks; make-up removing preparations; hair lotions; hair conditioners; shampoo; dentifrices; mouthwashes, not for medical purposes; non-medicated toiletries; cleaning preparations for the skin; cleaning preparations for use on the body; preparations for the cleaning of the hair; non-medicated bath powders; powders for skin care; cosmetic body scrubs; facial scrubs; bath gels; bath salts; bath oil, not for medical use; body oil; massage oils; talcum powders; hand lotions; nail care preparations; nail treatment creams [cosmetics]; nail treatment gels [cosmetics]; nail treatment lotions [cosmetics]; suntan preparations; suntan preparations for use on the skin; incense.

Class 9:
Computer operating programs, recorded; computer software, recorded; downloadable mobile software applications; computer software applications, downloadable; computer programs, recorded; smart watches; smart glasses; smart bands; electronic book readers; computer game software; computer program (downloadable software); computer application software, namely, software that allows users to find, research, analyze, compare and book special offers and promotions and daily deals in the fields of consumer goods and services and travel and lodging; computer application software, namely, software that allows users to access discounts, rebates, price comparison information, and product reviews.

Class 25:
Clothing, footwear, headwear; children's wear; clothing for babies; bathrobes; swimwear; shorts; belts [clothing]; blouses; cardigans; trousers; suits; shirts; tee-shirts; skirts; polo shirts; pullovers; vests; dresses; coats; jackets [clothing]; underwear; furs [clothing]; gloves [clothing]; mufflers [neck scarves]; mittens; scarves; sashes for wear; shawls; neckties; collars; hats; visors [headwear]; hosiery; men's suits; raincoats; socks; tights; leggings [trousers]; pyjamas; gym suits; cuffs; beach shoes; skiing shoes; shoes for sports wear; slippers; sportswear; boots; sandals; headbands [clothing]; headwear; uniforms.

Class 35:
Online advertising on a computer network; publicity agency services; business management assistance; business management of hotels; outsourcing services [business assistance]; providing business information via a web site; commercial administration of the licensing of the goods and services of others; sales promotion for others; personnel management consultancy; arranging subscriptions to telecommunication services for others; promoting hotel, resort, airline, car rental, time share, travel, and vacation services through an incentive award program; organization, operation and supervision of loyalty programs; conducting customer loyalty, reward, affinity and incentive programs for commercial promotion and for advertising purposes; business consulting and management services in the field of hotel, travel, travel planning and the operation of travel-related businesses; advertising services, namely, promoting and marketing the goods and services of others via electronic and optical communication networks; providing automobile rental, airfare, cruise ship, and temporary lodging rate comparison information; retail store services connected with the sale of toiletries, pillows, bedding and linens, slippers and robes, hairdryers, beverages, alcoholic beverages, coffee, tea, preparations for making hot and cold beverages, snack foods, confectionery, sweets, biscuits, baked goods, ready-to-eat prepared foods, fruits and nuts, foodstuffs, audio speakers and wireless audio speakers, headsets and earphones for communication and entertainment, clocks and alarm clocks, magnets, postcards and posters, gift cards, artwork, works of art, printed works of art, textiles, soft furnishings and cushions, clothing, stationery, photographs, keychains; administration of the business affairs of franchises.

Class 42:
Updating of computer software; rental of computer software; computer software consultancy; providing search engines for the internet; monitoring of computer systems by remote access; software as a service [SaaS]; electronic data storage; design and development of mobile software application; research and development of computer software; design of interior décor; hosting a website where users can post and transmit ratings, reviews and recommendations on events and activities in the field of hotel, resort, airline, car rental, time share, travel, and vacation services.

Class 43:
Accommodation bureau services [hotels, boarding houses]; rental of temporary accommodation; temporary accommodation reservations; motel services; rental of meeting rooms; tourist home services; retirement home services; day-nursery [crèche] services; boarding for animals; rental of chairs, tables, table linen, glassware; hotel and motel services with features that allow participants to earn points to be redeemed for free discounted lodging, airfares, car rentals, cruises, gifts and merchandise.

AGILE ROBOTS

International priority date claimed: 22 January 2026 (EM) (019307099)

Class 7:
Household cleaning and laundry robots with artificial intelligence (AI); automatic tool changers for industrial robots; industrial robots; robots for cooking; robotic exoskeleton suits being machines, other than for medical purposes.

Class 9:
Downloadable software for programming physical movements for use in robots; downloadable operating system software for robots; downloadable software using artificial intelligence (AI) for speech recognition for use in robots; downloadable software for machine learning for use in robots; downloadable cloud-based software for operating industrial robots with artificial intelligence; downloadable computer software using machine learning for creating data models; electronic control systems for robots; electrical integrated control systems for use in the field of robots; electrical sensor apparatus for robots and robotic parts and accessories for sensing the presence or absence of individuals or objects by contact or pressure; electric or electronic sensors for robots and robotic parts and accessories for measuring distance, position and proximity, not for medical use; LED, OLED position sensors for humanoid robots; user-programmable humanoid robots, not configured; downloadable computer software for collecting, analyzing and organizing data in the field of deep learning for use in robots; humanoid robots with artificial intelligence for use in household cleaning and laundry.

Class 10:
Surgical robots; robotic exoskeleton suits for medical purposes; wearable walking assistive robots for medical purposes; robotic arms for use by mobility-impaired individuals.

Class 38:
Provision of access to the internet; providing internet chat rooms in the field of robotics; providing access to the Internet for connecting and monitoring robots, license management, software and license distribution.

Class 41:
Educational services, namely, conducting classes, seminars, workshops, and conferences in the fields of robotics and distribution of training materials in connection therewith; educational services, namely, providing training in the nature of online classes, seminars, workshops, and conferences for certification in the field of robotics.

Class 42:
Installation, maintenance and repair of robotics software; engineering research services in the field of robotics; consulting services in the field of robotics; consulting services in the field of conformity and/or risk assessment process development for robotics; database development services for generating robot data for the training of artificial intelligence models and policies; providing temporary use of on-line non-downloadable software development tools for robotics; software as a service (SaaS) services featuring software for use in connection with robotics, research, education, automation, automated processes, manufacturing, and manufacturing optimization; platform as a service (PaaS) featuring computer software platforms for use in connection with robotics, research, education, automation, automated processes, manufacturing, and manufacturing optimization; engineering services as robotics as a service (RaaS) with cloud-based and on-premise access to robotic systems; engineering services as robotics as a service (RaaS) with access to software platforms for controlling, monitoring, and integrating intelligent, modular robots in industrial, research, and educational environments; engineering services as robotics as a service (RaaS) with access to data collection systems which are capable of collecting data of the robot state and the environment of the robot; providing on-line, non-downloadable Internet-based software for robotics, research, education, automation, automated processes, manufacturing, and manufacturing optimization; application service provider featuring application programming interface (API) software for robotics, research, education, automation, automated processes, manufacturing, and manufacturing optimization; rental of user-programmable humanoid robots, not configured; rental of humanoid robots with artificial intelligence (AI); cloud storage services for electronic files; cloud storage services for electronic data.
